Clark Lyman of Andover spent the weekend with relatives here.

Miss Myrtle Johnston visited in Youngstown over Sunday.

## LURE THAT TEMPTED MANY WILL EXPLORE BAFFIN LAND

Adventurers as well as Dreamers Sought Vainly for the Fabled Fountain of Youth.

In that far-off, never-to-be-discovered country in that region which has shifted and changed just as men's minds alter and expand, in that mystic Bimini was thought to be the spring which, if tasted by mortals, would assure them immortal youth. On that island bubbled a fountain whose waters healed all manner of sickness.

The lure of the Fountain of Youth seized upon not only the dreamer, but caught the fancy of the bold adventurer, Ponce de Leon, and the redoubtable De Soto sought to taste of its life-giving fluid, and it is perhaps the mystery and wonder, coupled with desire, that brought about the discovery, not of the fountain, but of that part of our country known as Florida.

It was on the 27th day of March, 1513, that Ponce de Leon sighted land which he thought was an island. On April 8, which was Easter Sunday, he took possession of the country in the name of the king of Spain and called it Pascua Florida in honor of the day. He explored the country and was obliged to battle with the Indians, and after many adventures, which included another voyage in 1521 to found a colony, this intrepid navigator succumbed to a wound inflicted by a savage, and died while his vessel was making for the island of Porto Rico.

## DANGER IN ELECTRIC CURRENT

Neither Fixtures Nor Appliances Should Ever Be Touched by Anything That Is Wet.

No electric appliances should ever be placed where a person in a bathtub can reach them. Such is the assertion of Dr. A. Zimmern in the Presse Medicale (Paris) in commenting on the death of a colleague. Electrocutation has taken place with a current of only 110 volts under such circumstances.

The reason is that the water on the hands and body provides exceptionally favorable conditions for conduction of the current. It is not safe to touch even an electric light, heater or bell when in the bath. Doctor Zimmern cites recent cases as follows:

A woman killed by holding an electric light in one wet hand while turning a water faucet with the other; a woman killed by wiping with a wet cloth the current distributing apparatus for an electric heater; a man receiving a severe shock by taking hold of a chandelier while holding an electric light suspended by a wire.

It is very dangerous to change an electric bulb when the hands are wet or the floor is wet; a slight defect in the insulation may cause a severe shock or even death.

## NEW BUFFALO

June 9.—Abe Bare and son Sam and daughter, Mrs. Locke, of Dixon, Tenn., are visiting relatives here.

Clark Bare bought a Ford car recently.

Archie Beard was in Columbiana, Monday.

E. T. Roller and family attended the horticultural meeting near Youngstown, Wednesday.

F. W. Calvin and family were in Salem, Tuesday evening.

Children's Day exercises at the Grove church next Sunday evening.

## Mexicans Wary of Snow.

It is possible on almost any day in the year to see snowbanks from Mexico City, yet few of the natives had ever touched snow until one day last winter, when there was quite a perceptible fall, the first in many years in the Valley of Mexico.

The mountain peaks of Popocatepetl and Iztaccihuatl clearly visible from the capital, are always snow-capped, but they are some sixty miles away.

Barefooted or lightly shod natives stepped gingerly into the strange element, and afterward spent most of the day huddled in their homes or in sheltering nooks and corners. The snow flurry was due to a sudden drop in temperature during a light rain.

## ISLAND

June 9.—John Witmer and family, Harry and Michael Showalter, Paul, David, and Lester Lehman, Owen and Mary Witmer, Mr. and Mrs. Jonas Oberly called on Rev. Harvey Horst and family, Sunday.

Mrs. W. J. Force Tuesday in Warren and Newton Falls.

Quite a number from this vicinity attended the Phillips' sale in North Jackson, Monday.

H. E. Kale and Perry Weisner were in Youngstown, Friday.

## Work of Census Taking.

Airplanes were used by census takers enumerating the dwellers on the islands off the coast of Florida, and snowshoes were used in the northern states and in Alaska. Near Oswego, N. Y., an enumerator found the man of the family in an isolated farm dwelling sick and helpless, and stopped long enough to do the chores, dig out paths through the deep snow and put things in order before continuing his journey.

## Tobacco Crop Greater Than Mining.

In 1906 the famous Cripple Creek gold field yielded \$14,253,000 worth of the precious yellow metal. That year all of the state of Colorado yielded \$23,210,629 in gold. The 1919 crop of tobacco in the "burley district" of Kentucky will bring \$75,000,000, more than five times as much as the Cripple Creek gold field yielded in one of its bonanza years, and within \$14,000,000, or as much as the value of all the gold mines in the United States in 1918.

## His Predicament.

"What is the matter with old Riley Rezzidow?" asked the traveling salesman. "He does not seem to like himself."

"I'll tell you," returned the landlord of the Petunia tavern. "Uncle Riley has killed the peach crop for the coming season, got the League of Nations out of the way for the present, and nobody cares a hyper whether the climate of Mars is healthy or not, so he's kinda out of talking points for the present, and hasn't anything to argue about until he gets some new ones."—Kansas City Star.

## Packing Cases for Rubber.

Before the war Japan used to supply most of the packing cases used for rubber sent out of Burma. Owing to the increased cost and the scarcity of shipping the Burma forest department took up the business, and now supplies the boxes required, which yield a fair profit, besides benefiting an important local industry.
