

THE DEMOCRAT.

DEMOCRATIC AND FEARLESS; DEVOTED TO NO CLASSE, AND SOUND TO NO MASTER.

NEW PHILADELPHIA, OHIO.

June 9 1842.

FOR GOVERNOR.

WILSON SHANNON.

THE JEFFERSON COUNTY BANK DEBTORS—OPINION OF A DEMOCRAT—Last week the Bank Swindlers organ of this county published an account of a meeting held in Jefferson county, by what is called dissenters from the Democratic party.

The movements of the Bank debtors, and Bank dependants, will open the peoples eyes, on the subject of sound Banking. They may oppose specie paying banks—they may oppose making bankers individually liable—they may oppose limiting issues to 3 for 1, and go in for 20 to 1, in hope of borrowing, and speculating, and getting rich without work—but all to no purpose.

JEFFERSON COUNTY—GOV. SHANNON. The real democracy of Jefferson county held a meeting in Steubenville, on the 17th ult. Governor Shannon was present and addressed them.

Another letter from Cincinnati, says, "The Democracy of Old Hamilton, are all ages—all smiles and good nature—all cheerfulness and hilarity, in anticipation of a visit from that patriotic champion of equal rights and human liberty."

"UNION OF CLAY AND VAN BUREN." The above caption heads an article in the last Old School Republican, Tyler's organ of Ohio.

Resolved, That we approve of the course pursued by the democratic majority in our last legislature, in securing to us by their firmness, and prompt and energetic action, a speedy return to a sound currency, an object which never could have been secured by tampering parleying or bargaining with banks or federal politicians.

Resolved, That our motto is, equal laws, equal rights and a sound currency, neither of which can be enjoyed or attained in any other way than by making money-makers responsible individually, as are Merchants, Mechanics, Manufacturers, Farmers, and all other classes in the community except privileged bankers.

Resolved, That having accomplished so much good in the cause of bank reform (and not with a view to the destruction of all banks, as the federal party and their base allies in Jefferson and Brown counties would tell the people) the democracy of Ohio, should be renegades to their principles, and traitors to the best interests of their own state, and the whole Union, if they are to be frightened from their present enviable and distinguished position by panics, falsehood, or any other of the ordinary implements of the whig warfare.

Resolved, That confiding in the purity, integrity & democratic principles of Wilson Shannon, late Governor of the State of Ohio, we will cordially unite at the coming election to again re-instate him in the gubernatorial chair, from which, corruption, perjury and false-

hood but lately displaced him, and that in his elevation we will again reassert the supremacy of sound principles and sound currency.

CONGRESS—APPORTIONMENT BILL.

Last Monday week the Senate knocked into pi, the House bill fixing the ratio of representation at 50,000, and made the ratio 70,600. So now the bill is just where it was 6 months ago.

The Senate's proposition of 70,000, will cut down the number of Representatives from 242 to about 200. The proposition of the House increases them to 300. We don't believe in going backwards.

It is doubtful whether the House will accede to the Senate's proposition. Fifty thousand is a high enough ratio.

FROM SOUTHERN OHIO.

We find a letter in the Statesman from Clermont County, part of Hamer's infected District. It speaks well. "You and doubtless the whole Democracy of the State, are inquiring, 'Is Clermont fast to the Democratic faith?'"

Another letter from Cincinnati, says, "The Democracy of Old Hamilton, are all ages—all smiles and good nature—all cheerfulness and hilarity, in anticipation of a visit from that patriotic champion of equal rights and human liberty."

"UNION OF CLAY AND VAN BUREN." The above caption heads an article in the last Old School Republican, Tyler's organ of Ohio.

Resolved, That we approve of the course pursued by the democratic majority in our last legislature, in securing to us by their firmness, and prompt and energetic action, a speedy return to a sound currency, an object which never could have been secured by tampering parleying or bargaining with banks or federal politicians.

