IT HAS COME TO IT.

The age of progress which started nearly a century ago, instead of being dimmed at the close of the 19th century as was predicted, is still in evidence, and its wonderful and awe-inspiring results are yearly advancing onward and upward. New things that a few years ago were of the unknown are to-day accepted with scarce a thought of their long rest in the grave of time. More things will come which are at present "unheard of and unsung." We offer as illustrations, that in a few years we will establish a communication with the inhabitants of Mars; we will be conducted safely and conveniently through space at such a speed that the Atlantic ocean will be but a few hours distant; horses will only be seen in circus menageries and zoological gardens as relics of olden times.

With these marches of progress the old drug store of Saur & Balsley, the store of the Golden Mortar, will keep pace in the future as it has in the past. Compare us now with what we were 15 years ago. Where we could a few years ago mention our stock in a few words, to-day we handle practically everything in our line of business. We are at that point where we can foresee no chance of improvement but in another year chances will present themselves and we will be "larger than ever before."

Coming to solid facts our latest advancement has been in the way of low prices. No longer does a man have to be well fixed in order to be able to purchase our line of goods. We can sell to everybody now where a few years ago our customers were limited.

In two of our departments especially, we have made such rapid advancement that if you stop to think it will surprise you as much as if the much talked of air ship would fall in your front yard. We refer to our paint and wall paper departments. Where we were practically nothing, now we are everything. We can paper you on the inside and paint you on the outside—house, barn, shed, chicken coop, pig pen and all—for money that you consider cheap.

Napoleon Races.

The results of the races at the Fair Ground track Tuesday and yesterday were as follows:

| TUESDAY. | |
|-------------------------|-------|

Miss Grace Yeager of Fulton county is a guest at the home of Jas. Donovan.

Mrs. T. G. Barnhill and Mrs. Craven of Findlay are guests at the home of Dr. Barnhill.

Friends assisted Prof. Weisbaech to celebrate his birthday anniversary on Monday night last.

Bruce Myers of the Tiffin Advertiser is in the city taking in the races. Mr. Myers is Secretary of the Tiffin Driving Park Association.

The Royal Arcanum gave a delightful reception at K. P. Hall last night.

A fine musical program was rendered by Prof. Walther and wife, of Toledo, which showed the Prof. to be a fine performer on the piano and his wife a singer of large scope. They entertained the large audience handsomely. The refreshments were served by the ladies of the Episcopal congregation in their usual happy manner. Taken all in all the reception was a decided success.

There is Nothing so Good.

There is nothing just as good as Dr. King's New Discovery for Consumption, Coughs and Colds, so demand it and do not permit the dealer to sell you some substitute. He will not claim there is anything better, but in order to make more profit he may claim something else to be just as good. You want Dr. King's New Discovery because you know it to be safe and reliable, and guaranteed to do good or money refunded. For Coughs, Colds, Consumption and for all affections of Throat, Chest and Lungs, there is nothing so good as Dr. King's New Discovery. Trial bottles free of charge. J. H. Humphrey's, Drug Store, Regular size 50c and \$1.00.

Fourth of July Excursion Rates.

Via Detroit & Lima Northern Railway.

Ticket agents of the Detroit & Lima Northern Railway will sell low rate excursion tickets July 3d, 4th, and 5th, good returning until July 6th to any point within a radius of 200 miles from selling station. See D. & L. N. ticket agents for further particulars.

Teachers Hired.

| | |

| " 3..... | Rush Croninger |
| " 4..... | Katharine Stemm |
| " 5..... | Ote Barnes |
| " 6..... | Daniel Huddle |
| " 7..... | Samuel Nestlerod |
| " 8..... | George Krayer |
| " 9..... | C. J. Hartman |

This Will Interest You.

Especially the progressive farmer and those who have the care of their farms, to know that after practical tests of the different kinds of oils that are used for greasing harness that Neatsfoot oil has been shown by actual tests to be the favorite oil for that purpose. It softens the leather and makes it more pliable than any other known harness oil. Your harness, too, will last nearly twice as long by using the best quality of Neatsfoot oil. Saur & Balsley have just received a barrel of the finest Neatsfoot oil obtainable which they will sell to you at a very low price.

New Colonel for the 16th Regiment.

