

THE ENTERPRISE.

WELLINGTON, OHIO.

NEWS OF THE WEEK.

Gathered from All Quarters.

WASHINGTON.

President McKinley has directed that a congressional medal of honor be presented to Col. J. Franklin Bell, Thirty-sixth volunteer infantry, for distinguished gallantry in action, September 9, 1899, near Forac, Luzon.

The calculations of the naval inspection board in the case of the recent speed trial of the battleship Kentucky have been completed. The board reports that the actual speed made by the ship was 16.977 knots per hour. These figures are sufficient to warrant the navy department in the preliminary acceptance of the Kentucky.

A vigorous protest has been entered by Great Britain against the organization of expeditions in this country intended, presumably, for the assistance of the Boers. It is no longer a secret that expeditions of importance are being organized. The most notable of these has its headquarters in the suburbs of New York.

The comptroller of the currency in his monthly statement shows that at the close of business November 29 the total circulation of national bank notes was \$243,760,248, an increase during the month of \$775,534, and an increase during the last 12 months of \$1,058,510.

Capt. Leary, the naval governor of the island of Guam, has asked the navy department for an additional force of marines. The few men he has at command now are but an insignificant force compared with the 8,000 population of the island.

EAST.

On the 20th ult., while a section of Battery B of the national guard of Pennsylvania was firing a governor's salute of 17 guns during the parade in Allegheny preceding the unveiling of a Spanish gun captured and presented to Allegheny City, a premature discharge of one of the guns occurred and three men were hurt, one fatally.

Among those killed in the collision on the Delaware, Lackawanna & Western railroad, at Paterson, N. J., on the night of the 29th ult. were Alexander Craig, of Scranton, Pa., his wife and two daughters, aged 11 and 15 years respectively. The entire family was thus killed. They were on their way to Brooklyn, N. Y., to spend Thanksgiving with relatives.

Much satisfaction is felt among concerns in Boston who are engaged in the importation and manufacture of hemp, because of the apparently imminent collapse of the insurrection in the Philippines and the probable raising of the blockade of ports in those islands.

It is shown by the November report of the New Jersey secretary of state on incorporations that 173 companies were chartered and \$22,800 received in fees. As compared with November, 1898, the corporation business shows a large increase.

At the Philadelphia mint the total coinage during November was \$3,046,080, which represents 19,415,240 separate coins. The month's coinage of nickels was valued at \$141,500, while 11,387,000 pennies were made.

John T. Blair, of Blairstown, N. J., a millionaire many times over, and one of the oldest railroad builders and owners in the country, died at his home on the 2d. He was reputed to be worth \$50,000,000.

Fire at Hancock, N. Y., on the 2d destroyed three stores, causing a loss of \$50,000. Mrs. Ann Tarbox, aged 80, was burned to death.

On the 2d Daniel Tallon, lord mayor of Dublin, his secretary, and John E. Redmond sailed from New York for home. They took back with them about \$50,000 in American money, which will be used in saving Parnell's house and erecting a monument to him in Dublin.

Announcement is made by the Massachusetts Institute of Technology of a gift of \$50,000 from Augustus Lowell, a member of the executive committee of its corporation. This is to serve as the nucleus of a fund, the income of which shall be used for the benefit of the teaching staff of the institute in case of illness, death or retirement.

Charles Potter, the printing press inventor, died at his home in Plainfield, N. J., on the 2d. Mr. Potter was born in Madison county, N. Y., in 1824.

On the 2d the directors of the American Bell Telephone Co. voted to turn over the assets of the company to the American Telephone and Telegraph Co. This is the first step in the removal of the company from Massachusetts to New York.

The national export exposition which opened at Philadelphia on September 14 closed on the 2d, and the managers report that the affair was entirely successful in every respect. The attendance was about 1,250,000.

The New York state canals were officially closed on the 1st.

At Philadelphia on the 1st about 800 union upholsterers went on a strike. As the result 3,000 hands, engaged in various departments of 26 mills, are thrown out of employment and the mills are closed. The strikers demand a 55-hour working week, ten cents per hour for overtime, and an advance of about 25 per cent. in wages.

The price of chewing tobacco has been raised by the trust. The Continental Tobacco Co. has sent out a notice to all jobbers that an advance of four cents a pound on all plug chewing and plug smoking tobacco went into effect on December 1.

An assignment has been made by Henry D. McCord and William M. McCord, of New York City, composing the firm of Henry D. McCord & Son, dealers in grain. The firm is rated at between \$200,000 and \$350,000.

