

NEWS OF THE DAY.

Fresh From the Wires This Afternoon.

A BIG CASE American Constables Seize a British Ship Flying the Union Jack.

TADOMA, Wash., March 12.—[Special.]—Several of the crew of the British ship Craigdon which arrived here a short time ago for a load of coal, were arrested and sent for wages. The captain was instructed by the British consul to treat the men as deserters. They sued for wages and constables took charge of the ship which is still in their possession. Craigdon was carrying the British colors when seized and international complications are sure to ensue. This will be a case for Secretary Blaine's aggressive policy.

PLAN TO BLOCK CONGRESSIONAL ACTION AFTER THE STYLE OF THE LOUISIANA RETURNING BOARD.

COLUMBUS, March 12.—The Democrats have arranged a little plan to the McCann bill in case it passes. If congress decides to step in and interfere in the election of congressmen in this state there will be introduced in the legislature a bill to establish a state returning board, which will receive and canvass all the election returns. Of course elections will be held in the old districts, and with a Republican secretary of state, under the present system certificates of election would be issued by him to the twenty-one Republican candidates. The bill proposed will take away from him the authority to issue those certificates and elect the returning board with this power. This will knock out the congressional trick.

Thirteen out of sixteen townships were represented by two hundred farmers. Action was taken for a permanent organization.

The Situation is Appalling to the Overburdened Taxpayers.

WASHINGTON, Mar. 12.—[Special.]—The treasury surplus has practically disappeared. From \$100,000,000 it has now shrunk to \$20,000,000. The most artful juggling of figures can no longer conceal the fact that the Republic is plunging into a vast deficit, the proportions of which are simply appalling.

ONE YEAR OF REPUBLICAN RULE.

What It Has Done For the Country—A Starting Statement—Instead of a Surplus, We Shall Have a Deficit.

WASHINGTON, Mar. 12.—[Special.]—The first year of absolute Republican rule has reduced the surplus in the treasury from \$110,000,000 to less than \$30,000,000, and this is only a starting point. If one half of the House bill in progress are carried out, the National treasury will be empty before the end of another six months, and the reduction of the enormous taxation now afflicting the country will be impossible. Ex-Speaker Carlisle, who is always careful and conservative in his statements, says: "Even if there should be no reduction of revenue by a revision of the tariff or the repeal of the tobacco tax, the secretary of the treasury estimates in his official report the total receipts of the government from all sources for the next fiscal year at \$850,000,000, and he estimates the total expenditures already provided for, including the sinking fund, at \$940,000,000, leaving a surplus of \$90,000,000. But it is already apparent that the appropriations for the ordinary expenses of the government for the next fiscal year will be largely in excess of the secretary's estimate. It has been stated on the floor of the House by Republican members of the appropriation committee, that \$22,000,000 will be required to meet the special demands of the government, and if this is correct there will be a deficit of \$67,000,000 instead of a surplus."

Senator Stanford's Scheme to Aid Farmers.

WASHINGTON, March 12.—[Special.]—Senator Stanford's new scheme to help the farmers who are in debt and cannot borrow any money from the bankers, is attracting much attention throughout the country. It proposes a plan by which the government can loan money to the farmers at a nominal interest to the amount of one-half or one-fourth the assessed valuation of their farms. This would prevent the western farmers who are in debt (and most of them are) from being eaten up and wiped out by the eastern money sharks, who are now loaning millions of money at 10 and 12 per cent. interest. In Kansas, the Dakotas, Nebraska, Iowa and all the western states, the scheme has raised a great cry among the bankers and moneyed men of the East. They claim it is a gigantic scheme of inflation and will, if enacted, ruin the finances of the country. Of course nothing in the interest of the farmers, as against the interest of the money kings, has any show to pass in either the present Senate or House.

Conflict Between the Governor and Certain Democratic Senators.