At the election held on Friday last Capt. McMaken of Toledo was almost unanimously selected as Colonel of the 16th Regiment. The vote stood as follows:

| | |
|----------------------|----|
| McMaken, Lemmon. | 49 |
| Co. A, Toledo..... | 48 |
| Co. C, Toledo..... | 38 |
| Co. H, Toledo..... | 46 |
| Co. D, Fostoria..... | 41 |
| Co. B, Sandusky..... | 39 |
| Co. E, Bryan..... | 41 |
| Co. F, Napoleon..... | 42 |
| Co. G, Wauseon..... | 37 |
| Co. I, Clyde..... | 40 |

Sunday Excursion Train.

In stamps. Trial package FREE. Address, Allen S. Olmsted, LeRoy, N. Y. jal0-4m

A MOTHER KNOWS.

Some Things People Don't Think of.

"Just why it is that children at the breakfast table will beg for a little coffee after day, I am unable to say, except that they have a deeply rooted desire to have what their parents do in the way of food and drink, then I believe they naturally like something not to sip with a spoon; at any rate, the demand is there and I'm blest if it isn't hard to get over, when one has three or four in the family, but we can't give our young folks coffee to drink. Everyone knows its effect on children and it seems almost criminal to set before the innocents something we know will harm them."

So speaks a thoughtful mother and to such the grain coffee, Postum, comes as a blessing to solve the vexed question.

Dr. H. W. Pierson, "Medical Advance," 6351 Stewart Ave., Chicago, says, "We know of your Postum and are very much pleased with it. Decidedly opposed to the use of both tea and coffee."

Postum will pass for coffee to nine out of ten people if they are not warned in advance. It has the deep seal brown of old Java and changes to the rich golden brown of thick Mocha when cream is added. It is made wholly and entirely of pure grains of the field, wheat, etc., such as are intended by the Creator for man's use in this latitude. Postum, the health coffee can be drank as freely as water with out any of the ill effects of coffee, and in a week or ten days' time the coffee user will note a marked change in his feelings and flesh. It makes red blood in the natural way and agrees with babies or grown people. Made by the Postum Cereal Co., Ltd., of Battle Creek, Mich.

Beware of fraudulent imitations of the original Postum Cereal grain coffee. Insist on Postum.

HUNTING AN HEIR.

An inheritance waiting for a Missing Heiress in Texas.

The following letter from James B. Goff & Son, proprietors of the Texas State Journal, of Austin, Tex., fully explains itself. We give it publication, hoping that it may meet the eyes of some one acquainted the lady mentioned.

AUSTIN, TEX., June 5th, 1897.

Ed. NORTHWEST.—This item may be of interest. George M. Kasson died in 1895, leaving an estate valued at over \$100,000 which awaits claim of his unknown heirs. Mr. Kasson was married in 1845 to a young lady, Mary Hayden, by whom he had a daughter, born March 15, 1852, who is still living, and whose name is supposed to be Mary Mann, a widow. She is small and of dark complexion; has black eyes and black hair. She has a child now 7 years old named Alma Green. She must assert her rights soon or it will be too late. Robert Moreland Green and John Lafayette, who both died in Texas over forty years ago, were relatives of Alma Green's father, and their heirs are wanted also. Will give further information on request.

JAMES B. GOFF & SON, Austin, Texas.

The Gas Fields Giving Out.

The report of the state geologist of Indiana for the past year has just been published, and it forbodes the failure of the natural gas fields at no distant day. The territory now producing natural gas includes a region of about 2,500 square miles, and no new discoveries have been made or are now likely to be made. A decrease in the pressure was first noticeable in 1895, and it is still diminishing. It would not be surprising therefore that if within a year or two the supply would be so much diminished that the general use of the gas would have to be abandoned. Such was the case with the gas fields of Ohio and western Pennsylvania, and such will probably be the fate of the Indiana fields.

It will be remembered that the Pennsylvania fields, though long known, or at least suspected, were not extensively opened until 1878, and it was not until 1884 that the gas was piped to Pittsburgh. Then it was that the smoky city became smokeless, but this did not last long. A handful and smoke once more reigned supreme in the city of iron, steel and coal.

