Memphis is decidedly a place in its way. A few days since a case was pending in the Common Law Court of that city, in which a Mr. and Mrs. Helbing had sued Philip R. Bohlen, for breach of marriage contract, in failing to marry Mrs. Helbing when she was Miss Agnes Handwerker, and the jury has given the injured parties \$1,250 damages. Important Immigration Movement—Another French Settlement in Illinois.

We learn that an important immigration movement is now taking place, destined to exercise a considerable influence on the interests of Central Illinois. Some French gentlemen from Louisiana, largely engaged in sugar planting in that State, being desirous of benefitting the French residents of Lower Canada, have organized an extensive colony from "Trois Rivières" and that vicinity, to immigrate upon and cultivate lands in Central Illinois.

The neighborhood of Tazusa, on the Illinois Central Railroad has been selected as the spot, offering the greatest inducements, and over 15,000 acres of land have been already purchased from the Illinois Central Railroad Company, together with some 5,000 and upwards from individual land holders in the vicinity.

About one hundred families are now on their way from Canada to occupy this "promised land," and we cannot but look with great satisfaction upon the probable results of the labors of so large a body of this industrious class of settlers on the material interests and advancement of that portion of our State. The first division of this immigration is expected to reach Chicago to-day. It is thought that upwards of two hundred families will be embraced in this settlement within the coming year.

We also learn that some prominent citizens of Maryland, together with many of the planters of Louisiana, will shortly join their influence and exertions to add to the prosperity of the colony.

Arrangements are now being perfected to erect at Tazusa a large and commodious hotel, several stores, a steam mill, large warehouses for the storage of wheat and corn, a beef and pork packing house, together with numerous residences. Teams and agricultural implements are being forwarded as rapidly as possible, and probably upwards of 5,000 acres will be placed under cultivation this present season.

An entirely new feature in the course of trade will also be developed by this movement, it being intended to make Tazusa a central depot for the deposits and distribution of the staples of Louisiana; and for this purpose warehouses are being erected for the storage of rice, sugar, molasses, &c., which will be shipped up via the Mississippi, Cairo and the Illinois Central Railroad, thus affording to the residents of Central Illinois a regular supply of these products at lower rates than have heretofore ruled, since they will be received directly from the South, without the present extra expenses caused by commission and retail profits.

To E. E. Mallion, Esq., of Louisiana, the originator and prime mover in this enterprise, we wish all the success which his benevolence and energy should command.—Chicago Press.

To Horse-Breeders. GENERAL TAYLOR—the celebrated thoroughbred Morgan Horse, (by this name) is a time pretty well known in this country, and favorably so, judging from the number of friends he has won, and the patronage he has received, will be kept this season in this place, as usual, at the American Horse Stables. These wishing to patronize or examine the Horse, can do so at any time.

It is conceded by good judges that he is the best Horse in the country, and second to none of the highly celebrated Morgan Horses in the world. He is six years old, is of a dark brown color, with a heavy black mane and tail, and black legs, and handsomely proportioned; is a first-class trotter; is over fifteen hands high; weighs nearly 1500 lbs., and is the best mated Horse in the State.

In getting up my placards, I omitted to state the fact, that GENERAL TAYLOR took the first premium of the Holmes County Agricultural Society, at their Fair for 1856.

EXCELSIOR Ambrotype Gallery.

CHANGE and decay are written upon all things. The smiling infant, which to-day may nestle so fondly in a mother's arms, and gladden all the household by its merry prattle and innocent pranks, may ere to-morrow's sun glids the Eastern horizon, be wrapped in the cold embrace of death. A father or mother, sister or brother may suddenly be called away from Earth, and surviving friends deeply mourn their loss. Yet, if we would take time by the forelock, and secure their shadows ere their substance fade, we would have a sweet memorial left when Death had claimed them as his own. Speed 'em AN AMBROTYPE.

Taken by a master artist, in an artistic style, and one which will stand through centuries to come. Remember the place—CHRISTMAS' EXCELSIOR AMBROTYPE ROOMS, Main St., opposite the Court House, Millersburg, Ohio. March 26, 1857—4f.
