Deafness Cannot be Cured
By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Sent for circular; free.

Royal Baking Powder

ABSOLUTELY PURE

AN A. P. A.

He Accused the Rev. Washington Gladden of Being a Jesuit.

Recently the Rev. Dr. Washington Gladden, of Ohio, received a letter charging him with having become a Jesuit. Thereupon he wrote a reply that is worth reading, and which is given below, the original charge being prefixed, in explanation of the situation:

TO DR. GLADDEN.

Dear Sir: As one who has read much that you have written, and who has been much impressed by your incisive style and ability, and who feels that he knows you, allow me to inquire why you refuse to acknowledge to the world that you have become a Jesuit.

However much we Protestants and former admirers deplore this sad fact, yet we must concede to you and to all men the liberty of choosing Rome, if convinced in your own conscience. But we would certainly think far more of you, as would all noble-minded men, if you would publicly avow, boldly and fearlessly, the fact of your change. There is a general conviction and belief that you have united with this order, as it is impossible to otherwise account for your recent course, utterances, etc. I am an A. P. A. leader, and strong in this patriotic order, as the one hope of our country. May God have mercy on you in your sad and fatal mistake, as I feel it to be.

FROM DR. GLADDEN.

My Dear Sir: How did you find it out? It is marvelous—the enterprise of your fraternity. But you hadn't heard that I am to be next Pope, had you? Well, you'll hear that pretty soon. It's part of the bargain. But don't tell it till you're dead sure that it's so.

There is another little piece of news that you'll be glad to get. Just as soon as I am elected Pope that massacre is going to begin that Leo ordered, you know, but which the faithful hadn't the backbone to carry out. Perhaps it was the heroism of the Mayor of Toledo that prevented it. But when I get there it's going through, sure pop. We have engaged the public gardens at Washington, down by the monument, and we are going to make a pile of corpses of our Protestant ministers, in the form of a pyramid, higher than the top of the monument. It will take according to my figures, 346,927 ministers to make this heap. There are not enough now in the country, but several new theological seminaries will be started at once (by Jesuits, of course) to furnish the supply. We've got the railroads chartered to haul 'em up from all parts of the country. Aren't you a minister yourself? Well, you'll be in it. I'll try and keep a place near the top for you. Apex reserved for former admirers. And when the pile is complete I'm going to mount to the top of it and sit there and howl!

Now, you just take this down to the next meeting of the council and read it to 'em. It'll thrill 'em—you'll see! If anybody doesn't believe it, you know what's the matter with him. He's a Jesuit! Very truly yours,
WASHINGTON GLADDEN.

LAKESIDE AND THE TYPHOID.

Secretary Gill Refutes the Charges made Some Time Since.
Sandusky Register.

LAKESIDE, O., Oct. 3, 1895.

ED. REGISTER:—Lakeside, as related to certain typhoid cases, has been mentioned in your columns.

First. If this place supplied the germs it is strange that it does not develop among the seventy-five families that stay here the year round. There has not been one case among the seventy-five families that dwell here the year round, nor has there been for years.

Second. The malarial prevails almost universally, and it would be wonderful if the 10,000 to 15,000 people who have been to Lakeside should return to these stricken towns and be proof against it.

Third. Summer assemblies suffer from these complaints because September, one of the great typhoid months, follows next after July and August.

Fourth. One of our physicians suspected a well within eight feet of which a sewer line located four years ago in hard lime rock and joints cemented. In September he made tests at two different times and found the water free from typhoid germs. Suspicion rested upon this well because most of those reported sick lived near it. On the other hand, many whole families that have drunk from this well all summer have not had a sick member.

Fifth. Excessive bathing, induced by opening of bath-houses in front of park, is the probable cause of most of the fevers.

Sixth. We have here extensive sewers which have been well flushed twice each week during the season.

Seventh. The hydrant water generally used has given no cause for suspicion.

Eighth. The management will pursue the same rigid course of matters of sanitation as though Lakeside were responsible for all the fevers in Ohio.

S. R. GILL, Sec'y.
