

ALL SORTS OF ITEMS

Some men think themselves inspired when they are only inflated. Mr. Souders writes from Madrid to Paris that he is in excellent terms with the Queen, but on bad terms with the Cabinet.

Advices from Providence announce the death of Nehemiah B. Knight, Governor of Rhode Island, from 1817 to 1821, and Senator in Congress from 1821 to 1831—in that city on Thursday morning.

Postmasters who notify a Publisher that a newspaper is not taken from the office are required to give the reason why they are not taken out. See Post Office Instructions and Laws.

Mr. Nathaniel G. Greene, son of Col. Greene, of Boston Post, arrived at Boston on Friday having made a tour of the world, by the way of California, China, Hindostan, Egypt, Italy, France and England, having been about 23 months.

Mr. Greene says the Court of St. James goes into mourning for a week on account of the death of the Duke of Parma—one of the most worthless ricks in Europe. So much for honor! A thousand Humboldts might die and no such set grief would be indulged in. Blessed be slum!

A Girl was dreadfully injured in Pittsburgh, a few days ago, by the explosion of a champagne lamp. Why will people persist in using this pernicious stuff when the most frightful accidents are continually occurring from it? It is dangerous as gunpowder, and almost as dangerous.

LOUIS NAPOLEON AND AUSTRIA.—News has been received in Washington that Louis Napoleon has distinctly notified the Emperor of Austria, that if he shows the slightest disposition to side with Russia, he, Louis Napoleon, will raise the standard of revolt in Hungary and Lombardy.

The Editor of the Clarion Democrat says he expects to die very poor indeed, but he hopes that in the end "he will go where all good printers go," while his delinquent subscribers will be trusts—be happy too. There is christian meekness and resignation, for you.

ADVERTISEMENTS.—If Nicholas will meet Sir Charles Napier in the Baltic, he will hear of something to his advantage.—[Panel.] Punch also says, Nicholas rules the seas, but Britannia rules the waves.

WOMAN'S LOCOMOTION.—An exchange says the most awkward thing in or out of all creation, is a woman trying to run.—They can't do it. They are not a running institution—except with their tongues. If there are two orange-tents in the world that have never made for fitness on the pedal, they are woman and ducks.

DEATH OF A GERMAN.—A German woman 131 years of age. When she was 129 years of age she emigrated from Germany to this country. It is said that her mind was vigorous and strong to the last. What a share of knowledge she must have possessed.

PHILADELPHIA WOLK MARKET.—The Philadelphia Inquirer, of Saturday says: The market continues dull. The manufacturers are generally well supplied, and the few sales making are a still further concession in prices. Sales of 60,000 lbs at 28 p 34 cents.

NEWSPAPER ENTERPRISE.—The editor of the Jacobsonville Republican, in a private note accompanying an extra containing an account of the destruction of Jacksonville by fire, on the 6th inst., says: "Every press in the place was destroyed, and the extra was printed with a horse brush, and with ink manufactured for the occasion from lard, black and oil. Jacksonville was but a small place, now it is no place at all."

CHARLES HENDERSON, Esq., of Danville, Ky., has emancipated 22 of his slaves to go to Liberia under the direction of the Kentucky Colonization Society, in the May expedition from this State. He also purchased the husband of one of his servants at the price of \$1,000. He gives to them all a full outfit, and to the Kentucky Colonization Society, \$500.—Paris Citizen.

THE WEATHER at the South has been almost as cool and unseasonable for a week or two past as it has been at the North.—We notice that on Tuesday last there was a very heavy frost at Mobile. On the 20th inst. some 18 miles from Charleston, the mercury stood at 34 deg, and throughout South Carolina it is feared that no other fruit has been killed, but that the young cotton and corn have been injured.

Church. In this new place of worship he found it difficult to suppress those outbreaks of religious feelings which were allowable with the sect he had left, and was quite often guilty of the impropriety of "speaking out in meeting," annoying his new brethren. He was laboring affectionately upon the subject, but it was of no use—the occasional "Amen!" and "glory to God!" under the influence of a stirring discourse, would slip out in spite of him, and he was finally fined three dollars and costs, the costs amounting to ten dollars. In the complaint against him he was accused of "disturbing religious worship."

We had the pleasure the other day of taking by the hand our young friend Lemuel Whitney, Esq., formerly of this place, but now a resident of New Hagers-town, Carroll county. Mr. Whitney is employed as an Engineer on the Steubenville and Indiana Railroad, and gives a flattering account of the progress of that great work. The energetic men of Steubenville are determined to press this road speedily to completion to Coshocton—and from that point through this city, by Mt. Gilead, Kenton and Lima, to Chicago.

