TRADE COUNCIL OF AKRON

"Go it husband, go it bear!"

"HEAR him bray!" says Aaron Teeple, referring to Senator Alexander.

SENATOR MORGAN of Alabama doesn't believe the Democratic party should renominate Bryan next year.

THE local Republican Machine, directed by Judge Anderson and Clerk Hershey, has organized to drive Senator Alexander from the Republican party.

ADVENTISTS. Advance Guard Reaches Randolph Park—Large Tent.

Some of the Seven-Day Adventists arrived at Randolph park Monday.

The main tent under which the religious meetings will be held, will accommodate 5,000 people.

Four sessions of service will be held each day. The first at 5:30 a. m.; second 10 a. m.; third 2 p. m.; fourth 7:30 p. m.; kindergarten services at 10 a. m.

The Adventists will run a grocery store for their own benefit and also do all their own cooking.

During the months of July, August and September bowel complaints are usually most prevalent.

And how Senator Alexander rebuked these lobbyists, who happened to be his fellow Republicans.

Is it surprising, therefore, that these officials should have retaliated upon Senator Alexander by bringing about his defeat at Painesville for the nomination for a second term?

The fee-grabbers have had their innings; now let Senator Alexander have his.

BARBERS' UNION Will Investigate Report Shops Do Not Close On Time.

The regular meeting of the Journeymen Barbers' union at its rooms in the Kramer block, Howard st., was well attended Monday night.

One new member was received into the local union Monday night. He is J. W. Kimball, who in a few days will start a shop on North Howard st.

It was reported that some shops are careless in observing the evening closing hour, 7:30. These shops will be looked after.

The barbers are arranging to take active part in the Labor Day picnic to be held the first Monday in September.

"SKATES" BREHM.

Arrested in Pittsburg Charged With Buncoing Warren Man.

During the races at Warren John Wallace of that place was worked for \$500 on the old green goods racket.

One of the parties who worked the game used the name of a prominent and respected East Akron business man. A dispatch from Pittsburg gives the following information:

"Frank 'Skates' Brehm, of Akron, O., and Frank Anderson, this city, were arrested today.

Brehm is supposed to be James H. Burns, a member of the 'Red' Austin gang. He was arrested on a description sent here from Warren, O., when John Wallace of that place was recently buncoed out of \$500.

ITALIANS N. G.

Places Being Filled By American Laborers on Erie.

It is said that the Italian section hands on the Erie are being found of little account when it comes to repairing tracks.

At present they are being dropped as fast as possible and their places being filled with home laborers.

A gang of the Italians are working in the Erie yards at this place clearing them up and making other improvements. At this kind of work they do very well.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable.

For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable.

Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market.

It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

IN BEHALF OF PEACE.

Series of Declarations Signed by Hague Conference Delegates For Submission to Their Governments.

THE HAGUE, July 25.—The general act embodying the results of the international peace conference, after enumerating the names and qualifications of all the delegates, said:

"In a series of meetings in which the above delegates participated, inspired throughout by the desire to realize in the highest possible measure the general views of its members, the conference has drawn up for the approval of the respective governments the series of conventions and declarations appended:

"Convention for the pacific settlement of international disputes.

"Convention for the adoption of laws against the use of asphyxiating or deleterious gases from balloon projectiles, and for the prohibition of the use of bullets that easily expand in the human body."

The general act contains five expressions of opinion, as follows:

"The conference considers that limitations of the military charges which are presently in force are gradually to be desired for the increase of the material and moral welfare of mankind.

"The conference expressed the opinion that the question of the rights and duties of neutrals in time of war, on the program of a conference to be held at an early date.

"The conference expressed the opinion that the question relative to the type and caliber of rifles and small artillery, as examined by it, should be the subject of study by the different governments with a view to arriving at a uniformity of construction.

"The conference expresses the wish that an early convention be called to revise the Geneva convention.

"The conference has resolved that questions relating to the inviolability of private property in war on land and the bombardment of towns or villages in naval war be reserved for future conference.

"The convention is signed by all the plenipotentiaries.

NOT AGAINST THE DUM DUM.

United States Would Not Vote For the Treaty—Experiments Being Made.

WASHINGTON, July 25.—The United States will not be bound by the reported decision of the Hague conference to prohibit the use of the dum dum bullet in warfare. So far we have not been obliged to use it, but the ordinance officers have been making experiments to secure an increased "stopping" effect by the use of a ratonougue bullet.

