The FORD CO. GLOBE, Established 1877. The FORD CO. REPUBLICAN, 1888. Consolidated, 1893.

DODGE CITY, KANSAS, FRIDAY, JUNE 2, 1893.

SEVENTEENTH YEAR. VOL. XVI, NO. 33.

## DR. PRICE'S Cream Baking Powder.

The only Pure Cream of Tartar Powder.—No Ammonia; No Alum. Used in Millions of Homes—40 Years the Standard.

Solid Statements!—The Largest, Strongest, Greatest and Best

## RAIL ROAD SHOW ON EARTH.

"And the Only Performance or the Kind in the World."

THE BIG SHOW WILL EXHIBIT AT

Dodge City, Wednesday, June 7th, 1893.

## SELLS & RENTFROWS'

Colossal Aggregation of Sensational Features!

### Monster Museum, 3-Ring Circus,

and Great Double Menagerie! Real Roman Races of Ancient Rome!

You can't afford to miss seeing

World's Fair on Wheels

The most extraordinary of principal

Bareback

Equestrians

MR.

Wm Sells

WM. SELLS, a veritable living centaur; a paragon among all horsemen; none dare challenge his supremacy; the pride of America; the wonder of Europe, who for over three continuous months was the popular hero at Olympia, London; received the most enthusiastic recognition from Royalty, Nobility and Commons, and was unanimously recognized by the British press as the pre-eminent feature of the circus in which he shows.

Ms. WILLIAM DUTTON, in his brilliant feats of equestrianism, performing at will forward and backward somersaults on the bare back of his swiftly running steed. One of the most dashing equestrians of the age, engaged at an enormous salary to ride at each performance of this faultless exhibition.

Mr. CHAS. WATSON, the greatest horse rider the world ever saw. The DUTTON SISTERS, undoubtedly the finest lady riders on earth.

Miss Mildred Murray, the finest Menagerie Rider. Edward Wilkinson, the celebrated European Hurdle Rider. THE GREAT LIVINGSTONE FAMILY—4 in number—Aerialists, Gymnasts, Acrobats and Bicyclists, in sensational Aerial Flights, dazzling and intrepid feats. Fearless and astonishing features that heretofore have seemed impossible accomplished by these wonderful artists with such ease and grace as to establish them the "undisputed champions of the Gymnastic World;" and fifty other performers from every clime.

Two Menageries of Wild Beasts And open dens of Savage Brutes, Mammoth Elephants, Lions, Tigers, Hyenas, Bears, Wolves, Leopards and Panthers. Zebras trained to drive like horses. Knights in Armor, Ladies as Princesses, Male and Female Jockeys, Squads of Princes, Nobles and Cavaliers in Royal Robes and Rich Costumes, Mounted on Spirited Horses like days of old.

The best performing Elephants; Sea Lion Leopard and baby Camel; 29 Great Circus Acts; Three Great Bands in Street Parade; Courty Knights and Dames; A Drive of Monster Camels; Zebras, Bears and Baby Monkeys. 30 great leapers; Richly carved and Gilded Tableau Wagons; Myriad Cages, Dens and Lairs. SEE THE TWENTY CLOWNS! First in wit; first in fun; First in the hearts of the public.

A Mile Tumble from the Skies! Grand Balloon Race and Double Parachute Jump by Miss Annie Bell Holton and Miss Lillie Rice. To be witnessed positively each day of the exhibition at the show grounds.

Be sure and ask your agent for CHEAP EXCURSION RATES. Every Rail Road gives Low Excursion Rates to this Big Show. At 10 A. M. a Glorious Grand Holiday Free Street Parade: ONE DAY ONLY; Afternoon and Night. Doors Open at 1 and 6 P. M. No Extra Charge. One Ticket Admits to all.

You all know us. Our past record a guarantee of the future.

### COMMISSIONERS PROCEEDINGS.

Call Meeting of the Board of County Commissioners for May 20th, 1893.

Hon. Fred Gardner, Chairman of the Board of County Commissioners of Ford County, Kansas: We, the undersigned members of said board of commissioners would most respectfully ask you to call a special meeting of the board May 20, 1893, at 2 p. m., for the purpose of allowing the jury fee bill and transacting such other business as may properly come before the board this time.

JOHN W. SIDLOW.

NICK MAYRATH.

Commissioners.

Pursuant to the above request I hereby call a special meeting of the Board May 20th at 2 P. M.

FRED GARDNER, Chairman.

County Clerk's office, May 20th 1893 2 p. m. Board met pursuant to above call. Present full board. On motion the following jury fee bill was allowed.