Resolved, That our motto is, equal laws, equal rights and a sound currency, neither of which can be enjoyed or attained in any other way than by making money-makers responsible individually, as are Merchants, Mechanics, Manufacturers, Farmers, and all other classes in the community except privileged bankers.

Resolved, That having accomplished so much good in the cause of bank reform (and not with a view to the destruction of all banks, as the federal party and their base allies in Jefferson and Brown counties would tell the people) the democracy of Ohio, should be renegades to their principles, and traitors to the best interests of their own state, and the whole Union, if they are to be frightened from their present enviable and distinguished position by panics, falsehood, or any other of the ordinary implements of the whig warfare.

Resolved, That confiding in the purity, integrity & democratic principles of Wilson Shannon, late Governor of the State of Ohio, we will cordially unite at the coming election to again re-instate him in the gubernatorial chair, from which, corruption, perjury and false-

RHODE ISLAND.—Mr. Dorr, the people's Governor, has addressed a letter to the people of Rhode Island, vindicating himself from the foul charges made by the landholders Party, and calling on the people to rally again to the cause of Free Suffrage.

THE RIGHT OF REVOLUTION, AS EXERCISED BY THE PEOPLE OF RHODE ISLAND. The right to do just as the people of Rhode Island are doing was laid down as the corner stone of the Revolution, and is recognized in nearly every State Constitution.

"We hold these truths to be self evident; That governments are instituted among men deriving their just powers from the consent of the governed. That whenever any form of government becomes destructive of these ends, it is the right of the people to alter or to abolish it, and to institute a new government, laying its foundation on such principles and organizing its powers in such form as to them shall seem most likely to affect their safety and happiness."

"All power is inherent in the people. All free governments are founded in their authority and instituted for their benefit. They have, therefore, an unalienable and undefeasible right to institute government, and to alter, reform, or totally change the same, whenever their safety and happiness require it."

"The community hath an indelible, unalienable, and undefeasible right, to reform or alter government in such manner as they may think expedient."

"All men are born equally free and independent, and every free republican government being founded on their sole authority, they have at all times an unalienable and undefeasible right to reform or abolish their government in such manner as they may think proper."

"All men are born equally free and independent. All power is inherent in the people and all free government, are founded on their authority."

"The people of this State have the inherent sole and exclusive right regulating the internal government and police thereof, and of altering and abolishing their constitution and form of government, whenever it may be necessary to their safety or happiness."

"The Federal knave of the Tescarwas Advocate denies that his party ever promised 'two dollars a day and roast beef,' with as much sang froid as a swindling banker would refuse to pay specie for his lying promises. Can impudence go farther? The lying wretch after helping to deceive hundreds of honest men by these false promises, now turns round and denies them! It's an insult to the whole community—to the understanding of every man. There is not an honest Whig in Tuscawawas county that will deny these promises having been made. They are too palpable, too plain, to be denied. But what more could be expected from the Bald headed deceiver and seducer. It's part and parcel of his trade, the element he moves in—to lie for his living, and to live for the sake of lying—to get into a scrape by telling a lie, and to back out by telling another. Let him go; the devil will want a back log some day."

"The Advocate insinuates that some of the 'loco editors' have been bribed by 'British gold,' to oppose a High Tariff. That's the tallest idea we have seen from 'Pat.' How much did you get for upholding the Canton Bank and Bentley's swindling shop—lying to, and deceiving the people into the belief that these Banks were sound, in order that they might be swindled of their wheat and labor? How much did you get for that 'Pat' When he tells, then we will let him know how much 'British Gold' we got for opposing a High tariff tax."

Indiana State Bank notes, nearly par, at Pittsburg.

There is a story going the rounds, of an earthquake on one of the West India Islands, having destroyed several towns, and 10,000 lives lost. The shock was felt in Louisiana, and Arkansas, a distance of 1500 miles. It may be true, but we doubt the story.

Novelty Unparalleled!!! THE ONLY LIVING GIRAFFE OR CAMELOPARD IN AMERICA.

