

J. W. HOUGHTON, M. H. HOUGHTON, EDITORS.

Republican State Ticket.

For Governor, CHARLES FOSTER, Seneca County. For Lieutenant-Governor, ANDREW HICKENLOOPER, Of Hamilton. For Supreme Judge, W. W. JOHNSON, of Lawrence. For Attorney-General, GEORGE K. NASH, of Lawrence. For Auditor of State, JOHN P. OGLEVEY, of Clark. For State Treasurer, JOSEPH TURNER, of Cuyahoga. For Board of Public Works, JAMES FULLINGTON, of Union.

So much has been said and written with reference to the "ulphar despatch," that we are glad to be able to present our readers this week with a supplement, giving fac-similes of original dispatches with translations. They will repay a careful perusal, besides showing conclusively who attempted to steal the Presidency.

From the health reports of England and the United States, it has been found that an annual death rate of more than seventeen to every thousand living in cities is due to defective sanitary regulations. Syracuse loses but 18.60 and heads the list. Buffalo and Detroit have better record than Cleveland, the latter city having a death rate of 19.90. London is 22.5, while New Orleans is second in the dark list with a reported loss of 28. to every one thousand.

M. B. Balaban says of the light brown insect known as the rose bug, and in some localities being mistaken for grape vines and fruit, that they are sluggish and harmless and can be handled or shaken off in the morning like the cucumber and drowned or burned. They continue their mischief two or three weeks and then deposit their eggs in the ground when they die. The eggs hatch into grubs which feed on roots till winter, lie dormant till warm weather, then change to beetles and proceed to work again.

From all directions comes the story of a reduction in the production of cheese this season. In northwestern Pennsylvania quite a number of the factories are idle, and in the west we hear of the same state of things. The assessor of Aurora township, so we are told by a reliable gentleman, reports one hundred and forty cows less, and the assessor Brainbridge about two hundred less than last. With a smaller production, and with an open southern market, which was virtually closed last season, we see no good reason why cheese should not rule higher this season than last.—Chicago Fair Reporter, June 12.

The confidence of the Democratic editor in the civility and ignorance of the public when he supposes he can relieve his party as the South of responsibility for atrocities of the "Obolous States," by ridicule and sneers, is past fault comprehension. We cannot blame them if they have any patriotism or honesty, or even those lower and less honorable motives which spring from a desire for the success of their party, that they should wish to read the editors of that treacherable sheet out of their commission, but of what avail is it when the democracy in Congress of both the North and South show by their works that they are committed to the most extreme doctrines of states rights rebellion, of what avail is it when the numberless instances in this and the last Congress Southern men have given voice to the same sentiments couched in scarcely more temperate and refined language and been unshaken by their associates? Of what avail is it when their editorial teachings are indorsed by much the longer portion of the Southern press and by the political leaders all over the South. To say that its editors are in pay of the Republican party and that it is run in its interests as a campaign sheet is both silly and untrue. To say that its editor is an Ohio carpet-bagger and thus attempt to destroy its character as a representative of Southern sentiment, when the truth is that its senior editor was an officer in the rebel army, is no less a rebel row than in the war, is a course that cannot commend itself to honest men in any party.

Ridicule often affords a good purpose when aimed at error, but when used to overthrow the truth it is as impotent as it is foolish and wicked.

Public Debt Statement.

A very satisfactory showing of our national finances is made by the treasury department in its report of June 24, 1910, which may be regarded with just pride by every Republican and referred to as an evidence of the wisdom and honesty with which its affairs have been administered. We give some of the results, as a full account would be too long for our columns.

Reduction in interest bearing debt from highest point in 1885 to present time, \$288,994,564.96. Reduction in annual interest charge since 1895, \$67,808,919.97. Reduction of total debt, including that not bearing interest since 1885, \$729,149,108.24. Reduction of debt since March 1, 1877, \$61,598,674.85.

In addition to this, resumption of specie payment has been accomplished in spite of the prologues and efforts of Democrats and Nationalists to prevent it and maintained for nearly six months without derangement of financial values or additional suffering to the industries of the country or the people, and the ability of the government to sustain specie payment, is increasing day by day.