The officers of the Cigarmakers' International union have prepared figures showing the work accomplished in 19 years and 3 months in the relief of members out of work and those who were sick, in strike benefits and in funeral expenses. The total amount expended was \$4,045,463.

For the week ended December 1 the business failures in the United States numbered 144, as compared with 281 for the corresponding week of 1898, and 21 in Canada, as against 19 for the same period last year.

During November the total gold production of the Cripple Creek district was \$2,515,500, an increase of more than 25 per cent. over the largest previous monthly record.

WEST AND SOUTH.

Reports from a number of points on the Texas coast show that the damage to property and loss of life by the recent severe storm were much greater than at first reported. A number of small fishing craft are missing, together with their crews.

At Sioux City, Ia., a deal has been completed for the establishment in that city of the biggest creamery in the world—one which will consume 100,000,000 pounds of milk annually, and will manufacture, daily, 20,000 one-pound prints of butter. Two hundred and fifty creameries have been leased as sub-stations.

A resolution has been adopted by the Chicago board of education which contemplates a sweeping change in school affairs in that city and the saving of a vast sum of money annually to the buyers of school books. It calls for an inquiry as to whether the board of education may not enter the book publishing field with profit to itself and to the public.

Before Christmas day Chicago will be the central site for the largest electric motor cab and carriage service in the world. The incorporation is capitalized at \$500,000. On Christmas day the first fifty vehicles will be ready for use.

A factory for the manufacture of bogus credentials for Chinese desiring to enter the United States is said to be in operation in St. Paul, Minn. No arrests have been made. A number of Chinese have entered with these bogus certificates at Port, N. D.

Joseph Brown, ex-mayor of St. Louis, died in that city on the 3d, aged 60. Before he entered politics he was probably the most prominent steamboat man on western waters.

Contracts have been awarded for connecting all the islands of the Hawaiian group by the Marconi system of wireless telegraphy.

FOREIGN.

During the last few months cocaine has risen from \$2.50 an ounce to \$6.25 an ounce. This is caused by the revolution in Peru. That South American republic raises practically all the raw cocaine that the world consumes. The revolution has prevented the gathering of coca leaves from shipping their product to Lima, the principal market, hence a short supply and an increased price.

Tests have been made at Weymouth, England, for steering any craft, whether submerged or otherwise, by means of an ether wave on the wireless telegraphic principle. The model was subjected to a variety of tests, and followed the current as surely as if guided by a rudder. In addition to steering in straight lines, various figures were described.

Mexican troops are waging an energetic and successful campaign against the Maya Indians in the interior of the Yucatan peninsula.

LATER.

President McKinley, Postmaster General Smith and the Guatemalan minister have signed a parcel post treaty between the United States and Guatemala, effective January 1.

Unusually cold weather and heavy gales are reported from New Zealand. During a storm in November the ship Pleiades went ashore on the New Zealand coast. Her officers and crew were saved, but the ship could not be removed from the rocks.

A startling story comes from Dublin, Ireland, to the effect that a plot to blow up Dublin castle with dynamite has been discovered. The plans to destroy the castle had almost matured. The guards at all the military barracks have been doubled and extraordinary precautions have been taken to prevent the outrage. Dublin castle is the official residence of the lord lieutenant of Ireland.

The Liberty Cycle Company made an assignment at New York City on the 4th. The company has offices in Boston, Bridgeport, Conn., and Chicago, and a factory at Bridgeport, Conn.

The hotelkeepers of Paris have formed a combine and have decided to charge \$5 a day for a room, without meals, during the exposition in 1900.

Notwithstanding the repeated statements to the effect that Gen. Joe Wheeler is about to return to Washington to resume his seat in congress, the officials of the war department assert that they know nothing of any such purpose on the part of the officer. Certainly he has not yet applied to the department for leave of absence.

On the petition of a stockholder Judge Gibbons, of Chicago, has appointed a receiver for the Combination Investment Co., a commission and brokerage concern organized in Chicago last July. It is alleged that large sums of money have been received from investors in various parts of the country, which have been used in speculation in bucket shops. It is also charged in the petition that investors have been paid about \$25,000 purporting to have been realized on their investments, but that in reality the money was the principal advanced by other customers.

Senate—No business was transacted except the reading of new members. The death of V. E. President Robert was announced and the senate, as a mark of respect to his memory, adjourned.

House—After the election of officers the oath of office was administered to the members by Speaker Henderson. Mr. Taylor, of Ohio, spoke in the admission of Mr. Roberts, of Utah, and he was not sworn in, his case being raised. The House rules were adopted for the guidance of the house and the session adjourned.

