

**ONE KIDNEY GONE**  
But Cured After Doctors Said There Was No Hope.  
Sylvanus O. Verrill, Milford, Me., says: "Five years ago a bad injury paralyzed me and affected my kidneys. My back hurt me terribly, and the urine was badly discolored. Doctors said my right kidney was practically dead. They said I could never walk again. I read of Doan's Kidney Pills and began using them. One box made me stronger and freer from pain. I kept on using them and in three months was able to get out on crutches, and the kidneys were acting better. Improved rapidly, discarded the crutches and to the wonder of my friends was soon completely cured."  
Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

**ONLY A COW.**  
Artist (who has been bothered by rashes) breathing on him all the morning. My good fellow, I assure you that you can see the sketch with more advantage from a little distance!

**SPOHN'S DISTEMPER CURE** will cure any possible case of DISTEMPER, PINK EYE, and the like, and is safe for all ages, and prevents all others in the same stable from having the disease. Also cures chicken cholera, and dog distemper. Any good druggist can supply you, or send to manufacturers. 50 cents and \$1.00 a bottle. Agents wanted. Free book. Spohn Medical Co., Spec. Contagious Diseases, W. Va., Ind.

**Only Colony of Kind.**  
The colony of Barbary apes on the Rock of Gibraltar is the only one of its kind in existence, and is being protected by the British government.

**ARE YOUR CLOTHES FADED?**  
Use Red Cross Blue and make them white again. Large 2 oz. package, 5 cents.

It's easy to get tangled up in truth's castoff clothes.

**HELPFUL ADVICE**

You won't tell your family doctor the whole story about your private illness—you are too modest. You need not be afraid to tell Mrs. Pinkham, at Lynn, Mass., the things you could not explain to the doctor. Your letter will be held in the strictest confidence. From her vast correspondence with sick women during the past thirty years she may have gained the very knowledge that will help your case. Such letters as the following, from grateful women, establish beyond a doubt the power of

**LYDIA E. PINKHAM'S VEGETABLE COMPOUND**

to conquer all female diseases. Mrs. Norman R. Barnet, of Allentown, Pa., writes:  
"Ever since I was sixteen years of age I had suffered from an organic derangement and female weakness; in consequence I had dreadful headaches and was extremely nervous. My physician said I must go through an operation to get well. A friend told me about Lydia E. Pinkham's Vegetable Compound, and I took it and wrote you for advice, following your directions carefully, and thanks to you I am today a well woman, and I am telling all my friends of my experience."

**FACTS FOR SICK WOMEN.**

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness, nervous prostration.

**DIARRHOEA**

If you or some member of your family were taken suddenly to-night with Diarrhoea, Dysentery, Flux, Cholera Morbus, or Cholera Infantum, would you be prepared to check it?  
Every home should have a supply of

**Wakelield's Blackberry Balsam**

It is a most reliable remedy for all loose conditions of the bowels. All druggists sell it.

**KANSAS STATE NEWS**  
A Brief Review of the Happenings of a Week Condensed into Paragraphs for our Busy Readers

**Arctadia Bank Will Pay in Full.**—A report has been received from Arctadia announcing that the financial condition of the bank of Arctadia, which was closed recently by the state bank commissioner, is in such good condition that depositors will be paid in full within a short time.

**From Carbolic Acid.**—Antonio Williams, who resides on a farm near Axtell, was found dead in a room of the Park hotel in Atwood. He had taken over two ounces of carbolic acid. His features were frightfully discolored and one side of the face was scarred white where the acid had run from the mouth.

**Violated 28-Hour Law.**—District Attorney Bone has instituted twenty-one suits against the six big railroads of Kansas for violating the twenty-eight-hour law in hauling cattle. It is alleged that the roads didn't unload the cattle for food and rest as the law provides.

**City Plant at McPherson.**—McPherson is to have a municipal water and lighting plant. The city will either buy the present concern at a fair price or will build an entirely new plant. This is the conclusion of every member of the city council, and they are backed up by the citizens of McPherson almost to a man.

**Taft to Speak in Kansas.**—William Howard Taft, Republican nominee for the presidency, will speak in Topeka at the Auditorium on Saturday night, October 3. He will also speak at Leavenworth on October 5; Atchison, October 6, and will make speeches from the rear end of his train clear across the State via the Santa Fe.