The gas fields of Indiana were discovered in 1889, and now after ten years they too will become a thing of the past. Nature seems to have no continuing gas manufacturing. After having made a supply and deposited it in pockets she broke the reservoirs and gave up the business.

Arm Broken.

While picking cherries for John Utz Tuesday morning, Arthur Christy, a 15 year old boy, met with a serious accident. He fell on his arm, which he was standing bare under his weight and he was thrown to the ground striking on a picket fence in the fall. His right arm was broken at the wrist and elbow, the bone in both places sticking through the flesh, and his shoulder thrown out of joint.

Deafness Cannot be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have ringing sounds or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. im Hall's Family Pills are the best.

Hamler Burglars Caught.

The thieves who have been going through the hardware store of J. L. Arnold at Hamler have finally been caught and are lodged in jail. They were captured in Findlay by a detective and brought back to Hamler where they had their hearing before Mayor A. A. Fry.

Ray Turpin was found guilty of breaking into the aforesaid store on the 6th day of March, 1897, and was bound over to Common Pleas Court under a bail of \$500, which was not furnished. Turpin is the man who was connected with the Union House last winter.

Chas. Watson was brought up to answer to the charge of breaking into the store on November 19th, 1896, but his hearing was continued until to-morrow.

"Texas Aid Society"—a Social Event.

A year or two ago a number of the leading families of the town formed the above named society. Its object is to assist in maintaining a Sunday school the entire year through. It assists in buying supplies for the Sunday school, and also aids in keeping up the incidental expenses of the church. The society is not denominational and has in the past contributed equally to the support of the M. E. and M. P. ministers. Now that there is but one regularly appointed minister, the Aid endeavors to give him social and material assistance. The leading thought of the society is that Texas and community must have church and Sunday school services, and that these must have financial support. This is not a society of women only. The fathers, sons and brothers of the fair sex are in the best. In some instances, the whole families belong, which reminds us of what we read of the old patriars and their families.

The fathers and mothers could see no good coming to their children playing about the streets on the Lord's day, so their efforts in this commendable work. During the past week the Sunday school was conducted through the whole year, a thing which had not been done for several years before.

The society raises its money by quarterly dues, collections and socials. Saturday night, June 13th, an ice cream and strawberry festival was decided upon for the following Thursday night. This event proved a rousing success. The committees had not the least trouble in getting all the material for the tables free of cost; they had more than they could use. Everywhere the committee knew its helpers. About 135 to 150 were present. A number of the young ladies and gentlemen sang some stirring gospel hymns, and old and young enjoyed a "feast of love and flow of soul." The refreshments were served in all around, everybody had reason to say "go home and do likewise" again. We would like to mention several who labored like Trojans to make the social a success, but because nearly the whole society had a hand in it, we will have to refrain. Suffice it to say the Aid knows its helpers. The neat sum of \$11.25 was cleared and immediately handed over to the pastor, Rev. J. D. Trumbo. The next number on the Aid's program will likely be an entertainment. Let the good work go on.

TIMOTHY.

Parasols and sun umbrellas, in black and the newest colorings, at the most satisfactory prices can be found at Wilson's. Children's parasols from 25c to \$1.75.

Farmers' Attention.

The Henry County Farmers' Mutual Insurance Company is now carrying its member's insurance in full force. Any owner of farm property wishing same insured will be called on by solicitors in your locality on notice to any director of the company or to the secretary, who will be found at the company's office in north east room of basement of court house on Saturdays.

A. C. SENTER, Napoleon.

Free portraits of Gardner's of your self or any of your family.

Fourth of July Excursion Races.

Via the Baltimore & Ohio R. R.

On July 3, 4 and 5 the Baltimore & Ohio Railroad will sell excursion tickets to and from all stations within a radius of 200 miles from starting point, at rate of one fare for the round trip. Tickets will be good for return until July 6, 1897.

Surprise Party.

GRETTON, O., June 14th, '97. The friends of Mr. and Mrs. Dennis Clark to the number of fifty gave them a surprise party on the evening of Saturday, the 13th. A very enjoyable time was passed during the evening. The friends of the insured will be called on by solicitors in your locality on notice to any director of the company or to the secretary, who will be found at the company's office in north east room of basement of court house on Saturdays.

