### Our New Regents.

Gov. Hoch this week named the new Regents for our State Normal Schools, re-appointing Prof. A. H. Bushey for four years more, and naming Harry Grass of Rush county, and editor M. F. Amrine of the Council Grove Cour-

ier to succeed Dodge and Ross. Editor Amrine is all right and a pusher and help build up the schools. The selection of Harry Grass is splendid. He lived here so long, was our County Superintendent, knows the needs of our School and western Kansas, Rush county has well patronized our school and his living there will help us still more, as also in that tier of counties. Our citizens unitedly approve of the Governor's selection.

For the State Agricultural College he re-appointed J. O. Tulloss for four more years and W. E. Backburn of Anthony, Harper county, and Edwin Taylor, the noted farmer and Agriculturist of Wyandotte county, to succeed Capt. McDowell and Fairchild. There will be no 'politics' in Taylor, but solid farming and good stock, for he has made that reputation in our state farmer's meetings.

This leaves Regent Griffith the only one out this way, the 6th District losing 4 in this shuffle.

The Legislature is asked for the following appropriation for our Experiment station and is apt to grant it. \$4000 for a Barn this spring.