**To Enforce Pure Food Laws.**—Secretary Crumrine of the state board of health has his pure food inspectors following the county fairs now, to compel the vendors of food and soft drinks to sell only the pure article, and to compel the fair associations to keep their grounds in proper shape. So far the inspectors have had no trouble enforcing the rules.

**Boys Cut Corn for State.**—Seventy-five young men cutting corn in one big field was one of the sights at the Hutchinson reformatory recently. An unusually heavy crop of corn was raised by the reformatory this year and it is now being gathered. Superintendent Cady has seventy-five of the inmates cutting the corn now. Each takes a row at a time and they cut a big swath every time they cross the field.

**20-Cent Chicken Sent to Prison.**—The theft of only one chicken, valued at only 20 cents, will send three women, two white and one negro, to the state penitentiary for a period of not less than one year and not more than five years. At the present term of court at Galena, three women, Maggie Tennor, a negro; May Williams and Jessie Johnson, white, have pleaded guilty to stealing the one 20 cent fowl from H. S. Davis.

**Assistant Postmaster Quits.**—"Doc" Newman, for several years past one of Senator Curtis's political managers, has tendered his resignation as assistant postmaster of Topeka. He has bought into Congressman Roeder's bank, the First National, of Logan, and will become its cashier on October 1. He will be succeeded in the Topeka postoffice by Captain Andy Fuller, for many years city ticket agent of the Rock Island railroad.

**Candidates Refuse to Pay.**—Several republican candidates for county offices in Shawnee county have refused to pay their assessment to the county commission and a meeting will be held to discuss the matter. The candidates have been taxed from \$150 to \$350 and they claim that the assessment is exorbitant and not needed for legitimate campaign expenses.

**In a Trance for a Week.**—The daughter of Michael Newell of Rooks county who went to sleep Monday, September 17, awakened September 14 and it is quite evident that she was in a trance. Upon awakening she said she knew everything that was going on about her and could hear every word that was spoken, but was unable to speak or even to open her eyes. She says she had a severe pain in her head during the entire sleep. During the prolonged slumber the girl, who is but fifteen years old, talked incoherently, and it was in a drowsy, dreamy way. She went to sleep, after a prolonged nose bleed, which weakened her considerably.

**Time in Anti-Trust Suits.**—The supreme court has granted thirty days additional time in which the state can gather evidence in the anti-trust suit against the International Harvester company. This is not the first time that the court has granted additional time in this case. The case has been pending for two years, and the end is not even now in sight. The securing of evidence has been delayed from time to time by the refusal of witnesses to testify and the failure to get them together. All of the direct evidence has been completed by

**Gains One Vote by Contest.**—The contest brought by H. A. Loper against W. H. Carnes, who was declared the republican nominee for county commissioner in the Second district of Sumner county at the recent primary, has been decided by a special count, as provided by the statute. On the recount of the reported ballots Carnes made a net gain of one vote, increasing his majority over Loper from 18 to 19. Loper's attorneys expressed themselves as satisfied and there will be no further proceedings in the case.

**A Farmer's Desperate Deed.**—John Riddle, a farmer living four and one-half miles northwest of Peabody, murdered his wife by strangling her with his handkerchief and beating her about the head. After murdering his wife he committed suicide by shooting himself in the head.

**Prisoner Complains of Fare.**—A prisoner in the county jail at Wichita complains to Governor Hoch about inadequate meals and wretched accommodations. He says the jail is unsanitary and that the prisoners only get two scanty meals a day. If they ask for more they are placed in the dark cell. The governor will refer the protest to the commissioners of Sedgewick county.

**Robbed The Depot Safe.**—The safe in the ticket office at the Missouri Pacific depot in Newton was broken open and robbed. The robbers first fired the tool house nearby and took several crowbars and hammers. Then they gained entrance to the office by breaking through a window. The dial of the safe was broken off and in the hole thus made a quantity of giant powder or dynamite was inserted, and the force of the explosion was sufficient to blow the door, weighing about 400 pounds, off its hinges and carry it a distance of ten feet. The robbers secured about \$20, partly in checks.

**323 Telephone Cos. in Kansas.**—Telephone lines are spread over the eastern half of the state like a spider web. The western half is not so slow, and the lines are being built there rapidly. It will be only a short time before all parts of the state will be in touch with telephone lines. There are now 323 telephone companies in the state doing business in more than one county. The tax commission has announced that number on its list, and the commission is required to assess all companies having lines in more than one county. Most of these local companies are mutual concerns, but they have working combinations with one or more of the big companies, so that their patrons have long distance connection to nearly every point. There are some counties in the central part of the state where every home outside of the cities and towns has a telephone.

