American Liner New York on Way to England With Morgan Aboard

(Associated Press)

New York, Sept. 30.—J. P. Morgan, financial agent of the British government in the United States, has engaged passage on the American liner New York sailing today. It is reported that Morgan is going to London to arrange to float another quarter billion dollar British loan, backed by American securities.

SHORT AND SHARP

President Wilson Does Not Want the Vote of Any Man Disloyal to the American People

(Associated Press)

Long Branch, N. J., Sept. 30.—President Wilson made it plain last night that he wants no "disloyal" American to vote for him. He expressed indignation over a telegram from Jeremiah O'Leary of New York, president of the American Truth society, and saying that he had failed to obtain compliance with American rights. President Wilson sent O'Leary a short telegram, which officials indicated Mr. Wilson desired put in stronger language. The president's message said: "Your telegram received. I would feel deeply mortified to have you or anybody like you vote for me. Since you have access to many disloyal Americans and I have not, I will ask you to convey this message to them."

It has been learned authoritatively that President Wilson will adhere strictly to his determination not to enter into personalities or into a political controversy with Hughes and that all the speeches made by the president while away from Shadow Lawn will be delivered to non-partisan organizations and will be devoted entirely to a discussion of public questions. By inference, however, they will have political effect. His speeches here will be more political in tone than while on the road. President Wilson today will tell the young men why they should vote the democratic ticket.

THEN WILL HE BE TRIED

Small Pleading Not Guilty of the Murder of His Wife

(Associated Press)

Mountain View, N. H., Sept. 30.—Frederick I. Small, charged with the murder of his wife, whose body was found in the ruins of the Small summer residence which burned here, pleaded not guilty when arraigned today.

TIME TO SAVE EXHIBITS

With the fair drawing near the question of exhibits is become a matter for immediate consideration. Mr. W. M. Gist, of McIntosh, is a fair enthusiast, and in a letter to Mrs. Anna Twedy, secretary of the fair association, he calls attention to the nearness of fair time and the importance of gathering exhibits early.

Mr. Gist in his letter says: "Let me remind our friends, also 'enemies,' that its time to save up 'zibits for the coming fair, as it will be only a few days until our date comes around. The farmers of the county have made fine crops of all kinds of produce. Save of the best to show at the fair, and we will make it the best one yet! Corn, potatoes. Oh, just write the secretary for a catalogue and fill in. The live stock men must be there, and show that we have the goods. Seventy Hampshire hogs will not make a show. We want a big show of rice and oats, hogs and cattle. I'll try to meet you there."

You only pay for what you get, and not for what the other fellow had charged and did not pay for. Little's Shoe Parlor. 27-1f

MANY SHIPS SUNK IN TWO MONTHS

Submarine Activity Practically Doubled in August and September

(Associated Press)

Washington, Sept. 30.—Submarines sank 262 vessels including 66 neutral ships, from June 1st to Sept. 24th, according to London dispatches received today supplementing Lord Robert Cecil's statement last night. Fifteen are reported to have been sunk without warning, with 84 deaths. Today's information shows that submarine activity was practically doubled during the last two months.

FIGHTING ON SOMME FRONT

ONLY IMPORTANT PART OF TODAY'S OPERATIONS

Report Comes from Berlin of a Defeat at Hermannstadt for the Roumanians

(Associated Press)

London, Sept. 30.—British losses during September were at the rate of more than 3,800 daily. Casualties on all fronts reported include officers 5,439 and men 114,110.

NEW BRITISH ARMY IS GOOD STUFF

Desperate fighting has been in progress along the northern end of the Somme front, where the British recently made important inroads on German positions south of Ancre. London reports heavy German counter attacks. It is declared the new British army acquitted itself creditably in beating off the Germans.

FRENCH DRIVING A WEDGE

Farther down the line toward Somme the French have resumed their attacks and are pushing their wedge further into the German lines near Ran court by the use of hand grenades, according to Paris.

DEARTH OF IMPORTANT ACTIONS ON OTHER FRONTS

In Macedonia the Bulgarians reported the capture of a Serbian trench after a Serbian attack had been repulsed in the Kaimakalan region. No important changes elsewhere in Macedonia or Dobruja are announced. Petrograd said no important happenings had been reported on either the Russian or Caucasian front.

RUMANIANS DEFEATED

The Germans claim the Rumanians have been defeated at Hermannstadt, Transylvania.

BACK TO COTTON AND CORN

Mr. T. P. Jones of Anthony, one of the county's substantial citizens, was in town today. Mr. Jones had quite a nice cotton patch which has brought him in some cash, and has a fine lot of corn and hogs. Mr. Jones says the farmers of Marion county must "get back to cotton," that he was here in Agnew's day when everyone planted cotton, let truck alone and always had money and owed nothing they could not pay at "settling time." He says the cotton crop this year is fine and the hog business is good, that a number of his neighbors will kill 100 head of hogs each. Hogs, cotton and corn, said Mr. Jones, are the salvation of Marion county and the source from whence will come prosperity and independence.

