CHIPPEWA LAKE PARK

Another successful week has past at old Chippewa, at least that is what many of the week guests have to say, particularly those who enjoy the "knack" of fishing and also others who like to eat turtle soup. Shorty says that one of the knights of the fishing squad went out each day, on the lake, quietly by himself, and each day would bring back with him after a short time, a nice fat Bull Head. The

first day he brought to land, one fourteen pound and one six pounder, the next day some more good luck, but this time one 12 pound cat. He again went out to sea the following day and brought home a 9 pounder. This certain party thinking—for he was very thoughtful—perhaps he had caught his assigned portion so he quit. Another boy then took his boat the next day and feeling that he also must do something for his country, caught five snapping turtles, and Harry Holten also thinking that he must help cooked these wondrous turtles and the park employees all had turtle soup last Saturday.

A grand and glorious Fourth was celebrated at the grounds Wednesday, a very large crowd was present and all of the allowed space for machines

was packed clear to the edge. The dancing pavilion was crowded all afternoon and evening. Hundreds enjoyed the fine bathing and all of the boats for rent were busy nearly all day long.

Last Saturday the county W. C. T. U. six cars of the Cleveland water works employees and officials, and the Sharon Sunday school all had a picnic day at the park.

Rosenthals orchestra gave a very fine concert last Sunday, three singers also gave several numbers, which were greatly appreciated by the large crowd.

The Wednesday night dances are becoming more and more popular each week. More people come to these dances than ever before.

Litchfield Low Down Spreaders

That is what they are, low down, only waist high, with a Five Year Guarantee Back of Every One.

Simplicity—The Litchfield Low Down has no complicated machinery. There are only two gear wheels on the entire spreader. All parts are unusually strong and there are few of them. Count the gears on other spreaders and the complicated parts and make your own comparison.

In general, we oil with compressed grease cups, our wheels and all other parts that will permit of this system, which combined with the self-oiling journal bearings, come as near fool-proofing the oiling system as it is possible to do. The simple straight, direct methods, followed in the construction of the Litchfield Spreader, make it go out like a farm wagon, never giving you any more trouble. We are free from repair troubles and experting of the usual kind. We have used the latest ideas in dust-proofing and fool-proofing our machine. This is one more reason for our five year guarantee.

We bought heavy before the advance in prices, therefore we are making you a very good price. Call and see them and be convinced.
