

THE AKRON DEMOCRAT

No. 133-135 South Main Street.

PUBLISHED BY THE AKRON DEMOCRAT CO

EDW. S. HARTER, Editor ED. H. DE LA COURT, Business Manager

OFFICIAL PAPER OF THE CITY OF AKRON

OFFICERS AND DIRECTORS: President, JAS. V. WELSH. Vice President, CHAS. H. ISBELL. Secretary, EDW. S. HARTER. Treasurer, M. W. HOYE. C. R. Grant, Edw. H. De la Court, John W. Baker.

Entered at the postoffice at Akron, O., as second-class matter.

The Daily Democrat will be delivered every evening by carrier for 6 CENTS A WEEK.

By mail \$5.00... \$1.50 for six months.

TO TELEPHONE THE DEMOCRAT CALL No. 180

WEDNESDAY, JUNE 3, 1901.

It is an off day when some new religion is not born in Chicago.

Vice President Roosevelt's Presidential train seems to have struck an open switch. The next President will come from Ohio.

An old Chinese proverb declares that "going to law is losing a cow for the sake of a cat." Perhaps this explains why China has resolved to pay that \$300,000,000 indemnity without having a lawsuit about the matter.

An extra session of Congress may be called to provide legislation for the government of the Philippines. No extra session will be held if the Hon. J. B. Foraker has anything to say about it. He has business in Ohio.

Senator McLaughlin is impelled by "patriotic reasons" and "solitude for the welfare of the state" to withdraw his resignation. Not all of the Senator's opponents will have the charity to place this construction upon his motive.

The Sultan of Turkey has resolved to present an addition to the Berlin hospital, the plans to be approved by Emperor William. With an entire hospital at his service, and in a friendly land, the Sultan may defy the assassin folk to do their worst.

Six officers and 51 men killed and six officers and 115 men wounded is the record of British loss in a battle just fought with Gen. Delarey near Johannesburg. And more than a year ago the collapse of the South African war was celebrated in London!

A Canton paper thinks that the Summit County Commissioners are entitled to a great deal of credit for the good condition of the county bridge fund. Wonder what some paper thinks of the condition of some of the funds under the control of the Board of City Commissioners.

A Philadelphia man who was caught stealing flowers from a cemetery, has just been arrested and held under bond of \$600 to await the action of the grand jury. In addition to this he received a severe lecture from the judge, before whom he had a preliminary hearing. A conviction in this case will place a check upon the operation of flower thieves.

The members of a New Jersey agricultural society, at their meeting yesterday, had a heated discussion in relation to "The Dangers and Blessings of Modern Education." One of the members thought "some farmers are spoiled by an education, and some would be better off without so much." The subject of trusts was not even mentioned in the meeting, which indicates that the New Jersey farmers cannot be accused of having the symptoms of too much education.

WISE and Otherwise. June promises to be good. From the Mottoes of the Board: Avoid fatigue; Much thinking is laborious.

The "is it hot enough for you?" feed is now working night and day, to make up for lost time.

Five Saturdays—five pay days, in June, and this fact may increase the wedding business.

No more riots, robberies, murders, suicides, railroad wrecks or boiler explosions after the curfew ordinance takes effect.

If the confidential clerk could contrive a scheme by which he couldn't be found out, and it would work as successfully as his schemes to "get next," his permanent fortune would be assured.

That beggar's trick of putting acid on his hand to keep it sore, that he might win sympathy and coin, is far too likely to be emulated by boys with a hankering for out-door air in preference of that of school rooms.

Deputy Fire Warden Henry W. Hart has been sent to Canton by Warden

Relieved! Failing sight was relieved by properly fitted glasses for S. W. Mitchell. He will tell you who done it. DR. TUCKER, 130 S. Main St.

INJUNCTION Restraining Consolidated Tire Company From Reducing Its Capital Stock--Akron Concerns Interested.

