

TO INSURE A FULL SENATE.

Senator Stewart Will Offer an Addition to the States. WASHINGTON, July 27.—Senator Stewart of Nevada said that in order to obviate the apparent necessity of an amendment to the constitution to insure at all times a full representation of states in the United States senate, at the next session of congress he would propose that the following paragraph be added to the end of section 3, article 5, chapter 1 of the revised statutes: "If on the third Tuesday after the organization of the legislature no person has received such majority, then on that day or on any succeeding day the person receiving a plurality of the votes cast, a majority of all the members elected to both houses being present and voting, shall be declared elected."

TYPHOID FEVER AND DESTITUTION. Goldenhears Suffered In Kiondike—Gamblers Reaped Rich Harvest. WASHINGTON, July 27.—Information from the Kiondike up to June 20 reached the state department from United States Consul McCook, at Dawson. The consul said that \$10,000,000 instead of \$30,000,000 in gold would cover the gold product for the next 12 months, and added that reports from Alaska indicated that more gold will be found there than ever will come out of the Klondike. Typhoid broke out six weeks earlier than last year, and there were several hundred destitute persons in Dawson without means to get out. The gambling fraternity was reaping a rich harvest.

LONDON, July 27.—A score of guests of the Inne of Court hotel were mysteriously poisoned, and, it was alleged, was due to American canned fruit. A second victim, Mr. E. W. Bartlett of Philadelphia, died. The fruit was eaten about a week ago and all who partook of it were made ill, one of the number dying on July 21, the medical certificate assigning gastric enteritis. An inquest will be held in the case of Mr. Bartlett. The Australian cricketers were happily absent when the fruit was served.

A Story of Sterility, SUFFERING AND RELIEF.

DEAR MRS. PINKHAM—Two years ago I began having such dull, heavy dragging pains in my back, menes were profuse and painful, and was troubled with leucorrhoea. I took patent medicines and consulted a physician, but received no benefit and could not become pregnant. Seeing one of your books, I wrote to you telling you my troubles and asking for advice. You answered my letter promptly and I followed the directions faithfully, and derived so much benefit that I cannot praise Lydia E. Pinkham's Vegetable Compound enough. I now find myself pregnant and have begun its use again. I cannot praise it enough."—Mrs. CORA GILSON, YATES, MANHATTAN, N.Y.

"Your Medicine Worked Wonders." "I had been sick ever since my marriage, seven years ago, have given birth to four children, and had two miscarriages. Your medicine has worked my wonders for me."—Mrs. S. BARNHART, NEW CASTLE, PA.

COUNCIL

Trying to End Cleveland Strike.

Rook Nearly Struck Gen. Axline— Trouble In Brooklyn.

CLEVELAND, July 27.—A step, in which much hope of conciliating the street car company and its striking employes, was taken here by the committee of the council which succeeded in patching up an agreement over the difficulties which caused the first strike a month ago. The committee made a request for a special meeting of the council to meet tonight to discuss ways and means of putting an end to the present distressing situation.

It is regarded as probable that the old committee will be reappointed and at once set about its labors. They succeeded in the first instance after the board of arbitration had failed. CLEVELAND, July 27.—The storm center of the street railway strike has, according to the authorities, settled in Brooklyn, a suburb connected with Cleveland by a long high bridge. About 150 employes of the Boro Steel Range company, blocked a car on the bridge and dragged the motorman and conductor from their posts, inflicting with their fists and other weapons, injuries more painful than serious. Soldiers on guard at the larn, about half a mile away, hurried to the scene, but the rioters had taken refuge in the factory, which stands under the approach to the bridge. The factory was surrounded and the premises searched, but there was no clew by which the guilty ones could be picked out so they bent their efforts in assisting the bloodstained motorman and conductor to move the car, most of the windows of which had been broken by stones.

General Axline, in command of the troops near the factory, personally viewed the situation, took a ride on an Orange street car. He was in civilian dress and the car was stoned at various intervals all along the route. A rock came near hitting him. The general took other trips through the troubled districts, but declined to give his view of the situation.

