Come In and See the Weber Here Are More Big Points

YOU will be interested in looking over the hound, hub, skein and skein box construction. On the Weber the hounds are of straight-grained oak; on the front gear they are of the same type, wide and roomy in the rear, to give the reach ample support in turning short. They are mortised and well braced with solidly welded steel. Hubs are of white oak only, turned, shaped and bored accurately for the skein boxes. Skein box is made so that a grease chamber is formed. A solid collar keeps the oil away from the wood of the hubs. Mud and sand cannot get into the axle and the skeins cannot wear into the skein boxes. That means long life and good service.

These are all reasons why you should have a Weber wagon—that is if you want a wagon for real work. Come in and let us show you.

THE HUM OF INDUSTRY

You can sing no song of prosperity save to the accompaniment of the hum of industry. When industry lags prosperity takes wings.

Factory smoke may mar the brightness of the skies but it works wonders with the brightness in the home. And its brightness we are needing in the homes of America today.

We've had enough of gloom the last 18 months to last for a long time. Bringing the boys back will help tremendously. But if the boys come back to a poverty of jobs it will be another story.

Some of them have come to just that thing. If you're doubtful scan the "Situation Wanted" column of the daily paper.

To make it worse America has acquired the habit of good times during the last four years. The world was caused the nations of Europe simply to bombard us with orders of all sorts that enforced prosperity.

Everything went ballooning, wages along with the rest. The average man made more money and more easily than he ever had in his life. No infrequently habits of extravagance developed.

But the fact is that Americans generally expect these conditions to continue. There is no reason why they should not, why the bottom should fall out of things at all. We have a far better opportunity than our foreign neighbors.

Yet we will have to do our part to make the most of these opportunities. Uncle Sam owes a tremendous amount of money to American industries. Something like \$2,000,000,000 has been stated. And he wants to pay it. The industries need it to branch out along independent lines.

And the Victory-Liberty Loan will pay these debts. Will help keep things going at high speed. Stave off industrial stagnation.

That's exactly what all of us want to see done. We want things to boom. How much our bond purchases will indicate.

So help make industry hum.

TOTS HURT BY "PRETTY TOYS"

Scores of Children in Serbia Maimed by Picking Up Austrian "Dud" Shells.

London.—The war is still taking its toll of children in Monastir. The Serbian hospital contains scores of little ones who have been maimed for life or severely injured by explosions of "pretty toys" they have picked up along the roadsides or in the yards of the homes they recently have reoccupied.

The toys are "dud" shells dropped into the city and its environs by Austrian and Bulgarian batteries. Every day children dig up these bright objects and explosions usually follow. Many boys and girls have been killed by these shells.

TEA GIVEN UP BY HARVARD

Professors and Their Wives This Year Have Omitted Old Custom at Cambridge.

Cambridge, Mass.—Harvard has given up tea for beer. Or even a bottle of ale will serve the purpose at Cambridge. Harvard professors and their wives have this year omitted the custom of having afternoon teas for students, while it has been announced that candidates for the freshman and varsity crews will not be allowed to drink anything but a bottle of beer or perhaps ale for supper.

The booming of a cannon is apt to make more noise than the booming of a candidate.

A letter written at Sea-Indian Ocean between Ceylon and Africa, and dated Dec. 14, 1918, was received by Frank Agnew Friday. It was from his friend and former pastor, W. S. Rowe. He was sent to Souage, Africa to inspect missions there and get pictures of the same for use at home. It was November before he could get passage to Africa.

FROM APPRECIATIVE READERS

Mrs. H. M. Cox, Palmer, Neb.—"We don't want to miss a number of The Dispatch. My sister watches for the paper and thinks as much of it as she would a letter." Prof. C. O. Allaman, Akron—"We of course want The Dispatch. We like it very well here in Akron; it is a bustling city. Our home is at 215 Westwood avenue. Remember us to old Canfield friends." Mrs. W. H. Siefert, Lexington, Ky.—"I enclose find money order for \$1.50 for which continue my subscription to The Dispatch. We look for it every week as a letter from the dear old home." Mrs. Mary A. Lehman, Humboldt, Kan.—"I would not want to get along without The Dispatch. It is now 35 years since we left the old state of Ohio but the paper keeps us in touch with many of our friends." Miss Lucy E. Duer, Mentor, O.—"Enclosed please find money order for \$1.50 in payment for The Mahoning Dispatch for one year. Although I have been away from Canfield over 35 years I have never been without the Dispatch and feel that I could not get along without it. My sister, Mrs. Marsh, lives near me and we both read the paper and in that way don't entirely lose track of our old friends. We think it one of the best and newest weekly papers we have ever read." Attorney F. W. Bond, Canton, O.—"Herewith find check to renew my subscription to The Dispatch. I note in your excellent paper the controversy as to the surrender of the corporate rights of our village. If I get correct understanding the parties who desire to surrender the corporate rights do so to avoid the payment of taxes. In other words, they would rather give up the benefits they receive by reason of their village being incorporated than to pay out money for improvements. Such persons would perhaps have a different opinion if they lived in a city growing in population from five to six thousand a year. They would then get accustomed to paying taxes for improvements."

INSULT AND INJURY

The Senate's Afront to President Wilson Will Be Resented by the American People. Intended as an insult to President Wilson, the Senate's filibuster resulting in the delay and failure of necessary legislation is in reality a serious injury to the American people. The Senate's action will not hurt President Wilson. Instead of mortifying and embarrassing him and interfering with his plans for the League of Nations, it will be taken abroad for what it is worth. Mr. Wilson's associates at the Peace Conference know the conditions of American government. They know that the Senate's action yesterday was only cheap party politics, a game played by wilful men to gain partisan advantage. They know that the American people are for the League of Nations, no matter what their self-appointed masters in the Senate think or do. The chief effect of the Senate's action falls upon the American people themselves. Not only are the railroads financially embarrassed, but every bit of reconstruction legislation needed to tide over the difficult return to peace, is defeated. The American people are the sufferers from this attempt to strike at President Wilson.

For years the Senate has been the most unpopular body in American political life. To tell the plain truth about it, it has been filled with men who have accepted their salaries under false pretences. They have gone to Washington and taken the people's money, but instead of working to serve the public they have worked for themselves or for special privileged interests or have spent their time maneuvering to promote the fortunes of a party instead of forwarding the welfare of the nation as a whole. Intended as the balance wheel of our government, the Senate has proved itself anything but that. Yesterday's action will increase the odium in which it is held and foster the spirit of discontent with this most reactionary of our institutions.

A great weakness in our form of government is revealed when the spite and jealousy of men elected to transact the public business are able to thwart the people's will and turn them into a weapon fashioned for their harm.—Youngstown Vindicator.
