Circulation of the Blood.

Circulation of the Blood.

The circulation of the blood is the life of the body, and its stoppage is death. We are healthy when the blood circulates freely; any interruption preventing its free course is the commencement of disease. Blood is the life of the flesh." Can we expect to enjoy good health, when bad or corrupt humors circulate with the blood, causing pain and disease; and these numors being deposited throughout the entire body, produce pimples, expitions, afters, indigestion, contiveness, headache, neuralis, rhenmatism, and numerous other complaints. No disease can be in the body without first being generated in the hisod; and no disease can possibly be in the body, if the blood is pure. It is of great importance to know what medicine will purify and renovate the blood, aradicate the disease, renew vitality, mentally and physically, and instill fresh vigor into all the vital functions of the body. This medicine is the Vecketine, the great blood-purifier.

It extends its influence into every part of the human organism commencing with its foundation, correcting diseased action and restoring vital powers, creating a healthy formation and purification of the blood, driving out disease, and leaving Nature to perform its allotted task.

Vegetine is composed of Rooss, Barks and Herbs. It is very picasant to take; every child likes it. Sold by all druggists.

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked. "What is the cause of the unparalleled success of Vinegar Bitters;" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of Vinegar Bitters in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs in Bilious Diseases.