NEW WARSHIPS.

Secretary Long Asks for Authority to Build 18 Cruisers.

The Head of the Navy Department in His Annual Report Requests Congress to Recognize the Valor of Sampson's Men—Other Recommendations.

Washington, Dec. 4.—The annual report of the secretary of the navy is a document of unusual interest, dealing not only with the work of the navy during the past year and important recommendations for the future, but also discussing the more important questions relating to the navy, including the authorization of 18 new warships, the imperative need of special legislation in the early days of congress for armor of the best quality that can be obtained, and the proposition that the thanks of congress be given to the commander-in-chief of the North Atlantic squadron and to the officers and men under his command for the part they took in the naval operations at Santiago.

These larger items of the report receive extended attention at the hands of Secretary Long. As to the increase of the navy he says:

"The number of large, swift and powerful armored cruisers of great coal endurance in our navy is largely disproportionate to the rest of the establishment. The experience of the last year has also shown the need of several smaller vessels, usually classed as gunboats. It is therefore recommended that congress be requested to authorize the construction of the following vessels:

"First—Three armored cruisers, of about 13,000 tons displacement, of a maximum draft not to exceed 30 feet, carrying the heaviest armor and most powerful ordnance for vessels of their class, to be sheathed and coppered and to have the highest practicable speed and great radius of action.

"Second—Twelve gunboats, of about 900 tons displacement.

"And third, as recommended a year ago, three protected cruisers of about 800 tons displacement, carrying the most powerful ordnance for vessels of their class, to have the highest practicable speed."

The secretary's reference and recommendation as to those who took part in the operations at Santiago are as follows:

"While those engaged in the battle of Manila have been deservedly rewarded—and no men ever deserved reward more richly—those who took part in the operations at Santiago, displaying the same extraordinary heroism, have received no recognition whatever for their great services except the recommendations for promotion by the president, which have lapsed, not having been acted upon by the senate. The department believes it due to these gallant men to suggest to you that their services be recognized and equal justice done them and that you recommend the thanks of congress be given to the commander-in-chief of the North Atlantic squadron and to the officers and men under his command.

"If reward by the present system of promotion is abandoned, the department renews its suggestion embodied in senate bill 5,005, introduced at the last session of congress, which provides for medals of honor in war, due for extraordinary heroism, and one for general meritorious service—the first to carry with it a percentage of increase of pay, based upon the rank of the recipient, and calculated to take the place of the increase which would be the result of promotion were that form of reward continued. It is believed that such a medal, worn during life and transmitted as an inheritance, will be far more grateful to a deserving officer than a promotion in rank at the expense of a comrade."

Concerning armor for warships the secretary says: "The most important question pertaining to naval construction at the present time, and one that demands prompt attention, is that of the armor for vessels now building, and for others authorized but not yet contracted for on account of the provision in the act of March 3, 1899, prohibiting the department from contracting for the vessels therein authorized until contract has been made for the armor therefor within \$300 a ton. The price fixed is one for which even inferior armor cannot be obtained, and the department has therefore been unable to invite proposals for the three battleships and the three armored cruisers authorized by the act of March 3, 1899."

"It is urgently recommended that in the early days of its next session congress enact such legislation as may be necessary to enable the department to make contracts early in the coming year for 7,250 tons of armor of the best quality that can be obtained in this country for the Maine, Ohio and Missouri, and that provision of the act of March 3, 1899, limiting the price of armor to \$300 per ton and the restriction preventing the armored vessels therein authorized from being contracted for until the armor therefor is contracted for, be removed."

It is proposed to supply all new ships with smokeless powder. The 12-inch gun has been so greatly developed that it has been designated the heaviest gun for the latest battleships, instead of the 12-inch gun.

A New Thing in Boycotts.

Chicago, Dec. 4.—A novel boycott of the wares of the piano manufacturers who have locked out their employees was decided upon yesterday by the Chicago Federation of Labor. The plan is to induce the renters of pianos to stop the product of the factories involved in the labor troubles. Wherever the tabooed instruments are found on rent the users are to be asked by a committee of the federation to return them to the warehouses where they were obtained and to replace them at once with instruments made at factories that refused to join the lockout.

BUCKEYE BRIEFS.

A Record of Recent Events in This State.

Sustained the Lower Court.

