**THE DECLINE IN IMPORTS.**  
The falling off in imports into this country of late is a matter of common comment; but like other results, there are good reasons therefor. These reasons are not always understood, and indeed, with most of us require thought and a study of the facts. In the "Bankers Magazine" for January is an article on the decline of imports in 1898, which says the decline is not likely to be continued. The total value of the imports during 1898 was \$634,000,000, as against \$742,631,350 in 1897. We have to run back to 1885 before we find a year when the value of imports was as small as last year, and then our population was less by nearly one third. The decline is not wholly owing to less in quantity, but to decrease in prices. The pounds of coffee in 1898 were about the same as in 1897, but the price was about 25 per cent less. Tea was ten per cent less and also less in quantity, and so on in tropical fruits. A billion pounds less of sugar came in making near ten millions less in value.

Before the Dingley tariff went into operation wool was rushed in to a value of \$75,000,000 more than in 1896. This supply affected prices last year, and the wool imported in 1898 was \$10,000,000 less than the year before. Of course many other articles were also affected, and higher duties under the Dingley tariff reduced imports. Manufacturers of woolen, cotton and jute yarns show a falling off of \$12,000,000. Luxuries etc. show about the same amount in '98 as '97. The fact is the last year was exceptional, and the present year will probably show an improvement in imports. The tendency is to equalize all round.

The recent advances in stocks claimed by some people to show great prosperity. This advance is quite likely to be followed by collapse and a break in a brief time, showing, as heretofore, the speculation and uncertainty in stock gambling. It is a great mistake to cite this as evidence of great business prosperity.

The improved prosperity we have in the production of our fields and workshops, and mainly by our improved foreign trade, as seen in improved exports and reduced imports, thus giving this country a large and favorable balance. Protective tariff deserves no credit whatever therefor.

The Treasury bulletin for December shows the breadstuffs, provisions, cotton and mineral oil exported during the year, and these tell the story, as the following table, showing a previous year, will show:

	1898.	1897.
Breadstuffs.....	\$308,757,363	\$191,571,550
Cattle and hogs.....	83,900,996	25,397,448
Provisions.....	163,947,861	129,080,195
Cotton.....	232,116,136	189,773,249
Mineral oils.....	52,551,048	56,224,423
Total.....	\$780,667,304	\$522,046,872

These figures do not represent Wall street farming or policies, but stand largely for the hard work and intelligent enterprise of the American farmer. Besides meeting the wants of our own people, our exports of agricultural products was nearly \$780,000,000.

Our exports of manufactures increased from \$183,595,000 in 1895 to \$240,697,354 in 1898. In the same period - another striking fact - our imports of manufactures fell off from \$317,257,000 in 1895 to \$236,212,000 in 1898. This was for the fiscal and not the calendar year.

Our exports of agricultural products and manufactures in 1898 reached the wonderful aggregate of about eleven hundred millions of dollars.

There is much difference of opinion among persons who are, or have been in the Philippines. Some say the Filipinos are ignorant and vicious and not capable to govern themselves. A dispatch from New York, dated the 19th says:

General Charles A. Whittier, who returned recently from Manila says: "Nothing in the world is easier of settlement than the situation in the Philippines. It could be settled in three days. In the first place there is a wide ignorance of the wealth of the Philippines and the character of the Filipinos. The natives are not ignorant: they are not savages. They are adept at manufactures and as accountants, mariners and railroad operatives. They are quiet, most temperate, and have shown great ability in their military affairs. With firmness, accompanied by diplomacy and tact, I think it is the simplest matter possible to bring them under control. We may give them offices of minor importance, both military and civil, and try the experiment for whatever number of years may be necessary, until they develop their capacity for governing, and we can then be guided by that."

General Whittier advises the policy that is being followed in Cuba and it seems to be working well, from all accounts. And why should it not? It is the policy of giving the people a chance to live without robbing and oppressing them. It is not the Spanish policy.

We read that these are prosperous times, but from Portland, Indiana, the other day came a dispatch that there was danger of bloodshed if the glass company should attempt to start their works, the employes being on a strike against a reduction of wages. Our Republican friend should send that prosperity wave to Indiana at once.

The Silver Knight and Watchman, the leading gold and silver paper in the United States, and the foe of all trusts, says:

Considerable progress has been made recently in the work of organizing trusts, notwithstanding there is an anti-trust law on the federal statute books. The trusts can be depended upon to take a hand in politics, in order to secure the appointment of their attor-

**FALLING OF THE WOMB.**  
Female Weakness, Sleepless, Nervous and Weak.

She Says Death Would Have Been a Welcome Release.

