THE EMMA ABBOTT CONCERT TOUPE—Gave our citizens a charming entertainment in Schaefer's Opera House last Friday evening. The audience was highly appreciative, largely composed of citizens who are musicians and singers themselves. We are sure their expectations were more than realized. Miss Abbott is an Illinois girl, who has pushed herself to fame despite poverty and adverse fortune. She spent several years in Italy and France, and is the best singer in the city. Her debut in Italy and London in 1875 with great success. After singing in the largest cities of England and Ireland she came to New York, where a series of triumphs attended her. As an artist Miss Abbott is considered by many to be the equal of Jenny Lind. Miss Abbott is accompanied by Signor Pietro Ferranti, baritone and the first buffo singer on the stage. Horroby, solo pianist and Mr. Matthew Arbuckle, the renowned cornet soloist of Gilmore's band, New York. Though the company had a good house they are sure they would draw a crowded house on a second visit.

Mr. Arbuckle used a magnificent instrument, manufactured especially for him by Henry D. Lin. of New York, the celebrated manufacturer of brass band musical instruments.

FIRST CLASS ENTERTAINMENTS—Canton has been honored with a number of first-class entertainments the past winter and with very few that were not first-class. The theatre going public are rapidly giving these entertainments better support. It used to be that nothing but a band of music was allowed to enter the hall, but now the improvements to the Opera House which, when refitted with new seats will be equal to anybody's Madison de Plaisance. Januszek, who has received the applause of as many admirers as any lady who "tramps the boards" will appear in that grand historical play of Schiller's, Mary Stuart—Queen of Scots, on Thursday evening next. Her debut in Italy will be here May 7th and Monday. And then, too, Mr. Schaefer is adding great improvements to the Opera House which, when refitted with new seats will be equal to anybody's Madison de Plaisance. Januszek, who has received the applause of as many admirers as any lady who "tramps the boards" will appear in that grand historical play of Schiller's, Mary Stuart—Queen of Scots, on Thursday evening next. Her debut in Italy will be here May 7th and Monday.

FROM KANSAS.—Mr. Henry Reemmyer, now in Kansas, has written us a very new and interesting letter, but owing to the crowded state of our columns, we are obliged to give only a sketch of it. Among other things he speaks of the magnificent wheat crops around Hayes City, and the very poor appearance of the wheat through Missouri; also the contrast between the roads of Missouri and those of middle and western Kansas. In Hayes he says the streets are dirty, while in Missouri it is almost impossible to navigate in any manner whatever. He says the houses in Hayes are all crowded with boarders, and emigrants are pouring in on every train in a perfect crowd, and that there are twice as many mechanics as needed, at the same time saying that no man can do so well on a farm as a mechanic, because he can't work it.

NEARLY A MURDER.—On Tuesday morning a shocking tragedy occurred at Carlisle, in the eastern part of this county, which may yet result in the death of the victim, Mr. Jayburg. The facts as near as can be learned are as follows: Mr. Jayburg was up in the morning to build the fire, and after being up to go back to bed, he again by Mrs. Jayburg, who proceeded to build the fire herself. After building the fire Mrs. Jayburg picked up an axe and went to the bedroom, where her husband was sleeping, and struck him across the top of the head, laying the skull open and exposing the brain. We are informed that Mrs. Jayburg is not entirely sane, and that the necessary papers have already been procured to have her removed to the Insane Asylum.—Holmes Co. Farmer.

HEAD KNOCKERS OFF.—On Monday afternoon a Mr. Bush employed in the grinding room of Cline, Seiberling & Co's machine shops at Doylestown, Wayne county, was killed by the explosion of a griststone. The stone was a new one, only having been put in place a few hours before the terrible accident occurred. The affair was a horrible one. A piece of broken stone struck Mr. Bush on the forehead and knocked the entire top of his head off so that the entire brain was exposed, death followed in about half an hour. Mr. Bush is said to have been a young man and only recently married and to have been in the employ of Messrs. Cline, Seiberling & Co. only about three weeks.—Aron Beeson.

ACCIDENT IN MASHILLON.—An unaccountable accident occurred in Mashillon Saturday night. Mr. John Sutter living near a stone quarry was awakened about daylight by his boys who said they had seen a dog, because the dog acted so strangely. On examination an employe of Russell & Co., named Lynch, was found lying in the quarry in an unconscious state. His right knee joint was badly fractured and the femur broken above the joint. He was taken home as soon as possible and when called. It was reported that he was wandering about on the back above the quarry and fell over, a distance of about thirty feet.

