Work at the Peless mine is slack at present on account of lack of orders. The Millville mine is working about four days a week, Fairview mine is working half time. The clay mine is idle the past three days on account of a break in the machinery but started Thursday with enough orders ahead to run 10 days.

Thomas Ablett of Washingtonville has entered suit in common pleas court at Lisbon against the Salem Company, asking for \$10,000 damages alleged to have been sustained when the plaintiff was caught by a fall of slate in the mine, near Millville, June 9, 1910. He alleges that he was able to earn \$75 a month, before the accident, but that his earning power is much reduced, and that he is permanently injured.

arise from a lack of interest as well as a lack of harmony. Some churches can build comfortable houses of worship out of their own resources and keep the surroundings looking neat and tidy; while others cannot build, even when large bequests have been made for that purpose.

Some people work for the good Lord's sake, while others demand scale rates and accomplish nothing.

Two well dressed but suspicious looking colored women came here from Youngstown last week Wednesday night, and it was not long before a goodly number of our "white trash" were upon their trail.

At a late hour they were in custody of the police, charged with stealing \$8 from one of the white male persuasion.

She confessed to having received \$1 from one man and \$2 from the other, but denied having taken any money without their knowledge and consent.

She put up a forfeit of \$7 (all she had) and was let out of the Mayor's custody. At this writing she has not returned to claim the \$7.

Mrs. Henry Mayer has returned from a visit with her sons in Buffalo, N. Y., accompanied by Mrs. Clark and her little grandson.

YOUNGSTOWN YAWNLETTES

Our County Seat Correspondent Writes in Entertaining Style About People and Things.

Some of the wander bunch that are largely nighthawk say there is considerable gambling going on, but it must be a pipe. You never see any poker on the Diamond, nor three-card monte at the Erie depot, or in the waiting-room there.

There is no keno, so far as your correspondent has observed, in the grand corridors of the new how-many-millions-court house? There is no faro layout in the city market-house.

So where in the deuce is the gambling if in fact there is any? Somebody must be lying worse than a candidate for the legislature?

This is a large-sized boom here for Prof. James A. Leonard, who is now the main pillar of the Mansfield reformatory, to come here and become the principal of the new South Side school on South Market street.

There was a strong editorial on the subject in the Vindicator, in which it was said in substance there is a lack of strong men here fit for the position. It may be news if it is necessary to import men fit to be principal of an ordinary school and the chances are there are men whose feelings were ruffled by the statement.

However, Mr. Leonard is a very able man and is eminently qualified for the position. It would please very many men to have him made principal.

On South Phelps between Federal and Boardman there seems to be a training school for motorcycles and automobiles, for the street is continually in an uproar and about half the time obstructed by the machines.

An auto, too, now when there is such combined and persistent effort relative to rigs and men riding in automobiles on other streets.

A pathetic fatality, and one yet attended with wretched sorrow, was the killing last Saturday afternoon of little Mary Natskiski, when she was crushed to death by the motor.

Some Southern cars on the South Side. The little one was 4 1/2 years of age and had been on an errand for her mother. A number of persons were unnerved by the sight of the fatality and several women fainted.

The mother is a widow.

There is no question but there is more killing by accident to the block in Youngstown than in any other town in the state. There is rarely a day someone is not badly injured or killed in some of the numerous works and sent to the hospital or to the morgue. It would seem it should be possible to prevent so much maiming and killing, but when one takes into consideration the major portion of the men now employed in the works he is not so much surprised that the injuries and killings foot up so large a sum, for the most of the men do not speak the English language, and improperly or not at all understand directions and orders that are given them by the bosses and the foremen.

Some of the men we believe are designated by numbers just as they do Japanese and Chinese.

Prof. Henderson, formerly of this city and a brother of James A. Henderson, and Miss Isabelle Henderson, are here, having been making his mark in the West—in Des Moines, Ia., where a glee club that he directed has taken first prize. The papers there speak of him very highly.

Finally there is good news for people who have occasion to use the South Market street bridge. For a long time it has been lumbered up, made almost impassable by the laying down of the street car track. It is now completed and that bridge Richard is or is nearly itself again.

Dr. S. R. Frazier, who recently so stirred up some members of the city by his opinions, made the Memorial day address in Garrettsville, making one of the best orations ever heard in that section of the state.

A Decoration day window in the store of Strouss & Hirsberger's, a fine specimen of the golden eagle, sent from Idaho to Dr. Harry Welsh, has attracted much deserved attention. The bird was mounted by Tom Ward, the expert taxidermist. The bird is a big one, measuring eight feet four inches from tip to tip.

There are now but a little over four weeks of the May term of court that is, the lawyers are up to snuff and get up before the judge on time to try their cases.

It has been suggested that this city follow the Pittsburgh idea—have what are called trade extension tours—going from one town to another, adjacent towns and cities. The plan is advocated by M. Jewett McGowan, secretary of the Chamber of Commerce, by Joseph J. Butler, Jr., its president, and other prominent citizens. It would likely do the town here good and would also be pleasant for the gentlemen, the visitors, who would be given the best in the land—the fatted calves—and all that is good to eat and drink to repletion. It is no wonder so many are favorable to the scheme.

Still kicking goes on about the rotten fresh fish they are compelled to eat here if they eat fish at all. They are called fresh. Go into some of the places where the fish are sold and it is enough almost to stink a dog off one of the intestine wagons. The papers show that one man here or in Coitsville, rather, got even with the fish. He is Lewis Stocker, a friend of his, at the instigation of Mr. Stocker, sent him a lot of genuine fresh fish—blue pike with clear eyes and hard flesh and no smell outside the natural odor of the fish. That is a good way to do. Say a dozen or so go together out on the farm or in the city and get their fish so shipped in. The fish thus procured are cheaper and far better.

THE JUNE BUG.

Now doth the frisky June Bug Bring forth his aeroplane, And try to make a record, And bustle his brain!

He bings against the mirror, He bangs against the door, He caroms on the ceiling, And turtles on the floor!

He soars aloft, erratic, He lands upon my neck, And makes me creep and shiver, A neurosthenic wreck!

Ever go into a saloon and get a glass of milk and notice how slim and small the glass? If you want a good fat glass of milk you want to go into a milk dealer's. In some of them—you can get good milk two glasses for a nickel.

Most seems to be among the things that are coming down, as well as steel bars. You can get all the meat you want from 3 up as high as 40 and there is decent steak now for 14 and 15 and good ro