"Dr. Greene's Nervura Has Made Me Well, It Has Done Wonders For Me."

Mrs. Anna B. Miller, 90 West Main St., Ionia, Mich., says:

"For forty years I have suffered from falling of the womb and female weakness, which caused constipation and a complete obstruction of the bowels at times. I suffered with sleeplessness, was nervous and weak and was losing my memory. Also had heart trouble. Death would have been a welcome release to me from all my troubles. A friend told me of the help Dr. Greene's Nervura blood and nerve remedy had been to her, and advised me to take it. I did so and have continued to take it, each bottle making me feel stronger. I am now able

to do housework and think nothing of taking trips on the train from one friend's to another, surprising them all with my renewed life. I can truly say that Dr. Greene's Nervura is a great nerve, blood and brain invigorant and health restorer, and I recommend it to all my friends and know that many have been helped by it. It has done wonders for me."

Remember that any time you can consult about your case without charge with Dr. Greene, 148 State St., Chicago, Ill., who is the most successful physician in curing all forms of nervous, chronic or lingering complaints, either by calling at his office or writing to him.

neys to places on the bench, and in this way defeat the operation of the law. The people must form a political trust and take possession of the government. They cannot defend their rights in any other way.

Governor Roosevelt of New York says he wants fair dealing, no sneak legislation, or he will veto. This hits the lobby, and trust schemers and plotters, in that out.

And his right "Rough Rider," make your launch, and hit the rascals root and branch.

**LAWLESSNESS ALL ROUND.**  
Lawlessness prevails to a greater or less degree in almost every direction. In cities, large or small, the laws against houses of ill-fame, gambling, etc. are disregarded, and little effort made to enforce the law.

The Inter-state Commerce commission in their last report to Congress states that "the railroad business is carried on largely in conceded violation of law," adding that it is "not only a matter of gravest consequence to the business welfare of the country, but concerns in no less degree the higher interests of morality."

**CAN'T DENY IT**  
When the Facts are Brought Home to Us and by Our Neighbors Too - They Are Canton Facts.

A wholesome suspicion is one of our characteristics as a people. In matters worthy of investigation we want tangible facts regarding it. The words of those we know, the nearby evidence obtainable, are generally what we most always rely on. When we call on a neighbor, a man of business at that, and say, "You have some experience with so-and-so what do you think of it?" and he answers, "Just the thing, I know because I have tried it," it goes a long way in helping our decision. This is always the case with Doan's Kidney Pills. Everybody who has used them for any kind of kidney complaint will tell you they are just the thing. Why? Because they do the work every time and in all disordered conditions of the kidneys. The proof lies with your neighbors. Many have been cured in Canton and are ready to tell you or anyone enquiring. Mr. William Sickmiller, 22 Odd Row, foreman of the construction crew of the Fort Wayne R. R., says: "For a few years I was troubled with kidney complaint, urinary weakness at one time, a urinary difficulty the next; a good deal of backache, with now and then severe sharp pains in the kidneys and especially if I did any lifting or stooping. I have been in such a miserable condition that I would have been willing to have given fifty dollars if I could have got relief at once. I took medicine from physicians but might as well have taken that much water for all the good it did me. Doan's Kidney Pills attracted my attention in the papers and I said to my wife that I must do something for this complaint or I will be down with it. I procured Doan's Kidney Pills at Durbin, Wright Co.'s drug store. It was only a short time before I noticed an improvement. I took the pills about two weeks and was cured. I am confident that Doan's Kidney Pills are a good remedy and I can recommend them as such."

Doan's Kidney Pills for sale by all dealers, price 50 cents. Mailed by Foster-McBurg Co., Buffalo, N. Y., sole agents for the United States. Remember the name DOAN'S and take no substitute.

**PROBATE COURT.**

Assignment of George Holm, Canton; petition for sale of land filed, also for sale of personal property.  
Trusteeship of Daniel Kayler, Sugar Creek township; distributive account filed.

**CHURCH EDIFICE**  
Dedicated Sunday With Special Arranged Services.

FILLED TO ITS CAPACITY.

Sermon Preached by the Pastor and by Other Eminent Divines - The Church Considered One of the Hand-somest in the City.