The vigilance of the guards while daylight aided them prevented trouble of a serious nature. Preparations for mass meetings at various points were made during the day. It is expected that a large one will be held in Monument square, in the heart of the city, tonight, unless the mayor prohibits it. In preparation for one a platform was erected in Brooklyn to protest against the action of Mayor Farley of Cleveland, who has assumed, under the authority of an almost forgotten statute, supreme police power in Cuyahoga county. This left Mayor Phelps of the suburb, together with his constabulary, shorn of their robes of power, and they don't like it.

The soldiers and the Cleveland chief executive's special police in Brooklyn were not allowed to use the public hydrants to get water, it was said, and upon various occasions layabouts were of a necessity used to crumple shopkeepers that they wanted. Mayor Farley mailed Mayor Phelps a letter in which he declared that if the Cleveland soldiers had any more trouble about getting water, Cleveland, which pumps the water to the suburb, would attempt to arrest the water truce and let the whole hamlet go thirsty. Mayor Farley also issued a statement to the strikers in which he said that a man who was more loyal to his labor union than to himself and his country was a coward and a bad citizen.

Cars were run on 12 lines of the Big Consolidated. From this the authorities took much hope for continuing the government. President Mahon of the National Union of Street Car Employees, in an interview declared that if the strikers were to lose thousands of dollars every day, the strike would have to be settled soon upon advances made by the company. In the face of this President Mahon told the board of arbitration that the company had nothing to arbitrate. The board is unable to take action looking to a settlement in view of the attitudes of the opposing forces.

BANDITS KILLED.

Outlaws Taken Prisoners by Our Men—Word From Otis.

WASHINGTON, July 27.—Three cable messages from General Otis were received at the war department. One reported another engagement with bandits in Cuba in which the American force was victorious. It bears date of Wednesday and is as follows: "Following from Cuba today: Bandits in the Cuban mountains are robbing and oppressing the people of the coast towns. On Monday Lieutenant Moore, with a detachment of the Twenty-third infantry, while scouting in the mountains, was fired upon from a strongly fortified position. One private was killed, none were given. No other casualties. The enemy's loss was five bandits killed and seven captured."

Another referred to the organization of five volunteer regiments in the Philippines, as follows: "Bell has enlisted about 500 men, Wallace, still south, has about 400. Lockout is enlisting and has over 400 applications, which are coming in rapidly. Might raise here an additional regiment, exclusively volunteers."

Colonel Bell is in command of the Thirty-sixth infantry, and Colonel Wallace of the Twenty-seventh. Colonel Lockout is in command of a cavalry regiment which is to be raised in the Philippines.

The third dispatch said: "The storm has abated. The Sherman has cooled and leaves today with all the troops of California. The Grant is being ordered to leave in about four days with the troops from North Dakota, Wyoming and Idaho. The Minnesotas are preparing to leave on the 28th as soon as the transport can be unloaded and loaded. Other volunteer organizations will leave as soon as transports are available."

General Otis cabled to send the volunteers home as rapidly as possible, it being the desire of the president to have no delay in the matter.

It was stated at the war department that the matter of organizing another regiment of volunteers in the Philippines, in addition to the Thirty-sixth, Thirty-seventh and the cavalry regiment, will be left entirely to the discretion of General Otis, who is authorized to proceed with it.

NO FOUNDATION

For Statement That New President Is to Be Elected.

O. C. Barber returned home Thursday morning from a business trip to New York.

Mr. Barber says that at the meeting of the Diamond Match company officials to be held Monday, July 31, \$1,000,000 new stock will be subscribed.

When spoken to in reference to the talk that a new president was to be elected at the meeting, Mr. Barber laughed heartily, saying that such could not be done, even were it the wish of the stockholders. Officials are elected only at the annual meeting of the company, and the annual meeting is some distance ahead.

"The talk that a new president will be elected is without foundation," concluded Mr. Barber.

What would you do if taken with a severe attack of colic or cholera morbus and your physician could not be readily summoned? Provide yourself with a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and you will then be prepared for such an emergency. It always gives prompt relief. For sale by all druggists.

Agitation Against Our People. MANAGUA, Nicaragua, July 27.—The official and semi-official news in Nicaragua contains ominous tidings. It is reported to excite the people against the United States, declaring that the United States desires to "subjugate them to its authority" to annex Nicaragua, and that the United States authorities paid no attention to the closing of the port of Bluefields by Nicaragua in February, 1909. The true cause is that Nicaragua recently endeavored to force citizens of the United States to pay duties during the revolution to pay duties twice.
