Freight from east arrives at 6 P. M.

We notice when a man's course is wrong, he tries to make it right, by profuse explanations.

WM. A. ELLIOTT is proud. He bears the title of PA. A boy, Tuesday. Mother and child doing well.

The morning passenger train east was delayed fourteen hours Thursday, owing to the wreck of a freight train near Lakin.

We take occasion to offer our weekly bulletin of the Arkansas. It is full—bank to bank. May its shadow never grow less.

A LOT of Italian organ grinders were in the city Wednesday and dealt out a few tunes much to the amusement of the boys and the dull citizen.

Dodge City is unusually quiet, considering that this is a "fast" town. The old life is knocked out of it. It is now orderly, which is highly commendable.

THE weather has been variable lately—warm, cool, hot and windy—only the later is not a variation in Kansas weather. It comes with singular regularity; and still we can't get used to it.

SOME of the ladies are advocating the building of sidewalks in the middle of the streets. The crowds that now daily through the main street rendering feminine locomotion slow and difficult.

THERE are some people, able to pay, who leave the country, and fail to pay up the little amounts they owe this office. This is getting monotonous, and we shall make an example of the next one.

Two brothers gave into the census enumerator, the birthplace of their father. Two States were named; showing that the boys don't carry a pocket edition of family genealogy, and that the census enumeration can not be scientifically correct.

JONAS Stafford predicted the rain of Thursday night and Friday morning. He said it would rain Friday. If Jonas comes within ten hours of hitting his predictions, we shall continue our faith in his weather prophecies.

A BLIND woman applied for the use of the Union Church for the purpose of giving a select concert. Permission was refused for the reason that the programme contained a song entitled "Annie Laurie." Some of our older citizens are indignant over this.

A CHICAGO Variety manager will arrive in the city Monday next, and open a variety performance in Kelley's Opera House. We are assured that the show will be respectable of its class, and it will afford a place of amusement to the temporary dwellers in Dodge.

L. M. FERRIER, of Spearville, was in the city Thursday. He reports a number of settlers leaving the country. Of those remaining many are going into the stock business. It would be better if every one could gather a bunch of stock around him.

A. B. WEBSTER, H. J. Frieger, R. W. Evans and F. C. Zimmermann, attended the funeral of J. J. McClimans, at Great Bend, on Tuesday. The funeral was conducted by the Knight Templars. The deceased was universally respected. He held the office of Clerk of the District Court of Barton County.

A GREAT BEND correspondent says: The prospect for a good crop of corn is good if favorable weather continues. The yield of wheat will be much better than was anticipated, there being, perhaps, half a crop. On account of the shortness of the stalk, most of the wheat must be cut by hand.

THE WOOL BUSINESS.

Three years ago no sheep were held in this section of country. Now large numbers of sheep are held on the range south. The wool business therefore is becoming quite an item in the product of the country. Large quantities of wool have been placed in store in this city, and large quantities have been shipped east. There is considerable wool arriving and to arrive. The sheep men however, finding great difficulty in procuring shearers, and have therefore been backward in getting their wool to market. There have been few sales as yet, the owners of wool determining to hold until the market assumes a better shape; consequently most of the wool brought here, will be stored until the demand for wool becomes better.

R. W. Tarbox has about 18,000 pounds in store. S. B. Williams shipped 6,000 pounds a few days ago. Mr. Williams has a lamb 11 months old, that sheared 11 pounds of wool. Smoker Bros. are bringing to market 3,000 pounds of wool. They have only lately gone into the sheep business. Mr. Hubbard is bringing 16,000 pounds of wool to market. D. Rope has 18,000 pounds on the way. Mr. Mingus has 15,000 pounds en route. W. Tarbox will shear 20,000 pounds; Clark & Robbins 32,000 pounds; Wm. Anderson 25,000 pounds. Collier & McGraw are shearing 10,000 near Cimarron. They will shear 60,000 pounds. Sheehan shipped 3,000 pounds. Blossom has 7,000 pounds. Turner 5,000 pounds. Allen Bros. 2,000 pounds. Boyer 1,500 pounds. J. H. Osborn is shipping 15,000 pounds of wool. Mr. Boyer, a wool buyer, shipped 47,000 pounds last week. This was the first shipment this season. He was the only buyer in the market. We presume in a few weeks the wool business will become active. It is apparent, what advantage the wool interest will be to Dodge City in a short time.

