

FARM BUREAU AND AGRICULTURAL NOTES

HERD REPORT FOR ASSOCIATION NO. 2

Glen Ganyard, with his herd of 4 cows, produced a total of 4808.1 lbs. milk or an average milk production of 1202 lbs. The total butterfat production was 210 lbs. or an average of 52.5 lbs. fat per cow.

W. J. Allard with eight cows produced an average of 1168.1 lbs. milk and 36.0 lbs. butterfat.

A. G. Abbott 6 cows, average milk production 597.3 lbs., average butterfat production 34.4 lbs.

J. H. Reutter nine cows, average milk production 867.7 lbs., average butterfat production 33.3 lbs.

Grant Chidsey 11 cows, average milk production 676.8 lbs., average butterfat production 33.2 lbs.

V. F. Rickert four cows, average milk production 614.6 lbs., average butterfat production 32.9 lbs.

S. G. Brown four cows, 698.8 lbs., average milk production, average butterfat production 32.7 lbs.

Elmer Lytle nine cows, 578.5 lbs., average milk production, 32.4 lbs., average butterfat production.

Geo. Coleman four cows, 957.9 lbs., average milk production, 31.6 lbs., average butterfat production.

C. W. Damon & Son nine cows, average milk production, 573.4 lbs., average butterfat production 30.2 lbs.

Long Range Farm 10 cows, average milk production 472.5 lbs., average butterfat production 26.9 lbs.

C. C. Wyman eight cows produced 750.9 milk per cow and an average fat production of 26.4 lbs.

J. H. Cadnum & Sons 17 cows, average milk production 750.0 lbs., average fat production 26.1 lbs.

Theo. Chapman seven cows, average milk production 765.2 lbs., average fat production 26 lbs.

Clair Miller five cows, average milk production 779.4 lbs., average fat production 25.8 lbs.

S. L. Harris 12 cows, average milk production 697.4 lbs., average fat production 25.2 lbs.

F. W. Peebles & Sons 11 cows, average milk production 733 lbs., average butterfat production 24.3 lbs.

F. L. Reid 10 cows, average milk production 785 lbs., average butterfat production 23.7 lbs.

Grant Tillotson six cows, average milk production 443.3 lbs., average butterfat production 23.7 lbs.

C. & L. Rhodes 12 cows, average milk production 429.8 lbs., average butterfat production 22.6 lbs.

W. J. Pratt 8 cows, average milk production 609.1 lbs., average butterfat production 20.1 lbs.

The above list was arranged on a butterfat basis.

HONOR COW IN ASSOCIATION NO. 2

D. E. Scisinger, Tester, makes the following report of Honor cows for Association No. 2 during the month of August:

Glenn L. Ganyard with an 8-year-old Jersey cow, "Tiney's Nancy" holds first place. This cow produced 1212 lbs. milk and 61.817 lbs. butterfat.

Mr. Ganyard also owns the second best cow, a 4-year-old Jersey, "Bath's Torono Bella" which produced 1047.8 lbs. milk and 61.8 lbs. butterfat.

The cow holding third place, a 6-year-old Jersey, "Lad's Olga Ann" is owned by A. G. Abbott and produced 1039.1 lbs. milk and 55.1 lbs. butterfat.

Glen L. Ganyard with a 14-year-old Holstein "Elizabeth May Mechthild" produced 1922.0 lbs. milk and 53.8 lbs. butterfat.

S. G. Brown owns the next best cow, a 11-year-old Jersey named "Susanna Cocroft". This cow produced 1147.0 lbs. milk and 51.6 lbs. fat.

Geo. Coleman with "Molly Pieter-tje," a 5-year-old Holstein, produced 1696.7 lbs. milk and 50.9 lbs. fat.

J. H. Reutter with "Daisy" a 9-year-old Holstein, produced 1333.6 lbs. milk and 49.3 lbs. fat.

Next cow in line is an 8-year-old Holstein "Sindt Starlight Pontiac Victor" owned by W. J. Allard and producing 1389.2 lbs. milk and 45.8 lbs. fat.

