

## HEAVY OIL - WELL DRILLING OUTFIT DAMAGES STREETS

### A Rumbling Tractor Outfit Breaks and Cracks New Pavements on Medina Streets Passing Over Them.

## MAYOR GRANTS PERMIT; MUCH DAMAGE IS DONE

Drillers at the Wilt Oil Co.'s well out E. Smith road moved their heavy apparatus Tuesday, passing over a section of E. Smith road, S. Broadway, around the Square and out W. Liberty street to the city limits. The heavy machine, power driven, was taken over the pavements on this route.

A city fireman called the attention of the Sentinel scribe to the fact that the heavy machine was cracking the pavement over which it passed, breaking the bricks loose from the cement. Examination showed this to be true. And it was true over the whole course travelled so far as investigation was made.

Sheriff Bigelow's attention was called to the matter and he questioned the driver of the machine who replied that he had a permit from the Mayor.

Fire Chief Wise came upon the scene at this point, saw the damage being done to the street and jumped into his auto and made a hurried run to see the chairman of the street committee. The driver, because of the objections raised, ran the drilling machine to the north curb on W. Liberty and awaited the outcome.

The Sentinel scribe phoned the Mayor in the matter and he said he had given these people a permit to traverse the pavement several weeks ago, and that at that time he could not see where the machine was damaging the street; that the roads were bad around the town and almost impassable; so he had let them go thru the city. He did not say, however, whether he had given oral or written permit.

Chairman Bell, of the street committee, was taken over part of the route and could readily see the damage that had been done. He at once said that he would never have given such a permit, and would not in the future; that the damage was great. But, as the mayor had given a permit, and the machine had traversed the greater part of the distance, and as on the old pavement out W. Liberty the damage did not seem to be so great, the man was permitted to run on off the street.

The ordinance in the case says that no such heavy machine shall be permitted on the streets except planks are laid down before it to protect the street. The ordinance does not provide any place where the Mayor may take matters into his own hand and by permit abrogate the force of the law. And in any event such a permit should be made in writing and a record be kept of the transaction.

A large portion of the street over which the tractor passed was cracked by the weight of the machine. The crack was not very wide or very deep, and no one is likely to fall into it. But it is large enough and deep enough to allow water to sift in and when the frosts come the street at this point will begin to crumble and decay, due to water and frosts.

It is hard to tell just what damages were caused but before five years roll round the damage as traceable back to this heavy traffic will likely total several thousand dollars.

Business men who view the damages were asking themselves the question, "Why build street at a big expense if any old driller can come in and destroy them before the top surface has been scratched?"

## GOV. COX SCORES TREATY OPPONENTS

### Says Germans Furnished Advanced Copy to Senators, and to Whom But Germany's Friends?

## TELLS A FEW SECRETS CONDEMNING SENATORS

Speaking in Chicago last Thursday before the Iroquois club, a large Democratic organization of Illinois, on the subject of Good Faith in Government, Governor James M. Cox charged the defeat of the peace treaty to a senatorial partisan conspiracy. This is the first expression from a high Democratic source since the treaty failed in the senate, and is of unusual interest, coming as it does from one of the leading candidates for the Democratic nomination for Presidency.

"The senate is that part of the law-making branch which ratifies or rejects treaties," said Mr. Cox and upon that body will descend either condemnation or approval because its responsibility cannot easily be denied for the state of affairs world wide.

"The constitution provides that the president shall submit a treaty made with a foreign power to the Senate. This could not have been done by him

until he had returned to America. Before he landed, a coterie of Senators had procured the document from German hands and published it in America. That single circumstance tells the unprejudiced person that those who prevented the formalizing of peace began their warfare against the League of Nations without patriotic impulse. Public interest will come back to this subject again once the definite result of senatorial conspiracy is apparent, and I have the faith also that public opinion will render its verdict in words that will not be misunderstood."

The charge has several times been made that the opponents of the treaty were pro-German in desire and purpose, and if this were not true why should the German government interest itself in providing a copy of the treaty, ahead of time, to its "friends" in the United States?

## HOW TO GET N. COURT ST. PAVED.

Do you want N. Court street improved to the brick pavement at the city limits? Vote to sell bonds, to get the money, Apr. 27.

