

SALINA'S COUNTRY CLUB IS FINE RECREATION PLACE.

A Pointer from Our Neighbors on Enjoying Life.

Salina has added to its many attractions a recreation feature that is worth noting as it contains a suggestion of what ought to be a part of the social life of every prosperous city—a well planned country club. The Salina Country Club was organized with a capital of \$35,000, the shares being \$100 each. It has 160 members and owns about 170 acres two miles east of Salina, on the first rise of hills south of the Smoky Hill bottoms. On a beautiful site overlooking the valley for a dozen miles has just been completed a most artistic and comfortable club house.

In the basement of the building are shower baths for the men, lockers for their clothing, golf clubs and other valuable property, a caddy room, a boiler room—a fuel room. On the first floor is a large and convenient kitchen, a large room which will be used for dancing, card parties, reading room and for other

purposes. A wide veranda extends around the entire building with a porte cochere on the south to allow passengers to leave automobiles and other vehicles under its protection. On the north is a screened dining room for use in summer. This may also be used for dancing and for a summer reading room. On the second floor are the ladies' quarters, with the servants' quarters in the rear and a balcony for the use of the orchestra when one is used.

Many features in the construction are of particular interest. The porch piers and the huge fire place in the parlor are all of native stone, which is as hard as flint. This stone has never been used in construction work in Salina county before. The club house has its own system of sewerage and its own lighting plant. A dynamo furnishes electricity for lighting the house and an acetylene plant has also been installed.

Construction work on the structure was begun December 1, 1911, and the house has just been formally opened.

From the wide verandas is one of the most charming views in Kansas—a vista of far-reaching prairie

with farm houses, vine, groves and fields making a delightful picture. On the grounds is one of the finest golf courses in the west and the businessmen of Salina find there much recreation and enjoyment. Tennis courts are east of the club house. Large native stone pillars mark the gateway to the club. F. D. Shellabarger is president and W. P. Craven secretary while the membership brings together the leading businessmen of the city in a helpful social way.

Salina has reason to be proud of its Country club. It means a great deal to a community to have a social organization of this kind. The country club idea is growing rapidly in America. It means pleasanter relations and an increased store of health and pleasure. Salina has worked out the idea with commendable art and its new acquisition is a model for other Kansas cities.

A park playground for children is being fitted up and the little folks will be given as good a time as their elders. Indeed it is a club for the whole family and is fitted for the social entertainment of its members and their families.

INCOME TAX ACT PASSES SENATE

Provides for Payment of One Per Cent on Amounts Over \$5,000.

FRATERNAL ORDERS EXCEPTED

Tax Not to Apply to Labor Organizations—Plan to Check Tobacco Monopoly, Offered by Hitchcock, Was Defeated.

Washington, July 27.—After weighing it down with two amendments known to be objectionable to the Democrats, the senate passed the house special excise tax bill by a vote of 37 to 18. The measure provides for a tax of 1 per cent on incomes of \$5,000 a year or more, both of individuals and corporations.

The amendments provide for a repeal of the Canadian reciprocity act and the creation of a tariff commission. The first was offered by Senator Bronna of North Dakota and the latter by Senator Cummins of Iowa. Cummins' amendment was the same as that lost when the Penrose substitute wool bill was turned down in favor of the La Follette measure.

Might be Unconstitutional. The Democratic majority stood almost solidly against any change in the house bill that would threaten its success. They declared the "tax on business" was clearly constitutional, while an income tax law had once been held unconstitutional by the supreme court and might again suffer that fate, until the states ratify the amendment to the federal constitution.

The measure was changed from the original house bill only in minor particulars except for the addition of the Canadian reciprocity repeal, and the permanent tariff commission provision. It will go back to the house for the approval of that body and it is believed an agreement soon will be reached, so that a perfected measure can be laid before the president for his approval.

Special Tobacco Tax Failed. The senate made a change in the excise bill so that the tax would not apply to labor organizations, agricultural associations or fraternal organizations of an insurance character. That amendment was offered by Senator Fletcher. A plan to check the tobacco monopoly by a special excise tax on production above a certain amount, offered by Senator Hitchcock, was defeated.

The Hitchcock proposal was a special tax on the production of more than 20,000,000 pounds of tobacco, 400,000,000 cigars, the same number of cigarettes and 4,000,000 pounds of snuff by any one company. For an annual production above that quantity the tax would rise rapidly so that it would soon become prohibitive. Senator Hitchcock declared such a taxing system would curb a tobacco monopoly which the government had failed to do.