CIRCUS AND CARAVAN. SPlendid and Combined Attraction of EQUESTRIAN and GYMNASTIC PERFORMANCES, with a beautiful collection of LIVING WILD ANIMALS, comprising the stupendous GIRAFFE, the only one now living on the American Continent, the Elephant, and every variety of Wild Beasts, Birds and Reptiles.

J. SHELLETT, Mayor. S. BRADSHAW, Recorder.

The Magnet.

The subscriber proposes to publish a periodical with the above title, devoted to the investigation of Human Physiology, Pneumology, Pathology and Astronomical and Human Magnetism. Having made these subjects matters of serious and patient investigation for some time past, and considering the increasing attention which has lately been given to them by the learned, both of this country and of Europe it is believed that such a periodical is called for, and that it will meet with liberal encouragement from the lovers of science, in this and other countries.

One object of the work will be to excite and encourage a spirit of inquiry, and to assist in such investigations as may tend to settle the following, among other similar questions: 1. That the magnetic forces not only pervade all matter, but that every living being has a peculiarly magnetic nature. 2. That these forces are the means of motion and sensation. 3. That every mental and physical organ, and every muscle has its corresponding magnetic poles. 4. That the magnetic forces from the different organs which terminate in the face, and by means which express various expressions of fear, hope, love, anger, etc., are expressed in the countenance, and the muscles and limbs are made to obey the human will. 5. That these organs may be excited separately, or their actions modified by Magnetism, as the condition of the patient may require. 6. That this Magnetic nature is governed by laws peculiar to itself, and may be communicated from one person to another. 7. And As to what these laws are, the number, location and functions of the different organs, the location of the corresponding poles of the mental and physical organs, &c. &c.

The Magnet will be published once a month; each number containing cerebral experiments, the results of which go very far to establish, towards demonstrating these assumptions, and if they should prove to be true, all must admit they are immensely important, as much so as any discoveries ever made illustrating the physical or mental organs, engraving, some of which are now ready for use, the whole rendering the matter of surpassing interest, and every way worthy of patronage from the curious and scientific, who wish to understand the mysteries of human nature. The plates will be of special interest, inasmuch as they will not only explain many of the most mysterious and unaccountable, or unexplained, magnetic phenomena hitherto unknown, or not understood, but one or more will be given the magnetic courses terminate from the human face where the mental and physical organs, a thing never before known; and thus will be given the only true explanation of Physiology ever given in the world. In a word—the work shall be fitted with new and valuable matter on every question relating to the Physical, Mental and Magnetic nature of man, explaining the phenomena of mesmerism, Mesmerism, Monomania, Insanity, medicine, Dreaming, and Fatalism, the whole designed to exhibit the claims of these subjects on the attention of the candid, and to assist them in ascertaining how far Magnetism has been, or may be, used as a medical agent. In furnishing articles for its pages the subscriber expects the assistance of a number of medical and scientific gentlemen of the highest respectability in the profession. The Magnet will be published once a month; each number containing twenty four superroyal 8vo. pages, with a printed cover. Terms two dollars a year invariably in advance. It will in no case be forwarded till the pay for it has been received. The first number will be issued as soon as five hundred subscribers shall have been obtained.

Any person procuring subscribers will be allowed to retain the pay of the fourth, provided he forwarded to the publisher, free of expense. Every Editor who will give this prospectus (including the paragraph) six insertions, shall receive the Magnet, without an exchange, for one year, provided the papers containing this notice be forwarded, marked, to "The Magnet, 130 Fulton street, New York City." LA ROY SUNDENLAND.

TEMPERANCE CELEBRATION. On the 4th of JULY. The 66th Anniversary of our National Independence will be celebrated in Dover, on the cold-water principles. All the Temperance Societies of the county, &c. the citizens generally are respectfully invited to attend. Further arrangements will be hereafter announced. By order of the Committee.