L. L. Rummell with "Lady, Government" a 3-year-old Guernsey, produced 951.7 lbs. milk and 45.7 lbs. butterfat.

Elmer Lytle with a 3-year-old Jersey named "Lase" produced 722.7 lbs. milk and 45.5 lbs. fat.

Grant Chidsey with a 10-year-old Jersey "Lettie's Nora B 3rd" produced 1054.0 lbs. milk and 45.3 lbs. butterfat.

Mr. Grant Chidsey also owns the next best cow "Torono's Oriole Fern" a 3-year-old Jersey which produced 887 lbs. milk and 45.2 lbs. butterfat.

J. H. Reutter with a 4-year-old grade Holstein produced 1108.0 lbs.

milk and 44.3 lbs. fat. Elmer Lytle with "Evalina's Mayflower," a 5-year-old Jersey, produced 841.4 lbs. milk and 43.8 lbs. butterfat.

W. J. Allard with "Ida Pauline Countess 3rd," a 11-year-old Holstein, produced 1562.8 lbs. milk and 43.8 lbs. fat.

Grant Chidsey with a 3-year-old Jersey, "Torono's Jacoba D" produced 872.8 lbs. milk and 43.6 lbs. butterfat.

W. J. Allard with "Sindt Starlight Monk," a 10-year-old Holstein, produced 1240.7 lbs. milk and 43.4 lbs. fat.

"Gay Charlotte of St. Lambert," a 5-year-old Jersey cow owned by the Long Range Farm produced 818.5 lbs. milk and 43.4 lbs. fat.

C. C. Wyman with "S. Myrick," an 8-year-old Holstein, produced 1348.5 lbs. milk and 43.2 lbs. butterfat.

Grant Chidsey with "Jacobas Devilla 2nd," a 9-year-old Jersey produced 914.5 lbs. milk and 43 lbs. fat.

Lyle Elmer with "Majesty's Sonta G," a 4-year-old Jersey, produced 773.9 lbs. milk and 42.6 lbs. butterfat.

C. & L. Rhodes with "Mayflower," a 9-year-old Jersey, produced 858.8 lbs. milk and 42.1 lbs. butterfat.

Grant Chidsey with "Torono's Marigold Pride," a 3-year-old Jersey, produced 744 lbs. milk and 41.7 lbs. butterfat.

W. J. Allard with "DeKol Ormsby Nudine" a 7-year-old Holstein, produced 1369.2 lbs. milk and 41.1 lbs. butterfat.

The Long Range Farm with "Lady," a 4-year-old Jersey, produced 704 lbs. milk and 40.8 lbs. fat.

V. F. Rickert, with "Hobbledehoy's Queen Mab," a 5-year-old Jersey, produced 752.8 lbs. milk and 40.7 lbs. butterfat.

L. L. Rummell, with "Raymondella," an 8-year-old Guernsey, produced 812.2 lbs. milk and 40.6 lbs. butterfat.

V. F. Rickert, with "Trixy's Yellow Fern," a 6-year-old Jersey, produced 757.4 lbs. milk and 40.1 lbs. fat.

Clair I. Miller with "Princess Copia Hengerveld DeKol," a 4-year-old Holstein, produced 1178.0 lbs. milk and 40.1 lbs. fat.

Two-Year-Old Class C. W. Damon & Son with "Queen-by Bellas Nanette holds first place in this class. This cow produced 861.8 lbs. milk and 40.5 lbs. fat.

C. & L. Rhodes with "Clover Blossom" produced 756.4 lbs. milk and 38.6 lbs. butterfat.

L. L. Rummell, with "Virginia's Kid 2nd" produced 790.5 lbs. milk and 37.9 lbs. butterfat.

Grant Chidsey with "Torono's Nora B" produced 620.0 lbs. milk and 34.1 lbs. butterfat.