The American delegates voting against the proposal to prohibit the dum dum because the general instructions forbade them to pledge this government to any line of action that would retard the development of the world's arms.

BECOMING A MOTHER.

A Sure Way to Avoid Danger. Every true woman wants to be a mother. A baby is the dream of her life.

The crowning glory of womanhood—true happiness can never be known without the blessing of a child brought into the world.

Yet the ordeal through which all mothers must pass is so full of pain, anxiety and fear, that many a young life is sacrificed because of the inability to undergo the struggle of childbirth.

It is not necessary to suffer in bringing new life into the world. By the use of "Mother's Friend," the suffering and danger can be avoided, and the hour robbed of its dread and pain.

This remedy is praised by thousands who have tested it. Every woman is anxious to learn how to avoid the pain and suffering which may be in store for her. The little book, "Before Baby is Born," will be sent free to any address upon application to the Bradford Regulator Co., Atlanta, Georgia.

NEW TREATY WITH FRANCE

Reciprocity Treaty of Great Importance Signed—Treaty Work Under Disagreement Act Closed.

WASHINGTON, July 25.—The long pending reciprocity treaty negotiations between the United States and France were brought to a successful close at the state department when Ambassador Cambon, in behalf of France, and Consul-General Klason, in behalf of the United States, affixed their signatures to the reciprocity treaty.

The concessions granted by France embrace most of the articles in what is known as the French minimum tariff. This comprises 644 heads, the rates being on an average about 20 per cent below those in the general tariff of France. Concessions were granted upon all but 25.

Besides the reductions given to this country, the treaty is important in containing a number of minimum rates which would have been abolished if the treaty had not been concluded. The most important of these articles are petroleum and mineral oils. At present these oils enter France on the minimum rate, but had the treaty failed, a rate would have been imposed making a difference of duty amounting to about \$5,000,000. Had the treaty failed a rate of 20 per cent would have been imposed upon American cotton. The same is true of copper, rubber and many classes of machinery.

France secures important concessions over 100 of the chief products sent by this country. The Dingley law allows not to exceed 20 per cent reduction as a basis of reciprocity, but the full 20 per cent is not allowed on the articles covered by the treaty. On some of them the reduction is 5 per cent, on others 10, others 15, and up to 20 per cent.

The treaty will result in placing the products of the United States on the same basis in France as products of Great Britain and Germany. At present these countries have the minimum 20 per cent while the American goods, with few exceptions, have had to pay the maximum rate.

The French treaty was the last of the instruments of this kind, and the treaty work under the Dingley act brought to a close. Six treaties were made, all save that of France relating to British West India islands.

He Probably Will Return to New York Today.

WASHINGTON, July 25.—Hon. Elihu Root of New York, who is to succeed General Alger as secretary of war, arrived in Washington last night and had a long conference with the president.

Today Mr. Root will again see the president, and probably will return to New York late in the day.

ROTTING OVER ALASKA.

Hay and Toner Hopeful—No Alarm at Laurier's Talk.

WASHINGTON, July 25.—Direct negotiations respecting the Alaska boundary are in progress between Secretary Hay and Mr. Toner, the British charge here. The principals are not without hope that success may attend their efforts, and that there is arbitration yet in reserve in case of failure on the present lines.

The officials here are in no worse mood at the recent developments at Ottawa, than they were at the time of Laurier's utterance Saturday, in which he mentioned the word "war" as an alternative to arbitration, was given a meaning not intended by the Canadian premier.

FOUR KILLED, ONE MISSING.

Deadly Explosion in a Mine Near Brownsville, Pa.—Search For Missing Man.

BROWNVILLE, Pa., July 25.—Soon after the men had commenced going into the mine of the Redston Coal, Oil and Coke company, near Grindstone, an explosion occurred by which four men are known to have lost their lives and two are so badly burned that they were sent to a Cottage hospital at Campellville and a number less seriously. The dead were:

John Yankora, aged 17, mother in Cleveland.

Stephen Skleander, aged 40, unmarried.

Joseph Locus, aged 38, wife and two children in his custody.

George Larvan Hutnick, aged 36, wife and two children across the sea.

John Yankora was making his first trip into a mine when he was killed. Mike Melchek had not been accounted for and a new rescue party was organized to go in search of the body.