K. S. CRANE, County Clerk.

### GREAT ROCK ISLAND ROUTE.

### TO THE EAST.

BEST DINING CAR SERVICE IN THE WORLD. The Rock Island is foremost in adopting any advantage calculated to improve speed and give that luxury, safety and comfort that popular patronage demands. Its equipment is thoroughly complete with vestibuled trains, magnificent dining cars, sleepers and chair coaches, all the most elegant, of recently improved patterns.

Faithful and capable management, and polite, honest service from employees, are important items. They are a double duty to the Company and to travelers, and it is sometimes a task difficult of accomplishment. Passengers on this line will find little cause for complaint on that ground.

The importance of this line can be better understood if a short lesson in geography be recited.

What is the great Eastern terminus of the Rock Island Route?—Chicago. What other sub-Eastern terminus has it?—Peoria.

To what important points does it run trains to the Northwest?—St. Paul and Minneapolis, Minnesota, and Watertown and Sioux Falls, Dakota. To what important Iowa and Nebraska points?—Des Moines, Davenport, Iowa Omaha and Lincoln, Nebraska.

REMEMBER The Great Rock Island Route runs all regular trains to Englewood suburban stations, close to World's Fair grounds and you can save time and trouble by getting off at that point and avoid the crowd in the city.

For full particulars as to tickets, maps, rates, apply to any coupon ticket office in the United States, Canada or Mexico, or address.

JNO. SEBASTIAN, Gen'l Tkt & Pass. Agt., Chicago, Ill. E. St. John, Gen'l Manager, Chicago, Ill.

BULLS FOR SALE:—Six head of full blood Polled Angus Bulls; five full blood Durham Bulls. All eligible to registry. A few high grade bulls of different breeds. Will sell cheap or trade for other cattle. Stock can be seen at my farm six miles west of Kinsey and four miles north of Olerie. Address, G. L. Painter, Kinsey, Kansas. 303

### How to Keep Back.

A number of Dodge City benedicts find themselves left to their own devices, from the fact that their wives have got through spring housecleaning, and gone on a vacation to the World's Fair or some other seaport town. In order to give them an idea how to keep things in order during the good housewife's absence, we publish the following, which the ubiquitous scribe discovered in a pigeon hole at the county attorney's office this week while the said scribe patiently waited for news concerning the whereabouts of Mrs. Murphey:

"DEAR FULLER:—We have all gone to Gray county to be gone a week or ten days. Sorry to leave you alone so long, but if you follow my directions you will be all right. You will find the coffee in a pail on the safe. Don't forget to grind it before boiling. The oat flakes are on the lower shelf. Use the little kettle and don't forget to wash it every morning. Be careful about eating too much sugar. Water my plants and sweep the floor every morning. Feed the chickens some millet seed and don't forget to water the old hen in the basement. Keep the shingles on the sunny side of the cabbage plants and don't let the cows run over the onion bed. You will find the key to your trunk in my last summer's hat. Look in the third bureau drawer for clean shirt. Don't forget to brush your clothes and clean your finger nails. Keep good company. Be ready to tell me everything when I return. Come home early every night. Go for the joints with vengeance. Lovingly, FANNY."

"P. S. There is a hen's nest under Cyclone's manger and another in the cow manger. The cookies are in the cake box."

Before parting company with the county attorney we made inquiry as to his diet these warm days. Bro. Mitchell looked embarrassed, (we cannot say he blushed, because that countenance is ever at the maximum of redness) and said: "The fact is, my wife and children went to Gray county yesterday, and I couldn't find a match in the house. She said the cookies were in the cake box, but I couldn't find the measly cake box, so had to take a raw egg and half can of raw tomatoes for supper, and for breakfast I took half can raw tomatoes and an egg raw. That kind of diet makes a man sort of lonesome."

The efforts of County Attorney Mitchell to enforce the prohibitory liquor laws are liable to carry death and destruction along with them. Last week, among the witnesses called before him was one who takes his fiery medicine with great regularity, and Mr. Mitchell had every reason to expect there would be conclusive testimony forthcoming when he was called into the sweat-box. But the disciple of Bacchus proved recalcitrant, and though admitting that he had been consuming lots of contraband liquor, said he always got it from strangers, and could not give the names of any one from whom he purchased. The county attorney at once began to gather evidence on which to prosecute him for perjury. The man was already slightly nervous, from consuming so much coffin varnish, and the prospect of facing the district judge on the serious charge of perjury had more terror for him than death itself, so he took a big dose of laudanum. Some friends happened to catch on to what was up and had several doctors working about half the night bailing out laudanum, stale beer, forty rod joint whiskey and other articles too numerous to mention. The man still lives, and about the only apparent result of the attempted suicide is an unusual void which calls loudly for fire-water.