PAINFUL ACCIDENT.—As freight No. 65 was near Louisville on Monday, John C. Thompson narrowly escaped being killed. He says he was standing on the side shelf between the cars twisting the brake when he slipped, and as the train was running about 18 miles an hour, he knew he must throw himself outside the track or be killed, and he did throw himself outside, but in falling his left leg received a compound fracture, just above the ankle-joint. He was brought to Canton on the 11:30 train, where the company's physician, Dr. Johnson, set the fracture. He was sent on to his home in Crestline on the 1:34 train.

A BAD ACCIDENT.—David Stauffer, whom it will be remembered lived on the Sberick farm two miles southeast of Canton, was killed last Sunday by the falling of a tree in the woods near Nashville, Michigan, on the 29th of March. He was in the woods with two of his grand children, and while a little distance from them they chopped down a tree, which in falling, struck the old man on the neck and killed him instantly.

This kind of thing is becoming too common. Major Andrew Grove of Lordstown, left home last week without informing his family of his purpose to be absent any length of time, and the last seen of him was on a westward bound train.

OR MY.—An old lady in Canton wanted to send a fat iron by telegraph Tuesday, and a young man when asked if he was going to hear Januszek, asked, "Johnny who?"

KEYED IN.—This awfully romantic story reaches us concerning one of Canton's jolly sons who is attending "College" and who, though striving for "colerich," finds time for a little "sporting." Four years ago the big city and faded away in the seething hurrying human flood. So he went on in the morning—expecting her along on the afternoon train—and humming to himself "the girl I left behind me," which proved to be very appropriate. You see small matters make two very important things jumping the bounty of other things, and when she went to the train in the afternoon her governor just followed, and took her back and locked her in with his little key. How aggravating.

A MOVE FOR BETTER ROADS.—There is some talk among the parties who haul coal over the roads south of town of macadamizing the roads most used, during the coming summer, but as yet no decisive move has been made. There are about six miles that are in dreadful shape every winter, and there is not in Stark county another chance to do so much good with so comparatively small amount of work. Four years ago the coming summer it was decided to try to do a big, big city and fade away in the seething hurrying human flood. So he went on in the morning—expecting her along on the afternoon train—and humming to himself "the girl I left behind me," which proved to be very appropriate. You see small matters make two very important things jumping the bounty of other things, and when she went to the train in the afternoon her governor just followed, and took her back and locked her in with his little key. How aggravating.

A MOVE.—While a Judge was holding court at Van Wert O., a few days ago, a mouse took advantage of his preoccupation and climbed up inside his pantaloons. The attorneys and attendants became aware of the situation when the Judge suddenly gave a jump, clapped his hands to his legs and stamped on the floor. The sheriff rushed to the rescue, and the spectator rose in their seats, not knowing what was about to happen. The Judge whispered to the Sheriff, a lawyer shook the intruder out, and in the general confusion that ensued, the mouse escaped. Fancy the howl of derision that would have gone up from the "superior sex," if this had happened in a court presided over by a woman!

PERSONALS. Colonel P. S. Sowers and wife have returned from Wichita, Kansas. Mrs. Sowers's health was so much impaired by the climate that a change was found imperative.

Mr. Jacob Miller of C. Aultman & Co., who has been in Florida for some time, returned to Canton, Mo. Miller who is still quite unwell remained in Florida.

Oberlin, Dem.; Assessor—C. A. Kridler, Dem.; Constables—Wm. Sibley, Dem.; and Isaac Lewis, Rep.; Judges of the Peace—Wm. E. Oberlin, Dem. A full vote was cast on the Democratic vote ranging from 235 to 27, the Republican from 172 to 240, and the national from 100 to 124.

The other night an old West Hiller got up and went to a certain clock to feel for a certain beetle, but in the darkness he got hold of a flask containing kerosene oil, and after taking a healthy old gulp of the same went to bed. He didn't rest a wink, and a great deal, and finally said they couldn't make any more whisky now they did forty years ago.—Hauke.

The Sunday School Institute of the Mookington annual conference was held in the United Brethren Church on Charles street, Tuesday, Wednesday and Thursday last week, and was conducted by the General Secretary, E. W. Cowden. The meetings were exceedingly interesting, and all left with an intention of doing better work in the Sunday school.