C. & L. Rhodes with "Violet" produced 595.2 lbs. milk and 32.7 lbs. butterfat.

GANYARD STILL LEADS

The Medina Cow-Testing Association No. 2, upon completion of its August work with D. E. Scisinger as tester, reports that Glen Ganyard still holds the honor of owning the cow which leads the association for August butterfat production—Tiney's Nancy, a pure-bred Jersey, 8 years old, which has lost one quarter.

SUFFERING?

Most of the pain we suffer is unnecessary. Why continue to endure it—to sacrifice your youth, beauty, and enjoyment to it?

The combination of simple harmless medicines found in Dr. Miles' Anti-Pain Pills

is especially effective in relieving pain without bad after-effects.

For more than thirty-five years sufferers from headache, neuralgia, backache, toothache, sciatica and pains from other causes have found relief by taking these pills.

Why don't you try them? ASK YOUR DRUGGIST

This cow led the county during May and June, producing 77.3 and 71.1 pounds of fat, respectively. She was beaten on production during July, but staged a come-back and now leads the association with 1212.1 pounds milk and 61.8 pounds fat to her credit for August. The question is, what would this cow do if she had the other quarter.

C. W. Damon & Son are the owners of the cow which led the association in butterfat production in the heifer class—a pure-bred Jersey named "Queenly Belle's Nanette, and producing 861.8 pounds milk and 40.5 pounds butterfat. It must be considered that this cow freshened as a 2-year-old.

The herd having the largest butterfat average is owned by Mr. Glen Ganyard, averaging 52.5 pounds fat per cow. Mr. W. J. Allard has the highest average in milk production, the average being 1168.1 pounds milk per cow.

87 PER CENT OF OHIO FARMS KEEP SCRUBS

Results of the first count ever made on purebred stock in the United States, just released by the census bureau at Washington, confirm an opinion of livestock extension specialists of the Ohio State University that there should be no let-up of "purebred sire campaign" which was pushed during the summer. At this time, 1400 Ohio farmers pledged themselves to use no more scrub stock on their farms, and 520 of them have since filled out formal declarations and received "purebred stock farm" certificates.

The Census returns show 89 percent of the farms in the United States keeping nothing but scrub stock, and 87 percent of Ohio farms in the same class. As to cattle alone, Ohio leads the census group of "northeast central states" with 5 percent purebred, as to horses, is second with 0.9 percent; and as to hogs, runs a bad third with 3.1 percent.

WEEKLY CROP REPORT

Corn cutting is 75 per cent. completed in the State with the largest per cent. of corn remaining uncut in the Southwestern counties according to reports received by C. J. West, State-Federal Agricultural Statistician. Silo filling is practically completed in most sections of the State. Expense of filling silos averages only a little less than last year and wages

for cutting corn are about two-thirds of last year.

The machine and engine to fill a silo are hired by the hour in many sections of the state with a State average rate of \$2.57 per hour. The charge where paid by the day averages \$12.00. Last year charges by the hour averaged \$3.10 and by the day \$12.30. Other ways of hiring the machinery in connection with silo filling are by the ton and for a fixed amount depending upon the size of the silo, the hour and day methods seem to predominate. This year's State average for corn cutting is 9 1-2 cents per shock. Last year's price paid was from 6 to 7 cents per shock higher. Where corn cutters are hired by the hour the average rate is 30 cents.

The condition of late potatoes shows a slight improvement. The number of Fall pigs is apparently a little less than last year.

Burbank

Mr. and Mrs. William Schamp are spending several weeks at Canton and Canal Dover.

Mrs. Sherman Ditch is visiting her parents, Mr. and Mrs. George Smith, at Elyria.

Mrs. Tom Mark of Seville spent a few days at the Messmore home.

Rev. and Mrs. C. C. Slater with Mrs. C. W. Weiser, Mrs. Charles Miller and Mrs. L. L. Swartz, spent Thursday afternoon in Wooster.

Mrs. Charles Gast spent Thursday at the home of her sister, Mrs. L. A. Warner.

Mr. and Mrs. Will Kook of Wooster spent Saturday at the home of L. C. George and family.