COLUMBUS, March 10.—[Special.]—The Democratic senators are not inclined to relinquish the idea that the governor should consult them on all appointments made in their respective districts. They claim that as the confirmation of the senate is necessary they should know something about an appointment before it is made. Senator Howells of Stark, Senator Corcoran of Hamilton and Senator Sutton of Sandusky are very firm in the stand they have taken. The governor intended only what was proper and right, and while disposed to be pleasant will be firm when he takes a stand. The differences are due to misunderstandings which will be speedily adjusted.

McKinley is Gloomy.

WASHINGTON, Mar. 11.—Major McKinley's Ways and Means committee is having very rough sledding. The Republican members are at loggerheads on sugar and tobacco, and the prospect of the "McKinley bill" is regarded as gloomy. The committee will doubtless report the bill to the House, but there is a growing impression that it will be simply a failure. Four of the Republican members of the committee favor free sugar and a bounty, one wants a small cut and no bounty, and two want heavy cut and no bounty.

BIG FIRE IN CINCINNATI.

Panic of Hotel Guests at the Burnt House. CINCINNATI, O., March 12.—[Special.]—The fire that broke corner Third and Vine streets, occupied by Stern, Mayor & Co., one of the wealthiest clothing firms in the city was completely gutted by fire this morning. The loss is estimated at four hundred thousand dollars. The fire was insured for half. The net work of telegraph wires hindered the fire department from saving the burning property. The burning house directed across the street and the fire caused a panic among the guests, who tumbled over one another and jumped from windows in their eagerness to get out. Fortunately no body was killed. Several firemen were severely injured, among them James Shepard who may not recover.

ST. LOUIS, Mo., March 12.—[Special.]—There are fears of a terrible flood along the lower Mississippi. Much property and many lives are in danger. The Ohio river and all its tributaries are very high. The court will pass sentence upon Mrs. Kessler next Saturday.

PASSAGE OF LOCAL BILLS.

UNDER SUSPENSION OF THE RULES, AND INTRODUCTION OF OTHERS.

Some Parliamentary Skirmishing Occurred in Connection With the Bill to Reorganize Labor Commissioner's Office—When the Democrats Outnumbered the Republicans the Bill Was Referred to the Author—Senator Oren's Joint Resolution Adopted.

COLUMBUS, March 12.—Neither house contributed much of news yesterday, the sessions being largely devoted to the introduction and passage of local bills under suspension of the rules. Some parliamentary skirmishing occurred in connection with the Representative Gannor's bill, to reorganize Labor Commissioner's Office out of office. When this important measure was reached for third reading on the house calendar the Democrats had several less than enough to pass it and there was a call of the house. When enough Democrats materialized to outnumber the Republicans the bill was, by a party vote, referred to the author with leave to take it up at any time.

Among New Laws.

It is one to extend the time for shooting wild duck from Dec. 1 to April 10, Representative Hunt's bill passing the senate.

The Senate Adopted Senator Oren's Joint Resolution Asking Congress to Propose an Amendment to the Constitution Providing That United States Senators Shall Be Elected by Popular Vote.

The general appropriation bills will probably be introduced in the House to-day.

A COMING CONVENTION.

The American Society of Mechanical Engineers to Visit Cincinnati in May.

CINCINNATI, March 12.—Cincinnati is fortunate this year in being the city selected by the American Society of Mechanical Engineers for its annual meeting. The society is to be here in May, a week before the May festival. Last summer a large body of these gentlemen visited Europe to attend the Paris exposition. They were received on all sides in the most cordial manner, every attention being showered upon them. They were feted and dined in England, France and Germany by the large cities, corporations, guilds, societies and royalty. In London the Institute of Civil Engineers gave them a dinner in Guild hall, a courtesy extended but once before to any non-municipal party visiting that city. The society comprises more than 1,000 members. Among the more notable ones are Thomas A. Edison, Professor Robert H. Thurston, Francis A. Walker, Coleman Sellers and Henry R. Goussier. Gustave Eiffel, of Paris, and Mr. Benjamin Baker, engineer of the Fourth Bridge, are honorary members.