FEAR RESULT OF TRUST SUITS

Kingfisher, Ok., Business Men Wire Protest Against Proposed Steel Dissolution.

Guthrie, Ok., July 27.—Residents of Kingfisher wired Attorney General Wickersham at Washington as follows:

"We understand that you contemplate bringing legal proceedings against the United States Steel Corporation with a view of dissolving the same. Since the dissolution of the Standard Oil company and the tobacco trust their commodities sold to the people have steadily advanced in price.

"If you commence proceedings against the United States Steel Corporation, it can only result, in our opinion, in making the people pay more for all commodities in which steel is used. We hope you will seriously consider this matter before bringing the proposed suit."

The telegram was signed by C. W. Smith, bank president; P. S. Nagle, head of the Socialist party, and others.

NAVY MAY USE HYDROPLANES

Figures Called for to Equip Every Warship With Speedy Machines.

Washington, July 27.—Each battleship of the navy will be equipped with a speedy hydroplane within the next year. If the latest plans of the navy department materialize.

Rear Admiral Philip Andrews, acting secretary, has called upon manufacturers to notify the department not later than August 15 whether they will submit hydroplane designs to meet navy requirements. It is proposed to have machines sustain a speed in the air of not less than 50 miles an hour, carrying two passengers.

Populists to St. Louis.

St. Louis, July 27.—St. Louis will have a national political convention after all. The Populists have found St. Louis to their liking. James H. Ferriss of Joliet, Ill., chairman of the national committee of the People's party, has announced St. Louis as the tentative selection. August 11 has been agreed upon as a tentative date.

Fear a Clan War.

Jonesville, Va., July 25.—The killing of Dr. James W. Walden, a widely known Democrat by Perry Wallis, a Republican leader, has fanned to a threatened outbreak the smoldering political feud in the Black Water district. All through the mountain district the clans are lining up.

Housework Drudgery

Housework is drudgery for the weak woman. She brushes, dusts and scrubs, or is on her feet all day attending to the many details of the household, her back aching, her temples throbbing, nerves quivering under the stress of pain, possibly dizzy feelings. Sometimes rest in bed is not refreshing, because the poor tired nerves do not permit of refreshing sleep. The real need of weak, nervous women is satisfied by Dr. Pierce's Favorite Prescription.

It Makes Weak Women Strong and Sick Women Well.

This "Prescription" removes the cause of women's weakness, heals inflammation and ulceration, and cures those weaknesses so peculiar to women. It tranquilizes the nerves, stimulates the appetite and induces restful sleep.

Dr. Pierce is perfectly willing to let every one know what his "Favorite Prescription" contains, a complete list of ingredients on the bottle-wrapper. Do not let any unscrupulous druggist persuade you that his substitute of unknown composition is "just as good" in order that he may make a bigger profit. Just smile and shake your head! Dr. Pierce's Pleasant Pellets cures liver ills.

PACKERS AT MERCY OF LANDIS

CHICAGO JUDGE HAS POWER TO JAIL BEEF MEN.

Dissolution of Trust Must be Complete or Quick Action for Contempt Will Follow.

Washington, July 27.—Judge Keneaw Mountain Landis of the federal district court in Chicago, who imposed the \$29,000,000 fine on the Standard Oil company, now is the official keeper of the beef trust. If he becomes convinced that the packers are conspiring to extort high prices for meats from consumers he can send the beef trust officials to jail for contempt.

That is the result of the dissolution of the National Packing company which was approved by Attorney General Wickersham. If they misbehave they can be cited at any time before Judge Landis for contempt on a charge of violating the Grosscup injunction of 1902.

District Attorney Wilkerson and Ralph Crews, attorney for the packers, had a protracted conference on the dissolution question with the attorney general. Crews submitted a memorandum showing the apportionment of the \$60,000,000 properties of the National to Armour, Swift and Morris.

The packers and trust men in general are afraid of Landis. They have reason to believe that he would not hesitate to send them to jail for violation of the injunction. In fact, the dissolution of the National was hastened by the realization of the packers that they are at the mercy of Landis. They are eager to convince the government that they intend to obey the law in the future. Moreover, defending trust prosecutions is expensive. The recent trial of the packers cost them \$750,000, and their total expense in fighting the government in ten years is more than \$2,000,000.

WOMEN SEEK PIRATES' TREASURE

English Expedition Led by Two Girls—Costa Rica Supplies Army Escort for Party.

Boston, July 27.—A party of treasure hunters which left England a month ago to seek for a \$10,000,000 cache of pirate gold, supposed to be buried on Cocos Island, off the Costa Rica coast will arrive at its destination next week, according to advices just received here. Anticipating trouble and possibly an armed effort by natives to take the treasure from the adventurers. If they should recover it, the Costa Rican government has sent a company of soldiers to the lonely island.

