

**DIRT CLEARANCE.**

It is a good plan for every bather to know something of the soap he uses. There is a well-founded objection to using a floor-cleaning soap upon the human body. Ivory Soap is the bather's soap. It costs more than common soaps, but the difference is in the ingredients and making. Why not treat yourself with a little respect. Is not the human skin with its marvellous delicacy entitled to pure soap? Ivory Soap—it floats.

**NOT HEREDITARY**

In the main, consumption is not hereditary; it is infectious. People are too afraid of heredity; better not think of the subject at all. Infection occurs continually.

Low vital force is hereditary; which gives consumption its chance. And infection plants it.

Between the two, the crop is a big one: about one-sixth of the human race, so far as is known.

We suppose it needn't be 5 per cent, if people would take fair care and Scott's emulsion of cod-liver oil.

The care saves life in all ways; the emulsion is specially aimed at the lungs, beside its general food-effect.

We'll send you a little to try, if you like. SCOTT & BOWNE, 409 Pearl street, New York.

**BUILT ON PAPER.**

**Phillon's Proposed Theater Is an Uncertain Quantity— It's a Winning Combination.**

Familiar Faces In Cast of Characters In Hoyt's "Milk White Flag"— Akron Actors Have Quieted Down—Amusement Notes.

In a local paper recently, Achille Phillon was credited with a yearning desire to build a new theater here. Mr. Phillon does not yearn half as much as the imaginative reporter has said. In fact these are Mr. Phillon's plans, set forth in cold facts, and backed by the gentleman in question: "I may build a theater here in a couple of years, if all goes well. The location intended is not the one mentioned by the local paper, or anywhere near it. Since the article in question was published, I have received offers from local capitalists to buy half interest in the undertaking. Of course, I declined, because I don't know whether I shall build or not." That is the truth about the latest "New Opera House" order.

**SUCCESSFUL MANAGER.**

Manager T. K. Albaugh of the Grand Opera House, has proven himself to be the right man for the position. Though comparatively a young man, with little or no experience in theatrical management, he has taken charge of affairs with an intuitive judgment that has knocked all previous Akron records into obscurity. The secret of his wonderful success lies in the fact that he conducts affairs on business methods. Sentimentalism in the conduct of things theatrical has been the cause of many woful failures. Let the artists hug to the delusions inspired by "Art." In the meantime, let the manager see to it that the dollars and cents are taken care of. That kind of a combination generally wins out.

**OLD TIMERS.**

The cast of "A Milk White Flag" reveals the names of many old timers. There is John W. Dunne, once a "Matinee Idol" at the Old Academy of Music, in Chicago. He would never do to say how long ago. Dunne married the late Patti Rosa, and blossomed hugely as a successful manager. There's old "Dan" Marble, a brother of "Billy," of minstrel fame. There's charming Mary Marble, (Dan's daughter) and John S. Marble, another of the same family. John was for years in John Ellsler's Stock Company in Cleveland and Barney MacCauley's "Stock" in Cincinnati. That was about—well, to put it mildly—nearly 40 years ago. The Marbles are a noted theatrical family. Then there is Dave Seymour, (calls himself "David" now.) It is quite a number of years since he began making a name with that wonderful aggregation known as Harvey Churchill's Comedians—"Down in Maine."

**HANDICAPED.**

Willis Maxwell Goodhue has a bright farce in "Hello Bill," sadly handicapped by the title, which suggests almost anything except the clean, crisp dialogue of the play.

**KEEPING UNDER COVER.**

The local amateur dramatic contingent is laying low just now. The harrowing experiences of Tobe Jackson and the Golding Comedy Company at Assembly hall recently, has somewhat dampened their ardor. But the budding "Hamlets" and "Partenias" will be always with us.

**MATERIAL TO SPARE.**

Akron is rich in "Advance Agent"

material. There is "Flip" Fleming, who was wont to pilot Clyde Clarke to victory; Harry Hawn, last season with the celebrated Jack Carner and his crew; and Sam Whitelaw, who has blazed the way through the Illinois prairies for Sig Santelles' Circus, and Gus "Rising Sun's" Minstrels.

**"UNCLE TOM'S CABIN."**

The seeming recklessness of Wm. A. Brady in securing a cast of the highest salaried players in America, and risking \$25,000 on a production of "Uncle Tom's Cabin" at the New York Academy, is now regarded as a shrewd, far-seeing business move. There is enormous interest in the affair, for several generations of younger New Yorkers have never seen the great moral drama and the remarkable list of people secured, including Willton Lackaye, Theo. Roberts, Odell Williams, Wm. Harcourt, L. R. Stockwell, Emily Rigi, Mrs. Seaman, Mabel Amber and Maude Raymond, has keenly whetted public curiosity.

**AMUSEMENT NOTES.**

Lakeside Casino and Randolph park will both be run on the vaudeville plan next summer. Harry Hawn announces that he will manage both resorts.

It is not generally known that Hon. William Jennings Bryan, was, at one time, an actor. It is a fact, nevertheless, that he played Sir Francis Livison, in East Lynne, Ada Gray being the grief stricken Lady Isabel.

The Belle of New York will have a phenomenal crowd here March 15, if "advance sales" ever mean anything.

Wm. A. Brady, manager of Jas. J. Jeffries, and countless other enterprises, reached New York from San Francisco, about twelve years ago. His assets consisted of a dubious reputation as an actor, and unlimited confidence in himself. He attracted no attention whatever in the Maelsstrom of New York theatricals, until he got on "the inside" with Jim Corbett. Since that time he has held his own and "some more."

"Newt" Chisnell, the veteran actor, is still confined to his home in this city. It is to be hoped that by the time the blue birds, (as the actor folk say) are out, so too will genial, big-hearted "Newt" be.

