FRIDAY, NOVEMBER 13, 1908.

NOW LET prosperity run riot.

At the election in Ohio last week considerably more than a million votes were cast.

CHRONIC kickers have few friends, but everybody is the friend of the good kicker at football.

D. S. CREAMER will be the first democratic state treasurer Ohio has had in more than 40 years.

Of the 43 Ohio counties that have held local option elections under the Ross law only five of them voted wet.

GOV. HARRIS will issue a proclamation some time next month calling an extra session of the legislature Jan. 4.

At the election in this county last week more than 21,000 votes were cast, positive proof that the county is a populous one.

THE chances seem to be that Columbiana county, through mistake, will have only one representative in the next legislature.

CONGRESSMAN KENNEDY is solid with the Roosevelt administration and indications are that he will be equally close to the Taft administration.

MAHONING COUNTY is pretty reliably republican, but once in a while a democrat possessing ability and energy makes the rifle in the chase for office.

JOHN R. MALLOY wants to be clerk of the Ohio senate. Malloy always wants some political job when the republicans win. Malloy is like a fish out of water when not in office of some sort.

WILL any Mahoning county democrats outside of Youngstown be recognized when the state plums are passed 'round by the Harmon administration? It is safe to guess that Youngstown will take everything in sight if given half a chance.

THE scare given some of the republican candidates for state office, being elected by barely the skin of their teeth, is likely to have a healthy effect when it comes to naming a state ticket two years hence. The bosses may be told to go hide themselves.

INDICATIONS now are that Ohio politicians will pay little attention to the demands of the Anti-Saloon league managers when the wet legislature convenes. Claimed that the league does not have the voting strength it has boasted in recent years.

DAVID TODD is being groomed for governor two years hence. Youngstown is determined to make a splash in republican politics henceforth. The successful opening and closing campaign meetings set her going for fair and she wants to keep up the excitement.

SENATOR FORAKER has little chance of succeeding himself in the U. S. Senate but he means to have something to say about who shall be his successor. His forces are organizing throughout the state and sufficient strength is likely to develop to make it a factor that must be reckoned with.

THE township trustees made a wise selection of road commissioners when they named M. H. Liddle, C. J. Mieser and J. C. Ewing. They are representative citizens and thorough business men who may be depended upon to get value received for every dollar expended by the township for improved roads.

Youngstown.
Editor E. E. Wright of the Telegram has been named by Sheriff-elect Turner as his chief deputy. No better selection could have been made. He will be a most competent and obliging official.

Common pleas court has been in session two months and 275 cases have been disposed of but there are still 835 cases on the docket. Many of them must be carried over to the January term.

"Our Jim" is already securing government jobs for republicans, patriots who lifted up their voices in this district in behalf of republicanism during the campaign just closed. That's getting action, all right.

Now that the justice has been saved once more, will Jake Kalver be given a place on the pay roll of your Uncle Samuel?

During October 49 foreigners applied for naturalization papers in this county. Sam Raymond was the only delegate from Mahoning who voted for Harmon in the state convention and he naturally expects something better from the Harmon administration than his old job of deputy oil inspector.

Ella Snow, a negro, in order to win a wager drank two quarts of whisky in a day. She is now in the county jail a raving maniac, and the probate judge will conduct a hearing in the case to comply with the law before sending the unfortunate to an asylum.

Musings of the Metropolis
News of New York Town
Outlined in Brief Form.

War Declared on Huge Army of Hoboes

NEW YORK.—Open war has been declared upon the huge army of hoboes that infest this city and prey upon the people. The nomads have rushed into the metropolis from all directions in a steadily growing torrent, until the commissioner of charities finds his department unable to cope with the situation and has been compelled to call for the co-operation of the police.

There are some unemployed in New York who are anxious to find work. But they are in a hopeless minority. For the past two weeks not a single one of the hoboes that applied to the city lodging houses for food and shelter were willing to accept the work offered them by Supt. York and his aides. They did not care to work outside of New York, they said, and they would not do farm work. They would not work in the woodyard maintained by the poor commission, and they evinced a marked disinclination to work at anything or anywhere.

The hoboes are little short of riotous.

War Declared on Huge Army of Hoboes

In the municipal lodging houses their refusal to comply with the rules of the department lead to outbreaks that compel the calling of the police. They are declared responsible for frequent hold-ups and assaults about the parks. They have demanded that the armories and the recreation piers be opened to them as lodgings, and they are abusive when the demand is refused.

Now the city and charity organization officials will work with the police officials, and it is declared that the entire city will be cleared of its tramp army in a short time. The hoboes will be arrested, taken before the magistrates and sent to Blackwell's island. There temporary barracks will be erected to house the men and they will be compelled to break stone. Men who apply for aid and would dodge the rock-cracking stunt will be investigated and offered work if they desire it.

The mun'pal lodging houses are overflowing, several large lofts have been rented or leased by the department of charities on the East side and these, used as dormitories, are overflowing. The pier at the foot of East Twenty-sixth street is being prepared for the overflow. At the present time there are more than 10,000 hoboes in the city who will not accept work but demand food and lodging.

New Profession for Women Pays Well

ONE of the newest professions for women that pays well is that of "demonstrator," and every big department store has scores of good-looking young women employed to "demonstrate" something.

The growth of the "profession" was manifested in an advertisement which shows the beginning of a new class of these publicity promoters, and would seem to indicate that there is no limit to the nature of the work. The ad. in question read:

MEN AND WOMEN WITHOUT TEETH wanted; paid by the hour; Friday, 9 a. m. to 12 m. X. Y. Z. The persons engaged will sit in a store window, exhibit the mouth without Dr. Forcep's teeth, and, whirling around, show a double set at \$6.98 and incidentally the difference they make in the countenance. The pay of the demonstrator depends on the nature of her or his work, although most of them are women. Good looks is essential to correct exploiters, while the woman who shows how a piano may be turned into a folding bed doesn't matter so much.

