One of Edwards county's best looking school ma'ams received a shock few days since which came near proving fatal. She was examining one of her small pupils in physical geography and asked, "How many races are there?" "I don't," was the reply. "What is the color of the races?" was the next question. "I don't," again replied the youngster. "What color are you?" Again the youngster replied, "I don't." The teacher then asked the little one if he had ever looked in a glass, receiving a reply in the negative. She then asked, "What color am I?" When the little fellow answered, "Specie."
