SALESROOM, FRONT AND CHESTNUT ST. DODGE CITY, KANSAS.

AN EXTRAORDINARY OFFER TO ALL WANTING EMPLOYMENT.

We want two live, energetic agents in every county in the United States and Canada to sell a patent article of great merit on its merits. An article having a large sale paying over 100 per cent. profit, having no competition, and on which the agent is protected in the exclusive sale by a deed given for each and every county he may secure from us. With all these advantages to our agents, and the fact that it is an article that can be sold to every householder; it might not be necessary to make "an extraordinary offer" to secure good agents at once, but we have concluded to make it to show, not only our confidence in the merits of our invention, but in its salubility by any agent that will handle it with energy. Our agents now at work, making from \$250 to \$500 a month clear, and this fact makes it safe for us to make our offer to all who are out of employment. Any agent that will give our business a thirty days' trial, and fail to clear \$100 in this time, above all expenses, we return the goods sold to us and we will refund the money paid for them. No such employer of agents ever dared to make such offers, nor would we if we did not know that we have agents now making more than double this amount. Our large descriptive circulars explain our offer fully, and these we wish to send to every one out of employment who will send us three one cent stamps for postage. Send at once and secure the agency in time for the boom, and go to work on the terms named in our extraordinary offer.

Speaking of trusts, the most obnoxious one in this country to a great many honest, patriotic people, is the one dominated by G. Cleveland, Esq., the office of president. "Public office is a public trust" was a very pretty sentiment at the time Mr. Cleveland uttered it, prior to his election but the trust business has grown into such distrust during later months, that any one whose name is mentioned in such connection is regarded with suspicion.

THE ASS, THE OX AND THE MASTER.

The ass visited the ox one day to complain of the work put upon him, and the ox replied:
 "It is uncalled for and unjust. My advice is that you quit work and bring your master to time."
 The ass went his way to follow the advice, but returned in a few days to say:
 "As soon as I stopped work my master stopped my feed, and now what shall I do?"
 "Oh, you must starve in order to carry out the principle of the thing." And you?
 "I shall continue to grow fat in bossing your strike."

VESTIBULE TRAINS TO CHICAGO.

The Vestibule train is a new factor in western railroad transportation. It is claimed for these trains that on account of there being connected by steel hoods all danger of telescoping in case of accident is removed, the train being practically one long car. It is certain that the oscillation of the cars is greatly reduced, and it is also certain that the vestibule trains afford the greatest comfort yet known to travelers. The adoption of this style of train by the Chicago, Santa Fe & California railway between Kansas City and Chicago is a strong bid for the passenger traffic between the West and Chicago. This new road is in many particulars ahead of its older competitors, and will undoubtedly be the popular road to Chicago.