As a rule a demonstrator is paid five dollars a day, while some exceptionally pretty or stylish woman who shows things used or worn by her sex gets more.

With the schools of salesmanship teaching young women how to approach a prospective buyer with a fascinating smile, the demonstrator actually shows curious shoppers how the wares she is hired to show off look or work or act.

Where formerly manufacturers had to depend on signs and labels, the business competition is so keen now that shoppers have to be shown the merits of some new thing.

On upper Broadway, in an automobile supply house, a well-gowned woman "demonstrates" how a patent yell can be put on or off in a second. In a big department store a middle-aged woman with half her face free from wrinkles may be seen demonstrating a bleach. Biscuit makers, pancake flours, soups, new shoes, health corsets, and patent beds are being shown daily by this army of the new profession, and many women travel all over the country "demonstrating" with a route laid out like a theatrical star. A week in St. Louis, a week in Chicago, a week in St. Paul, and so on. Their expenses are paid, of course, and their salaries besides.

The new employment has proved a great boon to many women, and the first feeling of nervousness over the publicity part of it soon wears off.

Russian Woman Plans Adamless Eden

LONG ISLAND is to have an "Adamless Eden," Mme. Davidoff, a native of Russia, but now a resident of New York city, is establishing an experimental farm at Bellecrest, near Northport, L. I., which will be operated by women. Men will be barred from the greenhouses, where fruits and flowers are to be grown every month in the year by the aid of electricity. While similar experiments have been made by this and other governments, Mme. Davidoff believes her experiments will prove more successful than those carried on by the bureau of plant industry of the department of agriculture.

Mme. Davidoff says the experiment will be based on the theory that the growth of vegetable matter, which ceases at sundown, will continue through the night if proper artificial light is supplied to stimulate the developing powers of plants. Fruits and flowers that are grown in this section only in the spring and summer months, she believes can be cultivated during the entire year.

"This is not intended as a money-making enterprise," said Mme. Davidoff in an interview. "While of course, we expect the experiments to prove successful and the farm to be self-supporting, yet my object is to make it a philanthropic enterprise with the view of helping members of my own sex, as well as to prove the scientific value of the plan with which I have been experimenting for several years."

"There is no connection between my venture and the utterances of Sir Oliver Lodge, the English savant, relative to the influence of electricity on plant life. The two systems differ chiefly from the fact that all of my experiments are made under glass and under certain conditions a static machine is used in addition to dynamos."

Active work on the farm at Bellecrest will begin, she says, within one month, upon the completion of the necessary buildings and the installation of the electrical apparatus.

Yerkes Home May Be Sold at Auction

THE Yerkes mansion, at Fifth avenue and Sixty-eighth street, which, with its paintings and art treasures, would, it was generally believed, eventually pass into the control of the Metropolitan Museum of Art, may be sold at foreclosure. The Mutual Life Insurance Company has brought foreclosure proceedings against Mrs. Mary A. Yerkes, widow of the traction promoter, basing the action on a total indebtedness of \$242,292, of which \$225,000 represented a mortgage on the property and the rest unpaid interest. It is said Mrs. Yerkes has put in no appearance by counsel or otherwise, and the house will be sold at auction.

Resolutions of Respect.
Again the Angel of Death has entered our region and called Mrs. Carrie Clay Detimore to her reward, therefore be it Resolved, That we as members of the Tract Society extend our heartfelt sympathy to the sorrowing husband, parents, brothers and sisters who have been bereaved so suddenly, and that we hope of an everlasting reunion in the better world.

Resolved, That a copy of these resolutions be sent to the husband and a copy be read upon our minutes and read at our next meeting; also one to The Mahoning Dispatch for publication.

Mrs. F. W. Coy, Committee, Mrs. Esther Witz, Committee, Mrs. L. L. Cox, Secy.

Yerkes Home May Be Sold at Auction

Mr. Yerkes left a will in which he provided that upon his wife ceasing to live in or use the home and art gallery, or upon her death, a corporation was to be formed to take over the property as the Yerkes gallery, and that it was then to go to the city. This corporation was to be made up of five members appointed by the trustees of the Metropolitan Museum of Art, and was to include the mayor. There was also a provision in the will setting aside \$750,000, the interest of which was to go toward maintaining and caring for the gallery.

At the time of Mr. Yerkes' death it was found he had mortgaged part of the art gallery to the Mutual Life for \$225,000. The gallery is L shaped, and runs on an inside lot back of the Yerkes house, the front of the gallery facing in Fifth avenue on a lot 25 feet wide and running back 100 feet. This was the lot mortgaged and formed a part of the gift to the city.

DYSPEPTIC PHILOSOPHY.

Nothing succeeds like success, unless it's the way failure fails.

There are more dead ones in this world than the undertaker wots of.

Nothing short of an autopsy would show what some men have in them.

The noisy man has plenty of friends if he can only make a sound like real money.

So long as women marry men to reform them, married life will not be monotonous.

When a man loses all his money it changes him so that lots of his old friends scarcely recognize him.

Many a man is considered lucky when the secret of his success is that he was born with common sense.

Tell a woman she is clever, and she will like you; tell her she is beautiful and she will be your friend for life.

The trouble with charity is that while it may begin at home it too frequently ends with some foreign missionary.

CHINESE PROVERBS.

Politeness before force. If you bow at all, bow low.

Money makes a blind man see. Better not be than be nothing.

Oblige, and you will be obliged. More trees are upright than men.

Gold is tested by fire; man by gold. Unity.

Of course it is easier to be right than to be present and that is some consolation for the loser.