## WILL BUILD UNIT AND EMPLOY GIRLS

### Call Issued By Medina Mfr. Co. For Skilled Machinists and Diemakers—Need About 200 People.

## DAILY CAPACITY WISHED 1000 AUTO SPOT LIGHTS

The newly-organized machine company of this city under the name of the Medina Manufacturing Co., which is now devoting its entire time to turning out Fordson tractor fly wheels, which are being shipped to Jackson, Mich., and other points, at the rate of 300 daily, is enlarging its corporation and plant, as announced in our last issue, and will soon commence the production of automobile spot lights.

The company will produce these at the rate of nearly 1000 daily and expects to provide employment for a great number of men in addition to the more than fifty workers now employed. To this end the company is now sending out a call for skilled machinists, diemakers and others familiar with that line of work. Probably 200 such could find employment in the new department.

J. E. Thatcher, secretary of the company, states that it is the intention of the company to erect a special assembling room adjoining the factory proper where the spot lights will be assembled. This department will be equipped with rest and recreation rooms and will give employment to girls as well as men.

A vast selling organization has been perfected which will materially assist in the sale of the company's product. As previously announced, the company is selling considerable stock in the new but assured venture and, as the managers express it, for the sake of the community, first opportunity will be offered local residents. The officers and personnel of the company are assurances of a solid progressive organization.

## NEW BUILDING COMPANY IN MEDINA VILLAGE

Realizing the immediate and pressing need for more and better housing conditions in Medina, a situation being rendered still more critical by the constantly expanding industries here, a number of patriotic business men have banded together and incorporated in the sum of \$150,000 and under their charter will conduct a general real estate business, principal of which shall be the building of many new homes in this city.

The new company has the following directors: W. E. Giesinger, C. J. DeArmit, D. C. Shepard, F. W. Woods, H. E. Aylard, C. E. Jones and Blake Hendrickson. Mr. Giesinger is president of the new company and Mr. DeArmit will act as secretary.

Land is now being secured by the company which is to be laid off in lots and modest dwelling houses erected thereon. Work will commence within the next few weeks. An effort is being made to secure sufficient labor the element of securing sufficient material being assured.

This building movement will prove a highly desirable and much appreciated action by the various industries here who contemplate adding help but had, heretofore, seen no chance of housing the new employees.

It will be noted that the personnel of the new company embraces every bank in the city, which is evidence of solidarity and business ecumen. Every interest in the city should support this new organization which is intended for the general community good.

## MARRIAGE LICENSES

Lass Erna Kovich and Anna Spring, both of Wadsworth.

Mato Evkovic and Agnes Trusino, both of Wadsworth.

Robert H. Ulmer, York, and Susie C. Schwartz, Valley City.

Ray H. Bryant, Detroit, Mich., and Helen Falk, Wadsworth.

## MAD DOG BITES 3-YEAR-OLD GIRL NEAR HINCKLEY

### After Dr. Brintnall Pronounced It Rabies Dog's Head Was Sent to Columbus—Report Confirms Brintnall.

## LOCK UP SICK DOG AND SUMMON A VETERINARY

Hinckley was given a scare last week Thursday when a dog wandered on the farm of James Navatril and when acting strangely an effort was made to drive it away it turned on a small daughter of Navatril and attacked her. While she was small she had the presence of mind to cover her face when the dog made its attack and so protected her face. The dog, however, began to bite her wrists and arms and before the father could drive the dog off she was quite badly hurt.

Immediately after the dog was beaten off the father tried to kill the dog with a club. The animal avoided him, however, and Navatril went to the house and secured his gun and shot the dog dead.

Dr. Ayres was called to minister to the child. After giving first aid he called up Dr. Brintnall, county physician, and the latter instructed him to get the dog's head and bring it to Medina. This was done and Dr. Brintnall, on examination, said the dog was suffering from the rabies. To make certain, however, the head was sent to the State laboratory at Columbus and a telegram from that institution confirms Dr. Brintnall's diagnosis.

At first it was thought the dog was a stray, but later Dr. Ayres reports that the dog has been identified as belonging to a man living within a mile of Hinckley Center.

Dr. Brintnall says that for the last two months at least one mad dog has been killed somewhere in Medina county each week. He says we seem to be suffering from a sort of epidemic in rabies and that all precaution should be taken where a dog is sick. He says that in case a dog is sick, or restless, the owner should at once lock the dog up and send for a veterinarian. If the trouble is to be stamped out before warm weather comes on every precaution should be taken. If proper precautions are taken, the Doctor says, this will be possible.