The public credit has been so far improved that it has been possible to refund our national debt at a net annual

saving in interest since March 1, 1877, of \$10,878,177. We can well afford to be proud of such a record, and the opposition in view of their record will hardly claim a share in the honor.

Wooing the Ohio Greenbackers.

The old threadbare trick once more is offered to Ohio Democrats. Mr. Henry Waterson who represents those Bourbons of the Solid South by whose tolerance Democracy has been made synon ymous with reputation, announces that in Ohio the financial issue "sinks to a minor place." It has been sinking, in the estimation of those Bourbons, ever since they went out of power in 1861. They are not repudiators; O no! But during the war they were willing to see the credit of the United States broken, because the Union was engaged in coercing "sovereign States." After the war they tolerated Penitentiarianism, because the Republican were in favor of impartial suffrage. Now they assent to the most wasteful, reckless and dangerous notions of the Greenback fanatic, and their excuse is that there is no other way to make head against the Republican party. Yet those Bourbons pretend that they are loyal! What loyalty, indeed, to stab the honor and credit of the Nation, in the hope of wresting its Government and patronage from the party now in power!

But while the old Bourbons thus appeal to all the old-fashioned, hard-money Democrats to support the regular ticket on the pretext that "the financial issue sinks to a minor place," demagogues are also appealing to all soft-money Republicans and repudiating Greenbackers to support the same ticket, on the pretext that the financial issue has the first place, and is practically the only one involved, and if there is a financial issue in Ohio, it is a financial issue in every town in Ohio, who believes that unlimited issues of cheap money are necessary to the salvation of the country, he is armed with Ewing's speeches and Ewing's Congressional record, and sent out to convert men to the support of the Ohio champion of soft-money. If there is any extremist, who has for sale a ranting speech against banks and bondholders, he is hired to go forth for the Democratic party, and cry aloud the financial opinions of Ewing.

It will do no good to tell the people there that the financial issue "sinks to a minor place," when General Ewing has been selected as the candidate. Every voter in Ohio, whose vote could be influenced by any argument whatever, knows that the selection of Ewing makes that financial issue the one of paramount interest and importance in the election this fall. A party which nominates him is, of necessity, a soft-money party, a party hostile to bondholders and banks, a party that believes in cheap money and no credit for the Government. If there are other issues in the contest, they grow out of this and cluster around it. The repudiators of all sorts, open and covert, direct and indirect, leap to the support of Ewing instantly, and they are right. His beliefs, carried into execution, would leave this country without credit enough to fit out one battery or to suppress a rebellion in one county. And for that precise reason, every revolutionist and every forgetful and vindictive rebel is in favor of Ewing. Before fighting the Government the next time, they want to hamstring it.—New York Tribune.

Penfield.

There will be an entertainment for the benefit of the band at the residence of Henry Penfield, Thursday evening. Mrs. Celia Christie McEwing of Foster is visiting her former home and friends here. Alphonso Lindley and Shirley Andrews, were in town over Sabbath. The M. E. Church has made arrangements by which our people are to be favored with a popular course of lectures. The first will be delivered by Rev. Geo. W. Pepper, Monday evening, June 20th. Subject, "America and the Americans." Mr. Pepper will deliver a second lecture for us the same week, time announced at the first. The price of admission for the course comprising all lectures and a concert has been placed at the unheard of price of one dollar per couple; bachelor twenty-five cents; single admission twenty cents, and now possessing the great credit which has remained sealed within the Third Sand rock of oblivion, until released by the hand of scientific industry, it gathers forth in treasures of petroleum to the world. But the knowledge was practically useless to the prematurely bald and gray, as no one in civilized society could tolerate the use of refined petroleum as a dressing for the hair. But the skill of one of our chemists has overcome the difficulty by a process known only to himself, he has, after very elaborate and costly experiments, succeeded in deodorizing petroleum, so that it is susceptible of being handled as delicately as the famous oil of Cologne. The experiments with the deodorized liquid on the human hair were so successful that the most astonishing results were attained. A few applications, where the hair was thin and falling, gave remarkable tone and vigor to the scalp and hair. Every particle of dandruff disappeared on the first or second dressing, and the liquid, so searching in its nature, seems to penetrate to the roots at once, and set up a radical change from the start. It is well known that the most beautiful colors are made from petroleum, and by some mysterious operation of nature the use of this article gradually imparts a beautiful light brown color to the hair, which by continued use, deepens to a black. The color remains permanent for an indefinite length of time, and the change is so gradual that the most intimate friends can scarcely detect its progress. In a word, it is the most wonderful discovery of the age, and well calculated to make the prematurely bald and gray rejoice. The same Carboline has been given to the article, and is put up in a neat and attractive manner, and sold by all dealers in drugs and medicines. Price One Dollar a bottle.