**Five Per Cent Death Rate.**—The average death rate at the state soldiers' home at Dodge City during the past year was 5 per cent, according to the annual report of Commandant S. H. Thomas. The population of the home is 509 and twenty-five persons died during the year. Of these, eighteen were soldiers, six were wives of soldiers or widows and one was a son of a soldier. That disease is rapidly creeping upon the soldiers is evidenced by the fact that the physician of the home made more than 5,000 calls during the year. That is perhaps three times as many calls as a physician of a country town with 500 population would make. It cost the state \$156 per capita to maintain the home and \$171 per capita to maintain the Mother Bickerdyke home, an adjunct of the soldiers' home, where army nurses and widows are kept. On account of the increasing attendance at the home the commandant asks for heavier appropriations next year. He wants \$51,000 for maintenance, increase of \$1,000; \$5,000 for freight and transportation, an increase of \$1,000; \$10,000 for building repairs; \$2,000 for new furnishings for the cottages; \$10,000 for an electric light plant; \$600 for a resident chaplain; \$2,600 for nurses, an increase of \$1,400, and \$900 for an assistant physician.

**A Convict Trusty Escapes.**—David Hughes, a convict trusty, ran away from the Kansas penitentiary, making making gang. Hughes asked permission to go for a drink and did not come back. He was brought to the penitentiary from Carwell, Oklahoma, for stealing a saddle. He had three months more to serve of a one-year term.

**Explosion Kills Two Miners.**—Will Murphy and James Mitchell, miners employed in the Oilphant zinc mine at Galena, were instantly killed by the premature explosion of forty-five sticks of dynamite which had been loaded in a hole. The explosion is believed to have been caused by fusing of an iron tamping bar. Murphy was found sixty feet away, his head mashed to a pulp and minus a hand and leg. Mitchell's right leg was blown off and the body horribly mangled, having been hurled forty feet by the explosion. Mitchell was an old miner, and had regularly ignored warnings against using iron tamping powder. Mitchell's son escaped, losing two fingers.

**AFRAID TO EAT.**  
Girl Starving on Ill-Selected Food.  
"Several years ago I was actually starving," writes a Me. girl, "yet dared not eat for fear of the consequences. I had suffered from indigestion from overwork, irregular meals and improper food, until at last my stomach became so weak I could eat scarcely any food without great distress. Many kinds of food were tried, all with the same discouraging effects. I steadily lost health and strength until I was but a wreck of my former self. Having heard of Grape-Nuts and its great merits, I purchased a package, but with little hope that it would help me—I was so discouraged. I found it not only appetizing but that I could eat it as I liked and that it satisfied the craving for food without causing distress, and if I may use the expression, 'it filled the bill.' For months Grape-Nuts was my principal article of diet. I felt from the very first that I had found the right way to health and happiness, and my anticipations were fully realized. With its continued use I regained my usual health and strength. To-day I am well and can eat anything I like, yet Grape-Nuts food forms a part of my bill of fare. 'There's a Reason.' Name given by Postum Co., Battle Creek, Mich. Read 'The Road to Wellville,' in pgs. Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

**His Body Split Asunder.**—While engaged in feeding logs into a buzz saw 18 miles north of Pittsburg, Willard Wagner, aged 35, slipped, fell headlong on the saw and his body was split in two by the saw. The accident occurred so quickly that bystanders who saw him fall were unable to assist him and the unfortunate man did not even give a scream. Wagner was lifting a heavy timber in front of the big buzz saw and his foot slipped and he was seen to fall onto the saw. In an instant the saw had ripped its way through his body.

**The General Demand**

of the Well-Informed of the World has always been for a simple, pleasant and efficient liquid laxative remedy of known value; a laxative which physicians could sanction for family use because its component parts are known to them to be wholesome and truly beneficial in effect, acceptable to the system and gentle, yet prompt, in action.

In supplying that demand with its excellent combination of Syrup of Figs and Elixir of Senna, the California Fig Syrup Co. proceeds along ethical lines and relies on the merits of the laxative for its remarkable success.

That is one of many reasons why Syrup of Figs and Elixir of Senna is given the preference by the Well-Informed. To get its beneficial effects always buy the genuine—manufactured by the California Fig Syrup Co., only, and for sale by all leading druggists. Price fifty cents per bottle.