At a special meeting of Lewis Post No. 294, G. A. R. the following resolutions were adopted.

Resolved: That the thanks of the Post are due and are hereby tendered to Rev. S. E. Bussler, for his able and patriotic address delivered at the opera house in Dodge City, Kansas, on Memorial Sunday, May 28th, 1893. His glowing eulogy of Lincoln, Garfield and Grant, as well as his touching tribute to the thousands of private soldiers, who lie in unknown graves, entitle him to the gratitude of every lover of his country.

Resolved: That Rev. S. E. Bussler be requested to furnish a copy of his address to each of our city papers for publication.

Resolved: That these resolutions be spread upon the records of the Post and furnished to each of our city papers for publication, and a copy furnished to Rev. S. E. Bussler.

Committee on Resolutions, H. JUNEAU, M. W. SUTTON, E. D. SWAN.

Judge Hoover has four cherry trees which are in the second bloom this season. The trees were in full bloom early in the season, but the freeze last month destroyed the blooms. One tree has as many second blooms as it had first bloomed, one is nearly full and two trees are about half full of blooms; and have enough blooms to make a good crop. Nature has a freak this spring. Cimarron New West.

The high school entertainment last Friday surpassed anything of the kind ever before given in Dodge City. The examinations which preceded the exhibition showed a thoroughness of application to the various branches of study which none but the most careful and skillful instruction could impart. This was indeed gratifying to parents who were anxious to see their children advance rapidly along the highway of wisdom. But in the evening at the opera house the general public were agreeably surprised to witness an entertainment which would compare favorably with many trained companies of good repute. Those present were enthusiastic in praise of the children, and remarks were frequent to the effect that the teachers must have taken great pains to train their pupils in order to produce such perfect discipline and have them so well prepared. The concluding drill was indeed a masterpiece and elicited great admiration. We again remark that Dodge City has a right to be proud of her schools.

Wm. Dillinger returned from Stafford this week. He has been down there figuring on some plastering and stone work on a \$3,000 dwelling for a banker of that city. Mr. Dillinger says the farmers are putting in lots of broom corn. He has a brother in Pratt county, near Stafford, who put in a patch of broom corn last year, hired men at \$1.50 per day to do the work, and realized \$400 net profit clear of all expenses. This brother is putting in forty or fifty acres this season. The wheat looks about like it does around Dodge City. They had a big rain in Pratt county last Tuesday morning. Some parties started the story that Mr. Dillinger kidnapped Mrs. Murphy, but this is a ridiculous mistake, as the elusive lady went in quite a different direction, and is now rusticated in Pueblo.

Mr. Joe Maxwell, a young man from Washington, Iowa, came to Ford county last Saturday, and is stopping with his cousin, J. L. Trebilcock, a mile and a half north of this city. Mr. Maxwell has had considerable experience raising broom corn and manufacturing brooms in Iowa. He knows all about curing and preparing it for market, and can make brooms to perfection. Messrs Maxwell and Trebilcock will put in forty acres of broom corn north of Dodge City this month. We are glad Mr. Maxwell has decided to locate in this county, as he will make brooms and give our people many valuable pointers in the manner of handling this matter to the best advantage, in the way of cleaning, curing and baling broom corn for shipment.

Mr. B. Giltner, of Blue Rapids, Kansas, was in the city this week looking after land belonging to the Blossom heirs, as attorney for parties who live in Marshall county. He says they are all astonished and delighted at the wonderful recuperative power of Kansas. Since the recent rains they feel assured of half a crop of wheat, oats will be two-thirds of a crop, corn looks splendid. Mr. Giltner is an enthusiastic republican, and in closing up his account of encouraging crop prospects he remarked "We are looking for a full crop of republicans next fall."

NOTICE:—The Very Reverend Archdeacon Brady, of the Episcopal church in Kansas, will hold a course of services at the opera house next Sunday morning at 11 a. m., evening at 8 p. m., also on Monday and Tuesday evening at 8 p. m. Subjects:—Sunday morning 11 a. m., "The Love of God;" Sunday evening 8 p. m., "The Story of Belshazzar, or Weighed in the Balances and Found Wanting;" Monday and Tuesday evenings at 8 p. m., "The Creator of the World," "And the Beginning of Man." Everybody are cordially invited to attend these services.

### Pointers for World's Fair.

Footprints on the sand of time this year will all be turned toward Chicago, where the great Columbian Exposition is to be held.

While walking may be good, the majority of Kansans will prefer riding in a solid Santa Fe Route vestibuled train.

