JAMES HOCKENBERRY.

OUR REPRESENTATIVE.—The Representative from this County, who represents Tuscarawas and Holmes in the Legislature, left his residence for Columbus on Thursday last. Mr. Hockenberry will, we predict, make an industrious, influential, and useful member. He is a man of sound judgment; warmly attached to the principles of Democracy; and has at heart a strong desire to promote the true interests of his constituents.

HON. D. P. LEADBETTER.

Left his residence in this town on Tuesday last, for Washington City. This is the third session in which Mr. L. has represented the People of this district in Congress; and we venture to assert that no member has ever been more mindful of the true interests and desires of his constituents, than has D. P. Leadbetter. This coming session will be his last; and as it will be an important one, we have no doubt he will make himself assiduous in his endeavors to maintain the principles and measures of Democracy.

From the Lancaster Intelligencer.

"WE ARE NOW THE DEMOCRATS."

It is beyond all conception ridiculous to see the attempts of that political sassaundi, the Harrison party, in clamoring after the name of "Democrat!" We are assured by Mr. Chandler, Mr. Webb, Mr. Dwight, Mr. Russell, and all the "fine old federal gentlemen," that the Harrison party is the democracy par excellence; and the democrats from almost time immemorial, nothing more than a disordered herd, under the indelicate name of Loco Foco!

We cry mercy gentlemen! Not so fast; not so fast. There is a chain to that great name long since foreclosed. We know you want one name bad enough to rally your many factions under, but we cannot consent to see you laying rough hands on that which never belonged to you.

"And the majority are the Democrats!" This is the new theory—the new argument! When Thomas Jefferson was within an ace of being defeated by Aaron Burr, in Congress, would Burr's party have been the democrats, and vice versa Jefferson and his friends the federalists? Were John Adams and his friends the democrats?

The democrats in reality must keep a look out. The lion's skin is in the camp, but it is only the skin. The long ears are entirely perceptible even now.

PLAIN FACTS FOR THE PEOPLE.

The amount of property in the United States at the present time, is estimated at about sixteen thousand millions of dollars. Two thousand millions of this is in the possession of bank stockholders—being one-eighth of the whole property of the country in the hands of less than one hundred thousand individuals.—This has been accumulated without labor or any equivalent to community. No useful products have been given in exchange for it. Who, then, furnishes this vast amount of wealth? It is the laboring millions—it is the producing class of this country who are taxed and impoverished to sustain this system of enriching the few at the expense of the many.

The banks promise at all times to be in readiness to convert their bills into specie. Is this promise made good? The first United States Bank was established in 1792. Within the 47 years have elapsed since that time, there have been sixteen years in which bank notes have been almost entirely inconvertible into specie. A convertible currency may be a convenience to the people, but one which is inconvertible must be very convenient to bankers.

Twenty-one democrats and nineteen whigs were chosen at the recent election, to represent New York in the next Congress. In the present Congress the delegation stands—19 democrats and 21 whigs. The four whig gentlemen who at present represent the city of New York, and who it is believed were elected by Gletworths Philadelphia voters, have had their places filled by four democrats.—Mail.

HARRISON TIMES.

MONEY TIGHT.—Business men have complained of unusual tightness in the money market for the last two days. The old demand of "two per cent a month," which we had hoped had been come obsolete, has been made by brokers of the less scrupulous cast, and in some cases it has been snapped up at that. If this is the commencement of "better times," we should like to know what is to follow. The only cause we have assigned for this state of things is the demand of the U. S. Bank upon the Banks of Boston for money to enable them to resume.—Our community have had no favors from the present U. S. B. and if they are to be crippled no their business operations in order to enable that old harlot to make up for her bad speculations and mismanagement, they ought to know it. There will be trouble yet unless certain persons who fancy themselves remarkably shrewd financiers, "look both ways for Sunday"—Boston Times.

THE WHY. Forty-three of the bangor federalists who have kept up a loud and continued howl against Office Holders for six months past are already in the field, we are told for the office of Postmaster of this city under the Harrison dynasty. There will be still more candidates before Gen. Miller is removed next spring; indeed there are already many federalists clustered about every office that is expected to be vacated by pro-cscription, that it is useful to refer to them individually, or attempt to tell which test is considered the most desirable by the numerous suckers. There is a homely old saying that "saucy for goose is sauce for gander." The federal office seekers will soon be office-holders, and then will come their retribution. There can no longer be any doubt for what purpose he cry of down with the office-holders was raised.—Bangor Dem.

The Democratic Party are in a temporary minority, because they would not resort to the extraordinary means to inflame and deceive the people used by their opponents. There is a nobler and more enduring consciousness in defeat under the banner of truth and right, than in success purchased at the expense of probability, honor and virtue. "If your father-in-law Ferdinand, has acted perditionally," said Louis XII to Philip of Austria, "I am determined not to imitate him; and I am much more pleased in having lost my honor, which I am able to recover." So says Democracy to federalism, in view of the recent controversy, and so may President Van Buren say to his successor:—Bur. Post.

