GOOD TIMES

Result of Demands

Occasioned by the Extraordinary Conditions.

Interesting and Enthusiastic Meeting Held.

John McBride Addressed the Working Men.

Hon. H. A. Mykranitz Discussed Questions of Day.

Owing to the heavy rain Saturday night the attendance at the Democratic meeting at Assembly hall was not up to expectations; yet, notwithstanding, a very interesting and enthusiastic meeting was held.

Mayor W. E. Young was chairman. In opening the meeting he referred to the good times which prevailed throughout the world at present, and spoke of them as not being due to any political administration, instead, being caused by a natural demand for the products of the manufacturers. Attention was called to the friendship evidenced by John R. McLean toward the miners of the Hoeking Valley during their struggle to secure better wages, how he had sent to them car loads of provisions to keep them from starving, while the Hanna administration had sent car-loads of armed militia to force the miners to relinquish the design of securing better pay for their labor.

Chairman Young also had good words to say for all the candidates on the county ticket, as well as those of the state.

Referring to the candidacy of Hon. I. H. Phelps for the office of Probate Judge, he said: "If elected, Mr. Phelps will perform faithfully the duties of Probate Judge of the county, and will not attempt to run the city of Akron besides."

Prosecuting Attorney H. A. Mykranitz of Ashland, spoke on many of the leading issues of the day. His reference to the Philippine question was received with applause. In part he said:

"The Democratic party or men as individuals do not advocate the pulling down of the American flag now floating over the Philippines. Let it remain there in the spirit in which it was first planted, as an emblem of protection to those people struggling for liberty, to assure them protection from the tyranny of their persecutors and encroachment of selfish, scheming powers. But we don't want to see the flag spoiled in its grand, good purpose."
"I believe there is a syndicate behind this Philippine policy of the Administration. Some land grabbers are awaiting patiently for the time when the Philippines shall be thrown open under the land grant system and that the money powers are allied to bring about this condition."

The speaker paid a high compliment to Representative Kempel.
John McBride of Columbus, ex-president of the National Miners' Union, delivered an address especially significant of how the workingman are regarding the conditions of the times and the promises hung out to labor organizations by the administration.

From many excellent remarks, the following are taken:
"Any man who watches or has watched the trend of events knows that prosperity is not due to the administration from the fact that it has in no way been governed by it. The good times did not begin when McKinley and Hanna said they would, and the prices for labor have not been increased as promised."
"The revival in business seems to be due to no other cause than the unlooked for and unnatural conditions introduced by the war."
"Every labor organization in the United States knows that the Republican party is fostering and encouraging trusts, and against these unlawful and dangerous corporations the labor organizations will fight with vigor and courage."
"We have heard before such promises as the Administration shouters are now making and we have no faith in them, as all previous pledges have been violated."

McKINLEY'S TWO PRICES.

BELOW will be found the different prices which President McKinley offers for peace in the Philippines. Why this vast difference in the two prices? And why should a barbaric satrapy, cursed by slavery and polygamy, get so much better terms than our former allies at Manila, who Admiral Dewey says are better capable of governing themselves than are the Cubans?

His Commission secured peace and harmony with the Mahometan Sultan of Sulu and permission to fly our flag on his coast on these terms:

1. Recognition of his Sultan-ship.
 2. Retention of slavery and polygamy, the twin relics of barbarism, as "recognized institutions" in the Sulu.
 3. An allowance by the United States of \$250 a month to the Sultan and \$50 a month to nine of his chiefs for the maintenance of their satrapy, their harms and their slave drivers.
- This is what we offered Aguinaldo and his civilized Catholic followers as our best terms of peace:
1. Unconditional surrender and unqualified recognition of the "sovereignty of the United States."
 2. Military government, with its concomitant evils—shoulder-strap despotism, carpet-bag rapacity and official rascality.
 3. "Benevolent assimilation"—a fine name for the Oholingo of the Philippines.
