A BARON'S SAD DEATH. The German Emperor's Yacht Swept Him to His Doom.

SOUTH SEA, Aug. 19.—An accident, resulting in the dismantling of Baron Von Zedlitz's American-built yacht Isolda, and the death of her proprietor, has occurred during the regatta of the Royal Albert Yacht club.

Mr. A. Barclay Walker's Alisa, the Prince of Wales' Britannia, Mr. A. D. Clarke's Satanita and Emperor Williams' Meteor started in the order given in the race for the vice commodore's cup and 35 pounds.

Later the smaller yachts in contest for prizes were sent away, over the same course. Mr. Frank Jameson's The Saint, Mr. Howard Gould's Niagara, Mr. Ogden Goebel's Sapphire, Mr. Dan Ravnar's Andrey, Mr. Charles D. Ravnar's Andrey and Baron Von Zedlitz's Isolda started in the order mentioned.

While the big yachts were passing the committee boat they overtook the 30-ton Britannia and Meteor, which were almost abreast of Isolda, the two first mentioned yachts narrowly coming into collision. Then Britannia suddenly shifted her helm in order to avoid the Isolda, but the Meteor, not having room enough, fouled Isolda, almost bow on, and swept her from stem to stern with her bowsprit. In a moment Isolda was a complete wreck. The mast with its clouds of white collapsed and the rigging and masts of the Isolda were blown overboard, and the crew and passengers on deck, the latter including Baron Von Zedlitz and his brother, were swept overboard, and more or less seriously injured.

Baron Von Zedlitz and his brother and crew of the Isolda were rescued; but the former was taken from the water with a bad cut on his head and neck, and was brought to shore, where he died before reaching shore.

The baron, who was not 40 years old, was considered one of the leading men of the present generation of German statesmen. He was privy councillor, a member of both the Reichstag and the Prussian diet and was leader of the free conservative party. He had been in parliament about 20 years and in 1890 was unanimously recommended by the state cabinet for the then vacant post of minister of finance, but was not appointed because the emperor had taken a fancy to Dr. Miquel, the present minister of finance. The baron leaves a wife and an infant child.

A STATEMENT FROM WATSON. He Proceeds to Raise a Row With the Democrats.

WASHINGTON, Aug. 19.—Thomas E. Watson, the Populist vice presidential nominee is out with another statement in which he comments on Mr. Bryan's New York speech and the conduct of the campaign in general. Watson says:

"I expect to defeat McKinley without saying a word against McKinley is something new under the sun, but Mr. Bryan's silence was proper and necessary. He could not afford to denounce protection while Mr. Sewall, his running mate, is so well known as a protectionist."

Mr. Sewall is even now acting in league with the Republicans to secure legislation which will levy tribute upon every American consumer of foreign goods in the selfish interest of the New England shipbuilders of whom he is a member. Mr. Sewall's presence on the ticket prevented Mr. Bryan from assailing national banks of issue and the Republican doctrine of protection so the same baneful influence prevented him from denouncing monopoly and extortion. Mr. Sewall being a corporationist of lusty proportions himself. In fact, it seems the mission of Mr. Sewall in the campaign to act as a contradiction to Mr. Bryan and to the Chicago platform."

CAN'T COLLECT ANY DAMAGES. Every Claim Will Be Met in a Way to Prevent It—Secretary Olney Has Done All in His Power to Prevent Filibustering Expeditions.

WASHINGTON, Aug. 19.—In official circles there is considerable discussion concerning the pamphlet of the Spanish legation prepared by its attorney, Calderon Carliste. In the state department there was no criticism as to the publication of the document, and it was

SENATOR CASTILLO, WHO IS DICTATING SPAIN'S POLICY.

not regarded as one at which offense could be taken. While it is acknowledged that the only prima facie object of the document could be the laying of the foundation for claims against the United States there are also intimations that the pamphlet was issued and given wide circulation for the purpose of making the United States more vigilant in preventing filibustering expeditions leaving the shores of the United States, as the Cubans in this country are redoubting their efforts to send munitions of war to the insurgents.

It is known that from the beginning of the trouble in Cuba Secretary Olney has made every effort to have the United States so act as to be able to prove that the government has done everything possible to check expeditions against Spain. It was said unofficially that every claim that Spain could make against the United States would be met in such a way as to destroy all ground for damages.