Temperance in Ireland.—A Dublin paper says that the entire consumption of whiskey, at the late Ballinacree fair, was only eight gallons. The average consumption heretofore was from eight to twelve punchons. This shows the good effect of the exhortations of Father Mathew.

In England where they have a government bank, a laboring man pays over one third of his earnings for taxes.

THE PHILADELPHIA CASKET.

UNPARALLELED SUCCESS. PROSPECTUS OF A NEW VOLUME. The great increase in the subscription list of the Casket since the first of the year, warrants the most extensive improvements on the first of July next at which time a new volume will be commenced with increased vigor. Nothing need be said of the firm basis on which the Casket stands it being already the oldest magazine in the country.

TYPE-EMBELLISHMENTS. The Casket is printed with a clear and silvery type, upon the finest white paper. The illustrations are not only superior in style and execution, but are arranged in the most judicious manner, and are so placed as to be perfectly readable, and to be in perfect accordance with the text. The style of these embellishments is unequalled, and they are always accompanied with an apt sketch. No wood cuts disgrace the work; wherever it appears in the Casket it is of the first order of the art.

LITERARY CHARACTER. The literary character of the Casket is well known. It is wholly original, of the highest order, and sustained by WRITERS OF THE FIRST RANK. Essays, Tales, Sketches and Travels, compose its prominent prose articles; while the poetry is equalled by that of no other magazine of like character. The variety for which the Casket is celebrated, still suffers no diminution; but on the contrary, every exertion shall be made to increase its interest.

SEVERAL ROMANCES OF THE REVOLUTION have already appeared, and others will follow in the course of the volume, presenting when finished, a complete picture of the manner and a historical account of the great battles of that time. Thus, the Casket, instead of being filled with sickly sentimentalisms, aims at a true delineation of human nature in every variety of passion.

TIME OF PUBLICATION. The Casket is published on the first of the month in every quarter of the Union. The most distant subscribers consequently receive it on the day, as well as those who reside in Philadelphia. In all the principal cities agents have been established, by which means subscribers can obtain their copies free of postage.

FASHIONS. The fashioner published in the Casket quarterly, or as often as any really new styles arrive from Paris. The engravings are colored, and executed from original designs. No old worn out plates retouched and then published as the latest fashions. The truth of our designs may be tested by comparing them with the best description of dresses from London and Paris.

TERMS.—Three Dollars per annum, or two copies for Five Dollars. Published by GEO. GRAHAM, 36 Carters Alley, Philad.

SESSION OHIO STATESMAN.

We propose to issue the STATESMAN, during the ensuing session of the Ohio Legislature on the following terms, viz: TRI-WEEKLY, \$2 00 SEMI-WEEKLY, 1 50 WEEKLY, 1 00

Persons subscribing, will please designate which paper it is that they desire. The approaching session of the Ohio Legislature, will be one of more than usual interest to all parties. The Corwin administration will be in progress—his inaugural will have derided his measures, or rather the measures of the Bankers and Abolitionists that elected him, and in whose hands he is.

When these measures are presented to the Legislature by Governor Corwin, as it is his duty by the constitution, the tug of war will commence in the Legislature; and for the first time for years, the people will have an opportunity of seeing what the principles of whiggery really are in practice, and a fair comparison can be made between the doctrines of the two parties, touching the great interests of equal rights and constitutional government.

We shall have good reporters, and use what industry we are capable of employing on our paper, to give a correct and extensive view of all their doings; and the first curious item will be a law reducing the salaries of all the officers in the State, as promised to the people. The next will be, to raise the wages of labor; increase the price of wheat and pork; introduce the negroes fresh from Kentucky into our courts as witnesses, and into our common schools; but not into our Colleges where Bankers' children congregate. All these hard and cruel and skin movements will be recorded with care and precision, and when necessary, made into first rate Tippecanoe songs, and sung to keep the members' spirits up.

And the scheme already on foot, as we are informed, to chain down the people by a great Bank machinery, more powerful than the throne of the Russian Autocrat, will be watched with due care. Let the people read and judge for themselves.

The proceedings of Congress will also be duly given as heretofore.

As a Family medicine, it is a valuable preparation, being mild and perfectly safe in its operation, for further particulars examine the directions accompanying the medicine.

HIS MEDICINAL OR ANTI-BILIOUS PILLS.

These Pills are prepared expressly for those Bilious habits and complaints which so much abound in this country, and may be relied upon as a safe and efficacious Antibilious cathartic medicine. No family should be without these or a similar medicine in their house, as a precaution in the moments of an attack, may prevent serious and long illness, and thereby save much expense and risk of life. Accompanying the pills is a full description of all symptoms of a bilious habit and approaching fever with directions for the removal. Any person using these pills and being dissatisfied with their effects can have their money refunded to them by returning the balance.
