A Columbus correspondent of the Toledo Blade thus speaks of Rep. J. F. Meyers of this county: "Hon. Jacob Meyers is now serving his second term as the Democratic member from Henry county. Mr. Meyers is a farmer, and is looked upon here as a member who does his duty to the state. He rarely speaks and introduces but few bills. Nobody questions his Democracy, and there is such a Republican majority here that Democratic principles do not thrive. It is high protection has been such a boon to the laborers of this country, as the Signal insists, how does it come that labor is so restless and is only employed a part of its time? Under the system of a tariff law before the late rebellion, strikes were an unheard of thing in this country. While now, in high protective times, strikes are almost of daily occurrence. This condition of things alone should convince any reasonable mind that something is palpably wrong. We believe the wrong to be the protective tariff. Now what does the Signal believe it to be. WHEN the Republicans speak of the vast increase of wealth of the United States in the last ten years, they should be honest enough to point out who has it. Nobody will deny that we have increased in wealth in the last ten years; we have increased every ten since we became a government. But the last ten has done what no other ten ever did, it has put all that increase in the pockets of the few, and taking it out of the pockets of the many, so that in ten years the rich have grown richer, while the laborer and the farmer have grown poorer. The farmer and laborer made the wealth, but the millionaire and manufacturer have it.

NORTHWEST.—I desire, by your permission, to say a few words with reference to the following, published in the NORTHWEST under date of Jan. 18th, 1894: "REP. NORTHWEST: SIR—I would like to reply to the article in your paper about the death of Peter Witham, who died in the Napoleon jail last Friday at 11 o'clock a. m. He was forcibly taken from his wife and daughter on the Friday previous to his death by the sheriff under orders of Dr. T. M. Gehrett. He was taken from his sick bed and taken to Hoigate by train and there across the country in a buggy, and his family were not informed of his condition after he was taken away, so that his wife nor daughter could be with him at his last moments. Yours, L. E. S." To those who are acquainted with the circumstances in the above cited case, it perhaps seems a waste of time to pay any attention to this silly babbling of the members of both parties, who die in the hands of a butcher-knife, and if her testimony is to be believed, she was in constant fear and danger of being injured, if not killed. That this man was insane and wholly irresponsible I have no doubt. The nature and cause of which, I shall not stop to discuss here. This man in question together with his wife and a son about twenty-six years of age were objects of charity. This support came mainly through a son, C. S. Witham, and relief furnished by the township trustees. Some time in Dec., 1893, he came to his wife's son, C. S. Witham, and remained with him until he was taken to Napoleon by the sheriff. The son's wife being in poor health at this time, was in constant fear of being injured by the old gentleman. She alleges that soon after his coming to their house, he attempted to strike her with an iron stove poker. C. S. Witham knowing his father to be irresponsible for any of his acts, and under the circumstances could not give him proper care and attention, and notwithstanding the fact it was explained to him and the family that from the very nature of his father's condition he could not live many months at most, he determined to take advantage of the law which provides for the care of such cases. This he had a moral and legal right to do. After a mutual understanding and consent of the family, John Jamison the father-in-law of C. S. Witham, made the necessary affidavit to bring the case before the probate court. This affidavit was executed before J. M. Patterson a justice of the peace, who forwarded the same to the probate judge. A warrant was issued by the court and placed in the hands of the sheriff to arrest this man and bring him into court on the charge of insanity. This warrant was duly executed by the sheriff, and Peter Witham was brought into court, duly examined, adjudged insane and ordered to be taken to the asylum at Toledo. On account of his age and incurable condition, he was refused admission and returned to Napoleon where he died as stated. Thus it is now the man happened to be in the Napoleon jail when he died. I don't see why any one should be reproached in this matter. I believe what was done for this unfortunate man was done in good faith and thought to be the best for him and all concerned. Why this erudite(?) correspondent should represent to the public that a great injustice has been done in this case, and that I am responsible for the same, I am unable to understand. L. E. S. was certainly in gross ignorance of the facts in this matter or willfully and maliciously misrepresented. Yours truly, DR. T. M. GEHRETT, DESHLER, O. Jan. 22, 1894. (Continued from first page.) FROM THE STATE TREASURY. Missouri pays its president \$3,600; Illinois, \$2,000; California, \$8,000; Wisconsin, \$5,000; Nebraska, \$5,000. It will be seen that these other states pay better salaries for the chief officers of their state colleges than does Ohio. As Dr. Scott is very likely to leave, and is in fact anxious to leave as soon as his successor can be found, some step must be taken to compete with other institutions if Ohio wants to stand at the head or anywhere near it. The New Committee on Taxation provided for under the amended house rules will have at its head Mr. Griffen, who has occupied a prominent place in state legislation for many years. This committee will attempt to bring into the state treasury some additional and much-needed cash. The state has been running behind for several years, because the state has been growing and its institutions have been enlarged and increased in number; at the same time no increase in the revenue has been provided for. The result was inevitable. The real cost of running the state government is less per person, which is the only true method of making comparisons, than it was 20 years ago. The revenues have not kept pace with the expenses, and the mortgage was bound to come at last. The largest sum of money received from the general government on the direct tax bill several years ago aided materially to reduce the real indebtedness of the state. At the same time nothing has been done to get at the real difficulty, namely, to make a permanent addition to the revenues. This committee is charged with this special duty, and if it keeps away from experimental legislation and goes ahead in tracks already made sure, the desired increase may be brought forth. The Nichols law taxing telegraph companies and other corporations, is now in the supreme court of the United States, and a decision is not looked for until after the present session of the legislature is over, so that it is not known whether or not other taxes may be levied in like manner. If it should turn out that the law is upheld the state will have a chance to increase its revenue a half million of dollars without half trying. No National Guard Encampment. It looks now very much as if the state encampment of the national guard for this year would be abandoned. This will be looked upon as a hardship by the soldier boys of the state, but there seems to be no other way to do. The saving will be in the neighborhood of \$100,000, and a large sum will be necessary to buy new uniforms. The subject is being carefully considered by the members of both houses, and if a way can be found to leave the encampments, they will come along in due time, otherwise not. A MEMBER OF THE HOUSE.