WASN'T IT FUN THOUGH.—The boys enjoyed a charivari on South Market street Monday evening. It wasn't what you'd call a "nice little time" either. They had a very full meeting, and every boy paid strict attention to running his particular cow bell or oyster can, never forgetting to yell. You can't make one of the residents in that neighborhood believe there is no h—.

THE LAW SUIT.—We learn from the Youngstown News that the administrators of Henry Mohrman, who was killed by the Poland bridge, an account of which we published two weeks ago, have entered suit against the Canton Bridge Company and the Commissioners of Mahoning county for \$10,000.

The organization of a company in Ravenna to publish the Republican Democrat, lately assigned, has fallen through, and a new five-column quarto paper is to be started, with J. H. Thehart of Niles in charge. In politics the paper will be Republican, as was the Republican Democrat.

THEY'RE ALL.—While reading a few chapters in Noli Me Tange's entertaining novel last Sunday, we learned that when they embalm a man they fill him up with aromatic spices. Now no woman need be in doubt about her husband chewing cloves—he's only embalming himself.

SUBURBAN.—Some miserable sneak thief stole four pairs of shoes and a pair of boots, an apron and a few knives from Samuel Hobb, a shoemaker on East Tuscarawas street, last Friday night. The shoes and boots comprised his entire stock.

NATURALIZATION.—First naturalization papers were issued to two parties by the Probate Judge during March, and to three parties on Monday, April 1st. Three parties also received second papers on Monday.

"Ma, are we cannibals," asked a little Eighth street girl of her mother the other morning. "Why my child, what do you mean by that?" "Nothing," replied that young lady, "but you say to Bridget, 'Boys legs for breakfast.'"

COUNTY BONDS.—Stark County Bonds may be had at the Auditor's office by persons wishing to invest their money safely for a time at six per cent. interest, payable annually.

HISTORIC.—The old brick building, corner of Market and Ninth, known as the Kaufman house, is being modernized. That house has a history of incidents that would fill a volume, and as interesting as a novel. It was built in the summer of 1811 by John Nichols; 1811 was the year of the great eclipse, and when the phenomenon occurred the workmen then engaged on the roof were so amazed at the unnatural darkness that they precipitately left their work. The house was finished in the then, highest style of architecture, and for many years after its completion was considered the finest building in the county. Wm. Reynolds father of John P. Reynolds, Esq., and Matthew Laird, uncle of Mr. John Laird, were successive owners of the house, but it was purchased by Peter Kaufman about 1829, and still belongs to the family. In this unpretentious old house has been more of revelry, gayety and love-making than any house in the county, and many a night have the youth and beauty of Canton danced the happy hours away on the old oak floor. In the time of Jackson when Peter Kaufman was one of the Grand Sachems of Canton Democracy, he was visited by General Woodward, then "charge de affaire" in Denmark, and this is the only instance of a foreign minister ever visiting Canton. General Woodward came with his coach and team and livery attendants, and was given a sort of state dinner by Mr. Kaufman in this house we are speaking of, that has never been equalled in splendor in Molly Stark, and now this house, 67 years old, is being "modernized," which is all the comment necessary on the building of to-day. We are indebted to Dr. Slusser for our information.

STATE AND NEIGHBORHOOD.

Considerable excitement is being caused in Warren by a controversy that is being carried on between the ministers of the Baptist, Methodist, Presbyterian and Episcopal churches and their friends, on one side, and the friends of Dr. Thayer, of the Disciple church, on the other. The latter gentleman was recently tried and acquitted by a Committee on the charge of drunkenness and lying, a finding that the other ministers have taken exception to, and refuse to fellowship with him. The lie is being freely given on both sides, and it is thought that a suit for libel will be required to settle the affair.

Coshocton, March 31.—A farmer named Martin Lutz, living five miles south of this place, left here in an imberbed state about 7 o'clock p. m. yesterday on horseback for home. When he had gone one mile he fell from his horse and laid in the road all night and during a heavy rain this morning. When found he was thought to be dead. Dr. Wright was called and found a spark of life, which he immediately began to fan. At 8 o'clock his recovery is still doubtful.

The long litigated case of Simon Jennings, administrator and heir against Mrs. Taylor, of Minerva, in which the title to a tract of land, adjacent to Minerva was a dispute, has just been finally decided in our Supreme Court. This case, in some shape or another, has been pending in our county courts for eighteen or twenty years. A few years ago it was taken from our District Court to the Supreme Court of the State, and on the 20th ult. was decided in favor of Mrs. Taylor, except as to the interest of John H.