OPPOSITION IN OIL.

The Standard and the Independents Commence a War in Prices.

FINDLAY, O., March 12.—There was much excitement here yesterday morning among oil operators and producers caused by the advance in the price to 21 cents per barrel by the Standard Oil Company, when the agents found that the Independent buyers were offering 20 1/2 cents for the product. The advance ordered by the Standard last week to 20 cents a barrel after having kept the price down to 15 cents for three years, was brought about by the desire to shut out the independent buyers. The price of oil was 21 cents a barrel, and the price on the Standard half a cent per barrel. The Standard then put the price to 21 cents, but the war is on, and it is freely predicted that Ohio oil will compare 30 cents by Saturday night, thus doubling the price within a week. There is much feeling here, and the oil boom is on in all its intensity.

A meeting of the manufacturers at Dayton, at the board of trade rooms last night vigorously protested against the passage of House bill No. 36, which places an additional tax on manufactured goods. The Wets Carry Washington.

WILLIAM P. TAULBEE DEAD.

HE EXPIRES WITHOUT MAKING ANY STATEMENT.

Death Had Been Expected for Several Days—Physicians Thought It Best for Him Not to Speak of the Shooting—Only Two Witnesses of the Affair—One Refused to Talk, the Other Missing—Kincaid Again in the Custody of the Police.

WASHINGTON, March 12.—Ex-Congressman William P. Taulbee, who was shot by Charles E. Kincaid, the Washington correspondent of The Louisville Times, in the house wing of the Capitol on the afternoon of Feb. 28, died yesterday morning at 5 o'clock, at Providence hospital.

His death had been expected for several days, but while there was still a chance for his life, the physicians thought it advisable not to permit him to make an ante-mortem statement of the circumstances surrounding the shooting. He died, therefore, without making any statement, and the case against Kincaid will rest entirely on the testimony of himself and two eye-witnesses of the tragedy.

Refused to Make a Statement.

One of these eye-witnesses was Samuel Donaldson, of Tennessee, formerly door-keeper of the House of Representatives, who has refused to make any statement for publication. Donaldson was with Taulbee at the time the shooting occurred. The other witness was a boy who cannot be found. The stories of the shooting differ in one important particular. Kincaid and Taulbee had had an encounter, some time prior to the shooting, in the corridor adjoining the hall of the House of Representatives on the east. It was said just after the shooting took place that Kincaid had armed himself after the first encounter with Taulbee, and, seeing him going down the stairs that lead to the basement, had run after him, called to him, and, as he turned, shot him in the face. Kincaid claims that he was awakened and after he had dressed was in fear of danger from a further encounter with Taulbee, and that Taulbee had warned him to avoid himself. Kincaid, however, insists that Taulbee insulted and attacked him on the second encounter, rendering, in his opinion, resort to the pistol a necessary self-defense. As soon as the news of Taulbee's death reached police headquarters an officer was sent to Kincaid's room; he was awakened and after he had dressed was taken to the police station.

ANTI-TRUST LAW.

Declared Unconstitutional by Judge Dillon, of the Circuit Court.

ST. LOUIS, Mo., March 12.—The Missouri anti-trust law was declared unconstitutional by Judge Dillon of the circuit court yesterday. It was in the case of the State against the Simmons Hardware Company. This is the test case to be fought out in the courts to the end and its progress is watched with great interest by a large number of corporations all over the country. Last December, Secretary of the State Lessor wrote to the Simmons Hardware Company asking them to make an affidavit to the effect that the corporation was not a member of any trust, monopoly or combine, whose object was to destroy competition and raise prices. The company refused to reply and suit was filed in the circuit court, asking the court to declare the charter of the company forfeited for not complying with the law. The Simmons Hardware company filed a demurrer to the petition questioning the constitutionality of the law and on this Judge Dillon rendered his decision.
