

MRS. WILLIAM C. ADAMSON

Mrs. William C. Adamson, wife of the chairman of the house committee on interstate commerce, is the most recent congressional bride. Her marriage to the Georgia representative took place during the holidays.

ENGLISH SQUADRON ATTACKS ENEMY FLEET

British Lose One Ship and 47 Men; Two German Vessels Reported Sunk.

London, Jan. 24.—Mantled in darkness so thick that it was impossible to make out the result of the fight, a German torpedo squadron of 14 vessels clashed with a British light fleet of equal or greater number in the North sea off the coast of Holland.

The British admiral's statement says there were two fights, one off the Dutch coast and another off the Schouwen bank, and that one German destroyer and one British were sent to the bottom, the British losing three officers and 44 men.

Berlin is silent on the encounter, but reports from Dutch ports place the losses of the Germans all the way from two to seven vessels.

Reports from Ymuiden received by Reuter's Telegram Co., via Amsterdam, say the German flotilla attempted to leave Zebruge to avoid the ice. It was immediately attacked by the large British squadron.

According to the dispatch from Ymuiden it was officially stated that four officers were killed aboard the V-69, including the commander, Lieut. Boehm, and the commander of the flotilla, Capt. Schultz.

Sixteen severely wounded Germans were landed at Ymuiden by a Dutch steam trawler, which took off the V-69, which was afterward towed in with 20 dead aboard.

According to a Hague report to the Exchange Telegraph Co., two German ships were sunk and three others damaged in the fight.

Wants to Meet Publishers. New York, Jan. 24.—The following invitation has been received from G. H. Mend, chairman of a committee of news print manufacturers: "To bring about more cordial relations, and to clear some of the misunderstandings between publishers and manufacturers, a committee of manufacturers proposes an informal joint meeting to be held at Blackstone hotel, Chicago, Jan. 26."

Hotel Burns. Cleveland, Jan. 24.—The Mittleberger hotel, a three-story structure, was damaged by fire, which broke out on the third floor, causing a loss estimated at \$10,000 on the building.

Reappoints Referee. Cincinnati, Jan. 24.—United States District Judge Hollister has reappointed Benjamin F. Miller, Urbana, as referee in bankruptcy for the district of campaign county for a term of two years.

START HEARINGS ON SUFFRAGE

Antis Oppose Presidential Suffrage Proposition: 'Worse Menace Than War'

Special Columbus Correspondent. Columbus, O., Jan. 24.—Women now hold the supreme attention of the general assemblymen. There was a public hearing in the house on the presidential suffrage proposition. The anti-suffragists alone were heard.

Miss Price of Cleveland pointed to the 1914 suffrage referendum result in Ohio as indicating the will of the constituents represented by this legislature. "Suffragists are telling you Democrats that the suffragists elected President Wilson," she said.

"You have been told at two elections what your constituents want," said Mrs. Harry J. Talbot of Dayton, president of the Anti-Suffrage organization. "It should not be necessary for us to take up your time. When we are shown that 51 per cent of the women want suffrage, then we will be for it. When the suffragists prove the value of suffrage we will cease our opposition. Suffrage in Ohio involving all women in politics is a worse menace than war."

In the senate Mrs. Holden introduced a resolution providing for the submitting to the electorate in November a constitutional amendment to improve the suffrage for women. This will make it possible for members of the legislature opposed to presidential suffrage to rely when asked to give women the presidential ballot, which they have the power to do.

Workmen's Compensation Hearing. The first public hearing of the session on the bill initiated by organized labor to oust accident insurance companies from the state has been held. For the bill were industrial commissioners Yapple and Duffy and labor officials Donnelly and Green.

Employers of labor who spoke urged that the bill would make impossible their securing protection from damages where workmen are injured as the result of failure to comply with safety rules, and elect to go into court instead of taking under state compensation, and said small concerns would be bankrupted and the injured workmen would not get the money the court awarded.

Arguers for the bill maintained that workmen's compensation is an humane undertaking and protection of workers from accident and death should not be done for profit. "The Manufacturers' association is now taking a referendum of its 600 members on this issue."

Same Old Bill. A bill has been introduced providing that the auto tag fees collected in the large cities be turned over to the counties for the repair, patrol and maintaining of their roads. After deducting 25 per cent for the expenses of the automobile registration department, it requires that the remainder be divided, twice each year, among the counties equally. This bill will accentuate the cleavage between urban and rural members of the general assembly.

The life of another bill referring to vehicles probably was saved from internment in committee by its author, Senator Terril, getting it referred to the judiciary committee. It is the bill requiring vehicles on public highways to carry lights, fenders and fenders, which was killed during the last session.

Another Familiar Face. An old-timer which has renewed its youth is the bill to exempt that part of real estate covered by mortgage from taxation. It requires the mortgage giver to make public the name of the note holder whose holding is to be placed upon the duplicate. In the event that he declines to pay the mortgage giver may pay the taxes and deduct the amount from the principal of the loan. Bills of this sort read well and fare badly in Ohio's legislature.

