The Height of Folly.

To wait until you are down on your bed with disease you may not get over for months, is the height of folly, when you might be easily cured during the early symptoms by using Parker's Ginger Tonic. It costs only a trifle, can never do any harm, and possesses curative properties in the highest degree. We have known the palest, sickliest looking men, women and children become the rosiest and healthiest, from the timely use of this pure family medicine. See advertisement in other column.—Observer, may 12-1m