One other dog was bitten by the Hinckley cur and this animal has been killed by its owner. The local physician is trying to locate any others that were known to be with the dead dog and when discovered they will be confined and observations made.

It is but a short time since known rabies victim was discovered and killed in Wadsworth. Another was located and killed near Brunswick, a third just south of Medina, and from other sources of the county affected dogs have been disposed of within a short time past in an effort to stamp out this danger.

The warning of Dr. Brintnall should be heeded. It will cost little and inconvenience but a few to follow his advice and lock up a queer acting dog and notify some veterinary or Dr. Brintnall. If the dog is not ill it can be turned loose; if it proves to be afflicted it can be disposed of with little danger to others.

Serum has been sent from Columbus and the local physicians with the aid of Dr. Brintnall, will give the injured child every assistance.

It is an old fiction that a mad dog avoids water and froths at the mouth; that this is an infallible test. A dog may have the rabies and do neither. Before a dog becomes dangerous he is very apt to become restless, to leave home, and to begin a wandering journey. A few hours later he will become a confirmed rabies victim and then he will attack everything that comes in his way. Usually dogs will be some distance away from home and on a journey before their dangerous condition will be manifested.

Readers of the Sentinel should follow the county physician's advice and at once confine any dog showing symptoms and quickly send for a veterinarian. An ounce of precaution is worth a pound of cure.

## WORK ON NEW ADDITION AT THE H. M. FOUNDRY

About forty more men will be needed by the Henry Miller Foundry Co., in this city within a very short time, due to the enlarging of the plant and the installing of another department a tin plant—used in the manufacturing of furnaces, casings and piping. This move will necessitate the erection of a new building, one costing in the neighborhood of \$250,000 and on which work was started this week. It will reach completion in about six weeks, says E. L. Young, the plant manager, and will measure 200x500 feet, being composed of concrete and steel.

The company is now manufacturing enormous quantities of parts for Fordson tractors, giving employment to 185 skilled workers. Their present payroll of \$25,000 monthly will be considerably augmented by the new addition.

## Reasons For Matrimony.

Some fellows marry poor girls and settle down. Others marry rich girls to settle up.—Jester.

## LOCAL CHURCHES TO CELEBRATE EASTER COMING SABBATH

### Beautiful And Impressive Ceremonies Will Mark Conclusion Of Lenten Season On Next Sunday.

## MUSICAL PROGRAMS CARRY BRILLIANT CASTS

ST. PAUL'S CHURCH. The choir of St. Paul's church, assisted by Kenneth Sedgewick, violinist, will render the following musical programs on Easter Sunday.

10:00 A. M.  
Prelude — "Resurrection Morn"  
Neidlinger  
Professional — "Jesus Christ is Risen Today"  
Anthem — "Christ Our Passover"  
Lansing  
Te Deum Laudamus Warren  
Jubilate Deo Wilmsion  
Kyrie Eleison Mendelssohn  
Gloria Tibi Gounod  
Anthem — "Come See the Place"  
Wood

Hymn — "Come Ye Faithful, Raise the Strain"  
Offertory Solo — "Open the Gates of the Temple"  
Lewis D. Best

## COMMUNION SERVICE

Sursum Corda and Sanctus Ely  
Hymn — "Here, O My Lord, I See Thee Face to Face"  
Gloria in Excelsis Deo Ellwanger  
Recessional — "The Strife is O'er"  
Postlude — "Largo"  
Handel

4:00 P. M.  
Prelude — "Tranquillity"  
Novin  
Professional — "Christ is Risen, Alleluia"  
Wood  
Nunc Dimittis — "Now the Day is Over"  
Anthem — "Hosanna"  
Granier  
Solo — "I Know That My Redeemer Liveth"  
Handel

Miss Dorothy Leach  
Hymn — "At the Lamb's High Feast We Sing"  
Solo — "Open the Gates of the Temple"  
Lewis D. Best

Anthem — "Come, See the Place"  
Schnecker  
Recessional — "The Strife is O'er"  
Postlude — "March from Tannhauser"  
Wagner

## CONGREGATIONAL.

Morning  
Anthem — "He is Risen"  
Collin  
Solo — "Christ's Resurrection"  
Cui  
Mr. Bryant  
Evening  
Anthem — "He is Risen"  
Collin

Selections from Cantata  
"The Seven Last Words of Christ"  
By Th. Dubois

1. Introduction — Soprano Solo  
Mrs. Long  
2. First Word — "Father, forgive them, they know not what they do."  
Baritone and Tenor Solo, with quartet  
3. Third Word — "See, O Woman! here behold Thy Son beloved"  
Soprano, Tenor, Baritone and quartet  
4. Fourth Word — "God, my Father, why hast Thou forsaken me?"  
Mr. Bryant  
5. Seventh Word — "It is finished!"  
6. Choral — "Christ we do all adore Thee"

The Quartet  
Mr. M. F. Bryant Mrs. R. M. Long  
Mr. M. J. Deyell Florence Thatcher

## FIRST BAPTIST CHURCH.

There will be special Easter services, in four parts to the service, commencing at 10 a. m.