The handsome remodeled First Reformed church in East Tuscarawas street was dedicated with special exercises Sunday. The dedication sermon was preached by the pastor, Rev. F. C. Nau, at the 10 o'clock services, when the large church was filled to its capacity. Rev. H. J. Ruetenk of Cleveland and Rev. E. E. Nekirk of Wooster assisted. In the forenoon the church was filled to its capacity. Mr. Harry Ballard presided at the organ and a solo was beautifully sung by Mrs. O. E. Portmann.

In the afternoon arbor services were held, the various churches in the city being represented. Short addresses all congratulating the congregation of the First Reformed church on their successful achievement in constructing such a commodious and beautiful church were made by Revs. C. A. Hill, C. E. Manchester, J. O. Hathaway, Kreybill, John H. Prugh of Pittsburg, S. E. Nekirk of Wooster, H. J. Ruetenk of Cleveland and Freeman of Akron. A violin solo was played by Charles L. Arnold.

At the evening services Rev. John H. Prugh preached an eloquent sermon. There was excellent music by a quartet and several solos were sung by members of the choir.

The new edifice has all the modern improvements, such as steam heat, magnificent combination gas and electric chandeliers, and is artistically decorated in light colors. The new addition on the west end of the church contains large well lighted Sunday school rooms arranged around the audience room. There are two rows of rooms, one on the first floor, the other being accessible from a balcony which extends around the west and south sides of the new structure. The congregation now has a home of which it may well be proud. At the morning service \$500 was raised by subscription and a large sum was contributed at the two succeeding services.

**NEIGHBORHOOD NEWS.**  
NEW BERLIN.  
Paul Shaeffer has been on the sick list the past week.  
Bert Meckle and family have moved into the Frantz house.  
Miss Sue Shrantz of Canton spent Sunday with her parents.  
Mr. Albert Vial of Talmage called on Berlin friends on Wednesday.  
Mrs. E. Johnson of Aultman spent Thursday at the home of Dr. Steele.  
The literary club will meet at the home of Miss Zora Reemaynder on Monday evening.  
The taffy girls spent a jolly evening at Grandpa Shook's in response to an invitation from Uncle John.  
There will be a box social in Sponsler's hall on Saturday evening for the benefit of the baseball team.  
Miss Mildred Shiltz was tendered a surprise by the girl members of her class on Saturday evening in honor of her sixteenth birthday.  
All Berlin citizens are interested in the prospects of the pole and shaft works locating here, for which a meeting was held Thursday evening.

**TOOK THREE.**  
Said That Horner Had Plenty of Company.

**THE CHILDREN NOT LOCATED.**  
The Police Are Still Active and Have Hopes of Getting Them and Their Evidence in the Near Future - The Absence of Others.

The officers at work in the search for the Horner children have made little progress. They have learned but one fact, and that is that three children accompanied the father instead of two as was at first supposed. The old man Reamer has not yet been given a hearing and it may be some days before he appears before Mayor Rice for that purpose. He is still in jail, having thus far been unable to secure the necessary \$1,000 bond to gain his release. Humane Officer Frazer stated Sunday the officers were all at sea in regard to the Horner children, without whom it will be difficult to proceed against suspected persons. He was not prepared to state whether any further efforts would be made to locate the girls, who are supposed to be carefully concealed in some distant city.

**BECOMING EPIDEMIC.**  
Down at Zanesville Saturday outraged citizens tried to lynch a man who had assaulted a young girl, and now comes a dispatch from Wooster that indicates that hanging or some other violent measure is required in Ohio. The Wooster special says:

"An indictment was found by the grand jury against Daniel Curran of Summit county on the charge of rape committed upon Jessie Kisner, who lives between Sterling and Easton. Sheriff McCoy started last evening at 8 o'clock and landed his man in the county jail this morning at 9 o'clock. Curran, who resides just over the Wayne county line, works at Barberton and is a man of 31, but looks somewhat older. His victim, Jessie Kisner, is a girl of 14 years, large and well matured for her age, and was the principal witness against him before the grand jury. Curran admits having had criminal relations with the girl, but claims it was with her consent. As the age of consent in Ohio is 16 years, the girl's consent would be no defense to the charge against Curran. He also makes other implicating statements."

**NERVOUS DYSPEPSIA.**  
To Gain Flesh, to Sleep Well, to Know What Appetite and Good Digestion Mean.

MAKE A TEST OF STUART'S DYSPEPSIA TABLETS.

No trouble is more common or more misunderstood than nervous dyspepsia. People having it think their nerves are to blame and are surprised that they are not cured by nerve medicines. The real seat of the mischief is lost sight of. The stomach is the organ to be looked after.

