

# School Shoes

Every parent knows that at school the Shoes get hard wear. OUR SCHOOL SHOES were bought with that fact in mind, and we have a line that have the greatest wearing qualities, yet are not heavy and clumsy. A School Boy, or a School Girl, who has easy, good-looking and substantial Shoes, never stands at the foot of the class. The Boy or Girl with poor fitting Shoes usually keeps in the background.

It pays to Shoe the children well. Do you want good Shoes for good children? No matter what shaped foot, we will fit it comfortably stylishly and lastingly.

## Saw Service in Cuba.

John C. Rinehart, who lives with his parents, on Courtland avenue, is a soldier boy who can tell many interesting stories of the war with Spain in Cuba. He first enlisted in Co. G, 17th Infantry, stationed at Ft. Russell, Wyo., where he saw several years' service. He was mustered out after time of enlistment expired in November 1897, and two months later re-enlisted in the 6th U. S. Cavalry. He was in all the battles from Aguadorea to Santiago. Was in the battle of El Caney and took part in the storming of San Juan. When asked by a representative of the Enterprise, how he felt when Spanish bullets were flying around him, he replied, "they wouldn't hurt a fellow unless they hit him." "The Mauder bullets go, 'zum,' 'zum,' and you can't tell in what direction they come from." The rations were scant, and many of the boys died of disease, brought on by the scarcity of food. He was mustered out at Huntsville, Ala., and does not think he will enter the service again.

## Bad Wreck on Big Four.

A bad wreck occurred on the Big Four, half a mile south of here last Thursday night. Freight train 92, east bound, broke in two. Another freight was on the main track switching, and it was impossible to prevent the rear end of the train coming in collision with the forward part. The engineer stopped his part of the train and although seventeen brakes were set it was impossible to prevent a bad smashup. Eight cars loaded with wool and oats were demolished, some so badly wrecked that they were burned. The wrecker from Lindale came out and the track was cleared for traffic early Friday morning.