Music and sermon on the Resurrection of Christ.  
Believers baptism.  
Reception of new members.  
Communion.

Every Baptist in the community should through the house of God on this occasion in holy worship and thanksgiving for the resurrection of His Son our Lord Jesus Christ.  
Bible school at 11:30, Alvin Beck, superintendent.

A class of young men between the ages of 20 and 35 is being organized. The pastor is teacher for the present. Juniors at 5 p. m.  
B. Y. P. U. at 6 p. m.  
No evening service.

## SPRING BRINGS US BUILDING ACTIVITY

### New Home Construction Company is Planning to Help "Those Who Help Themselves to Own a Home."

## OTHER MEDINA CITIZENS PLAN TO GO IT ALONE

With the coming of spring, becomes apparent an increased activity in the building line in Medina. In addition to the project under way, looking toward the erection of at least half a hundred residences by a local realty firm now in the forming, there is an individual effort in several sections as reported by local contractors.

The Medina Bending Works is supplying material for several residents of Medina and vicinity. Harry Hart-

zog is erecting a double house and Owen Crofoot has let contracts for a fine residence of brick veneer. The foundation for the new F. W. Eckert home on West Washington street is being laid this week.

Several cottages are going up at Chippewa Lake, the material being furnished by the local lumber firm, which has also the contract for supplying material for the two-story farm house of Clayton Wiles to be built southwest of town. Fred Koons, is erecting a large barn on his place one mile south of town.

There is a decided scarcity of residences in this city, a condition which will be improved as rapidly as possible. With the constantly-increasing population due to the locating of new enterprises and the enlarging of those already operating, the demand for houses becomes very apparent. Notwithstanding the fact that materials are scarce and of high price, the dire necessity for more ample housing quarters renders imperative instant building action in this city. Other towns have been postponing the erecting of new houses until such time as prices were lower and labor more plentiful but they now realize that nothing can be gained by waiting and are now going ahead with their building programs.

## FAIR IN SEPTEMBER INVITES YOUR AID

### Fair Board to Meet in April to Further Plans—Many Attractions Asking For Exhibition Space.

## SOME BIG FEATURES FOR FREE EXHIBITIONS

Medina Fair dates are Sept. 21, 22, and 23, and this soon in the season plans are being completed for one of the best shows in the history of the organization. There will be a called meeting of the board in April at which time matters needing attention will be carefully considered.

The same musical organization that gave concerts last year in the Grand Stand is under consideration for concerts this season. The instrumental and vocal numbers given on the program last year called forth many favorable comments so an effort will be made to get the same people this year. A dozen what are called free attractions are asking for dates with the local fair. Principal among these attractions are animal acts, embracing trained horses, dogs, cats, monkeys, sheep and goats. The secretary will try and pick something from the many offerings that will amuse and instruct the young people and children.

A quartet of colored singers and performers, too, are seeking a date. The idea is to pick a winning attraction for the idle time between the several heats of the races; something that will amuse and instruct while there is nothing going on in the racing ring. Many good words are being said for this particular quartet, but it is a very high priced aggregation and the fair board may consider some little time before deciding to put so much money into a single attraction.

The premium list was completed at a meeting earlier in the season so that people wishing to make entries can learn all about the conditions and premiums and determine what they wish to enter later. Every Medina county citizen should realize that this is his fair and plan to do all in his power to make it a success.

Some new building is planned for this year in an effort to give better housing conditions to the several attractions on display and bidding for premiums. The finances of the Fair are better than for some years and the fair board will make the most of these improved conditions.

If every citizen of the county who stands a show of taking a premium would make a display of what he has this would be the biggest show of its kind in the State. That in itself would give the Medina Fair a place in the hall of fame that would go ringing down the ages. Try it with whatever you have to show.

