The recent contest between the young and old of the S. S. classes of the Christian church for largest attendance resulted in victory for the young pupils. On Monday evening fifteen boys of John Beck's Sunday school class pleasantly surprised one of their number, Raymond Aylard, at his home on West Lafayette road, the occasion being his 13th birthday. The high school annual of last year cost \$456.50. Receipts from advertisers and book sales only realized \$356.50, leaving a deficit of an even \$100. The members of the high school this year are very desirous of making the best showing possible with their annual and to that end appeal to the alumni and to advertisers to cooperate with them so far as possible. The book will sell for 75 cents and the subscription list closes May 15.

A special meeting of council was called for last night to take action on the question of granting a new franchise to the present lighting company. Also for the purpose of setting a date for clean-up day. We understand that the present lighting company is seeking a renewed franchise for a period of 20 years, and that there will be plenty of protest if the council evinces a disposition to accede to the request. The lighting committee of council, accompanied by Mayor Randall, were in Seville Thursday forenoon investigating the lighting plants and conditions in that village.

WEST GULFORD

The funeral services of Mr. Stiles A. Hosmer were held on Wednesday afternoon April 14, at his late residence in Seville. Mr. Hosmer was one of our honored and now fast disappearing old residents in this community.

Very soon they will all be gone and nothing left but a memory. Let us do fitting honor to that memory, as we are reminded today of the sacrifices that these pioneers have endured in order that we may enjoy the luxuries that are ours through and by reason of the sacrifices they have made, ever keeping in mind the Scriptural truth that "other men labored, and ye are entered into their labors."

This pioneer had attained the ripe age of more than four score and six years, an age to which few of us may ever hope to attain. He was born and spent the greater part of his life on the old homestead farm, about a mile north of Seville. His father, Chester Hosmer, migrated to this place early in the last century, coming with his brother Henry, his brother-in-law, Shubael Porter, and two of Mr. Hosmer's sisters.

They then cleared one hundred and fifty acres of land which they bought for a mere song, and which is now in the very center of one of the richest agricultural parts of Medina county.

What a wonderful transformation were the eyes of our departed brother permitted to look upon in this community as he has seen it develop from the crude comforts of those pioneer days, with their hardships and privations, until in his latter days he could look upon all the luxuries of our modern times. Surely it was a blessed privilege to be permitted to live through such an eventful age and have a share in its exalted privileges.

This honored pioneer was a soldier in the war of the rebellion and served

as second Lieutenant in the one hundred day service.

He was thus one of those patriotic defenders of our common country in the time of its peril, and who are now so rapidly passing away.

In 1863 Mr. Hosmer was married to Miss Jane Nelson, who passed away some years ago. From this union there were born three children, two daughters and one son, the oldest daughter, Gladys, was married to Mr. Levi Snyder of Seville, and the other, Mary, is the wife of Mr. Hugh Brumbaugh of Cleveland. The son, Rev. Frank Hosmer, is the efficient pastor of the Central Park Presbyterian church of Chicago.

In the death of Mr. Hosmer this community loses one of its esteemed pioneers.

Let us drop the flower of a grateful memory upon his grave today.

Edward Gordon has got a very sick horse under the care of Dr. Orr of Creston.

Now is The Time To Get Your Overland

TODAY motoring is popular the year around.

The old fallacy of not getting your new car before spring is a thing of the past.

In fact motoring right now is far more beneficial and much better sport.

So get that notion out of your head—make up your mind to get a car now—and listen to why it should be an Overland.

Price considered, the Overland has greater value than any other car in the world.

That's a big statement but, nevertheless, a fact.

To begin with, the Overland has the high tension magneto—the most dependable and uniform system of ignition. Many cars have only the cheaper battery ignition.

It has larger tires than many cars of our price. They are 34 inch x 4 inch all around.

Then there is the simple driving arrangement. All electric control buttons are located on the steering column. On many cars the control buttons are located on the dash which is unhandy and often mighty inconvenient.

In bad weather the Overland can be made just about as comfortable, cozy and snug as a closed car. The side curtains fit perfectly and give complete protection from draughts, rain or snow.

The list of Overland advantages is long—too long to give here.

We will gladly explain and demonstrate everything.

Remember—now is the time for motoring.

Buy an Overland and save money.