Tired, Nervous, Sleepless

Men and women—how gratefully they write about Hood's Sarsaparilla. Once helpless and discouraged, having lost all faith in medicines, now in good health and "able to do my own work," because Hood's Sarsaparilla has power to enrich and purify the blood and make the weak strong—this is experience of a host of people.

Hood's pills are the best family cathartic and liver medicine. Gentle, reliable, sure.

At various clubs in France lists of eligible girls backed by glittering bank rolls are to be found.

Of late years sport has become a kind of idleness.

So says the London Methodist.

Questions for Teachers.

The following is a partial list of questions given last week at the examination for teachers for the Napoleon Union Schools.

PSYCHOLOGY.

1. What is Psychology? What are the methods of studying it?
2. What are the nature's energies of self? Outline them briefly.
3. What is perception? Conception? Intuition-powers?
4. What is the difference between a percept and a concept?
5. What is observation? Name and define the different kinds.
6. What is memory? Association? Kinds of association?
7. What are the thought-powers? How are judgments formed?
8. What are emotions? Name and define the different kinds.
9. What are the will-powers? What are the steps in the process of willing?
10. What is apperception? Consciousness? Sub-consciousness? Ego? Non-ego?

GENERAL METHOD.

1. What is method? A device? A means of education?
2. Name and define the six general methods of instruction?
3. Give some of the objects of introducing nature-studies into schools.
4. What are some of the advantages of the phonetic method of teaching reading?
5. Arrange the following in the order in which they should be presented in the primary reading: printed symbol; written symbol; picture symbol. Give the reason on your answer.
6. State two advantages, in primary number work, of teaching the reverse of fundamental operation in connection with that operation.
7. Make the subject "diamonds" and outline an ideal language lesson from it.
8. Would you teach the multiplication by means of money or sex? Why?
9. Name the advantages and disadvantages of concert recitation.
10. Upon what is every scientific method based? Explain.

HISTORY OF EDUCATION.

1. What can you say of the schools and education of the Hindus and what system has prevailed in their schools?
2. Give the chief features of the Spartan Education.
3. What did Pythagoras do for education? Give his works.
4. Name three Roman educational reforms and give the results.
5. Give the effect of Christianity upon education. Give some of the effects upon education.
6. Describe the methods selected in the middle ages as to organization, aims, course of study and discipline.
7. Briefly compare the schools of the Jesuits and Port Royalists as to character of work, extent and influence.
8. Give the meaning of Renaissance. Give the result of same.
9. Sketch the life of Comenius.
10. Mention some characteristics of the educational work of Aeschylus, Bacon, Montaigne, Sturm, Locke, Rousseau, Mollater and Mann.
11. What is the "new education"? Who is the father of it? Why?
12. What is the meaning of History of Education? Frivium?

THEORY AND PRACTICE.

1. Give three purposes of recitations.
2. How should you prepare for recitation? How overcome?
3. What is the meaning of "laboratory and academic methods"?
4. Give meaning of abstract and concrete arithmetic. Proportion of each in class work.
5. What faculties of the child are first developed? How stimulated?
6. What are proper incentives to study? Incentives? Incentives?
7. What is attention? Kinds?
8. What are some of the chief causes of dullness in school room?
9. Why not study nothing but arithmetic on Monday, arithmetic on Tuesday, and geography on Wednesday, etc.?
10. What educational papers do you take and read? What papers do you take for profession?

ARITHMETIC.

1. Find the initial value of a sum that produces \$300 a year, allowing interest at 6 per cent.
2. What is the average price of 6 lbs. tea at 80 cts., 5 lbs. at 60 cts., 15 lbs. at 40 cts., and 9 lbs. at 40 cts.?
3. A line in crossing a river 50 yds. wide drifted with the current 300 yds. how far did it go?
4. What is the cost of a bill of exchange on London for £50, 12s. Exchange quoted at 148? Draw the bill at sight.
5. How many inches in a meter? How many quarts in a liter?
6. An article costs 10 per cent. less, the per cent. gain would have been 15 more; what was the gain?
7. Write a note for \$100 due in five years, with interest at 5 per cent. payable annually. If nothing was paid on above note until the expiration of the 5 years, find the amount due at that time.
8. A man and 2 boys can do a piece of work in 4 days; how long will it take the man alone.
9. How long will it take a boy to do the same work as a man?
10. Extract the cube root of 13824.