Prof. Thayer and his road will be, when completed, the greatest thoroughfare from East to West, and one of the best passages in the United States.—Mr. Vernon Why.

Rev. Dr. Strong, of Greenfield, Massachusetts, availed himself of the recent annual fair to preach against political preaching. His main topic, according to the Greenfield Democrat, was the moral degeneracy of the times.

Alluded to the lamentable manner in which fast day has been perverted from its original design and purpose. He believed it to be attributable mainly to the perversion of the day by ministers, who, instead of preaching the gospel, have made the day an occasion for promulgating from the pulpit their peculiar sentiments on political affairs.

This perversion on the part of the clergy had led to corresponding perversion and abuse on the part of the people, till the present irreligious state of feeling was produced in relation to the day is the result. And, said he, it is well understood that three thousand clergymen will this day preach upon the Nebraska question; but I trust that my people will permit no poor minister to preach the gospel of the Lord Jesus Christ.

EXERCISE OF PUBLIC DOMAIN.—A report made by the Commissioner of the General Land Office to the Secretary of the Interior shows that the public domain of the United States consists of 1,331,430,340 acres, 224,704,500 acres less that exhibited in a former report. This discrepancy occurs in consequence of the extent of the public lands in Oregon, Nebraska and the Indian territories being ascertained to be less than was supposed.

A BIGAMIST SENTENCED.—In the Kings county Court, New York, last week, William Baker alias Washington Bates, formerly a Bishop in California, was arraigned on an indictment for bigamy. It appears that he was married to a Miss Margaret M. Warner in Rochester, N. Y., on the 14th of December, 1850, and on the 10th of December, 1852, was again married to a Miss Almira Fowler, of Brooklyn his first wife being still alive. He pleaded guilty to the charge as laid in the indictment, whereupon he was sentenced to confinement in the State Prison at Sing Sing for the term of three years.

CRYSTAL PALACE.—P. T. Barnum announces, officially, the reorganization of the Crystal Palace. As President thereof, he ordered it to be closed on the 15th, in preparation for its popular re-inauguration on May 15th. The details of the reorganization of this place will be furnished by the Committee of arrangements, viz:—Messrs. Horace Greeley, Charles Butler, John H. White, Edw. and Hight, and P. T. Barnum.

Mr. Barnum announces that the sale of tickets, in advance, has been large, and that the prospects are flattering. The "signs" are that the Crystal Palace will be a permanent institution.

GENEROUSLY REWARDED.—A lady belonging in New Orleans was traveling recently on the New York and Erie Railroad, with her servant and one or two children. Upon arriving at Dunkirk, she found by some mishap or oversight, she was destitute of necessary funds to enable her to reach home. She was entirely without acquaintances, and her distress was extreme, when the circumstances became known to an engineer on the train, feeling assured it was no case of imposture, he advanced to her, from his own hard earnings, the required amount. A few days since he received a package by express, from the South, upon opening which, he found a letter of thanks from the lady's husband, containing the money he had loaned, and accompanied by a beautiful and valuable watch.

The circumstances reflect honor upon all the parties connected.—Bost'n Atlas.

A NEW INVENTION.—It is stated that a resident of Fredonia, N. Y., has invented a curious apparatus for supplying locomotives with water. According to the plan, a cylinder must be constructed beneath the track, having connected with it a force pump which in its turn is connected with a series of "friction wheels," inserted above it in the track. The locomotive is run upon these wheels, and then, however swiftly its wheels may revolve, it can no farther, as the friction wheels upon which it stands revolve with those of the engine. The force pump is in this manner set at work, and make to raise from 1500 to 2000 gallons per minute. A practical test of the invention is about to take place on the Buffalo and Bradford Railroad.

A Gentleman named Moore, residing in the township, Belmont county, Ohio, left a tavern in St. Clairsville about the time of the commencement of the thunder-storm of last evening, and was in a short time afterward found dead on the street, near the west end of the town. He was carried into the residence of Mr. Neiswander, but all efforts for his resuscitation were unavailing. The cause of his death had not been determined this morning; speculations varying from lightning or apoplexy to death by being thrown from his horse.—Deceased was a brother of the Rev. Jas. Moore.—Argus.