Helmbold's Buchu.

Helmbold's Buchu has long been known as one of the most valuable medicines obtainable in certain classes of diseases, such as dyspepsia, chronic rheumatism, dropsy, cutaneous affections, and especially affections of the urinary organs. As a diuretic, it is superior to almost any other medicine in use, and the great care with which it is prepared, the absolute purity of the preparation, and the diligence used in the selection of the crude material, have made it known far and wide as a reliable and effective preparation, and one that can always be used with safety and benefit. The great success of Helmbold's Buchu has led to the production of many spurious preparations, which are made cheaply and placed upon the market to be sold on the reputation acquired by Helmbold's original preparation. Parties who desire a really good medicine should be careful and use Helmbold's only.

Who has not heard of Frank Hardendburgh of 515 Avenue Theatre, New York, (Sag Money Jim in "Pique.") He says, I always use Giles' Liniment Iodine Ammonia; it is a wonderful remedy for pain, especially inflammatory rheumatism, sore throat, enlarged joints and varicose veins, from which I suffered, was cured by its use.

Bald by all druggists. Sent for pamphlet. 130 West Broadway, N. Y. Sold by J. W. Houghton, Wellington, O.

ADVERTISING DODGES.

We know of nothing so well calculated to put the reading public out of humor as to begin a very interesting account of some scientific discovery, replete with interest, and just as the reader's mind is thoroughly imbued with the subject, and a gigantic effort being made to grasp it in all its bearings, away goes the author in praise of some patent medicine or new-fangled hair-renewer; for instance, CARBOLINE, which, by the way, is an article of genuine value, and has really done wonders in the hair-producing way, as hundreds of certificates from well-known citizens amply testify. It is clearly, and so penetratingly, that the disease is reached, and a radical change for the better takes place almost immediately. It contains nothing injurious; is, in fact, a natural hair-restorer, made from petroleum, thoroughly deodorized and delightfully perfumed. It is sold by all dealers in drugs and medicines, at one dollar a bottle.

A GRACE FOR BALDHEADS.

This is the age of wonders—wonders in science, wonders in mechanism, wonders in everything. It has been said that the man who cannot do two blades of grass where only one grew before is a public benefactor. What, then, shall be said of the man who gives a full and luxuriant crop of hair to grow upon the barren and aching pate of the large army of baldheads who have well nigh despaired of ever having a natural covering for their heads again? What place, in a word, shall be assigned to the discoverer of Carboline? Shall he not have a conspicuous niche in the Temple of Fame, and stand first among the benefactors of his race? To impart new life and vigor to the dormant energies of a diseased scalp; to give strength and fullness to a weak and struggling growth of hair; to bring back the natural color and gloss to bleached and faded locks, are no ordinary achievements since chemists and therapists have sought in vain to accomplish them for centuries. All honor, then, to the discoverer of the new hair restorer, Carboline—and let one and all join in expressing a higher appreciation of the use and possibilities of this wonderful preparation, which contains the elements that work such mysterious and gratifying changes. Keeney & Co. Special Agents, Pittsburg, Pa. Sold by all druggists.

HAIR DYES.

