First Make Victims Dig Graves, Then Execute Them for the Bolsheviki.

Amsterdam.-The correspondent of the Handelsblad, who recently returned from a trip in soviet Russia, gives the following account of his investigations of the activities of the Chinese employed there by the bolsheviki as executioners.

"Such horrible stories were being told in Europe about these Chinese that I thought it worth my while to learn more about them. As a joke, I asked everyone who asked my opinion of the bolsheviki to show me some 'real man-killing Chinese,' but I always was told they couldn't produce any just now because they had all gone to

the Denikine front. "I was told the Chinese, if commanded by their own officers were excellent soldlers, but they ran like bares if their officers were killed Executions are now very rare in Moscow. but, in August, when thousands of counter-revolutionaries were slaughtered, it was carried out by the Chinese because the authorities feared the Russian soldiers would refuse to do the work.

"The Chinese do this work indiffer ently-like they do all other work they are ordered to perform. They are blind, conscienceless tools in the hands of the men who feed them and pay them and who raised them from the position of coolies in which they came to Russia to the rank of soldier, of the guards.

shevik) orders something, the Chinese does it, and he does it in his typically practical way. He first makes the victim dig his own grave and then shoots him with his revolver. He is not cruel about it, just practical. "When boltsjak says kill, then he kills with an unperturbed face. And

"If the 'boltsjak' (his name for bol-

his victim go." The correspondent after some weeks in Russia left when he was refused permission to make investigations freely as he pleased.

Assert Ancient Tribes Did Much Irrigating

Albuquerque, N. M .- That prehistoric peoples of New Mexico did a good deal of irrigating is indicated by the remains of canals and ditches found in the state, as well as in other parts of the Southwest, according to H. F. Robinson, head of the Indian irrigation bureau

here.

there are evidences of elaborate water systems at the Salt River valley in Arizona. These ditches were all dug by hand, according to Mr. Robinson, and clay banks and beds were constructed where the way lay over a sandy plain, while the method of blasting through

CHINESE KILL RUSS FLY ACROSS PACIFIC

Captives Are Shot to Death With Giant Flying Boats Planned for the Trip.

> Will Cross From California to China, 8,777 Miles, in Four Hops.

> New York.—Two giant flying boats for the first flight across the Pacific ocean are being planned, according to the Manufacturers' Aircraft asso ciation. These planes will be nearly twice the size of the NO-4, which made

the first trans-Atlantic flight. The proposed route lies from Sax Francisco to Hongkong, China, a distance of 7,616 nautical miles, or about 8,777 land miles. Stops will be made 8,777 land miles. Stops will be ma at Honolulu, Wake Island, Guam and

Manila. The flight has been made possible, the association says, by an invention of Edson Gallaudet of Hast Greenwich, R. I., whereby three Liberty engines are coupled to one 18-foot propeller. The new boats will have three separate power plants, each containing three high compression Liberty en-

gines, or nine motors to each ship, The boats will be triplanes with wing spread of 140 feet, as compared with a spread of 126% feet of the NO boats. Each boat will have a wing area of about 6,000 feet and carry a crew of 16 men. The hulls will be 67 feet long, 22 feet longer than that of the NC-4. The cruising radius is estimated at 2,100 nautical miles, nearly twice that of the NC craft.

Three high compression motors will drive each of the three propellers. Each unit of three motors will be installed in a separate nacelle, thus making possible repairs while in flight, Each propeller will be driven by two mofors with one fn reserve.

Enough gasoline can be carried to

permit a cruising radius of 2,500 lend miles without stopping. LEARN AND GROW HEALTHY

Photo shows little Miss Minnie Lin. one of the pupils of the open air class of public school No. 5, Brooklyn, N. Y., who learns the three R's while bundled up in blanket and bag. She receives the same instructions as the children in the enclosed school rooms, but has the benefit of the fresh sunny

LADY GEDDES AN AMERICAN Wife of New British Ambassador to United States Was Born at Dobbs Forry.

New York.-Lady Geddes, wife of Sir Auckland C. Geddes, named British ambassador to this country, is an American girl. She was born at Dobbs Ferry, and is the third daughter of the late Mr. and Mrs. W. A. Ross, long residents of

Staten Island. Both came from north of Ireland stock. She was married to Sir Auckland in 1905 in St. Mary's Protestant church, West New Brighton, and shortly after went to live in Edinburgh, where her bushand was assistant professor of

anatomy in Edinburgh university. Several years later they went to Dublin to live, and still later to Montreal, where he held a professorship at McGill university and later became principal. Sir Auckland joined the British forces at the breaking out of the war, and Lady Geddes remained in

Montreal.

valided home. He was made brigadier general, and, later, knighted. BEES TO TRAVEL VIA PLANE
