Experience Proves

Whoever paints any other paint than Devco wastes money. He needn't wait to see how it wears, to find out. He buys more gallons—no matter what price—it takes more money; the painter takes more, too.

Fewer Gallons or No Pay Paint half of your house with any other paint; paint half with Devco. The other half will take the most gallons; if not, we will make no charge for Devco.

Wears Longer or No Pay Here's another offer. Paint half of your house with lead-and-oil; the other half with Devco lead-and-zinc. In three years the lead-and-oil half will need repainting, while the Devco half will be about like new. If not, we will give you the paint for the whole house.