At the annual meeting of the Consolidated Rubber Tire Co. held in Jersey City, the old Board of Directors was re-elected. No financial statement was given out. The regular quarterly dividend of 1 1/2 per cent. on the preferred stock was passed at the directors' meeting, since which time no announcement respecting dividends has been made. It has been understood that a plan was being considered for reducing the capital of the company from \$10,000,000 to \$5,000,000 by cancelling the \$2,000,000 of treasury stock one half each preferred and common, and by issuing \$3,000,000 in 4 per cent. debenture bonds to replace an equal amount in preferred shares. It was reported that action would be taken upon this matter at a special meeting of stockholders on the same date as the annual meeting. The special meeting was adjourned, however, on account of a restraining order issued by Chancellor McGee, of New Jersey. The order was obtained by Charles H. Corbin, acting for the Goodyear Tire and Rubber Co. The India Rubber Co. and the Hartford Rubber Works Co., who claimed to have unsettled claims against the Consolidated Rubber Tire Co. and who protested against the proposed financial arrangement. The order of the chancellor was returnable May 13 at Trenton. At the latter date E. V. Lindaburg, who represented the Consolidated company, applied for an adjournment for one week, which was granted. The matter was later further adjourned to May 27. On the latter date Vice Chancellor Pitney postponed the further hearing of the matter for two weeks—that is, to June 10.

PRESIDENT Of Dunlop Tire Company Ridicules Newspaper Story of Building a Plant In Akron.

Some time ago it was announced that the American Dunlop Tire Co. would build an "immense" plant in this city, probably "the largest in the world." In relation to this splendid addition to Akron's industries the India Rubber World contains the following interesting item: "A DUNLOP TIRE FACTORY AT AKRON? Press dispatches from Akron, Ohio, dated May 4, stated that a Dunlop tire factory, on a large scale, would be erected shortly in that city. The India Rubber World's correspondent at Akron writes: 'There is talk of the Dunlop people starting a factory here, but Mr. John J. Keenan, who recently resigned as superintendent of the India Rubber Co. of this city, to go to Australia to run the Dunlop factory at Melbourne, says it will probably be two years before they start a factory here.' The following letter has been received: 'To the Editor of The India Rubber World: Replying to your inquiry of the 15th, we do not know any more about our proposed factory in Akron or the gentleman who is to superintend the business, or any other of the details mentioned, than were given in the paper, which we understand published those "facts." We are anxiously awaiting the next issue of the paper in question in order to learn something more of our plans. Very truly yours, The American Dunlop Tire Co. R. H. BROWN, President. Belleville, N. J., May 16, 1901.'

LARGE BUILDING To be Built by Goodyear Company In East Akron--Latest News of the Rubber World.

Preliminary plans have been prepared for the new building of the Goodyear Tire & Rubber Co. in East Akron. The new building will be three stories high. The ground dimensions are 200x100 feet. A Trenton newspaper states that Charles Behor, of Morrisville, Pa., has left the employ of the Vulcanized Rubber Co. to take charge of the new plant of the People's Hard Rubber Co. of this city. It is reported that D. A. Harrison, a leading member of the carriage trade at Clarksville, Tennessee, will go to Atlanta, Georgia, to open a tire depot for the Goodyear Tire and Rubber Co. The demand for solid rubber vehicle tires continues to increase steadily. There is some complaint, on account of the general activity of the steel industry, of difficulty in getting prompt delivery of channels for tires, besides which there has been an advance in cost. The Goodyear Tire and Rubber Co. is sending out fine packages of assorted bands. In the top of each box is a neat card calling attention to the trade mark, "Imperial," and giving the purchaser the excellent advice: "Keep them in a dry, dark, cool place, and they will last for years. Strong light and artificial heat destroy the life of rubber." Superintendent Palmer, formerly of Akron, now with the Pennsylvania Rubber Co. (Erie, Pa.) is making a marvelous record both as an organizer and factory manager. The factory is turning out excellent work, and is exceedingly busy. An exceedingly neat bit of advertising is a paper weight in the form of a diminutive horseshoe, nicely nicked but with a rubber tread of the type that Whitman & Barnes Manufacturing Co. have made famous. It is a bit of advertising that does not wear out, and which no one would think of throwing away.

The Prettiest Patterns That you could imagine are to be found here in our assortment of SPRING WOOLENS, for Suitings, Top Coatings and Trouserings. We guarantee our work, style and fit. Union labor only is employed in our shop. JOHN FREIDRICH, Fine Tailoring, No. 123 South Howard Street.

Good Fancy China selling at price of cheap common china. And all other goods at same reductions.