FEVER-SCOURGED HAVANA. Dr. Doty Says the Sewerage Breeds It. NEW YORK, Aug. 18.—Health Officer Alvah H. Doty of this city, has returned from Havana, Cuba. He spent only two days in Havana because he found on arrival that it would be impossible for him to reach either Santiago or Cienfuegos where he says there are alarming outbreaks of smallpox. He found that there was a great deal of yellow fever and smallpox in Havana and the surrounding country. The sanitary conditions are terrible. The whole city's sewerage he says is emptied into the bay, and the bay and the tide is not sufficient to carry it to sea. Consequently the bay is, he says, a constant brooder of yellow fever, especially around the Rigna docks and military hospital.

There were 300 cases of yellow fever and 100 deaths reported from the military hospital during the two weeks previous to Dr. Doty's visit. He is confident that the condition of the city of Havana is much worse than in ordinary summers, as the presence of unaccustomed soldiers has a very bad effect.

THE THREE FRIENDS SEIZURE. Her Release Depends on Whether She Carried Arms. WASHINGTON, Aug. 18.—The treasury officials have not received sufficient information in regard to the seizure of the suspected filibusterer Three Friends and her release. The future action of the officials hinges entirely upon the question whether or not the Three Friends carried arms.

Her captain made oath that to his knowledge and belief there were no arms on board, but the officials are not satisfied with this statement and have asked the collector at Jacksonville to furnish positive proof of information on this subject. If it is shown that the vessel had no arms aboard she undoubtedly will be released, but if the contrary is found to be the fact she will probably be libeled and her officers proceeded against for violation of the neutrality laws.

MINISTER TAYLOR'S BLUFF. The Spanish Premier Denies the Story of the Note. MADRID, Aug. 18.—In the chamber of deputies, Senor Canovas, president of the council, denied the statement that the Duke of Tetuan, minister of foreign affairs had read to Mr. Hannis Taylor, the United States minister to Spain, a proposed circular to the powers anent the condition of affairs in Cuba, and the relations to Spain with the American republics in general and the United States in particular.

Senor Canovas announced that no document of the nature outlined had been dispatched to any government. He added that the cabinet had made detailed notes relative to the Cuban situation, and that at an opportune moment a memorandum would be submitted to the powers in order to enable them to judge of the true condition of affairs in Cuba.

Denied by a Spanish Newspaper. MADRID, Aug. 18.—Epoca semi-officially denies the Spain is preparing a bill of damages against the United States.

THE DEATH APPARATUS.

Electrocution Costs Will Cost About \$4,000.

COLUMBUS, Aug. 19.—The outfit of dynamo, volt meters, rheostats, etc., for electrocution of criminal will cost about \$4,000. Henry L. Canfield of Xenia, to whom was entrusted the preparation of the plans and specifications, has drawn up, but declined to permit an examination of them until after the contract has been let.

Copies are to be sent to six electrical companies, which have consented, after much persuasion, to bid on the electrocution contract, but who are anxious that their names be not heralded to the four winds, for fear of scaring away customers who might object to buying a dynamo that it was known could kill at short notice.

Accordingly neither the plans nor the names of the six prospective bidders were given out. The electrocution chair itself will be made by convicts at the state prison.

An Attorney's Victim Dies. CINCINNATI, Aug. 19.—Fred S. Rothacker, who was stabbed by Attorney Charles Landy on Mt. Auburn street, has died at the hospital from effects of the wounds. The charge against the prisoner will be changed to murder, but it is likely that a case of self-defense will be shown. Landy is an athlete and it was surprising to his friends that he resorted to a knife when attacked by the two Rothackers, one of whom, at least, was intoxicated. It now appears that he was at the time suffering from an acute case of piles.

Tebeau Won His Case. CLEVELAND, Aug. 19.—Captain Oliver Tebeau, of the local baseball team, came out of his memorable fight against the National League with fly colors. Judge Noble, besides declaring the fine illegal, ruled that he would grant a new injunction to prevent the league from either interfering with the Cleveland team or its captain, but for the fact that the same object was assured by continuing the original restraining order in force.