Perhaps you don't know that the Santa Fe Route has the shortest line between Kansas City and Chicago, by 36 miles; that absence of grade crossings lessens the number of compulsory stops; and that three trains each way each day affords ample room for all travelers.

Luxurious palace sleepers, fine dining-car service and free chair cars; better than the best of the other lines.

Leaves Kansas City 5:10 p. m., on Columbian Lim.; 7:00 p. m., on Denver and Chicago Lim.; or at 8:30 a. m., on Day-light Express.

Drop in and talk it over with nearest Santa Fe Route ticket agent; or address GEO. T. NICHOLSON, G. F. & T. A., Topeka, Kansas

Valley City, N. D. April 20, 1892.

In reference to the "Chicago Lady quartette" here-to-night, would my audience were completely carried by steam. Yours, etc., F. C. Clark.

### WHEAT PROSPECTS.

A Fair Crop Probable—A Candid Statement of Condition.

From the Cimarron New West.

Much conjecture is made about the probable outcome of the wheat crop in Western Kansas. While we must admit—speaking of prospects in Gray county—that the chances for a full crop are unfavorable, there is little reason to have fears of total failure. Two years ago at this time the conditions were similar to the conditions now. There was little rain before the 23d of May two years ago.

Wheat which sprouted after that date made a good crop; particularly the Turkey or hard wheat, which produces a crop regardless of the freezing of the seed.

Some of the late sown seed yielded twenty bushels to the acre. A similar condition existed last year and the result is familiar to everybody. We have passed through the driest time known in history of Western Kansas for eighteen years past. The months of March and April were practically with out rain, being the driest March and April months known in history of the Weather Bureau; and yet in many respects wheat in Gray county is in better condition than it was two years ago, at this time of the month, and with better prospects of a crop. There is a more favorable condition now than then; not-withstanding the dryness of the season, the ground contains more moisture than in past dry springs; and the wheat is taking good root. Better cultivation has caused the soil to retain the moisture, which has evaporated only from the surface; which is an intelligent argument in favor of deep plowing.

The New West has taken some pains to consult the farmers of Gray County on the condition of the wheat plants. Some of the farmers are not as hopeful as they were before the rains of last week—these rains, while they covered the entire area of Gray County, were not as abundant as some people would wish; and yet a majority of the farmers believe the wheat was greatly benefited by the shower, and that there is a good prospect ahead. We admit taking every thing into consideration, there is not much reason for alarm.

There is very little seed in the ground not sown; and while the plant is not advanced in growth, it is in a healthy condition. It stands light on the ground and has not stooled much; but let us look in comparison to the growth of all vegetation.

The grass, weeds, trees, and other vegetation show a backwardness heretofore unknown in this region of wind and drought and barrenness. Here at the middle of May the grass is very short; hardly a weed or sunflower shows itself, a condition of plant growth which belongs to the latter part of March.

Considering the great extremes of cold and heat and dryness, what else could we expect in vegetables? We could hardly expect to find one plant much above another in growth with conditions bearing upon all alike. The weather has been cold all spring, with extremely warm days alternating, seemingly corresponding with the dryness; and retarding the growth of plants, which may yet prove beneficial.

Harvest seldom occurs earlier than July, and as late as August, and with later rains a good crop may be realized. Wheat plants not far advanced, in our opinion, will probably yield the best if the weather is not too warm after rains when the plants stool. The more advanced wheat is not in such good prospect, for the plant is likely to "joint" before it stools very much.

Harvest was late in 1891; the cutting of rye did not commence until July 16th.

Harvest last year commenced about the first of July. Owing to the long season harvesting is generally a protracted period; and what has had a long time in which to mature.

Wheat prospects in the State are not good, and much speculation is indulged in about the wheat prospects in Western Kansas. The peculiar conditions here, and the surprising results, adds some interesting features to the situation; and we are not surprised to find the much derided coyote country among the probabilities; and its outcome having some bearing in the crop yield and an influence in the market.

While the problem is unsolved, and we know not what a day may bring forth, it is quite plain that wheat prices will be higher than last year; and the Western Kansas farmer who gets a half crop is likely to luxuriate in as much wealth as he did last year.

Since this article was put into type a heavy rain has fallen, and the ground is in excellent condition. The rain removes any doubt about a wheat crop, though it is believed the yield per acre will be as large as last year.

The acreage in wheat is much larger than last year; about 30,000 acres being planted to wheat.

The farmers of Gray county are hopeful of a large grain crop.

It is a truth in medicine that the smallest dose that performs the cure is the best. Dr. Witt's Little Early Risers are the smallest pills, will perform the cure and are the best.