**TOO TRUE TO BE GOOD.**

Pinxit—I have just finished the late Mrs. Peck's portrait. It's a speaking likeness. The Widower Peck—Would it be too much trouble to—change it a bit in that respect?

**DEEP CRACKS FROM ECZEMA**

Could Lay Slate-Pencil in One—Hands in Dreadful State—Permanent Cure in Cuticura.

"I had eczema on my hands for about seven years and during that time I had used several so-called remedies, together with physicians' and druggists' prescriptions. The disease was so bad on my hands that I could lay a slate-pencil in one of the cracks and a rule placed across the hand would not touch the pencil. I kept using remedy after remedy, and while some gave partial relief, none relieved as much as did the first box of Cuticura Ointment. I made a purchase of Cuticura Soap and Ointment and my hands were perfectly cured after two boxes of Cuticura Soap and one cake of Cuticura Soap were used. W. H. Dean, Newark, Del., Mar. 28, 1907."

**A Doctor's Disadvantage.**  
"In one way," said a collector, "it is easier to get money from a doctor than anybody else who is slow pay. It is more difficult for him to swear that he hasn't been able to make any collections himself since the first of the year. A doctor's reception room is open to all possible patients. A collector with a grain of ingenuity can find a way to worm out of the men on the waiting list information as to the terms of payment. After an interview with three or four persons who have paid spot cash for treatment and who have told the collector they paid, it takes a mighty nerve on the part of the doctor to insist that he hasn't a dollar to his name."

**Nailing Him.**  
He—It's jolly nice to kiss one you like.  
She—(No answer).  
He—That is, of course, if she doesn't mind.  
She—(No answer).  
He—If she gets mad it's altogether another thing.  
She—(No answer).  
He—'d like to steal a kiss now—  
She—(No answer).  
He—If it would be quite safe.  
She—Have you finished?  
He—Oh, yes!  
She—Then how can you make so many fool remarks when you see that I am alone and entirely at your mercy?—Young's Magazine.

**A Believer.**  
"Do you believe in telepathy?" asked the mystical person.  
"What do you mean by telepathy?" asked Mr. Dustin Stax.  
"Thought transfer—the faculty that enables one person to know what another person is thinking about."  
"Oh, yes. There's my old friend, Mr. Skinbodie. I know what he's thinking about this very minute."  
"What is it?"  
"Money."

**Close Quarters.**  
The following extract from a letter of thanks is cherished by its recipient:  
"The beautiful clock you sent us came in perfect condition, and is now in the parlor on top of the book-shelves, where we hope to see you soon, and your husband, also, if he can make it convenient."  
By following the directions, which are plainly printed on each package of DeWitt's Starch, Men's Collars and Cuffs can be made just as stiff as desired, with either gloss or domestic finish. Try it, 16 oz. for 10c, sold by all good grocers.

**Much Safer Size.**  
Misses—Are you not rather small for a nurse?  
Nurse—No, indeed, madam! The children don't fall so far when I drop them!—Stray Stories.

**SHE GOT HER MAN—HAPPY.**

Indian Woman Not Likely to Be Left Far Behind in Life's Battle.

Writing of the famous Dean Kaye of Topeka in Suburban Life, Paul A. Lovewell, says:  
"Dean Kaye has had interesting experiences during his sojourns in the wilderness. Once an Indian woman came to his cabin.  
"You marry?" she asked.  
"Yes," said the dean, "I can marry folks. Have you got a man?"  
"Again the woman grunted, and departed. About sundown she returned, dragging with her an apparently abandoned and reluctant brute.  
"Got him," she remarked, laconically, producing her marriage license. The man knew no English, but the woman prompted him when it became necessary for him to give his assent to the dean's questions. When it was over the squaw paid the minister his fee and led her husband away in triumph."

**AVOID RISK IN BUYING PAINT.**

You take a good deal of risk if you buy white lead without having absolute assurance as to its purity and quality. You know white lead is often adulterated, often misrepresented. But there's no need at all to take any chances. The "Dutch Boy Paint" is the product of the National Lead Company, the largest makers of genuine white lead, on a package of White Lead, is a positive guarantee of purity and quality. It's as dependable as the Dollar Sign. If you'll write the National Lead Company, Woodbridge Bldg., New York City, they will send you a simple and certain outfit for testing white lead, and a valuable book on paint, free.