Hunting Girl's Attacker. Upper Sandusky, O., Jan. 24.—County officials with a posse of citizens are seeking the man who attacked Floyd Sutras, 16, of McCutchenville. Bloodhounds are aiding the posse.

\$100 REWARD, \$100. The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution, assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. CHENEY & C., Toledo, O. Sold by Druggists, or by mail, 6c. Take Hall's Family Pills for constipation.

QUESTIONS FOR TEACHERS

Following is the list of questions as prepared under direction of the state superintendent of public instruction and submitted at the county examination for teachers Jan. 6 for elementary school certificates.

ARITHMETIC (Answer 3.) What are the advantages of the metric system? Give reasons for or against the teaching of this system in the elementary schools.

What per cent profit does a merchant make who illegally sells cranberries by "fluid measure?" In order to find the diameter from one town to another, a boy rode it on his bicycle, attaching to the front wheel a device which showed him how many times the wheel went around. How did he find the distance?

How can you find the proceeds of a note bearing interest at a given rate if you know the face of the note, the date it bears, the date and rate of discount and due date? Give a specific instance in which the study of geography, civics or agriculture may furnish material for an arithmetic lesson.

Invent a problem, giving the cost of an article after a discount is allowed and giving what the list price is found. Solve the problem. With what business forms should pupils of the elementary grades become familiar? Why? How?

Explain as to a class the rule for ascertaining the area of a trapezoid or the volume of a cone. Give reasons why consulting answers does or does not hurt the quality of arithmetic work.

Describe five games or devices helpful in the teaching of primary arithmetic. GRAMMAR

Use one substantive clause as subject and another as object in the same sentence. Write a sentence containing forms of sit and set. Write a sentence containing forms of (to realize) and (to falsify).

Give a list of 10 irregular verbs with their principal parts. Write a question and mark the words for parsing as you would in an examination for teachers. Write on formal grammar as compared with language study.

Just what are you aiming to accomplish in the study of grammar in your school? What methods do you employ to improve your own pronunciation, enunciation, vocabulary and diction? GEOGRAPHY

Name five or more geographical features of Ohio that you consider distinctive. What is your method of connecting the study of geography with the pupil's native tendencies? How do you correlate geography and reading? Geography and history?

Just what are you hoping to accomplish for your pupils by means of geography? Name some books of the pupils' Reading Circle that have helped you in your teaching of geography. If you were asked to write a paper on geography for a meeting of teachers, what phases of the subject would you write upon?

Name some of the books other than the textbooks that you have read that have been of service to you in the teaching of geography. Name 10 or more of the great geographical features of the world that you would like to visit. HISTORY

Name five presidents of the United States in the order of your preference. Name five governors of Ohio in the order of your preference. Give time, place and circumstances connected with five of the great speeches by American statesmen.

Name some historical events in which you see the principle of cause and effect. What references would you make to you like to have in your school library? Name some historical events in which Ohio people were prominent. Be specific in stating how the work of the Reading Circle has been of service to you in your teaching of history.

ORTHOGRAPHY Give a list of twenty words that your pupils find difficulty in spelling. Give a list of twenty words that have prefixes or suffixes. Give a list of ten words or more that are derived from foreign languages. Write a short paragraph and mark all the words diacritically.

Write a hundred words or more on the subject, "The Use of the Dictionary." WRITING

How do you grade penmanship? Is movement or legibility the more important thing in penmanship? Just how is the good penman produced? Give several exercises that you have found most valuable and explain wherein their value has been manifest. PHYSIOLOGY

Explain the reason for the necessity of caring for the teeth. How do you know that the blood circulates in the body? Show how emotions affect our physiological condition.

Why are some people afflicted with corns? To what means of prevention and cure does physiology point? Discuss the cause and treatment of some form of child deformity. What are some of the principal reasons for defective vision? What are some of the results of it? What is the teacher's duty in regard to it?

What would you advise if you were to give as good a lunch as possible to poor children at cost? Give reason for including each item. Compare the nutritive value of a glass of milk and a glass of beer. Can you give any substitute for your own? Can you give any evidence of a change of view of medical men on the value of meat and vitamin food? LITERATURE

Tell something about the contention that William Shakespeare was not really the author of the plays attributed to him. Why is the introduction to the Canterbury Tales considered so valuable? Why should we study literature? Relate an incident from one of the works of a great American author or authors.

Name a southern poet and one or two of his works. Also name a negro poet and one of his works. Tell something about the literature produced in the period of the Revolutionary war or immediately before or after it. Give the titles of at least two poems and name the author of each. Mention ten works of standard American fiction, what one of them owes its great worth of popularity.

AGRICULTURE What is the ideal condition of a field for sowing wheat? Give a good three-year, four-year, or five-year rotation of crops for your vicinity and state the advantages of the rotation. To make farming most profitable it is usually necessary to do some livestock raising. Explain why. Give an outline of the care and feeding of some one sort of domestic animal. Discuss methods of raising three of the following: potatoes, wheat, oats, turkeys, and corn.