Cleveland, Dec. 5.—The circuit court Monday affirmed the decision of the common pleas court in the case of Joseph L. Baldwin against the Lake Shore railroad. Baldwin's son, Glenn B. Baldwin, was a brakeman on the road and was killed by a bridge under which the train was passing. The father brought suit and in common pleas court received a verdict of \$1,058. The railroad company claimed that it was not responsible, because young Baldwin secured his position as brakeman by false representations. He said that he was 21 years old, when in fact he was but 16.

Stabbed by a Prison Demon.

Columbus, Dec. 5.—Otis Hurley, the Dayton prisoner in the demons' cage at the penitentiary, on Monday stabbed his fellow demon, Frank O'Neil, several times. The two demons fell out about some trivial matter. The stabbing was done with a heavy steel wire sharpened to a needle point. All of the five or six thrusts were made into O'Neil's back and one plunge sent the weapon through the victim's lung. Hurley is believed to have made the weapon with the intention of using it on some prison official.

Street Railway Company Incorporated.

Columbus, Dec. 5.—The Cleveland, Ohio Central & Cincinnati Railroad Co., of West Salem, was incorporated Monday by F. G. McCauley and others. McCauley is a Methodist minister. He secured a franchise some time ago for an electric line from Cleveland to Medina county, but it has not yet been built. The C. O. C. & C. company is capitalized at \$10,000, with the idea of increasing it. It is proposed to build an electric line from Cleveland to Cincinnati.

May Try to Lynch Them.

Lima, Dec. 5.—Charles Lovejoy and John Shugrow, the suspected assailants of Maggie Haub, and who were arrested at Montpelier, Ind., were brought here Monday and placed in jail. They were brought up on a train as far as Wapakoneta, where a buggy was secured and they were driven through to this place. They have not yet faced Miss Haub. If they are identified there may be an attempt to lynch them.

Examiners Appointed.

Columbus, Dec. 5.—The supreme court has appointed the following attorneys to serve for three years from December 31, as examiners of applicants for admission to the bar: E. J. West, Wilmington; C. E. McBride, Mansfield; and Roscoe J. Mauck, Cincinnati. Seymour Cunningham, of Chillicothe, was re-appointed to serve as chairman of the examining committee for the ensuing year.

Kayler Favors Extension.

Columbus, Dec. 5.—Railroad Commissioner Kayler will go to Washington to-day to attend the hearing of the application of the railroads for an extension for two years' time, in which they must have all cars equipped with automatic couplers. Kayler will favor such an extension, on the ground that the railroads have not been able to get the material fast enough for such equipment.

Havages of the Hessian Fly.

Columbus, Dec. 5.—The crop report of the Ohio agriculture department for November shows that 16 per cent. of the growing wheat crop has been destroyed by Hessian fly and 2 per cent. by grub worms. Thirty-nine per cent. of the 1899 crop of wheat was sold as soon as thrashed. The estimated average yield of corn in 1899 was 2,965,361, with an average yield of 36 bushels.

Warren Will Get a Halt.

Warren, Dec. 5.—By the death of Mrs. Angerette Hunt, of Xenia, a beneficiary under the will of the late Judge Milton Sulliff, Warren will get a \$10,000 social and educational hall. The will provides that the city authorities control the bequest, and that the building cannot be used for the sale of liquor or for gambling.

Sensational Developments Promised.

Tiffin, Dec. 5.—Coroner Lepper yesterday sent the stomach of Claude Tuole, whose mysterious death has excited residents of Green Spring and vicinity, to the state chemist at Columbus. Sensational developments are expected at the inquest, to be held as soon as the chemist is heard from.

Convicted of Assault.

Cleveland, Dec. 5.—Charles H. Seaton, the Big Consolidated conductor who shot Henry Pudlock, in South Brooklyn, during the strike, is guilty of assault and battery. The sealed verdict which the jury rendered in the case was read in criminal court Monday.

Killed by a Train.

Youngstown, Dec. 5.—Dwight Jones, aged 22, night electrician of the Mahoning Valley Iron Co., in attempting to avoid one train near the mill stepped in front of an Erie passenger train, receiving injuries resulting in his death an hour later at the hospital.

Wants the Guard to Attend.

Columbus, Dec. 5.—Adj. Gen. Axline is preparing to send out a circular to the national guard, urging them to attend the inauguration of Gov.-elect Nash January 8. The various organizations of the guard will have to pay their own expenses.

Moore Will be Surrendered.

Boston, Dec. 5.—The local police officers have received word from Chili that by a decision of the supreme court of that country, Frederick T. Moore, who is wanted here for the embezzlement of a large sum of money from the National Bank of Commerce, will be surrendered to the Boston officers now on their way to South America.