The treasure hunters are under the leadership of two young women, Miss Barritelly and Miss Davis. The former recently spent some time on the island, and her kindness to a half breed is said to have resulted in his giving her a map showing where the pirate Bombosa and his followers cached their booty.

Need New Tires.

Minneapolis, Minn., July 27.—A gang of bandits drove up in a motor car before a tire manufacturing shop in the downtown district, smashed a big plate glass window and stole more than \$1,000 worth of tires. Despite the presence of numerous pedestrians on the street, the bandits took no precautions against making a noise in breaking the window.

SAVED FROM AN OPERATION

How Mrs. Reed of Peoria, Ill., Escaped The Surgeon's Knife.

Peoria, Ill.—"I wish to let every one know what Lydia E. Pinkham's Vegetable Compound has done for me. Forty years I suffered. The doctor said I had a tumor and the only remedy was the surgeon's knife. My mother bought me Lydia E. Pinkham's Vegetable Compound, and today I am a well and healthy woman. For months I suffered from inflammation, and your Sanative Wash relieved me. I am glad to tell anyone what your medicines have done for me. You can use my testimonial in any way you wish, and I will be glad to answer letters."—Mrs. CHRISTINA REED, 105 Mound St., Peoria, Ill.

Mrs. Lynch Also Avoided Operation.

Jessup, Pa.—"After the birth of my fourth child, I had severe organic inflammation. I would have such terrible pains that it did not seem as though I could stand it. This kept up for three long months, until two doctors decided that an operation was needed.

"Then one of my friends recommended Lydia E. Pinkham's Vegetable Compound and after taking it for two months I was a well woman."—Mrs. JOSEPH A. LYNCH, Jessup, Pa.

Women who suffer from female ills should try Lydia E. Pinkham's Vegetable Compound, one of the most successful remedies the world has ever known, before submitting to a surgical operation.

WILLIAM M. BULLITT

William Marshall Bullitt of Louisville has been appointed solicitor general of the United States to succeed Frederick W. Lehmann of St. Louis.

MEXICAN WAR HELPED JOPLIN

HIGH PRICE OF "JACK" DUE LARGELY TO REBELLION.

Old Mines, Abandoned 20 Years Ago, Now Being Pumped Out and Again Worked at a Profit.

Joplin, Mo., July 27.—Joplin is undergoing a typical, old-fashioned mining boom. "Jack" is selling for almost \$70 a ton. "Jack," which was once discarded as a worthless element by the pioneer "sougors," who sought only the lead, is now bringing the highest figure in the history of the industry, and Joplin, being the center of one of the very important zinc districts, is watching the tidal wave of prosperity rise higher.

More miners of the Joplin district know this product as "jack" than as zinc sulphide. So long as they get

\$60 a ton for it they don't care what it is called.

The present year opened with a weak market, and with a correspondingly weak production. Interest in mining affairs was small, and a jack mine was considered a pretty good thing to get rid of. Conditions changed with a suddenness that made the district gasp.

Late in February a week of listless ore buying came to an end, and the producers looked toward another week of uninteresting events. The price of zinc ore had been ranging from \$45 to \$49 a ton. Then came the rise—\$8 a ton in one week. Just why, the district didn't know. It later developed that the Western zinc supply had not proven inexhaustible as early reports had indicated.

The Mexican rebellion curtailed the production of low grade Mexican carbonates and helped make the demand for the Joplin product greater.

Week by week the offerings strengthened. The top price went to \$58.50, then to \$59—at last it touched \$60, and what is more, it stayed there. High ore prices are making it possible to mine ground that was not thought rich enough to work at a profit under lower prices.

Pumps are working overtime and old, water-soaked passageways that have soaked in the moisture of decades are again being drained and properties that were considered out of the running 20 years ago are again figuring in the production class.

Grant Charter for Peru Road.

Dover, Del., July 27.—The secretary of state has granted a charter to the Amazon Pacific Railway company, authorizing the corporation to acquire railroads, steamboat lines, ferries and other business in which steam or electricity can be used in Peru. The company has an authorized capital stock of \$30,000,000. The incorporators are New Yorkers.

Populists to St. Louis.

St. Louis, July 27.—St. Louis will have a national political convention after all. The Populists have found St. Louis to their liking. James H. Ferriss of Joliet, Ill., chairman of the national committee of the People's party, has announced St. Louis as the tentative selection. August 11 has been agreed upon as a tentative date.