The Herrick & Sons Co. HOUSEFURNISHERS.

FACTS When the Power is Off What Happens?

Every factory worker and mechanic knows what happens when the power is off. Everything stops. The machinery is idle. If a mechanic were taken into a factory and saw the machinery silent and motionless he'd know at once that the power was off. When you shut off the power from a plant you shut off its activity. If every factory and mill-hand, every mechanic and workman, understood the

mechanism of his body as he understands the machinery of the mill, he would know that when a man is weak and run down, when his activities are slowed down if not altogether stopped, there is something wrong with the power plant of the body. The power plant of the body includes the stomach and its associated organs of digestion and nutrition. All physical strength is derived from food digested and converted into nutrition. Nutrition is the power which runs the body. When nutrition fails the body fails. The chemical changes by which food is converted into nutrition take place in the stomach and digestive and nutritive tracts. When the stomach is diseased, the nutrition is reduced and the body's power is reduced in proportion.

THE CAUSE FOR CONFIDENCE in the ability of Dr. Pierce's Golden Medical Discovery to cure "weak" stomach and diseases in general of the stomach and other organs of digestion and nutrition is found in the fact that the worst and most obstinate forms of stomach trouble have yielded to the influence of this great remedy. "Some time has elapsed since I have written you in regard to the treatment I have been taking under your instructions," says Mr. R. P. Cingmar, of Minneapolis, Minn. "When first I commenced taking your remedies I was under treatment of a well-known specialist in this city (and had been for four months) for catarrh, and especially stomach trouble, and I was rapidly getting worse. Got so bad that I could not eat anything that did not distress me terribly, and I was obliged to quit taking the doctor's treatment entirely. I was greatly reduced in flesh. As a last resort I wrote to you and stated my case, and after receiving your instructions I followed them closely. After taking five bottles of Dr. Pierce's Golden Medical Discovery and one vial of his 'Pleasant Pellets,' I commenced to improve, and decided to continue the medicines and observe your instructions regarding hygienic treatment. It is now nearly six months since I commenced your treatment and I can say that I am well and never felt better in my life. Am very grateful to you for what your medicine has done for me."

DO YOU KNOW? Do you know what to do in case of emergency, accident, or sudden illness? Do you know how to aid the sick while waiting for the doctor? You can learn how to do these and a thousand other things from Dr. Pierce's Common Sense Medical Adviser. The book contains more than a thousand large pages and is sent free on receipt of stamps to pay expense of mailing only. Send 31 one-cent stamps for the cloth-bound volume, or only twenty-one stamps for the book in paper-cover. Address Dr. R. V. Pierce, Buffalo, N. Y.

Extra values in... Hammocks This Week at THE FAIR. The cool weather has held back the sale of hammocks and we will offer you special inducements this week on our large line. It will pay you to buy your Hammock this week. The Fair FOSTER BROS. We Sell Cheap

The Best Way to retain the lustre on your new fur, mink, and bring it back on your old, is with MONARCH POLISH. Keeps your piano looking new, mantels bright, and sitting clean. Nothing Better for Hardwood Floors and Hardwood Finish. Use only one-half as much of MONARCH as of any other.

of the cost of conducting the business. These, together with the County Appraisal Law and Tax Laws, which compel insurance companies to pay a revenue to the State, sufficient to pay all the running expense of the same, have been instrumental in making the business unprofitable to the extent that it has driven capital out of the state, and closed the doors of seven-tenths out of twenty-four Ohio stock companies. All of these facts we wish to have well understood by the public; and your influence and help in the carrying out of this scheme of education is earnestly solicited, and to the end that we may have the full confidence of the public, we would encourage the greatest publicity to all matter pertaining to the carrying out of this scheme, and invite the fullest and freest discussion of all these questions in the public press and by those who have to do with the making of the laws of the State. To properly carry out this scheme we desire to organize the State so that we may be in touch with the representatives of the companies in every country and town, and thus be able to furnish and get information with dispatch and work together with one common end in view, and that is, a better understanding between the companies and the general public, who are alike interested in the betterment of the business. J. O. DYE, Chairman. Boys! Bring six Peppo Bread tags to our store and secure a fine summer cap, free of charge. AKRON BAKERY.