Gentlemen:—It affords me pleasure to give you a recommendation for Dr. Kilmer's SWAMP-ROOT, of which I have taken 3 small bottles. I purchased the medicine of A. G. Stone, the Druggist here in Butler, Ind., March 7, '93. W. H. CHILSON, RHEUMATISM! RHEUMATISM! Swamp-Root Cures. Dr. Kilmer & Co., Binghamton, N. Y. THE NATIONAL FARMERS' ALLIANCE IN CONVENTION AT CHICAGO HAS TAKEN THE FIRST STEP TOWARDS A CONFEDERATION OF AGRICULTURAL UNIONS THROUGHOUT THE UNITED STATES. A definite plan of organization, to induce the five prominent orders of this country, was adopted and a committee appointed to secure its adoption by the other unions. The organization will be called the "Farmers' Union," and the alliance men are confident that it will receive the hearty indorsement of every section of agricultural interests. Persons at the head of the government have given out the information that they already had received the tacit indorsement of the Grange, the Farmers' Mutual Benefit association and the Patrons of Industry. The Farmers' Union will be incorporated under the laws of Illinois, and it is expressly provided that it shall be a non-secret organization. As a committee to hasten the adoption of this plan by the other orders there were appointed E. J. Rye, West Branch, Ia.; Milton George, Chicago, and Wells Purvis, Cardington, O. This looks very much as though the Farmers' Union would gobble up the Patrons of Industry in a manner something like the Patrons absorbed the Grange. Brighter Days Will Dawn. It should be remembered that the McKinley tariff, which was going to make everybody rich and happy, is still in operation. Although its advocates declare that the higher-than-war tariff was for the benefit of the workingman, wage reductions began as soon as that law was enacted. The decline has been continuous ever since until a period of depression was reached that has only been surpassed by the war-tariff panic of 1873. However, tariff reform is near at hand, when brighter and better days will dawn. The McKinley monopoly tariff was for the enrichment of a favored few. The Wilson relief bill is for the benefit of the people. The present administration, and the people of the country as well, had to begin the new year with the McKinley tariff law still upon their shoulders, but before long that law will have been repealed and the American industries which have been forced to shut down will be able to compete with foreign manufactures in every market in the world. THE Columbus Dispatch is exceeding worth because ten porters have been appointed in the Senate at \$3.50 a day each. That isn't much for a reform Senate. It doesn't cost much each day to run that dignified body. Lets see—there are six clerks at \$5 a day each—\$30. Six sergeant-at-arms and a cloak watcher, same per diem, \$35. Ten porters at \$3.50, \$35. Nine pages at \$2.50, \$22.50; total \$125.50 per day. The people take their choice at the election and they pay their money afterward. That's simple enough. That's the Republican economy, says the Zanesville Signal. THOSE who oppose the income tax seem to think it better that the poor pay all the taxes than that millionaires be tempted to commit perjury.

UNITED STATES DETECTIVES ARE SEARCHING FOR A GANG OF COUNTERFEITERS WHO ARE FLOODING CINCINNATI WITH ALUMINUM DIMES OF THE DATE 1893. The counterfeit is an especially fine one and but for the weight cannot be detected with the naked eye. This is the first counterfeit to be made of aluminum so far as the local government authorities know. It is probably not the coldest weather you ever knew in your life; but that is how you feel just now, because past sufferings are soon forgotten, and because your blood needs the enriching, invigorating influence of Ayer's Sarsaparilla—the Superior Medicine. "The losses to the country from the business stagnation foot up an enormous total," says a Republican organ. And still the McKinley tariff is doing its own talking. How's This?