BOX SUPPER AT HOMELAND SCHOOLHOUSE

There will be a box supper given at Homeland schoolhouse Friday night, October 6th, proceeds to be used in purchasing a swinging lamp for Homeland schoolhouse. Everybody is cordially invited to attend. Floy McCully, Mayme Parker, Belle Strickland, Com.

MONEY WANTED

Loan of \$2500 wanted on improved city property for three years. Insurance policy to cover entire amount. Will pay ten per cent interest for first year and eight per cent for balance of time. Full particulars, write X. Y. Z., car Star office, Ocala. 9-30-16

THE DAY AFTER TOMORROW WILL BE

TO BE PRESENT

You are invited and assured A HEARTY WELCOME

BERLIN REFUSES TO BEAR THE BLAME

Says Submarines Did Not Attack Either the Kelvinia or the Strathway

(Associated Press)

Berlin, Sept. 30.—A semi-official news agency announced today that "competent authorities" stated that neither the Kelvinia nor the steamer Strathway were attacked by German submarines.

KELVINIA STRUCK A MINE

The American embassy at London last week notified the state department that the British admiralty had decided the Kelvinia, which had 28 Americans on board, struck a mine. The British steamer Strathway, New York for Havre, was sunk Sept. 6th. There were two Americans in her crew. It was reported to Washington that she had been torpedoed.

LEAD IN THE NATIONAL LEAGUE

Gained by Philadelphia Team Over Brooklyn in This Morning's Game

(Associated Press)

Brooklyn, Sept. 30.—Philadelphia took the lead in the National League by defeating Brooklyn seven to two in this morning's game.

DUNNELLO

(Advocate)

Mr. John Martin of Ocala, prominent turpentine operator, was a visitor here Tuesday. The local grist mill is busy shelling 1000 bushels of corn raised by Mr. Alex Inglis, near Dunnellon. Mrs. M. D. Turnipseed returned Tuesday from Sumner, where she spent a week with her daughter, Mrs. Newbern.

Mr. C. Y. Miller of Ocala was in town Monday looking after his property interests.

Mr. Spinks spent several days in Ocala this week purchasing teams for his lumbering operations. Friends of Mrs. S. C. M. Thomas will sympathize with her in the death of her mother, who died last Saturday at Baxley, Ga., where Mrs. Thomas was called last Friday.

Mr. A. G. Moree of Ocala was a visitor here Wednesday. Mr. John Spinks who is in charge of the building operations at Spinks' mill, brought a force of carpenters from Trilby to build cottages at Spinks.

The program for the Wesley Bible Class Federation's convention here on Oct. 10 and 11 is published in full in the current issue of the Florida Christian Advocate. Prominent among the speakers will be Dr. C. D. Bulla, Mrs. J. M. Pedrick, Orlando, Rev. L. D. Lowe, Lakeland, Dr. W. N. Ainsworth, Macon, Ga., Fred G. Warde, Tampa, Rev. D. B. Sweat, Leesburg, Rev. J. Edgar Wilson, Lakeland, J. M. Way, secretary Atlantic division, Mrs. A. C. Call, Oneco, Rev. G. S. Roberts, Tallahassee, Rev. A. H. Cole, Dade City.

Sergeant Frank Gates of Company A arrived in the city yesterday morning for a brief visit to his relatives here. As the regiment expects to leave Monday for the border, his stay was limited, and he had to return to camp this morning. Mr. Gates is mess sergeant and one of the most popular non-coms of the company. On a recent visit to Black Point, the Star's representative heard many praises for Sergeant Gates from his comrades.

Corporal Clarence Blalock, the Star regrets to say, has been quite ill for some days at the home of his sister, Mrs. Geo. Taylor, and consequently was not able to return to the camp at Black Point yesterday. Mr. Blalock is improving today, but his physicians do not think he will be able to travel for several days yet, so if the regiment leaves for the border tomorrow or next day he will not be able to accompany it.

Our good old farmer friend, Mr. C. C. Stevens of Berlin, was in town today. He says they have good corn crops in his section; he has raised twice as much as he can use in a year. Mr. Stevens was accepting contributions for repairs to the pretty church at Fellowship, and was meeting considerable success.

All kinds of seed for fall garden now in stock. Ocala Seed Store.

BERLIN NEWSPAPERS ARE VERY BITTER

Against United States on Account of American Aviators in French Army

(Associated Press)

Berlin, Sept. 30.—Practically all the Berlin newspapers contribute to the bitter criticism of Americans in the French army. News of the death during a flight of Lieut. Kiffin Rockwell of Atlanta and Asheville, precipitated a storm of criticism. The Morgen Post declared the presence of Rockwell and others in the enemy's camp cannot be regarded as acts of individuals, but declared America sends her own citizens to fight Germany.

ONLY PLANT SOUTH OF ATLANTA

Blowers' Lime and Phosphate Company Putting in the Most Up-to-Date Machinery

A Star reporter, in company with Mr. Chas. E. Simmons of the Ocala Iron Works, made a trip to the Blowers lime and phosphate plant at Blowers yesterday afternoon. Upon their arrival at the plant they found Mr. Blowers looking over his fall seed beds which are fine and from which he will be able to set out an excellent garden.

