CREDITORS

Were Not Able to Agree on the Decree.

The motion asking that an order of sale be issued for the J. C. McNeil Boiler Co., was to have been heard by Judge Kohler Monday morning but the attorneys representing the different creditors had not reached an agreement in reference to the decree and the hearing was postponed until after dinner. A majority of the creditors do not favor a sale of the property. They believe that Receiver J. Ben Campbell is conducting the business in such a way that it would make it possible to pay all the debts in a few years. The minority, however, are not willing to wait that long.

THEY'LL RETIRE.

City Commissioner McGarry and City Clerk Isbell Are Thinking of Resigning.

The announcement was made today that within the next two or three weeks City Commissioner Daniel McGarry will resign from the Board of City Commissioners.

Mr. McGarry has been in the minority upon the Board for so long that he is entirely willing to retire. He can earn a great deal more in private business pursuits than in the service of the city.

The Democrat was informed today

that City Clerk Chas. H. Isbell will also resign within the next month. Mr. Isbell has had nothing but hard knocks in all the time he has had the backbone to stand up for the interests of the city, and he does not care to continue in office if Mr. McGarry retires.

With these officials out of the City Hall, the proceedings there will be something in the nature of a sealed book to the average taxpayer.

ITS SELF RESPECT.

To Maintain It, a New York Newspaper Dismissed All Union Men.

New York, July 1.—(Spl.)—The New York Commercial, a daily publication, dismissed its union compositors, pressmen, stereotypers and mallets, numbering about fifty men, on Saturday, and yesterday engaged non-union men in their places. The paper came out as usual this morning. In a statement H. H. Cust, treasurer of the company, says: "We have no quarrel with our men, with the unions, or with organized labor. We have conscientiously tried to run our mechanical department as a union shop and find that in protection to our own interests and in order to maintain our own self-respect, we simply cannot, and will not any longer put up with the impositions that these unions place upon an employer. We do not question any man's right to work for whomsoever he pleases and we claim the same right as employers."

APPLICATION

Made For Release of Philip LeConte---His Sons Want Him to Remain In the Jail.

An application has been filed with the County Commissioners for the parole of Philip LeConte, who is serving a term in the jail for an alleged assault on his daughters.

LeConte has been in prison for almost 10 months and there is no prospect of his ever paying the costs, which amount to more than \$100 so long as he is kept behind the bars. He is the owner of two small houses in the southern part of the city. As matters now stand he is receiving nothing from either.

He has promised the Commissioners that if he is released he will rent one of the houses and give all of the income to the Board until his costs are paid. At present his sons are occupying the house. No rent is paid by them. It is claimed by Sheriff Kelly that they do not want their father released and that they have made no effort in that direction. The Commissioners will act favorably on the application.

How the Car Got There.

The other day at Twenty-sixth street an inspector "hopped" on the front platform of a Madison avenue electric car bound down town. He said to the motorman: "Where the dickens is this car going?" "Why, to the Brooklyn bridge, of course."

"Get off and look at yer signs." The motorman did so and discovered that the sign on the front hood of the car read, "One Hundred and Thirty-fifth street," the sign on the right side of the roof read, "Second avenue," and the sign on the rear hood, "Astor place." The conductor and motorman between them having adjusted the signs, the inspector permitted the car to proceed.—Electrical Review.

Shaves of a Lifetime.

Beard appears to grow at the same rate and to follow the same rules of personal conduct as the hair of the head. So if a man began shaving when he was 16 and lives to be 70 years old he will have cut more than a little bit off the top. If he could keep in position all he has thrown away, a head of hair 35 feet long and a beard 27 feet long, all in one bunch, would enable him to travel with a circus summers and sit in a store window to advertise a hair restorer in the winter.—Ainslie's Magazine.