A NOTABLE SILVER ANNIVERSARY.

With the close of the present year Mr. David C. Cook, of Chicago, will celebrate his first quarter-centennial as editor and publisher of Sunday-school literature. Starting twenty-five years ago, without reputation or assurance of support, he has become one of the most widely and favorably known publishers in this line. Beginning in 1875 with two small publications, his periodicals have grown in number and favor until there are few schools in this country that do not find it to their interest to use some of his pure and helpful publications, while many in distant lands pay tribute to their merits. The past quarter of a century has witnessed many changes among Sunday-school publishers, and much less time than this has sufficed for some to outlive their usefulness. On the contrary, Mr. Cook is preparing to celebrate the beginning of another quarter-century with additional improvements and new publications. Among these may be mentioned the New Century Sunday School Teacher's Monthly, a large and thoroughly up-to-date magazine for superintendents and teachers, the first issue of which will appear in December. Among the most remarkable of his publications is the Young People's Weekly, which has attained a circulation of nearly a quarter of a million, being a successful attempt to furnish a high grade of religious story reading for boys and girls. To avoid the "gooey-gooey" story of the Sunday-school, such as we remember in our childhood days, and furnish something natural, interesting and ennobling, has been its aim, and we are not at all surprised at its popularity.

The restraining influence of the Christian home and the Sunday-school on our growing community of young people, some of us may not appreciate as we should—perhaps because these sometimes fail to restrain. This paper should be a most welcome accessory in this work, and one which all should appreciate. Boys and girls will read, and the story book and paper are their first choice. There seems a plentiful supply of religious papers for older people, but this is the first successful attempt to furnish a non-sectarian religious story paper for young people.

The paper is profusely illustrated, beautifully printed, and contains as much or more reading matter than the most expensive of secular young people's story papers. The price, seventy-five cents per year, should bring it within the reach of every home. Mr. Cook is now making a special effort to give the paper a wider circulation, and all who send seventy-five cents for a year's subscription before Jan. 1st will receive a beautiful premium picture entitled "The Soul's Awakening." It is exactly the same size (10x13 inches) and style as those on sale at art stores for \$1. Orders should be addressed to David C. Cook Publishing Co., 36 Washington St., Chicago.

Probably no man living has done so much to improve and cheapen Sunday-school literature as has Mr. David C. Cook. Through his aid thousands of schools have been encouraged, improved and made self-sustaining. Mr. Cook is yet a comparatively young man, and it does not appear at all improbable that his field of usefulness may extend over yet another quarter-century.

Sees That Pass in the Night.

Jacques leaned over the gunwale of the fatboat as she floated lazily down the Detroit river. He smoked his pipe. Pierre hung over the rail of the scow that was up bound. He also was enveloped in a hazy smoke.

In the moonlight the two boatmen recognized each other.

"Hello, Pierre. How you get along?"

"Oh, I been get along. How you get along?"

"Hi, I been get along, too."

"Hi, your seek itair get along, Jacques?"

"My fatir? Oh, she get along. She been died last week."—Detroit Free Press.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. Cheney & Co., Toledo, O. Sold by Druggists, 75c.

Hall's Family Pills are the best.

Higher Criticism.

The savage held his temper admirably. "Nature," he replied, with a comprehensive gesture, "is our Bible!"

"Then of course you have no higher criticism!" exclaimed the enlightened man, shuddering.

"Oh, but we have!" protested the savage, vehemently. "Why, there are among us any number of advanced thinkers who wonder for instance, if there isn't too much salariness in the bread fruit! Yes, sir!"

Here we see that the mind is alike impotent of letters, no matter what man's corporal condition be.—Detroit Journal.

A Preacher's Discovery.

Rev. J. W. Rosser, M. D., who has for many years made a specialty of catarrhal diseases, has discovered a remedy that cures the worst cases of Catarrh, Bronchitis, Asthma, Catarrhal Deafness, etc. It is a penetrating, healing, smoke vapor that goes directly to every affected spot, destroys the germs of the disease and heals the mucous membrane. Any sufferer who will address Dr. J. W. Rosser & Son, 113 Broad St., Atlanta, Ga., will receive, postpaid, a three days' trial treatment free.

When Baby Has the Croup

use Hoxsie's Croup Cure. It does not contain opium in any form and will not nauseate. 50 cents. Dr. F. Hoxsie, Buffalo, N. Y.