Explain how the soil holds moisture and how it is secured by the plants. What is the advantage of a drainage ditch? What are the advantages of state and county fairs? Give an account of the theory and practice of the culture of corn. THEORY AND PRACTICE (Choose 3)

Why is a language work most worthy of your study? Name this year's reading circle book on language. What technical matters in language should be mastered by the end of the third year of school? What forms of expression should be developed in pupils? (Include a careful outline of the various forms of language expression.)

What is the proper method of teaching and the function of "memory games"? What are the chief difficulties in the way of the proper training of teachers for our schools? What is your view of the purpose of the recitation period? What is the standard of order in a school, and what is the purpose of it? Name at least five advantages of the consolidated or centralized school. Mention two disadvantages often claimed.

Why should a teacher know the general course of study above and below the grades he is teaching? What are the characteristics of a good question?

TRAINED NURSE PAYS A SPLENDID TRIBUTE

Philadelphia, Pa., Jan. 22.—Miss Viola M. Hinkle, a trained nurse who was graduated from one of Philadelphia's best-known hospitals recently paid a splendid tribute to Tanlac, the celebrated new combatant which is now specially introduced in this city.

Miss Hinkle, who formerly resided at No. 250 South Twenty-first street, but whose address is now 23 Roland Apartments, Washington, D. C., said: "Never in my long experience in handling cases of gastritis and stomach trouble have I found a medicine that acts so quickly and thoroughly as Tanlac."

"They say the proof of the pudding is in the tasting, so recently when I suffered an attack of stomach trouble I decided to try a bottle. It was not long before I noticed that I was steadily acquiring a ravenous appetite. My food tasted good for the first time in weeks. No longer do I suffer from a distressed feeling after eating or pressure of gas around the heart. Why, the other day I sat down to a boiled dinner and ate heartily without feeling any ill effects. Tanlac seemed to put new life in me."

"I am recommending Tanlac to all my patients, as it is a wonderful system builder and strength producer." Tanlac is now being specially introduced and explained here at F. A. Morris' drug store.—adv.

The KITCHEN CABINET

The dream in that of a greater good, lifts humans from the level of brutes. Take this dream from them and they are like quenched comets.

SOME BEST RECIPES. For those who prefer mince meat without cooked meat the following recipe will be found especially good.

Uncooked Mince-meat—Into a large crock put alternately in layers one pound of fresh beef suet, finely chopped, two pounds of raisins, one pound of dates, half a pound of mixed nut meats, one pound of currants, two pounds of a sugar, two pounds of sour cooking apples, finely chopped; half a pound of crystallized ginger, chopped; the same amount of citron, also finely cut; one teaspoonful each of salt, allspice and ground cloves, and cinnamon and the grated rind and strained juice of two lemons and oranges. Mix with a pint of boiled cider. Stir with a wooden spoon several times the first two days; put into jars and cover. When using and more either if needed or fruit juices.

Ham Drippings—Mix together one quart of sifted flour, two teaspoonfuls of baking powder, one teaspoonful of salt, one well beaten egg and enough sweet milk to make a biscuit dough. Roll out and cut in pieces the size of a saucer. On each place a half cupful of raw smoked ham, finely chopped, and a dash of pepper and butter, with a teaspoonful of water to each. Moisten the edges of the dumpling and seal by pinching them together. Drop in boiling water slightly salted and boil 20 minutes.

Frozen Pudding—Make a custard of a pint of milk, three egg yolks and a cupful of sugar, with a pinch of salt; strain and add a little melted chocolate to flavor; then fold in the whites of the eggs and a cupful of whipped cream. Prepare raisins by steaming them, a little sliced citron and candied cherries; turn them into the custard and freeze. When firm mold in a fancy mold.

Boned Cod—Boil the fish until the bones and skin may be removed, then chop it and mix with equal quantities of seasoned mashed potatoes. Add scraped onion, pepper and salt to taste and enough cream to make it of a creamy consistency, then add a tablespoonful of butter and heat well on the top of the range. Serve with drawn butter.

What Counts

It matters little what is said When victory is won; But what was done doth count instead When once the race is run.

For time alone doth measure all The action of mankind; Whatever is or doth befall Is treasured in the mind.

It must come forth into the light Of truth and action; When it is weighed and balanced right The good remains forsooth.

As bud and blossom, fruit and seed Mankind on earth appears; In thought and action, word and deed Are joys bedewed with tears. —S. J. Bush, Greenford.

TIME TO ACT

Don't Wait for the Fatal Stages of Kidney Illness. Profit By Canfield's Experiences.

Occasional attacks of backache, irregular urination, headaches and dizzy spells are frequent symptoms of kidney disorders. It's an error to neglect these ills. The attacks may pass off for a time but generally return with greater intensity. Don't delay a minute. Begin taking Doan's Kidney Pills, and keep up their use until the desired results are obtained. Good work in Canfield proves the effectiveness of this great kidney remedy.

J. P. Hartman, Canfield, says: "My back was lame and the kidney secretions burned in passage. A friend recommended Doan's Kidney Pills and two boxes permanently cured me."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Hartman had. Foster-Milburn Co., Props., Buffalo, N. Y.—adv.

Many a man is so stingy that he won't even give his wife grounds for divorce.
