A dozen conferences were held, and every enough trading is going on to keep the New York clearing house busy for twenty-four hours. IN MUCH TROUBLE.

AWILMINGTON, DELAWARE, WOMAN FOLLOWS HER HUSBAND.

And His Lady Love to Stark County and Has the Pair Arrested on Serious Charges.

Mrs. Mary Specht came from Wilmington, Delaware, to have her husband Carl Specht arrested for adultery and Mena Karin for fornication. The pair were at Canal Fulton where Specht is running a brewery and having Mena Karin as housekeeper. Mrs. Specht had her husband arrested at Canal Fulton several days ago and then came to Canton where she swore out warrants before Justice Ringle charging her husband Carl Specht with living in a state of adultery with Mena Karin, whom she charged with fornication, from April 1, 1890, to April 5, 1892.

Constable Slagle went to Canal Fulton yesterday afternoon and brought the couple to Canton. The woman waived a hearing, while Specht offered to go on her bond, but as he was under bond for \$300 at Canal Fulton this was refused. Specht did not find ball last night and Mena Karin was, with a four year old child, booked for a night's lodging in the county jail.

Mrs. Specht who is a nice looking old German lady, was seen this morning and said that she and her husband had lived happily in Wilmington, Delaware, for a number of years. She said Specht was a brewer and worth about \$100,000. About 1889 she says Mena Karin came to work at the house. Soon she began to hear bad reports about the manner in which her husband and the servant were getting along together. These she did not believe.

In 1890, she said, she discharged Mena Karin. Soon after her husband went away to Royal Towanda, Pa., where he purchased a brewery. Specht wrote to her several times, she says, asking that she come to live with him, which at last she did, where she says she met the Karin woman again and trouble followed. A fast Specht and his Mena went to Buffalo where they lived as Mr. and Mrs. Fisher for several months, and then came to Cleveland and finally to Canal Fulton, where Mrs. Specht located them.

Mena Karin was seen at the jail this morning and said she had spent a bad night of it. She was crying bitterly and talking against Mrs. Specht. The four-year-old child which she said was her's and Specht's, had been taken out this morning by Specht who had come in with a prospective boardman. She said that all Mrs. Specht wants is money, and that it is unjust to blame her for the loss of the Wilmington property, as it went by Sheriff's sale, because the Building and Loan claims were not kept up. Afterwards she said that Mrs. Specht wanted her husband to come back with her, but that they could not live together because of Mrs. Specht's ill temper.

THE TEMPTATION OF MCKINLEY. He Won't Talk About Accepting the Presidential Nomination. (Special to the New York World.) COLUMBUS, O., April 18.—Gov. McKinley is evidently afraid that any question concerning his candidacy for President is loaded and apt to go off at both ends.

His presidential boom in Ohio was started by enemies in his own party and he fears that anything of this sort now emanates from the Foraker people. This question, typewritten, was handed to Gov. McKinley to-day: "In view of the fact that there is a disposition in many quarters not to re-nominate President Harrison and that your name is most frequently mentioned in connection with the nomination (with Harrison eliminated), would you accept the nomination or allow your name to go before the convention?"

The Governor read it carefully and then said: "You do not expect me to answer a question like that, do you?" "Well, a man can't answer that kind of a question when his wife is waiting for him," said the Governor, with a laugh. "I think you had better come in again."

Major McKinley seemed suspicious, and determined not to answer the question directly. His entire manner, however, was at the furthest extreme from "Satan, get thee behind me."

STARTLING NEWS FROM PHILADELPHIA. McKinley is in it, but Grover and Bosjman are Not. (Special to the Pittsburg Dispatch.) PHILADELPHIA, April 19.—A gentleman who came here yesterday direct from Columbus, O., where he conferred with Governor McKinley, talked interestingly with your correspondent on national politics, and in a quiet way made some astounding statements and predictions. In his judgment neither Harrison nor Cleveland will be nominated by their respective parties.

He says Governor McKinley of Ohio will be the Republican candidate, and ex-Governor Campbell of the same state, or some other western man, will be the Democratic candidate.

"Speaking from a Democratic standpoint, we hear a great deal of Cleveland and his boom," my informant began, "but under the foam and enthusiasm it is apparent to the keen political observer that many elements are at work to prevent Mr. Cleveland's nomination. The Democratic National Convention will be made up of 900 delegates, and a three-fourths majority is necessary to a choice, making it necessary for the successful candidate to secure 601 votes. Even Mr. Cleveland's most ardent friends admit that if he is not nominated on the second ballot he will have little the best of the fight."

