HONOR FLAG WILL REWARD BUYERS

Every Community in the United States is Requested to Fly Banner in Third Drive

WOMEN MAKE SILK ONES AS GIFTS TO THE CITIES

Honor Rolls Will Be Displayed at State Capitals and Grand Roll at Washington

The Liberty Loan Honor Flag is to be one of the big features of the Third Liberty Loan drive. It is the creation of James H. Burton of New York City and has the hearty endorsement of Secretary of the Treasury McAdoo who has expressed the hope that every town in the United States will be flying one of the flags before the campaign for the third drive is very far along.

The flag which will be awarded by the Treasury department to each community as its quota is attained is a flag 36x54 inches, a white field surrounded by a red border and with three blue stripes running perpendicularly through the middle. In many of the cities patriotic women are going a step further than the Treasury Department and are working on the manufacture of a silk Honor Flag to be ready for flying when they have earned the right to display it.

Women's Clubs Make Them. In some of the other cities and towns of the Fourth Federal Reserve district church societies and women's clubs are planning to make a flag larger than the official one. But great care is being taken by these volunteer flag makers not to get away from the proportionate measurements of the official flag.

The raising of the flag in each community should be a gala event and preparations are being generally made for patriotic addresses, entertainments, parades and other forms of festivities at the time when the banners shall be officially flown. The raising of a simple Honor Flag over the Treasury building in Washington recently was a picturesque sight. For the first time in the history of the Treasury Department every one of its employes stopped work for fifteen minutes to attend a public event.

Five thousand persons broke into wild cheering in the thronged streets in front of the building as Lewis B. Franklin, director of the War Loan organization, pulled the flag to the top of the pole from which it flies. Mrs. McAdoo Made First. The making of the first flag in Washington was superintended by Mrs. William G. McAdoo, wife of the Secretary of the Treasury.

When the campaign gets under way there will be an honor flag in each state, at the capital, and a national honor flag in Washington. With the state flag there will be displayed a state honor roll on which will be inscribed the name of every community in the state as fast as the communities subscribe their quota and win the right to fly their flag.

In Washington the names of the states will go on the National Honor Roll as fast as the states attain their quotas. The idea of the Honor Flag and National Honor Roll is to inspire that friendly rivalry between communities and units of population which will result in a maximum number of subscriptions to the loan and add the keen edge of competition to the selling bee. Window Cards Are Important. Window cards bearing a replica of the honor flag and a blank for the name of the purchaser will be given to each subscriber for display in the window of his home. The window cards measure 7x9 inches. They serve not only as a testimonial to the loyalty of the householder who has one in his window but they are of great value from an advertising standpoint. If John Jones has one in his window to get the gaze of Bill Smith, who hasn't bought a bond, every time Bill Smith goes by Jones' home, it will not be long before it penetrates to Smith's slower comprehension that he has a duty to perform. And eventually Bill Smith's window is going to have to have a flag, too.

"A Soldier's Idea of the Kaiser." Big sparks flew from old Satan's eyes, "What's this I hear?" said he; "They say that when the Kaiser dies He'll be consigned to me. Old hell to me is mighty dear, The place is very fine, But if they send that guy down here Believe me, I'll resign: 'I stand for murderers and crooks, And I will not disown That I have listed on my books The worst things ever known. My boys would get right sore, I fear, I know they would rebel; No, Kaiser Bill can't enter here For he'd corrupt all hell. Our sulphur is too clean for him, Our brimstone lake too pure, And if in one he'd take a swim 'Twould rain it, I'm sure. Our company is not so swell, Wild beasts we won't reject, But keep the Kaiser out of hell— We have some self-respect. —From army paper.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in dose from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & Co., Toledo, O Sold by Druggists, price 75c. Take Hall's Family Pills for constipation Advertisement.