All is fair in love—except the actions of the other fellow—Chicago Daily News.

Coughing Leads to Consumption.

Kemp's Balsam will stop the Cough at once. Go to your druggist to-day and get a simple bottle free. Large bottles 25 and 50 cents. Go at once; delays are dangerous.

Wellington Secret Orders.

TRIBE OF BEN-HUR.

MELCHIOR COURT, No. 38, T. R. H., meets every second Monday evening of each month in Grand Army hall. Visiting members made welcome.

A. G. Wall, Chief.

R. Vanator, Scribe.

GRAND ARMY OF THE REPUBLIC.

HAMLEN POST, No. 619, G. A. R., meets every second and fourth Wednesday evenings of each month at Grand Army hall.

Visiting comrades are welcome.

A. W. Griggs, Commander.

C. Sage, Adjutant.

WOODMEN OF THE WORLD.

WOODBINE CAMP, No. 60, meets each second and fourth Tuesdays of each month at Grand Army hall.

Visiting sovereigns welcome.

HOWARD HOLLENBACH, Camp Commander.

Claude R. Lebeck, Clerk.

ORDER OF CHOSEN FRIENDS.

LODGE No. 62, meets first and third Fridays of each month at Royal Arcanum hall. Visiting Chosen Friends welcome.

F. H. Phelps, Counsellor.

Mrs. L. A. Willard, secretary.

ROYAL ARCANUM.

LODGE No. 563 meets every second and fourth Mondays of each month at Royal Arcanum hall. Visiting members welcome.

E. W. Adams, Regent.

R. N. Gpodwin, Sec'y.

INDEPENDENT ORDER OF ODD FELLOWS.

Lovain Lodge, No. 281, meets every Tuesday night at Odd Fellows' Hall. Visiting members welcome.

J. O. Lang, Noble Grand.

R. T. Spioer, Recording Secretary.

WELLINGTON ENCAMPMENT, I. O. O. F., No. 247.

Meets on second and fourth Thursdays of each month at Odd Fellows' Hall. Visiting members welcome.

John Pember, Chief Patriarch.

A. H. Peirce, Scribe.

KNIGHTS OF THE MACCABEES.

Wellington Tent, No. 195, meets on the second and fourth Fridays of each month at Maccabee Hall. Visiting Knights welcome.

J. H. Yocum, Commander.

W. W. Helman, Record Keeper.

MASONIC.

WELLINGTON LODGE, No. 127, F. & A. M., meets Tuesday night on or before each full moon and two weeks thereafter.

W. W. Metzger, W. M.

F. G. Yale, Secretary.

WELLINGTON CHAPTER, No. 129, R. A. M., meets on Tuesday night following each full moon.

E. R. Stannard, High Priest.

F. G. Yale, Secretary.

KNIGHTS OF PYTHIAS.

Wellington Lodge, No. 440, K. of P., meets every Friday night at K. of P. Hall. Visiting Knights welcome.

W. T. Burdick, Chancellor Com.

R. T. Spioer, Keeper of Records and Seal.

LADIES OF THE MACCABEES.

Wellington Hire, No. 89, meets on the first and third Friday nights of each month at Maccabee Hall. Visiting lady Maccabees welcome.

Mrs. Alice Yocum, Commander.

Mrs. Emma Coates, Record Keeper.

W. R. C.

Hamlin Relief Corps, No. 28, meets on the first and third Tuesday nights of each month at Grand Army Hall. Visitors welcome.

Mrs. H. A. Knapp, President.

Mrs. Ada Kerns, Secretary.

REBEKAHS.

Lillywood Lodge, No. 223, meets on the first and third Wednesday nights of each month at Odd Fellows' Hall. Visiting Rebekahs welcome.

Mrs. Bessie Wight, N. G.

Mrs. Frances Williams, Rec. Sec'y.

HIGH-GRADE HAWTHORNE \$22.50 NET.

Specifications: Name—Hawthorne. Cycles—34 inch (diamond shape). Chain—34 inch best imported centers and rivets (Indonesian). 2 best quality, steel center and steel tire. Best quality bicycle tires. Best quality bicycle wheels. Best quality bicycle gears, nearly best. Gear—Superior. 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66, 68, 70, 72, 74, 76, 78, 80, 82, 84, 86, 88, 90, 92, 94, 96, 98, 100. Best quality bicycle chain. Best quality bicycle tires. Best quality bicycle wheels. Best quality bicycle gears, nearly best. Gear—Superior. 14, 16, 18, 20, 22, 24, 26, 28, 30