**Women Fishermen.**

On the coast of Holland, Belgium and Northern France the fishermen are a familiar sight, with their great hand nets and quaint costumes. Many of the towns have distinctive costumes by which their women can be recognized anywhere. Those of Mana-Kirke, near Ostend, wear trousers and loose blouses, while their heads and shoulders are covered by shawls. They carry their nets into the sea and scoop up vast quantities of shrimps and prawns, with an occasional crab or lobster and many small fish. They often wade out till the water is up to their necks, and they remain for hours at a time in water above their knees, rarely returning until their baskets are full.

**ANNUAL SALES OVER NINE MILLION.**

Good, reliable quality is appreciated by the smoker. Over Nine Million (9,000,000) Lewis' Single Binder cigars sold annually. The kind of cigar smokers have been looking for, made of very rich, mellow tasting tobacco. It's the judgment of many smokers that Lewis' Single Binder straight 50 cigar equals in quality the best 10c cigar. There are many imitators of this celebrated brand. Don't let them fool you. There is no substitute.  
Tell the dealer you wish to try a Lewis' Single Binder.  
Lewis Factory, Peoria, Ill., Originators The Full Smoker Package.

**Microscopic Writing.**  
A remarkable machine made by a lately deceased member of the Royal Microscopical society for writing with a diamond seems to have been broken up by its inventor. A specimen of its works is the Lord's prayer of 227 letters, written in the 1,237,000 of a square inch, which is at the rate of 53,880,000 letters or 15 complete Bibles, to the single square inch. To decipher the writing it is necessary to use a 112-inch objective, which is the high power lens physicians employ for studying the most minute bacteria.

**\$100 Reward, \$100.**  
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to medical treatment. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and annihilating the system. The proprietors have so much faith in its curative powers that they offer \$100.00 for any case that it fails to cure. Send for list of testimonials.  
Sold by J. C. HENRI & CO., Toledo, O.  
Sold by all Druggists, 75c.  
Take Hall's Family Pills for constipation.

**Close Quarters.**  
The following extract from a letter of thanks is cherished by its recipient:  
"The beautiful clock you sent us came in perfect condition, and is now in the parlor on top of the book-shelves, where we hope to see you soon, and your husband, also, if he can make it convenient."

**LEST HE FORGET.**

No Roseate Postcard Without its Thorn of Suggestion.

Harold's mother—we'll call him Harold—went abroad a month ago, leaving Harold under the somewhat substantial control of his elder sisters. In spite of the itemized directions with which even unto the moment of final leave-taking she had not ceased to bombard him, Harold's mother was far from sure that her efforts would have any lasting effect.

Her voyage was more or less disturbed by these doubts, but before she landed on the other side she had determined on a course of action. Like all small boys, Harold is most covetous of picture postcards and had looked forward to a harvest from his mother's trip. He got it.  
Every day she sent at least one card. And whatever else it bore in the way of inscription, there was not one which failed of this introduction:  
"Just as soon as you get this go and brush your teeth."

Laundry work at home would be much more satisfactory if the right starch were used. In order to get the desired stiffness, it is usually necessary to use so much starch that the beauty and fineness of the fabric is hidden behind a paste of varying thickness, which not only destroys the appearance, but also affects the wearing quality of the goods. This trouble can be entirely overcome by using Defiance Starch, as it can be applied much more thinly because of its greater strength than other makes.

**Even the Hash.**  
Embarrassed in the fashionable restaurant by the menu written in French, the Wall street man of business exclaimed:  
"Hang these froids, entremets and hors d'oeuvres—bring me a plate of good plain hash, if you've got such a thing on the premises."  
"You mean an olla podrida, sir," said the waiter, in a tone of dignified reproach. "And afterwards?"

**Wanted to Go the Same Way.**  
We were taking a little trip into the country. The only vacant seats in the train were turned so as to face each other. I told my little girl, four years old, to take the seat in front of me, as riding backward would not make her sick. She hesitated, and said:  
"I know it won't make me sick, but if I ride backward will I go to the same place you are going to?"

The extraordinary popularity of fine white goods this summer makes the choice of Starch a matter of great importance. Defiance Starch, being free from all injurious chemicals, is the only one which is safe to use on fine fabrics. Its great strength as a stiffener makes half the usual quantity of Starch necessary, with the result of perfect finish, equal to that when the goods were new.

**Neither.**  
"See here, I'm tired of complaining about those noises. Shall I appeal to the police or leave it to Heaven?"  
"Don't say anything to the police," replied the janitor, soothingly. "Leave it to me."

**SICK HEADACHE**