Working Ohio Against Cleveland. Special to Cleveland Plain Dealer. WASHINGTON, April 19.—Gen. Charles Anderson of Darke county, who represents the Lima district in the forty ninth congress and who would probably still be in congress if he had not been gerrymandered out of the Ohio legislature, is in the city. He has had one or two conferences with Senator Hill, Brice and Gorman concerning the presidential situation.

Gen. Anderson is not declaring exactly who his presidential preference is, except that he is for Grover Cleveland. His state for delegate at large to the Chicago Convention includes Senator Brice, Larry Neal, John R. McLean and ex-Governor Campbell. He is willing to concede to the Campbell wing of the Ohio Democracy for the sake of harmony that Campbell should be one of the delegates at large.

PURGEON'S MANTLE.

Dr. A. T. Pierson Who is to be Called to the Pastorate of the London Tabernacle.

The death of Spurgeon left a void in the ranks of English preachers which it was feared could not soon be filled. That the successor of the departed orator of the London Tabernacle should be an American seems not less surprising than it would have been if the successor of Beecher had been looked for in England.

And yet strange as it may appear, such is the fact, as it is understood that the Rev. Dr. Pierson, of Philadelphia, who officiated in Mr. Spurgeon's pulpit during the latter's final illness, and who has since then continued in that capacity, will be invited by the trustees of the Metropolitan Tabernacle to fill the pulpit either permanently or for a term of five years. It is thought that he will probably accept the latter offer.

THE AXLE WORKS. President Laughlin Visits Canton to Make Necessary Arrangements. President Laughlin of the Axle works came from Cleveland yesterday and is stopping at the Barnett House. The object of the trip was to arrange for the erection of the shops and let the contracts but the plans are not quite done and so this will have to be postponed for a short time. A NEWS-DEMOCRAT reporter saw Mr. Laughlin this morning when he said that the plans are nearing completion and that he expects to have the contracts let and the work of construction on the building commenced in less than two weeks. He said he expected to be in operation in the new plant by next September.

The Wheeling factory which the company recently purchased will be brought here first, and afterward the Cleveland shops. The company are having a splendid call for their goods and are anxious to get to work in Canton.

AFTERNOON WEDDINGS. Four Persons Made Happy by Rev. Herbruck's Sunday Afternoon. At the hour of yesterday afternoon Mr. C. F. Gregory of Pittsburg, Pa., and Miss Anna T. Teyman were united in marriage. Rev. E. P. Herbruck tied the nuptial knot in the presence of several friends. The bridal party left on the 2 o'clock Fort Wayne train for Pittsburg, where they will make their future home.

Later in the afternoon Mr. John Hughes foreman of the Bolton Brick works, drove up to Mr. Herbruck's study in company with Miss Anna E. Rohrer from east of the city. By the use of the usual ritual the obliging clergyman made them man and wife. They at once repaired to Mr. Hughes residence, No. 207 East Seventh street, where they will be "at home" to their friends.

TWO CHILDREN ELOPE. A Boy and Girl of 14 Supposed to Have Gone to Cleveland. An Alliance special says: Late last night Mrs. Howell missed her daughter May, aged 14 years, and also \$13 from her pocketbook. Ralph Bosworth, a boy of the same age, was missing about the same time, and it is supposed the young people went to Cleveland.

It seems that for some time there has been an attachment between the children, who are both still in school, and that they had some time since formed plans of elopement, but neither had any money till the girl supplied it.

IMPORTANT MEETING OF THE BONNOT CO. HELD LAST NIGHT.

Services of Augustus Bonnot Recognized—A Company Which Has Been Very Successful Since Coming to Canton.

Some time last fall we had the pleasure of announcing to the citizens of Canton that another new industry had been added to the large number of manufacturing establishments in Canton, when the Bonnot Bros. moved to Canton and organized the Bonnot Co. for the manufacture of clay working machinery. There was such a demand for their line of machinery that the old firm of Bonnot Bros. had to increase their capital and secure a larger plant in order to accommodate their customers. The business of the new company has been steadily growing in volume since coming to Canton, and it now employs about twice as many men as when it commenced operations in this city.

