Primarys are usually apathetic, unusually so far the past few years it seems, and there are no indications that the forthcoming municipal primary of August 12 will be any exception to the rule.

Although a full village ticket will probably be nominated by both parties on August 12, the most important places to be filled are that of mayor and council, there being six of the latter.

At present the Republicans have a man named for mayor and a couple of councilmen. Democrats will receive a blank ballot at the voting booths, and good politics and good citizenship cannot be served by failure of the parties to nominate the highest quality of material.

Regardless of whether it actually does or not, good government should begin at the primaries. Good citizens will go to the polls and vote for the best men for councilmen, as well as for mayor.

Foster Sealfast Fruit Jars

THE BEST IS ALWAYS THE CHEAPEST

And the following points will show why Foster Sealfast Jars are the best. First, they have a standard mouth and any rubber fits them. Second, they are made of white or flint glass which is more costly and shows up the contents in a clean, delightful manner. Third, they are heavier and stronger and less liable to break. Fourth, the wire used to seal is made of galvanized iron, not tin, so danger of rusting and stretching and breaking is eliminated. Extra covers can always be obtained.
