A Chi-Namel Demonstration That is Different

You can ask the Demonstrator to show you any Chi-Namel product you may be interested in, actually applied.

For instance—White Enamel, Porch Furniture Enamel, Gold and Aluminum Paint, Floor Wax, Furniture Polish, Colored Varnishes for staining and varnishing with one application.

She will not merely show you the package containing these materials, but show it in the brush, and applied before your eyes—in fact, you can take the brush and apply it yourself.

You can see the actual colors—see how easy it is to apply—how all brush marks disappear before it hardens.

This will be a demonstration worth while for any one who is responsible for the care and good appearance of the interior woodwork and furniture of a home.

By asking for a demonstration of any particular Chi-Namel product you will not place yourself under obligation to buy; this demonstration is to acquaint the public with the use and economy of the home.

TELLS WHO WANTS WAR.
John McGregor of Canton, O., recently received a letter from a California friend which contains a good tip as to the real interests behind the demand for free passage through the Panama canal. Also a hint as to one of the sources of the jingo cry for war with Mexico. The Californian says:
"How do you like Wilson by this time? He is surely making good. We have a lot of wealthy Japs on the coast who own millions of acres of land in Mexico and they are doing all in their power to make trouble with the United States so that it would enhance their idle acres. I hope we never will go to war with Mexico—let them fight it out. If these fellows want war so bad, force them to the front and they would soon squeal. We are getting to be a nation of jingoes—always setting the trap to catch the other fellow but when he traps us how we do squirm and squeal."
"Wilson did a good thing with the money interests. 'Oh, no,' they said they would quit the national banking before they would go in but when it came to a showdown they all stepped across the line."
"The same way with the canal tolls."
The Southern Pacific railroad controlled everything that came in or out of California. The transcontinental roads kept the Panama canal from being completed for years. The Southern Pacific controlled the Panama railroad for years. Who is the 'coastwise shipper' but the Southern Pacific railroad? It has more ships than all the others put together. So now they want a monopoly through the canal. I hope it will fall through and use them all alike."