This enterprising firm has recently added to its lime business machinery for the manufacture of ground limestone for road purposes, or mineral filler, as it is called, and which is principally used in the making of paving asphalt.

The new machinery consists of a small pulverizer, two conveyors, a large drying machine and a large finishing mill, and there is yet an additional conveyor to be placed. From the pit the stone is carried up an incline to the pulverizer and thence by a conveyor to the big drying machine, which to the eye resembles a large smokestack lying on the ground, and which revolves, the stone passing thru an intense heat which thoroughly dries it. After passing through the dryer it is carried to the top of the building and dumped into a large bin. This bin feeds the finishing machine which grinds the stone into powder, finer than the finest flour. The fact that it has to be ground so fine calls for most intricate machinery, and heretofore has not been obtainable south of Atlanta, which called for a high freight rate, thus the putting in of this process by the Blowers company is a great saving in freight alone to the contractor, besides much time is saved in transportation.

At present, the mineral filler pours through a chute to the floor of the building, where men with wheelbarrows take it to the cars. This system is both slow and costly, as well as causing much unnecessary dust. It is Mr. Blowers' intention to have an additional conveyor put in which will carry the finished product to a large bin where it will be stored and from which it can be easily run into the cars without additional handling, thus saving both time and labor.

The output of the plant at present is about 40 tons a day, which Mr. Blowers tells us has been contracted for for the period of a year. The product is shipped out just as fast as the plant can manufacture it, and at present orders from contractors call for more than the capacity of the plant, which is the only one of its kind in the state, in fact the only one south of Atlanta.

The manufacture of ground agricultural lime for which the plant has a capacity of about 100 tons a day, has not been neglected upon taking up the manufacture of mineral filler, and keeps the works going at full capacity all the time.

Although this company has been working its lime deposit for about four years there is still an abundance of rock, and with this added product the company faces a still more promising career.

Besides looking after the lime business, Mr. Blowers has an extensive farm and produces bumper crops. He has about 90 head of fine hogs, ranging from two and three-day-old pigs to great big porkers. Mr. Blowers is also boosting the new breed of hogs, the Hampshire, recently adopted by the boys' pig club, he having purchased three, two for himself and one for his boy, who is a member of the club.

Garden and flower seed for fall planting. Biting Co., 410 N. Magnolia St.

PICKED UP A LIFE-PRESERVER

Marked with the Bremen's Name on a Beach Near Portland, Maine

(Associated Press)

Portland, Me., Sept. 30.—A boy playing on the beach near here yesterday picked up a life preserver marked "Bremen," the name of the German submarine which has been expected to arrive at some Atlantic port. The life preserver also bore the finely printed stenciled name, "V Epping-Hoven, Wilhelmstafer," and a German word for trademark.

An officer of the coast guard cutter service said that if some practical joker was responsible for the finding he had done a very good work.

DR. R. H. BASKIN

The Star hears with regret that Dr. R. H. Baskin, for many years a prominent citizen of this county, died at Anthony Wednesday. Dr. Baskin died at the age of 84 years. He was the father of Dr. J. G. Baskin of Dunnellon. The funeral took place at Anthony Thursday, and was largely attended by friends from all over the county.

Dr. Baskin was one of Marion's oldest citizens, made hundreds of friends and did much good during his long and useful life. His passing away will be sincerely mourned.

RALLY DAY

Tomorrow, Oct. 1, will be "rally day" at the Methodist Sunday school. The business men's class will appreciate your presence on this special occasion. An effort is being made to get an attendance of 125.

Mr. F. B. Beckham, having secured the names of 510 democrats on the petitions asking the secretary of state to put the names of Mr. F. E. Harris and other electors on the ticket to be voted in November, today turned the petitions over to Mr. L. W. Duval, who will at once send them to Tallahassee.

Messrs. Klock and Lee of Eastlake, Mr. Winter and Mr. Sam Fosnot of Eastlake, Mrs. Nathan Mayo and children, Mr. P. W. Collins and Mr. Downs of Summerfield, Senator J. S. Blitch of Montbrook, and Mr. McGowan of Lacota, were all in the city today doing trading. These people are part of the list of Maxwell owners of this territory and all drove their cars to the city.

John T. Lewis of Oklawaha is not minding that lost nomination much. John is now a grandpa, the stork having brought to Mr. and Mrs. John T. Lewis Jr. a good-looking, seven-pound boy. The new voter arrived Thursday at the home in Tampa of Mr. and Mrs. Pinkert, Mrs. Lewis' parents, where Mrs. Lewis went for a visit a few weeks ago.

HAD BILIOUS ATTACKS

"My son nineteen years of age suffered frequently from bilious attacks. My husband brought home a bottle of Chamberlain's Tablets and began giving them to him. They helped him right away. He began to eat heartily and picked up right along," writes Mrs. Thomas Campbell, Kirkville, N. Y. Obtainable everywhere. Adv.