Now the Public are Imposed upon. An English paper publishes the results obtained by the analysis of some twenty-one hair restorers, or hair dyes, fourteen of which were found to be practically identical in their nature. They contained sulphur, in suspension, and also lead in varying, but always considerable quantity. Three of these preparations had American labels, the rest English. All of them contained lead sufficient to cause disease of the brain, liver, &c., while some of them contained sufficient mineral poison to destroy life. Had the English chemist tried his hand on the great American hair restorer, CARBOLINE, a deodorized extract of petroleum, he would have no report about sulphur, lead, and like poisonous substances. He would have analyzed the wonderful properties of this wonderful product of Nature, a hair dye and a hair restorer, and he would have found it free from any of the deleterious ingredients possessed of healing virtues beyond any article ever yet applied to the human scalp, and would have reported the results in the following result: Carboline is prepared from the oil as it flows from nature's great chemical laboratory, the earth, and is so prepared that the public without fear of contradiction is the best restorative and beautifier of the hair the world has ever produced. It prevents the hair from falling out, restores hair on bald heads, restores it to its original color, makes it grow rapidly, will not stain the skin, contains not a particle of lead, sulphur, or other deleterious drugs. It is a natural product of the earth, containing the elements required by the hair to feed upon. A few applications will show its restorative qualities. Does not require months of continued use before you perceive any result. It is cooling, cleansing, and too much praise can be bestowed upon it. Sold by druggists.

THE BEAUTIFUL INDIAN MAIDENS.

The maidens of the famous Seneca tribe of Indians who once roamed over the picturesque and beautiful valleys and lofty hills of the upper Allegheny river (now the famous oil regions of Pennsylvania), were noted among all the neighboring tribes for the wealth and beauty of their tresses, which were of remarkable length and exquisite fineness of texture, and in color so black that the simile of the raven's wing was applied to them. The cause of this was generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weakness and irritability. He is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the LIVER to have been extensively deranged.

AGUE AND FEVER.

DR. C. McLANE'S LIVER PILLS, IN CASES OF AGUE AND FEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used, preparatory to, or after taking Quinine. We would advise all who are afflicted with this distressing ailment, to give these pills, and to give them a FAIR TRIAL. For all bilious derangements, and as a simple purgative, they are unequalled.

WE WARRANT

Superior Whiteness and Fineness, and absolutely purity in our brand of strictly PURE WHITE LEAD and will pay THIRTY DOLLARS for every ounce of adulteration found in one of our packages.

T. H. NEVIN & CO., Pittsburgh, Pa.

Baldwin, Laundon & Co., Sole Agents, Wellington, Ohio. 28-17

TESTIMONIALS.

HOLBROOK BROS., Surgeon Dentists.

Do not neglect to care for and lose your teeth. A small amount of money expended to keep them in good condition is a good investment. We keep Tooth Brushes, Powder and Mouth Washes and will be glad to select for each of our patients just such as their case demands.

This is the time of the year to have your bad teeth removed before the cold weather comes and they begin to ache. We make Gold, Silver, Continuous Gum and Celluloid Plates (besides other kinds), and find Gold a much better base for artificial teeth than Rubber. Examination and counsel free.

We will be glad to work for any who may desire our services.

Teeth extracted without pain by the use of Nitrous Oxide Gas. 9-3m

HOLBROOK BROTHERS, D. D. S.

FOR THE CURE OF RHEUMATISM AND NEURALGIA.

This marvelous preparation has cured hundreds of cases of Rheumatism and Neuralgia, even when all other remedies have failed. It is fast becoming the acknowledged Antidote for these diseases, and can be relied upon by sufferers to relieve them of their pains and effects.

Do Not Give Up

Your case as hopeless as it seems, do not give up. It is clearly, and so penetratingly, that the disease is reached, and a radical change for the better takes place almost immediately. It contains nothing injurious; is, in fact, a natural hair-restorer, made from petroleum, thoroughly deodorized and delightfully perfumed. It is sold by all dealers in drugs and medicines, at one dollar a bottle.

Price \$1.00 per Bottle, 6 for \$5.00.

LIVER PILLS,

FOR THE CURE OF

Hepatitis, or Liver Complaint,

DYSPEPSIA and BILIOUS HEADACHE.

Symptoms of a Diseased Liver.

PAIN in the right side, under the edge of the ribs, increases on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weakness and irritability. He is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it.
