DAILY MORNING NEWS.

Daily delivered by carrier, 6c per week. Daily delivered by mail, \$1.60 per year in advance, or \$1.75 payable a end of year.

An Oklahoma woman has vowed that she will never eat again until her husband is converted. When last heard from her husband was reported to be a worse unbeliever than ever.

The voters of Stark county will no doubt take into consideration the excellent qualifications that the Democratic candidates for the county offices to be elected this fall possess. The county ticket this year is a small one, there being only three offices to fill, namely, county commissioner, infirmary director and recorder. For some years past the "News" has been endeavoring to show the voters of this county the favoritism shown several merchants in this city by the infirmary directors, and at the last election the Republican candidate who was up for re-election ran nearly two thousand votes behind his ticket, and had it not been for the large Republican majority given the head of the ticket he would no doubt have been defeated.

Akron Names Depositories. Akron, Oct. 25.—Ignoring the suit of the Cleveland Trust company the county commissioners this afternoon accepted the bonds of the First National and People's Savings banks of this city as county depositories.

Write This Down. In the book of memory, there is no such thing as a HARMLESS COUGH. Every cough is a warning of a condition that goes from bad to worse unless it is remedied right away. Opium-laden medicine is a delusion. Allen's Lung Balsam cures the worst of coughs. It clears the bronchial passages, so that the lungs get plenty of air. Why not get a bottle today?

Come!—be the guest of San Antonio

This fall, leave the chilly north behind you, and find health and pleasure under the stainless splendor of turquoise sky. To all newcomers, San Antonio offers a thousand delightful surprises. For the sight-seer, the old Mission Churches are still here, the old Cathedral of San Fernando, and gray and ghostly in the dazzling sunlight, the historic Alamo. For the invalid a perfect combination of sunny weather, pure, dry air, beautiful scenery and modern accommodations.

The Climate's the thing in San Antonio

The invigorating air, dry and warm; the altitude; the perfect natural drainage, all combine to make temperature as nearly perfect as can be. It is possible to spend most of each day, from November to March, outdoors. The parks and plazas, the margins of the creeks and rivers, the groves of palm and magnolia, lose nothing of their lustrous green during the winter months. San Antonio is, of all America, the oddest blending of modern utility and beauty, with the romance and heroism of the medieval.

to read "The Story of San Antonio" I'll send it on request. Once read, I'm sure you'll be more than half convinced that you should be the guest of San Antonio this winter. Address
