—The dwellings of Mr. W. Lang and S. P. Hastings on Cordland avenue, are progressing rapidly. D. Bivick has built an addition to his house, north of town; and the basement walls for the new school building are being prepared and the work pushed as promptly as possible.

—The dog-bear of those who set out for the bag and restoration of a quiet trip by rail or water, in meeting the inevitable army of excursionists, who sweep down to the number of a thousand or more, and occupy every available foot of space, cushioned seat, car floor and steamer deck alike littered with the debris of untimely lunching.

—For years "Lawson's Curative" has given universal satisfaction, and every day it is increasing in popular favor. Without doubt it is the most reliable preparation yet introduced for rheumatic diseases and those also which have their origin in the nerve structure. Wherever there is pain, inflammation or swelling, use "Lawson's Curative," and you will not be disappointed.

—L. F. Clifford's deer park is very attractive and children especially enjoy the novelty of seeing the young lions play. They have also a happy family of birds, canary, grouse-beak and several domesticated orioles, which singly and altogether are as interesting a company and as unafraid of their keepers as any lover of pets could wish, taking their morning baths in as jolly a fashion as swallows by the roadside, and snighting on hand and head as familiarly as though upon a perch.

—Nijae Novgorod Fair. The great market of the eastern world has been held at this junction of the Volga and Olga rivers in Russia, every summer for hundreds of years. How the nations of Europe and Asia meet with their products for trade. Cosack, Chinese, Turk and Persian meet the German and the Greek with every variety of merchandise that mankind employs, from sapphires to grindstones, tea, opium, fur, food, tools and fabrics, and last but not least, medicines. J. C. Ayer & Co.'s celebrated remedies from America were displayed in an elegant bazaar, where the Doctor himself might sometimes be seen. They are known and taken on steppes of Asia as well as the prairies of the West, and are an effective antidote for the diseases that prevail in the youths of the North as well as the huts and cabins of the western continent.—Lincoln (Ill.) Times.