Nervous dyspepsia often does not have any pain whatever in the stomach, nor perhaps any of the usual symptoms of stomach weakness. Nervous dyspepsia shows itself not in the stomach so much as in nearly every organ. In some cases the heart palpitates and is irregular; in others the kidneys are affected; in others the bowels are constipated, with head-ache; still others are

**SAVES WORK AND WORRY**  
Neglect should never be laid at the door of a housewife. It may be she works harder than her neighbor, but doesn't go about it in just the right way. Her neighbor uses

**GOLD DUST WASHING POWDER**  
and keeps her house twice as clean with half the effort. Gold Dust Washing Powder has given many a woman the reputation of being a queen of housekeepers. Do you use it? Largest package - greatest economy.

**PORTO RICAN TARIFF.**  
Order Issued For Customs to Go Into Effect February 1 - Porter Explained.

WASHINGTON, Jan. 23. - By authority of an executive order, issued by the president Jan. 20, 1899, the secretary of war promulgated an amended customs tariff, which was prepared under the direction of the secretary of the treasury by Special Commissioner Robert P. Porter, Assistant Secretary Howell and Dr. H. K. Carroll, and which is to take effect in all ports and places in the island of Porto Rico and all islands in the West Indies east of the 74th degree west longitude, on and after Feb. 1.

The port of San Juan is designated as the chief customs port, and Ponce and Mayaguez as sub-ports, and the office of the army assigned to each of these sub-ports as collector will have general jurisdiction of the collection of customs at such ports respectively.

Trade between ports of the United States and all ports and places in Porto Rico and trade between ports and places in Porto Rico shall be carried on in registered vessels of the United States and in no others.

In the course of his report, upon which the Porto Rican tariff is largely based, Special Commissioner Robert P. Porter shows that the value of the imports into Porto Rico during the year 1897 amounted to 17,358,063 pesos, upon which was collected in duties \$4,481,992. He further said, in part:

"If the same amount of revenue is required in Porto Rican pesos and the exports are likely to keep up to the 1897 standard, the fiscal problem confronting the treasury department in Porto Rico is briefly this: Exports of total value of dutiable imports 17,358,063 pesos, or \$8,769,931; total revenue to be collected 2,481,992 pesos, or \$1,240,981.

"Discarding the money question, which, after all, in this case, is a purely Porto Rican matter, the simple problem is an importation of about \$9,000,000 United States money and a needed revenue of \$1,250,000 United States money. It would be manifestly unjust to Porto Rico to adopt a tariff in force the amended Cuban tariff which is believed the Cuban revenue will amount to about 25 per cent of the imports, while a 15 per cent ad valorem tariff, assuming that the imports keep up to those of 1897, will yield sufficient revenue for the governmental needs of Porto Rico. The necessities and wants of the two countries are radically different. Porto Rico has not been a favored nation in this case, it is a purely Porto Rican matter, the simple problem is an importation of about \$9,000,000 United States money and a needed revenue of \$1,250,000 United States money. It would be manifestly unjust to Porto Rico to adopt a tariff in force the amended Cuban tariff which is believed the Cuban revenue will amount to about 25 per cent of the imports, while a 15 per cent ad valorem tariff, assuming that the imports keep up to those of 1897, will yield sufficient revenue for the governmental needs of Porto Rico. The necessities and wants of the two countries are radically different. Porto Rico has not been a favored nation in this case, it is a purely Porto Rican matter, the simple problem is an importation of about \$9,000,000 United States money and a needed revenue of \$1,250,000 United States money. It would be manifestly unjust to Porto Rico to adopt a tariff in force the amended Cuban tariff which is believed the Cuban revenue will amount to about 25 per cent of the imports, while a 15 per cent ad valorem tariff, assuming that the imports keep up to those of 1897, will yield sufficient revenue for the governmental needs of Porto Rico. The necessities and wants of the two countries are radically different. Porto Rico has not been a favored nation in this case, it is a purely Porto Rican matter, the simple problem is an importation of about \$9,000,000 United States money and a needed revenue of \$1,250,000 United States money. It would be manifestly unjust to Porto Rico to adopt a tariff in force the amended Cuban tariff which is believed the Cuban revenue will amount to about 25 per cent of the imports, while a 15 per cent ad valorem tariff, assuming that the imports keep up to those of 1897, will yield sufficient revenue for the governmental needs of Porto Rico.