CIVIL GOVERNMENT.

1. Name and define the three distinct systems of local government found in the several states.
2. Name and define briefly the powers or branches of the gov't.
3. Is it in the power of Congress to enact any law it chooses? Why?
4. What powers may be exercised by the U. S. Gov't?
5. What powers may be exercised by the state gov't?
6. What is the writ of Habeas Corpus and its purpose?
7. How is the president chosen?
8. Where does the treaty making power lie?
9. How can you compel a city or county to pay its debts?
10. What is the veto power of the President? of the Governor of Ohio, and how overcome?

"Gentlemen of the jury," said the lawyer "there were 38 hogs Please remember the fact—just three times as many as in the jury box, gentlemen." It is needless to say the other side got the jury's verdict.

Gen. Grosvenor, the mouth piece of the administration, said at Toledo on Tuesday that the farmers had no need of complaint, as they are receiving 25 per cent. more for their produce now than they were a year ago, giving the credit for advance to the Republican administration. Gen. Grosvenor deliberately LIES when he says that construction upon the condition of the times and prices at present, the time. One year ago this date far, the produce was quoted in Napoleon market at 68c for wheat, 28c for rye, 10c for corn, and 10c on oats. To-day the quotations on these articles are, wheat 72c, rye 20c, corn 33c, and oats 14c. Wheat is a little stiff in price at the present time because of the foreign demand and failure of crop in localities last year, which the republican administration has no control over. But the Republican administration and policy is responsible for the general stagnation of prices now, for which condition they offer no relief outside of high tariff! The people taxing themselves to better their condition! Whoever heard of such a thing!

The following conversation, which occurred in one of the city ticket offices a few days ago, is a sample of the pleasant occurrences which a ticket seller experiences in the course of his career:

"Give me a time table," said a short man with a straight, hanging beard to the clerk.

"Where do you wish to go?"

"None of your business," was the curt reply. A copy of the time table was passed to the man, and he took his leave.

"That's one of those fellows who would complain of a conductor if he failed to say 'Please' when asking for a ticket," remarked the clerk.—True Flax.

Try Grain-O! Try Grain-O!

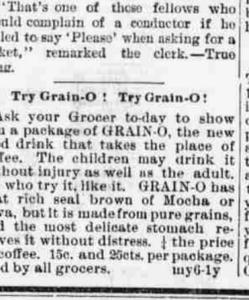

Ask your Grocer to-day to show you a package of GRAIN-O, the new food drink that takes the place of coffee. The children may drink it without injury as well as the adult. All who try it, like it. GRAIN-O has that rich seal brown of Mocha or Java, but it is made from pure grains, and the most delicate stomach receives it without distress. The price of coffee, 15c and 25cts. per package. Sold by all grocers. my6-ly

Rev. Father Brennan, formerly of this city, but for the past two years assistant pastor in St. Columbian church, Youngstown, O., received a letter from Bishop Horstmann, of Cleveland last week, placing him in charge of St. Edward's church in Cleveland. He left Monday for his new charge and carries with him the best wishes of future success from a host of Napoleon friends.

Mr. G. A. Stillson, a merchant of Tappelo, Ill., writes, August 10th, 1891. "Foley's Kidney Cure is meeting with wonderful success. It has cured some cases here that physicians pronounced incurable. I myself am able to testify to its merits. My face to-day is a living picture of health, and Foley's Kidney Cure has made such. I had suffered twenty-seven years with the disease, and to-day I feel ten years younger than I did one year ago. I can obtain some wonderful certificates of its medical qualities." C. F. CLAY, Napoleon, Ohio.

LATEST and BEST!

THE PEERLESS FLOUR BIN AND SIFTER.

Cleanliness, Convenience, Utility. No Dirt, No Insects, No Bother.

It will pay you to investigate this money-saving device. Always ready for use, nothing about it to get out of order, and will last for many years. Every kitchen should contain one of these flour bins.

Fifty Pounds of Flour

can be placed in it at one time. There is no chance to spill the flour while using a small amount, and it is perfectly secure from the ravages of mice or rats and will save its cost in a single year.
