PA SEES THE SUN

Pa says he knows what makes it cold, It's sun spots on the sun; Pa says when he looked at the sun Today, that he saw one; Pa says it was a funny shape More long than it was wide— In shape most like a fish, Pa said, With fins on either side.

Pa says these spots, they keep the heat From getting out the sun And it will never heat again, Unless there's something done; Pa had some goggles on when he Was taking in the view, They was the kind the threshers use, With glasses made of blue.

Pa watched the sun come up, and gee! It was most awful red It didn't have no heat at all, But was solid as lead. Along towards noon it got more warm But not so very hot, And Pa looked at the sun again To figure out the spot.

Then Pete he laughed, and Lize she laughed, As Pa came in and said: "The spot is moving from the sun And so is all the red." Then Lize she up and said to Pa, "I guess Pete worked you some I seen him take your goggles and Stuck on some chewing gum."

Then Pete laughed more and so did Ma, And Ma said, "Like as not When Pa was looking at the sun That gum it made the spot." And so it did—and Pa he said: "Now Pete, just never mind, Go get the basket and go see How many eggs you find."

The Rural Mail Carrier. Of all the faithful fellows Who serve your Uncle Sam, From Chilkoot drear to where they rest.

The mighty Gatam dam, There's none more true and loyal On any road or trail Than he who makes his round and takes

The country folks their mail. His work is hard His pay is small, Me mustn't bluff, He mustn't stall, He makes his route —That's all!

When roads are wet or dusty, Or days are foul or fair, Or cold or warm, from farm to farm He has the mail to bear. No "reasons" may excuse him, There's no such word as fail, Winter and spring he still must bring The country folk their mail.

The route is long When winter's pail is on the land And snow-flakes fall, But he "goes through" —That's all!

He's not a brilliant hero, There isn't any chance; His rig and pace would quickly please The kibosh on romance; And yet as men are measured He figures up to scale; Without a kick he does his trick, And brings the folks their mail.

His job is hard, His pay is small, But winter, summer, Spring and fall He does his work —That's all!

ALL CANFIELD COUGHING!

Death from a gun-shot wound less to be feared than death from pneumonia.

A great number of our city's men, women and children have colds and coughs today. The air seems to be fairly laden with these throat and lung troubles. There is great danger of contracting pneumonia or some other serious ailment. Nearly every case has its beginning in a cold or cough, and many people die as a result. Beware!

A sudden chill, stupifying fever, sore throat, hoarseness, running nose, sticking cough, rattling and wheezing in chest, painful breathing, signify that your cold borders on pneumonia. There are many remedies offered for colds, but there is one certain, reliable article that we know of. DR. BULL'S COUGH SYRUP. It is best for soothing and subduing the inflamed, sore, bronchial tubes and lungs. It wards off pneumonia. It checks cough at once. Cuts a cold short. Don't wait to see if your cold or cough wears away of itself, as pneumonia may come over night. Test it first by sending a postal for a free sample. Address: A. MEYER & CO., Baltimore, Md. But, to have no delay, get a regular bottle of the remedy, priced at 50c, from your druggist today. This is the best advice we can give to avoid pneumonia. (ADV.)

See the Dispatch line of commencement samples. Prices are right.

PAINT INSURANCE

Good paint is good insurance. It adds far more than its cost to the value of a property. Devco is in every way the cheapest paint, because it is absolutely uniform and reliable, always full measure, takes less gallons and wears longest.

It is not a new brand that needs to be proved. It has been proved over and over again every day for 153 years.

DEVCO PAINT Goes Further and Costs Less

Here's our proof: Fewer Gallons or No Pay Paint half of your house with any other paint; paint half with Devco. The other-paint half will take the most gallons; if not, we will make no charge for Devco.

Wears Longer or No Pay Here's another offer. Paint half of your house with lead-and-oil; the other half with Devco lead-and-zinc. In three years the lead-and-oil half will need repainting, while the Devco half will be about like new. If not, we will give you the paint for the whole house.