The company makes the largest, heaviest and best line of clay working machinery manufactured in this country. Mr. Augustus Bonnot, who has invented and designed most of their excellent line of clay working machinery, was last night promoted by the Board of Directors and elected vice president and mechanical engineer. This promotion places Mr. Bonnot in a very responsible position, and at the head of one of the most important departments of the business, and he will have charge of the inventing, designing, drafting and outside construction work of the company. We congratulate Mr. Bonnot upon his advancement, and have no doubt that the company will find him as valuable in his new department as he was in a subordinate position. Mr. Bonnot has just returned from Galesburg, Illinois, where he is one of the large clay working centers of the country, and where the company has just completed a job which was so perfect in its construction, that when the plant was started, it worked to the entire satisfaction of the parties for whom it was constructed, and as smoothly as though it had been in successful operation for a month.

The goods of this company give universal satisfaction, and it has been doing a large amount of business for Canton establishments. It rebuilt the works of the Champion Stoneware Co. in this city, which were destroyed by fire last fall. It has also a large amount of work for the Royal Brick Co., and last present engaged in equipping the works of the new Imperial State Brick Co. of this city, which, when completed, will be the largest single contract ever let in the United States of machinery for the making of paving brick. Mr. Willard Child, who has for some time been connected with the Works of the Iron Bridge Co. of this city, will on and after the 1st day of May next, assume the duties of Superintendent of the works of the Bonnot Co.

We hope that the Bonnot Co. will grow in size in the future as rapidly as it has in the past. Canton is one of the most important centers for the making of paving brick in this country, and we trust that our clay working industries are only in their infancy. It is a matter of great convenience to the various brick companies in the neighborhood of Canton to have a factory located in this city, in which they can not only get all kinds of repairs, but also all classes of clay working machinery. The line of goods made by the Bonnot Co. is of the highest quality and is the cheapest machinery of its kind made, because it is a best.

RENO LYNN. A Pleasant Wedding at Navarro Today. Mr. John J. Reno, of this city, and Miss Myrtle Lynn of Navarro, were married at high noon today at the latter place. The ceremony was performed in the presence of a pleasant circle of the friends of the contracting parties, and after the solemnizing of the nuptial contract an elaborate wedding feast was enjoyed at the home of the bride's parents. The couple expect to arrive in Canton this evening, when a reception will be given at the home of the father of the groom, in West Tuscarawas street. They will take up a residence in a portion of the home of Mr. Reno's father. Mr. Reno is a compositor in the job department of the NEWS-DEMOCRAT office, and his fellow workmen as well as his other numerous friends will wish him and his accomplished bride all possible happiness in their life's journey together.

What Your Great Grandmother Did.

She hatched the flax and carded the wool, and wove the linen, and spun the tow, and made the clothes for her husband and ten children. She had a spinning wheel, and she dipped tallow candles, to light the house at night, and she cooked all the food for her household by an open fire place and a brick oven. Yes, and when she was forty years of age, she was already an old lady whose best days were over. Her shoulders were bent and her joints ached by hard work, and she wore spectacles and a cap. Her great granddaughter, with all the modern conveniences for comfort, refinement and luxury, may be as charming and attractive at forty-five as at twenty. Especially is this true if she preserves her health by the use of Dr. Pierce's Prescription, which wards off all female ailments and irregularities, cures them if they already exist, keeps the life current, healthy and vigorous, and enables the woman of middle age to retain the freshness of girlhood upon brow and cheek, the light of youth in her eyes, and its elasticity in her joints. Go to your drug store, pay a dollar, get a bottle and try it a second, a third if necessary. Before you have finished the Prescription, you'll know that there's a remedy to help you. You'll keep on and a cure'll come. But if you shouldn't feel the need, should be disappointed in the results, you'll find a guarantee printed on the bottle wrapper that'll get you your money back for you. Can you ask more?

Even Mr. Cleveland's most ardent friends admit that if he is not nominated on the second ballot he will have little the best of the fight."

Working Ohio Against Cleveland. Special to Cleveland Plain Dealer. WASHINGTON, April 19.—Gen. Charles Anderson of Darke county, who represents the Lima district in the forty ninth congress and who would probably still be in congress if he had not been gerrymandered out of the Ohio legislature, is in the city. He has had one or two conferences with Senator Hill, Brice and Gorman concerning the presidential situation.

Gen. Anderson is not declaring exactly who his presidential preference is, except that he is for Grover Cleveland. His state for delegate at large to the Chicago Convention includes Senator Brice, Larry Neal, John R. McLean and ex-Governor Campbell. He is willing to concede to the Campbell wing of the Ohio Democracy for the sake of harmony that Campbell should be one of the delegates at large.