MISTAKEN RETURNS.—The New York papers publish a letter addressed by Kossuth, Mazzini and Ledru Rollin, to George Saunders on the occasion of the reception in England of the intelligence of the rejection of the letter by the U. S. Senate as Consul to London. They express their "deep regret and mortification at the untoward occurrence," and regard it as a hard blow to republicanism in Europe. Now, the people of the United States have abundant sympathy with the republicans of Europe, but Mr. George Saunders is not recognized as the representative of that sympathy.—Kossuth and his friends have been imposed upon by Saunders. A better man and a sincere republican will be made Consul in his place.—Detroit Free Press.

From the South. BALTIMORE, April 26. New Orleans papers of Thursday have received. They give an account of the loss of the Brig John Williams, on Arkansas Bar, with a large cargo of Government supplies. Ex-President Fillmore left Savannah on Tuesday for Charleston. The Washington Union says Gadsden Treaty, which has been ratified by the Senate, arranges the Mesilla Valley difficulty, and provides for an eligible railroad; abrogates the eleventh article of the Hidalgo treaty, recognizes the interference of transmission granted in 1853 over Tehuantepec—for all of which the United States is to pay ten millions of dollars. The Union intimates that the treaty will lead speedily to the restoration of amicable relations between our Government and Mexico. George Allen has been recognized as Consul for the Pontifical States at Philadelphia.

News of the City of Glasgow. PHILADELPHIA, April 27. The Journal of Commerce has received a communication from Richardson & Co., London, which states that they learn from a passenger who came on board the schooner Canton from Jamaica, that no the 12th, near Cape Island, Bahamas, saw a large 3 masted screw steamer, painted black outside, with the bulwarks inside apparently painted. Her yards square; and the steamer had no appearance of being in a disalred condition. The schooner passed within two or three miles of the steamer, but no person could be seen on board of her, though they had a clear view of her deck. She appeared to be at anchor or aground. No one knew or apprehended the loss of the City of Glasgow; therefore the schooner kept on her way.—Steamer's usual position.

Case of Col. Collier. In the New York Evening Post of the 24th, we find the following among the proceedings of the U. S. District Court. The United States against James Collier.—This case commenced the morning before a jury.

It is a suit brought by the United States against the late collector of Upper California, to recover a balance of account of \$2,412,427, due to the United States from him on the 15th of September, 1852. Of this \$1,118,000, has been paid since suit brought, leaving a balance of about \$1,300,000, claimed by the United States.

The evidence for the United States was put in this morning. It consisted merely of the treasury transcript showing the balance due. This making out the case for the plaintiff, Mr. John A. Collier proceeded to open the case for the defence.

For the United States, Mr. O'Connor and Mr. Canning; for the defendant, Mr. John A. Collier and Hon. D. S. Dickinson.

San Francisco paper thus describes the scenes of a day:—Beautiful boats floating on the bay, beautiful women floating along Montgomery and Stockton streets; ships lying at anchor, drunkards lying at full length, speculators gazing at their dupes, ships spreading their white sails, washwomen spreading their white clothes, washers' spreading themselves; boats puffing up steam, gizzlers pouring down steam; editors puffing, gasters puffing, bells ringing alarms, and bellmen ringing in alarmed gentlemen, firemen running with their machines, thieves running away with their loot; bankers receiving gold dust; Yorba Buena cemetery receiving human dust, masons making brick dust; gamblers "punging down" their dust; zephyrs whispering, ladies hisping, messes simpering; lovers seeking brides, brides seeking divorce, the divorced seeking mates—such was a part of yesterday.

THE WHEAT CROP.—The editor of the Chicago Tribune, who has been on an excursion through a part of Canada, New York, Pennsylvania, New Jersey, Delaware, Virginia, Ohio and Indiana, speaks favorably of a large wheat crop the present season. After giving certain details he sums up the whole as follows:—"On the whole we are confident there have been few Springs, within a period of fifteen years, when the wheat crop looked more promising in the States mentioned than it does at this time. The high price which wheat has commanded since last harvest, has doubtless caused an increase of the number of acres sown of at least one-fifth of last year, and should the season prove generally favorable, the surplus will not fall far short of 50,000,000 bushels. Nevertheless, slight causes, apparently, such as rust, may reduce the average yield so much as to leave little surplus for export."

CADIZ PRICES CURRENT. CORRECTED WEEKLY. CADIZ MAY 2, 1854.

Table with 2 columns: Item and Price. Includes items like Wheat, Corn, Beans, etc.

NEW YORK MARKET. May 1.—Coffee, Rio 14 1/2, Java 13 1/2. Flour prices are trifle lower, 8 5/8 to 8 7/8. Wheat market unchanged, 5 2/2 to 8 7/8. Corn market unchanged, 30 p.
