MR. RANDALL'S LECTURE.—The First Baptist Church was not only densely crowded and packed on Sunday evening, but many went away unable to obtain seats or standing room. Mr. RANDALL gave, in his usual pleasing and unaffected style, an account of his trip down the valley of the Jordan to Jericho and the Dead Sea. His description of these and other interesting localities in the same region, with frequent allusions to the great events, both in sacred and profane history, that had transpired there, made a deep impression upon the large audience, whom at the conclusion of the lecture he left thirsting for more.

We do not profess to be qualified to give advice in such matters, but would suggest whether the frequent introduction of such topics into the pulpits would not be more profitable, both to the cause of sound morality and true religion, to say nothing of intellectual culture, than the dry discussion of controverted points in polemical theology.

The public will be pleased to learn that Mr. RANDALL intends to resume his lectures on the Holy Land in two or three weeks, of which due notice will be given.

We gave the other day the postoffice address of the members of the Democratic State Central Committee so far as known. The address of Mr. MEYER, one of the Committee, we learn, is Greenville, Ohio.

Union Meeting in Louisville. LOUISVILLE, Aug. 17.—A young man from Richmond, of secessionist proclivities, apparently well informed of the designs of the Confederate army, says that he has just received advance orders from the Rebels to occupy the city of Washington.

A peace meeting, called by prominent secessionists, for this evening, was held at the court-house. As the crowd entered the hall many were singing the Star Spangled Banner.

The secessionists, numbering 100, withdrew shouting for the Southern Confederacy. Speeches were made by Messrs. Speed, Wolfe, Harlan and others, and resolutions adopted without a dissenting voice.

To this note the English Cabinet sent a message asking for a more explicit statement. The reply received was a proposition that England should not be understood as recognizing the secession of the Southern States.