## SOUTHWESTERN RY. CO. TO CHANGE CURRENT

It is understood that a contemplated change in electric current from a 25-cycle to a 60-cycle basis will become effective in those towns now being served by the Southwestern where the lower cycle system obtains. This change, which will occur within the next few weeks, it is understood, will affect the towns of Medina, Seville, Creston, Sterling, Rittman and others.

According to authorities, the change to a 60-cycle system, which is the standard, will eliminate the flicker now apparent in our lights. The disagreeable feature of the change will be the throwing out of all motors now operating and the installing of new ones capable of carrying the 60-cycle current. Medina possesses about ten of these motors.

The towns served by the Southwestern enjoying a reasonable rate, the schedule being 5 cents per kw. for power and 10 cents per kw. for lights. A commercial rate of 10-, 8c and 6c is granted local users.

C. M. England, local manager, could not be reached as we went to press but it is believed that the change will be made as planned, owing to the inability of the present system to carry the load.

## INTERCHURCH MEET MEDINA TABERNACLE ON WED., APRIL 7

### Speakers Will Be Present From Abroad—Whole Citizenship Should Be Interested in Movement.

## THREE-SESSION MEETING TO OPEN CO. CAMPAIGN

(By G. H. L. Beeman).

That one half the country churches of Ohio are declining, that vast areas of the earth are untouched by Christianity because of the failure of American churches to meet their responsibilities abroad, that the average church is failing miserably in its task of winning new converts in its own community, that Americans are spending for the support of their churches sums that seem niggardly when compared with expenditures for luxuries—

These are among the messages to be transmitted, with a backing of accurate statistics gathered in the world survey of the Interchurch World movement, to residents in this county in the mass meeting of church people in the Minges Evangelistic Tabernacle, Medina, Wednesday, April 7. The county Inter church organization, headed by Rev. C. R. McMeeklen of Le Roy, is making arrangements for the meeting. The team of speakers sent by the State office will include leaders of various denominations. Among the principal speakers will be Rev. E. S. Rothrock and F. A. Blanchard, of Cleveland, W. D. Keller, of Canton, and Dr. Albert Storme, president of Berea College. In connection with the county conference will be held a separate Life Service conference for young people to whom the opportunities of Christian work as a vocation will be presented.

In the morning, afternoon and evening sessions of the general meeting the foreign and home surveys, the interdenominational evangelistic program, and the broad plans of the co-operating denominations for the development of spiritual, human, and financial resources needed to carry the programs based on the surveys will be presented. Meetings open to all.

The program will follow to a large extent that of the recent State pastor's conference in Columbus. Some startling information was there disclosed. A striking picture of rural church decline in many parts of the State was given at the Columbus meeting. It was pointed out, too, that the Protestant churches last year received only one convert for every 91 old members. Communities have been found in Ohio where as few as 5 percent of the people are church members. Millions of children are growing up without the benefit of the Sunday school.

In the meeting here next week the financial plans of the 31 co-operative denominations by which they all seek to raise in the last week of April \$336,77,572, will receive special attention. This sum is the aggregate of the 1920 budgets of these denominations for missionary, educational and benevolent causes. Local arrangements for this financial campaign will be pushed through by a united campaign director to be assisted by community directors and county denominational directors. All will join under the leadership of the united campaign director in a general community canvass among persons not reached by the denominational solicitation. The county deacons and directors so far announced are: Baptist—A. S. Foster, Seville; Church of the Brethren—A. M. Friend, Spencer; Congregational—Rev. W. J. Drey, Medina; Disciple—Rev. E. G. Hill-ton, Wadsworth; Methodist Episcopal—F. M. Plank, Medina; Presbyterian—G. H. L. Beeman, Seville; United Brethren—Rev. M. L. Hartman, Cleveland.

Every church in the county is urged to send a large delegation to the meeting at Medina April 7, which will open about 9 o'clock.

## KIWANIANS WANT MONTHLY TRADE

### Committee Appointed to Merchants, Formulate and Name Conditions For Occasion.

## DAY WILL TAKE FORM OF MONTHLY HO

Dawson Longacre and Harold Miller have been appointed a committee by the Kiwanis club to interview merchants with a view to instituting a monthly trade day. This movement is intended to increase trade in the territory, at the same time benefit both merchant and patron in an intimate touch.

While plans have not yet been formulated, it is thought that the day will be held upon the first or last Saturday of each month. Upon these occasions each merchant will of-

(Continued on page six.)