THE cattle trade is not lively yet. We hear of but few sales and have been unable to get the figures. We understand a sale of 6,000 head was made on which \$8,000 profit was realized. But few cattle are held on the range south of the city, owing to the shortness of the grass. There are no cattle buyers in the city, and it is believed no sales will take place soon. The greater part of the cattle will be held on the range south for some time, as it is the intention of cattle drovers to move no farther north. In a couple of weeks, perhaps, the cattle trade will be lively in Dodge City.

Robbins has the nicest little stock of Groceries in Dodge City. All fresh and warranted to give satisfaction. Give him a call, he sells cheap for cash.

THE spring freshets in the rivers of Wisconsin appear to have done an immense amount of damage. Property valued at a million dollars has already been destroyed in the Chippewa Valley. The town of Eau Claire is partially submerged, and great excitement prevails among the imperiled populace.

MR. JOS. BOYER, of Waterloo, Ind., a wool buyer, returned to his home last Saturday. He will probably return again this summer. On Friday last he shipped one and one half cars of wool, purchased at this place. Dodge City is destined to become a wool market.

APPLICATIONS of School Teachers will be received by F. C. Zimmermann until two o'clock Saturday P. M. July 3rd for teachers in District No. 1, Dodge City, Kas. Nine months teaching will be required.

The Board of County Commissioners have appointed Dr. A. H. Harris and H. E. Gryden School examiners for the year 1880.

RAIN THURSDAY NIGHT.

A heavy rain storm passed over this region Thursday night. The rain commenced at about half past eleven o'clock, and continued to fall heavily for about an hour. The Signal Officer reports a fall of 99-100ths of an inch of rain. With the shower of Sunday night it makes a rainfall in June so far, of one inch and ten-hundredths of an inch. No wind accompanied the rain. There was heavy thunder and lightning. The grass and crops will be greatly benefitted by the rain.

The city officers have been making things lively this week on violation of ordinances and non-payment of licenses. There is no government like a strong government.

It is predicted that the present census will give Colorado a population of over 200,000.

Robbins receives Strawberries three times a week.

GRAY HAIR.

The Mysteries of Carboline as a Restorative.

The composition of the human hair has never been accurately or satisfactorily determined. Chemical analysis has revealed its main constituents, but, as it varies essentially in different persons, and in the same person at different ages, it is impossible to determine with any accuracy exactly what quality is lacking where a person becomes prematurely gray, or what preparation is best suited to restore the natural growth and vigor where the hair falls out so as to produce baldness. Hence it is that all artificial preparations have failed, in some essentials at least, to meet the requirements of a perfect hair restorative. There are a number of excellent dressings and washings, and scores of preparations that are either indifferent or positively injurious, and the great multiplicity of these furnishes an argument in support of the fact that there is something lacking in them all. The new article, Carboline, contains all the qualities essential to a perfect hair restorative, both as regards natural color and a full, luxuriant growth. The basis of Carboline is petroleum, and in that wonderful article, produced in Nature's own laboratory, are properties which the chemist's art has not yet been able to combine, and which act like magic upon the scalp, the follicles, and the various elements of which the hair is composed. Its use as a hair-dressing is the greatest of modern discoveries, and there is no longer any reason why the prematurely gray and the bald should not, at a trifling expense, secure to themselves that most desirable and attractive of all personal adornments, a luxuriant and healthy growth of hair. Sold by druggists.
