BETTER LUCK

For Ships Now Coming in From the Sealing Grounds.

St. John's, N. E., March 31.—The steamers Aurora, Diana, and Iceland having on board respectively 24,000, 22,000 and 20,000 seals arrived here today. They bring reports from the sealing grounds similar to those sent which had previously arrived, showing that sixteen of the twenty ships will have big catches. It now seems that the aggregate weight of this season's catch is likely to approach that of last year, the seals now caught being heavier than those caught in 1901.

BUSINESS

Was Brisk in Poor Director's Office.

Hat With a Single Feather Pleas-ed One Woman.

Business at the Poor Director's office took another boom Monday, and calls for coal, shoes and the like came in with renewed vigor. When the sunny, spring-like days come there is an immediate decrease in the demands made upon this office but at the first change in temperature the calls come in with old-time regularity.

During the fine weather widows with families of little children, sick persons and some aged ones are the only ones whom the Poor Director has to look after. Wines and delicacies are often furnished sick persons, when ordered by the attending physician, but even genial Uncle Joe Kendall loses his temper when such things are demanded, as is sometimes the case, unnecessarily.

An amusing scene occurred in Poor Director Kendall's office, Monday morning, when a well known and regular customer appeared and demanded coal and shoes. She was given coal and then asked for shoes.

"Don't you want a hat trimmed in flowers and feathers, too?" queried Mr. Kendall.

"No," was the response. "I don't ask for that, though I haven't had a hat this winter."

"Well," said the Poor Director, cheerily, "I got a hat here, with feathers on it, which I will give you."

"Do you mean it?" said the poor woman, delightedly, and when she was given a felt hat on which was one solitary feather, she was as happy as many a debutante with her Easter bonnet. It is the old story of the eternal feminine and the innate love of all women for finery.

SPECIAL ROAD

Must Be Cut to Follow Out Cecil Rhodes' Wishes.

New York, March 31.—Gardner Williams, manager of the De Beers mines, has left London for South Africa, says a London dispatch to the Tribune. He says he will arrive in time to attend the last stage of the funeral of Cecil Rhodes. A special road has to be cut to the spot on Matoppo Hill which Mr. Rhodes designated as his final resting place. At present this place can be reached only by a difficult bridle path. Mr. Williams says the burial will not take place for about a month. The grave will be marked by a noble monument to be erected by the dead statesman's personal friends and colleagues. It is proposed that the gun carriage which bore "Long Cecil" during the siege of Kimberley, and which will convey the body up the steep side of the Matoppo will be stationed on the summit of the hill as part of the memorial.

EVIDENCE

That Jesus Rose From The Dead.

Dr. Savage Believes It is Somewhat Lacking.

New York, March 31.—Dr. Minor J. Savage, speaking in the Church of the Messiah, on "The Abolition of Death," is quoted as having said: "If I propose to be quite honest and frank with ourselves we admit one fact—that never, since the dawn of Christianity, were so many people doubting, concerning the future life as there are now; not ignorant nor bad people, but the best there are or as good as there are; they are readers, thinkers, persons acquainted with philosophy and science and who have studied history, looked into ecclesiastical traditions. This is the attitude of thousands and the number is growing."

"If a person asks me whether I think there is satisfactory evidence that the body of Jesus was raised from the dead, I must be frank and say I do not. No case in a modern court could be carried through successfully unless there were in its favor better evidences than we have for the resurrection of Jesus. There is no first hand testimony of any body to that fact and we know well that if we had the testimony of a hundred or a thousand, and to a similar fact as taking place today it would weigh with us very lightly."

"But I believe with my whole soul that Jesus was seen alive after the crucifixion and out of the belief might easily arise the belief that the body had risen. I do not believe there is anything in the fact that death changes us any more than going to sleep last night and waking up this morning. I believe death is another kind of birth; that we graduate from this life, take the next step in an ever advancing career of progress, and that we are just ourselves over there."

ONE SPOT

Where the Easter Sun Shone Brightly All Day.

Atlantic City, March 31.—(Never did the sun shine brighter or warmer on Easter day in this part of the world than it did all day long in Atlantic City. There were thousands upon thousands of people here, and had it been clear on Friday there would have been at the very least 5,000 more. Perhaps it was a good thing for the people that there was a little stormy weather on Saturday, for certainly had there been more people it would have been absolutely impossible to take care of them. It was no unusual sight to see into the hotels about 1 o'clock and see party after party turned away who wanted to get their dinners. Every one of the hotels had secured a great deal of help and extra provision to take care of the people, but the demand was by far greater than the supply and many a man who had plenty of money was obliged to go away hungry or turn to one of the crowded grottos and there take his chances of getting a meal. Never has such a large crowd been here for Easter before and the hotel men, even those who had been looking for a great increase over other years, were amazed.

A conservative estimate places the crowd here Saturday and Sunday at 125,000.

HOMELESS.

Guthrie Newspaper Plant Destroyed by Fire.

Guthrie, O. T., March 31.—Guthrie was visited Sunday by a \$250,000 fire and as a result the State Capital, the State printing plant, the Hotel Capitol, the St. James Hotel, the Cammack Livery barn and the Richey general merchandise store are in ruins.

Everything in the State Capitol plant was destroyed, including two presses, machines of every kind, linotype systems, libraries, and a large stock of supplies. Frank H. Greer, the owner, states that the total loss is \$250,000. Not a thing but the mailing lists of the paper was saved. The loss in the other building will make the entire loss to the town fully \$350,000.

HANNA

Asks Clemency For Rathbone.

New York, March 31.—A Washington dispatch says:

President Roosevelt has been asked by influential public men to interfere in behalf of E. G. Rathbone, convicted in Havana of participating in the Cuban postal frauds.

Senator Hanna is among those who believe in Rathbone's innocence, and he is urging Mr. Roosevelt to give the former postal official an opportunity to clear himself of the grave charges of which he has been found guilty.

The War department insists that the case is too grave to permit of Executive interference. This difference of view between the Ohio Senator and Secretary Root has given rise to reports that Mr. Hanna and the administration are at odds.

A friend of the Senator stated that he is confident there is no foundation for them. As an indication of the feeling which exists between the Senator and the President he pointed to the fact that Mr. Hanna, by invitation of Mr. Roosevelt, called at the White House today and had a talk of more than an hour with him.

The Senator does not ask that Rathbone be pardoned. What he desires is that he shall have an opportunity of proving without interference on the part of American and Cuban officials that he is guiltless. Rathbone has appealed to the Supreme court of Cuba. It is the expectation of the President, and General Wood understands the view of the Chief Executive, that there must be no interference whatever in the consideration and action by the court upon the appeal of the convicted American, and this is what friends of Mr. Rathbone want.