Ed Stair and John Haneline now control thirty seven theaters. This reminds one of the "Palmy Days" of H. R. Jacobs—"the father of his country."

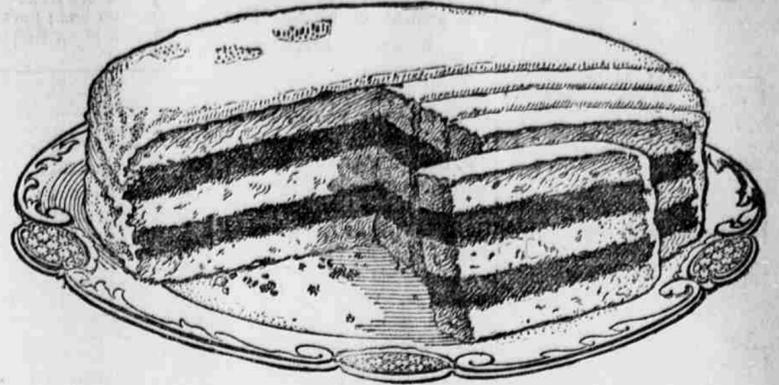

A baggage car containing personal property of members of the Tim Murphy company was entered by burglars at Dayton this week. The amount of loss could not be estimated. A quantity of clothing and money to the amount of \$72 was taken from Charles Lehman, a member of the company.

A wild, weird story has got out that Mrs. Carrie Nation and her little hatchet which has been wreaking vengeance upon saloons in Kansas would next season be a feature of "The Christian," under the management of Liebler & Co. The story went on to say that Mrs. Nation would be introduced as the leader of the mob in the scene showing the act upon John Storm in his mission in Soho.

Christian Catholic Church. Regular services Sunday at 3 p.m. U. C. A. rooms, Walsh block, in charge of local conductor. Subject, "The Sin Which Breeds Disease."

**FIRST PRESBYTERIAN.**

Rev. L. A. Lindemuth, pastor. The usual services will occupy the morning. In the evening Rev. B. Y. Ameer, a native of Oroomah, Persia, dressed in the costume of a Kurdish priest, will lecture on "Life in Persia." Sabbath school at 9:15 a.m. C. E. at 6 p.m. The usual services will occupy

At this season the housekeeper must look specially after the baking powder.

As she cannot make good cake with bad eggs, no more can she make cake that is light, delicious and dainty with inferior baking powder.

Royal Baking Powder is indispensable for the preparation of the finest food. It imparts that peculiar lightness, sweetness and flavor noticed in the finest cake, biscuit, doughnuts, crusts, etc., which expert bakers say is unobtainable by the use of any other leavening agent.

The "Royal Baker and Pastry Cook"—containing over 800 most practical and valuable cooking receipts—free to every patron. Send postal card with your full address.

There are cheap baking powders, made from alum, but they are exceedingly harmful to health. Their astringent and cauterizing qualities add a dangerous element to food.

**STUDENTS**

Will Discuss Subsidy Measures.

Buchtel College Roof Is Going on Very Slowly.

Dr. Priest attended a meeting of the officers of the Eighth Regiment, Wednesday, at Mansfield.

Rev. Lindemuth of the Presbyterian church, spoke to the students on Dr. N. D. Hills, who will deliver the last lecture of the college course Tuesday evening, March 5. The subject of this lecture is "Ruskin's Message to the Twentieth Century."

Rev. A. I. Spanton will preach at Ravens Sunday while Prof. Olin will fill the appointment at Sharon of Dr. Priest who will go to Washington with the Eighth Regiment, of which he is chaplain, to attend the inaugural ceremonies.

The Buchtel debating club will discuss the following question at its next session: "Resolved, That the Policy of subsidizing is Wrong." The questions now being discussed are live questions and up to date. Let every member be present and help to make the debates just what they should be to the students. A cordial invitation is extended to the ladies to attend and take part in the exercises.

The rate at which the roof is going on the new College building reminds one of the story of the old colored man who had no roof on his hut. When asked why he did not put a roof on,

replied: "When it is raining I can not put it on, and when it is not raining, I do not need it."

We can rest assured that the lecture of Dr. Hills on March 6, will be an intellectual feast, when we remember that at the age of 39 years, 1895, he became the successor of that noted Minister Rev. Swing of Chicago, and a few years later of the great Henry Ward Beecher and Dr. Lyman Abbott.

The ladies will give a dance at the College Friday evening.

For the weakness and prostration following grip there is nothing so prompt and effective as One Minute Cough Cure. This preparation is highly endorsed as an unfailing remedy for all throat and lung troubles and its early use prevents consumption. It was made to cure quickly.

**FOR GAS USERS.**

Akron Men Have Provided New Appliances.

A patent safety gas valve is being put on the market by Messrs. Chas. E. Forsyth, P. F. Haas and Mark Gair, organized as the Akron Gas Valve Co. The valve is claimed to be a never failing preventative of danger arising from the gas being turned off in the main pipes and then being turned on again, after the flames in heating consumers or jets have been extinguished. By the use of this valve no gas escapes and a four weeks' test has proved its success. The company has opened for business at 236 South Howard st. In the same location the Spalding Burner Co. is doing business. Messrs. Edward Spalding and Harley Homan are putting on the market a superior style of burner, the invention of the former, for stoves, ranges and furnaces. It is claimed for their burner that it consumes less gas and produces more heat than others. Mr. Spalding was for many years a foreman of the Akron Gas Co. The company also handles a full line of mantles, globes, stoves, etc. Both concerns will be open Saturday evening to demonstrate their claims.