Mr. and Mrs. Edward Carnes of Cleveland spent Sunday at the home of J. S. Hatfield and wife.

Chas. Gast and wife, Wm. Myers and Wallace Dull and family were Sunday guests at the Moses Bensing-er home in Medina.

Mildred McDonald of Hookstown, Pa., has returned to her home after a pleasant visit with her friend, Mrs. Denver George.

Mr. Clyde Slater and Mr. Guy Ewing called at the U. B. parsonage Sunday afternoon.

Mrs. Charles Gray of Garden Isle spent Friday at the home of George Gast.

Born, to Mr. and Mrs. Fred Kime, September 21, a son.

Mrs. George Norton visited Saturday and Sunday at Cleveland and Kenmore.

Merrill Simmers, who is working at Galion, was at home Sunday.

Mr. Frank Dribbelbis and family of Mansfield are visiting friends here at this writing.

George Gowler and family of Wooster visited Sunday at the home of Arthur McDermitt.

Urlin Slater of Lodi spent Sunday at the home of his parents, Rev. C. C. Slater and wife.

Mr. John Double left Sunday to attend the G. A. R. encampment at Indianapolis, Ind.

Mr. Louis Gottschick of Salina, Kas. spent a few days with his uncle, John Kook, and L. C. George and family.

Mr. and Mrs. Hollie Adams and sons Robert and Delbert of Shreve and Mrs. Dorsie Adams of Ashland were Sunday guests of H. H. Adams and family.

Mr. Ed. Kaufman and wife spent Sunday at the Fred Allen-home

Mrs. Ed. Musser and son Junior and Mr. and Mrs. Albert Snyder and two daughters of Medina spent Sunday with George Smith and wife.

Mrs. W. C. Lund is visiting in Cleveland.

Mr. and Mrs. Large of Wadsworth spent Sunday at the home of James Buckingham.

Mr. and Mrs. E. H. Ives and children of Cleveland were Sunday guests of Andrew O'Mara and family.

Mr. and Mrs. Frank Talley and son Merlin were Wooster visitors on Saturday.

Oliver Garver and wife of Lodi were callers Sunday at the Joe Garver home.

Miss Mary Hill is spending a week with her sister Netta at Marysville.

Notice of intention to improve

Notice is hereby given of the intention of the Board of County Commissioners of Medina County, Ohio, to repair and build the following bridge in Medina County:

Bridge No. 40 on I. C. H. No. 23, three miles north east of Weymouth on line between Hinckley and Granger Townships.

The cost of the structure of the above bridge will be in excess of One Thousand Dollars (\$1,000.00).

The Board will hear all petitions or remonstrances against said improvement, at their office in the Court House at Medina, Ohio, on Friday, October 21, 1921, at 10:00 o'clock A. M.

William E. Leach
John Ewing
County Commissioners of Medina County.
Sept. 22-29; Oct. 6-13

USE A SHARPLES MO-TO MILKER with your farm lighting plant no installation necessary, we can also furnish a SHARPLES pipe line milker.

Cleveland, Ohio

The Great Ship "SEANDREE" - the largest and most costly passenger steamer on inland waters of the world. Sleeping capacity, 1500 passengers.

FARE \$ 5.56

Studebaker

Light Six Now \$1150

Why Studebaker can sell the LIGHT SIX at the new low price

The LIGHT-SIX is built complete in the most modern automobile plant in the world, designed especially for the production of this car.

Studebaker manufactures in this plant its own drop forgings; its own castings, stampings, motors, axles, transmissions; its own steering gears, springs, bodies, tops and other vital parts.

Under these favorable manufacturing con-

ditions and because of its enormous production and standardized methods of manufacture, Studebaker is able to make important savings—these savings are reflected in the price of the car to you.

The LIGHT-SIX is a real step forward in automobile engineering. No other light, six-cylinder automobile yet produced has a motor so free from vibration, nor so flexible and powerful.

See this car—drive it—test it. You will be won by it. You will understand why it is the Studebaker ideal of what a light, six-cylinder car should be.
